MESSAGE FROM THE CHANCELLOR

Commitment to Access and Collaboration

Established more than 50 years ago, Brandman University (formerly Chapman University College) is committed to providing quality undergraduate and graduate degrees, certificates, teaching credentials and professional development programs to working adults online and at campuses throughout California and Washington. As we move into our next 50 years, we have a new vision – to be the leader in the evolution of adult education.

To expand our educational opportunities for working students, in 2009 Chapman University announced the renaming of Chapman University College to Brandman University, a separate, fully accredited university, and the first member of the Chapman University System. This transition was born of the desire to offer an increasing diversity of degrees through innovative online and on-campus approaches to a greater number of adult students in California, Washington, the United States and abroad. As Brandman University, we are able to be highly innovative as we expand our services to meet the needs of adult students. As part of Chapman University, we will continue to proudly uphold the heritage of academic excellence synonymous with a Chapman degree since 1861.

Over the past several years, Brandman has also emerged as a leading pioneer in online competency based education with the development of MyPath, an innovative solution to one of the biggest challenges in the American workforce. Through MyPath, Brandman offers accredited bachelor’s degrees through new technology, allowing students to move at their own pace in less time than the normal four years while working completely online via a tablet or laptop device.

I personally invite you to become acquainted with us and experience the vision and core values that drive us - quality academic programs, innovative delivery systems, and personalized student services. You can visit one of our campuses located throughout California and Washington, or online at https://www.brandman.edu/ to see how we can help you expand your intellectual and professional horizons.

Gary Brahm
Chancellor
CONDITIONS OF ACCURACY

The information within is accurate at the time of publication. Students are responsible for informing themselves of and satisfactorily meeting all requirements pertinent to their relationship with the University. Brandman University reserves the right to make changes without notification as circumstances demand with reference to admission, registration, tuition and fees, attendance, curriculum requirements, student conduct, academic standing, candidacy, and graduation.

Non-Discrimination Policy

Brandman University admits qualified students of any race, color, national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the institution. Brandman University does not discriminate on the basis of sex, race, color, national or ethnic origin, or disability in the administration of its educational policies, admissions policies, scholarship and loan programs, athletic and other school-administered programs, and employment. The University recognizes that students with documented disabilities, such as mobility, sensory, health, psychological and learning disorders may need additional resources to enable successful completion of academic coursework. Brandman University will make efforts to provide reasonable accommodations to the extent that they do not compromise the integrity of any degree or certificate, do not fundamentally alter the nature of a program, or are unduly burdensome to the institution.
### Academic Calendar

#### Fall Trimester – August 28, 2017 – December 17, 2017

**Fall Session I – 2017 – August 28, 2017 – October 22, 2017**
- Last day for 100% Tuition and Fees Refund: August 27
- First day of instruction: August 28
- Tuition and Fees Due: August 28
- Last day to add classes: September 3
- Last day for 90% Tuition and Fees Refund: September 3
- Labor Day (Administrative Offices Closed): September 4
- Last day to drop classes without record of enrollment: September 10
- Last day for 80% Tuition and Fees Refund: September 10
- Last day to withdraw from classes without receiving an “FW”: October 8
- Last day for change of grade option: October 8
- Last day of instruction: October 22
- All Grades due: October 27

**Fall Session II – 2017 – October 23, 2017 – December 17, 2017**
- Last day for 100% Tuition and Fees Refund: October 22
- First day of instruction: October 23
- Tuition and Fees Due: October 23
- Last day to add classes: October 29
- Last day for 90% Tuition and Fees Refund: October 29
- Last day to drop classes without record of enrollment: November 5
- Last day for 80% Tuition and Fees Refund: November 5
- Graduate Comprehensive Examination Deadline to Apply: November 17
- Thanksgiving (Administration Offices closed): November 23, 24
- Last day to withdraw from classes without receiving an “FW”: December 3
- Last day for change of grade option: December 3
- Graduate Comprehensive Examinations: December 16
- Last day of instruction: December 17
- All Grades due: December 22
- Winter Break (No classes): December 18, 2017 – January 7, 2018

#### Spring Session II – 2018 – March 5, 2018 – April 29, 2018
- Last day for 100% Tuition and Fees Refund: March 4
- First day of instruction: March 5
- Tuition and Fees Due: March 5
- Last day to add classes: March 11
- Last day for 90% Tuition and Fees Refund: March 11
- Last day to drop classes without record of enrollment: March 18
- Last day for 80% Tuition and Fees Refund: March 18
- Graduate Comprehensive Examination Deadline to Apply: March 30
- Last day to withdraw from classes without receiving an “FW”: April 15
- Last day for change of grade option: April 15
- Graduate Comprehensive Examinations: April 28
- Last day of instruction: April 29
- All Grades due: May 4

#### Summer Trimester – April 30, 2018 – August 19, 2018

**Summer Session I – 2018 – April 30, 2018 – June 24, 2018**
- Last day for 100% Tuition and Fees Refund: April 29
- First day of instruction: April 30
- Tuition and Fees Due: April 30
- Last day to add classes: May 6
- Last day for 90% Tuition and Fees Refund: May 6
- Last day to drop classes without record of enrollment: May 13
- Last day for 80% Tuition and Fees Refund: May 13
- Memorial Day (Administrative Offices closed): May 28
- Last day to withdraw from classes without receiving an “FW”: June 10
- Last day for change of grade option: June 10
- Last day of instruction: June 24
- All Grades due: June 29

**Summer Session II – 2018 – June 25, 2018 – August 19, 2018**
- Last day for 100% Tuition and Fees Refund: June 24
- First day of instruction: June 25
- Tuition and Fees Due: June 25
- Last day to add classes: July 1
- Last day for 90% Tuition and Fees Refund: July 1
- Independence Day (Administrative Offices Closed): July 4
- Last day to drop classes without record of enrollment: July 8
Last day for 80% Tuition and Fees Refund: July 8
Graduate Comprehensive Examination Deadline to Apply: July 20
Last day to withdraw from classes without receiving an “FW”: August 5
Last day for change of grade option: August 5
Graduate Comprehensive Examinations: August 18
Last day of instruction: August 19
All Grades due: August 24

Continuing education and professional development courses offered by the School of Extended Education may not adhere to the dates on the academic calendar above. Dates pertinent to registration and refunds vary by course and may be viewed in more detail at www.brandman.edu/extended-education (http://www.brandman.edu/extended-education).

**Graduate Comprehensive Examination**

 BRANDMAN AT A GLANCE

Brandman University

History
For more than 50 years, Brandman University campuses have served thousands of adult students who are interested in integrating higher education into their already busy lives. The central goal of Brandman University is to help students develop their talents through an education that provides lasting value and relevance to their evolving careers.

Chapman’s first adult program began at Marine Corps Air Station El Toro in 1958 and soon, other branches of the military requested degree programs for all military personnel. Steeped in a rich heritage offering college programs to working adults, in 2009 our name changed from Chapman University College to Brandman University to reflect our evolving mission. The majority of our campuses are now community based, but Brandman still maintains a strong presence on many military bases. A wide range of graduate and undergraduate degree programs, certificates and professional development programs are offered at locations throughout California and Washington, as well as online. All of Brandman’s programs extend the educational objectives and historic purpose of Chapman University by recognizing and enhancing academic opportunities for non-traditional students. The University’s reputation for quality and excellence is reinforced in every community it serves.

Today, Brandman University offers academic schedules with new sessions that start every 8 weeks on a year-round basis. Qualified full-time faculty and adjunct faculty serve student needs in a variety of undergraduate, graduate, credential and professional development programs. Each academic campus maintains a full-time professional staff that provides the personal attention to each student that is the hallmark of Brandman University’s reputation.

Over the past several years, Brandman has also emerged as a leading pioneer in online competency based education with the development of MyPath, an innovative solution to one of the biggest challenges in the American workforce. Through MyPath, Brandman offers accredited bachelor’s degrees through new technology, allowing students to move at their own pace in less time than the normal four years while working completely online via a tablet or laptop device.

Unique to Brandman University is the Brandman iDEAL, Instructional Design for Engaged Adult Learning. This innovative model of instruction blends the best practices of teaching, curriculum design and the latest technologies to give students a competitive edge in today’s technology-driven, networked world. Brandman University is the only university that has redesigned every class at every campus in response to the US Department of Education’s 2009 research on the most effective instructional delivery methods for adult students.

Brandman University’s leadership is solely dedicated to the University’s mission to provide students with a dynamic education based on excellence and flexibility that creates lasting value and relevance for evolving careers. The University is under the direction of the Chancellor of Brandman University, the Executive Vice Chancellor of Academic Affairs/Provost, the Executive Vice Chancellor of Enrollment and Student Affairs, the Executive Vice Chancellor of Finance and Administration/CIO, the Executive Vice Chancellor of Marketing/CMO, the Executive Vice Chancellor of Advancement and Special Projects, the Vice Chancellor of Strategic Initiatives, and the Vice Chancellor of Information Technology/CIO. This structure is designed to best meet the needs of students and the local communities served by Brandman University.

Since 2009, Brandman University stands as a separate,WSCUC-accredited university within the Chapman University System. Our dedicated focus on the adult student allows for innovative education delivery approaches and greater diversity of degrees and credentials offered both online and on campus. As a part of the Chapman University System, students are confident they will experience the same quality of instruction and distinction that has been synonymous with Chapman University since its founding in 1861.

Membership
Brandman University is a member of the WASC Senior College and University Commission (WSCUC) and the Association of American Colleges & Universities (AAC&U). It is also affiliated with the Council for Adult and Experiential Learning (CAEL) and a member of the National Association of Institutions for Military Education Services (NAIMES), Council of College and Military Educators (CCME), the Online Consortium (OLC) and the University Professional and Continuing Education Association (UPCEA).

Mission
The mission of Brandman University is to provide students with a dynamic education based on excellence and flexibility that creates lasting value and relevance for evolving careers.

The faculty of Brandman University:
- Believe in continuous renewal and innovation
- Believe in creating a participative and collaborative culture
- Believe in ongoing academic and professional development
- Value diversity and nurture respect for the contributions of all cultures
- Stand for quality
- Stand for success

Vision
Brandman University will be the recognized leader in the evolution of adult learning.

Purpose
Our purpose is to impart knowledge and skills that help students achieve their dreams.

Values
Innovative: We value new, viable ideas, and rigorously promote them. Respect: For each other, our students, our communities and our environment. Service-oriented: Through instruction and guidance we serve the needs of our students with knowledge and skills, putting others before ourselves. Teamwork: By supporting each other, we can accomplish more than what is possible individually. Integrity: Our personal and professional behavior is guided by honesty, ethics and conscience.

Enrollment
Approximately 12,000 students are enrolled in 26 academic campuses/sites and online throughout California and Washington.
Faculty
80 full-time faculty members, more than 1,000 adjunct instructors, and guest lecturers currently working as professionals in their discipline provide a quality education of distinction to Brandman students at all locations and online.

Accreditation
Brandman University is accredited by the WASC Senior College and University Commission (WSCUC), Accrediting Commission for Senior Colleges and Universities, 985 Atlantic Avenue, Suite 100, Alameda California, 94501; (510) 748-9001. The School of Education at Brandman University is accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs that are offered at campuses listed on the website: https://www.brandman.edu/school-education-overview. The University's teacher training and credential programs are approved by the California Commission on Teacher Credentialing (CTC). Effective November 7, 2011, the School of Nursing and Health Profession's Bachelor of Science in Nursing and Doctorate of Nursing degrees are accredited by the Commission on Collegiate Nursing Education (CCNE), One DuPont Circle, NW, Suite 530, Washington, DC 20036 (202) 887-6791. The BA Social Work program is accredited by the Council on Social Work Education (CSWE).

Chapman University
Institutional Profile
Chapman University is a 150-year-old independent institution of liberal arts and professional education dedicated to providing a solid foundation of knowledge that enables its graduates to become fully educated persons. Chapman is recognized for its liberal arts core, distinguished faculty, innovative programs and personalized attention to students. The University strives to develop in students the ability to think clearly, communicate effectively, explore issues from contrasting points of view, value human and cultural diversity and make informed ethical judgments in an increasingly complex world.

History
Chapman traces its roots to Hesperian College, opened on the day of Abraham Lincoln's inauguration as the sixteenth U. S. President. Hesperian and several other institutions later merged with California Christian College in Los Angeles. In 1934, the institution was renamed in recognition of its most generous benefactor, C. C. Chapman, a successful real estate investor, rancher, and pioneer Orange County church leader. The college moved to the city of Orange in 1954. In September of 1991 the college became Chapman University, further strengthening its commitment to international education and an innovative undergraduate curriculum and graduate programs.
Freedom of Speech, Expression and Dissent

Freedom of speech is an important value within Brandman University’s academic community. Students and student organizations may examine, discuss and debate any topics of interest to them within the framework of academic inquiry (with exceptions of harassing speech, threats of violence, or other perceived violations of the Student Code of Conduct and its appendices). Students may support causes by orderly means which do not disrupt the regular and essential operation of the institution. Without advance written authority from University administration, students and student organizations should not be considered to speak on behalf of the University. The complete text of the Freedom of Speech, Expression and Dissent Policy is available in MyBrandman within the Student Code of Conduct appendices section.

Policy Prohibiting Discrimination and Harassment

Brandman University is committed to providing an educational and work environment free of unlawful discrimination and harassment in any form, including but not limited to verbal, physical, written, electronically recorded, or visual. As described within the Harassment and Discrimination Policy, Brandman prohibits all forms of discrimination and harassment on the basis of age, race, color, religion (including religious dress and grooming practices), sex (including pregnancy, childbirth, breastfeeding, and/or related medical conditions), gender identity, gender expression, national origin, ancestry, physical and/or mental disability, medical condition, military or veteran status, marital status, sexual orientation, genetic information, or any other characteristic protected by local, state or federal law. The University also prohibits discrimination and harassment based on the perception that a person has any of the above protected characteristics, or is associated with a person who has or who is perceived as having any of the above protected characteristics.

This policy applies to all University agents, employees, and students. It also applies to applicants for admission and employment, vendors, independent contractors, instructors, and other third parties doing business with the University. This policy prohibits retaliation of any kind against individuals who oppose perceived discrimination or harassment or who assist in complaints or investigations regarding potential discrimination or harassment.

A Note on Sex and Gender-Based Discrimination and Harassment

Brandman University does not discriminate on the basis of sex in its education programs and activities. The University and Title IX’s prohibition of sex discrimination covers sexual harassment, including sexual violence. Sexual violence refers to physical sexual acts perpetrated against a person’s will or where a person is incapable of giving consent due to the victim’s age, use of drugs and/or alcohol, or intellectual or other disability. Sexual violence includes, but is not limited to, rape, sexual assault, sexual battery, and sexual coercion. The University prohibits sex-based and gender-based discrimination and harassment even if those acts do not involve conduct of a sexual nature.

The complete text of the Sex/Gender-Based Discrimination and Harassment Policy is available at https://www.brandman.edu/title-ix.

Inquiries concerning the application of Title IX and complaints regarding suspected acts of sex or gender-based discrimination or harassment, including sexual violence, may be referred to the University’s Title IX Coordinator at: civilrightscomplaints@brandman.edu.

You also have the right to file a complaint with the Department of Education’s Office for Civil Rights – please visit: https://wdcrrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm for the address and phone number of the office that serves your area, or call 1-800-421-3481.

Brandman University’s Complaint Policy

When students have a question, concern, or complaint regarding their Brandman experience, they should always initially contact their campus director for guidance and possible resolution. However there may be circumstances when students are still uncertain as to University policies and procedures, appropriate channels of communication or alternative options available for resolving disputes. Students may then contact the Office of Student Concerns (OSC) for guidance. The OSC provides informal assistance in providing recommended actions to help resolve conflicts, disputes or providing contact with appropriate resources. The OSC is an advocate for the fair resolution of a problem, not for any particular party, and gives equal attention to the rights for all concerned. To submit a ticket of concern with the OSC, the student can log into MyBrandman (https://my.brandman.edu/Pages/default.aspx) and click on the link for the Office of Student Concerns under the Student Services section.

The Director of Title IX, Student Conduct, and Ombudsman Services/Title IX Coordinator, and the Assistant Director of Student Resources, of the Division of Student Services are the institutional contacts for this process and may be reached at ombuds@brandman.edu.

To complain about a grade, students are asked to contact their academic advisor for assistance with the Grade Challenge Procedure located in MyBrandman. If complaints are regarding Brandman faculty, students are requested to contact their academic advisor, campus director, or academic dean directly.

While we encourage students to first address complaints with the institution, an individual may contact the Bureau for Private Postsecondary Education for review of a complaint. The bureau may be contacted at:

**Mailing Address:**

Bureau for Private Postsecondary Education

P.O. Box 980818

West Sacramento, CA 95798-0818

**Physical Address:**

Bureau for Private Postsecondary Education

2535 Capitol Oaks Drive, Suite 400

Sacramento California, 95833

other cohorts. Business services, including coaching, strategic planning customized to align with needs and objectives of business clients and for business clients and other cohort groups. All programming can be formats at campuses throughout the Brandman system as well as onsite workforces. Courses are delivered face to face, online and in blended formats. Through Extended Education offerings, individuals can obtain lower costs to degree. Extended Education offerings also provide opportunities with a certification or certificate and a degree without increasing time to degree. Through Extended Education offerings, individuals can obtain lower cost academic credit toward Brandman degree programs before or after being admitted to the University. Certificate and Certification programs allow students to prepare for new careers, augment degree programs, or demonstrate mastery over and above degrees already obtained, thereby providing specializations. Many of these certificates, courses and certifications also provide degree seeking students with opportunities to substitute a degree program course in order to graduate with a certification or certificate and a degree without increasing time to degree. Extended Education offerings also provide opportunities to obtain professional development and CEU credits often required to move up salary scales, maintain certifications and transition into new career paths. Businesses, government agencies and nonprofits utilize Extended Education custom solutions to develop and train their workforces. Courses are delivered face to face, online and in blended formats at campuses throughout the Brandman system as well as onsite for business clients and other cohort groups. All programming can be customized to align with needs and objectives of business clients and other cohorts. Business services, including coaching, strategic planning facilitation, assessments, and more are also available. Education plans are prepared to assist students in utilizing Extended Education programming in order to align with career and personal goals.

MyBrandman

“MyBrandman” is the student and staff online portal with both mobile friendly and full website access. MyBrandman is designed to provide easy 24/7 access to the essential student resources, including academic advising, disability services, career services, student conduct information, academic policies and procedures, financial resources, technological resources, our active duty military/veteran community and much more. Quick links provides access to many of the key online systems used throughout an academic career such as the virtual library, Blackboard and Self Service for registration, grade and transcript information, and access to degree audit plans. Future students are provided access to MyBrandman at the time they submit an official application to Brandman University or enroll as non-degree students. The MyBrandman Competency-Based Education (CBE) page provides resources specifically for the CBE student, including information about enrollment and registration, learning outcomes, as well as additional information.

Confidentiality of Student Records

Brandman University is committed to the protection and confidentiality of student educational records, adhering closely to the guidelines established by the Family Educational Rights and Privacy Act — a federal legislation established to regulate access and maintenance of student educational records.

The Family Educational Rights and Privacy Act (FERPA) affords student certain rights with respect to their education records, including the right to inspect their education records, request an amendment of the records that the student believes are inaccurate, and the right to control disclosures of their records except to the extent that FERPA authorizes disclosure without consent. (It is important to note that all rights to access move to the student when that student is in a post-secondary education institution; parents, spouses, and significant others have no inherent right to access to student educational records.)

Educational records for the most part include, with certain exceptions, all records maintained in any medium, which can identify the student. Access to the Notification, student release forms, and directory hold request are available in MyBrandman.

Office of Student Concerns (OSC)

When students have a question, concern, or complaint regarding their Brandman experience, they should always initially contact their campus director for guidance and possible resolution. However, there may be circumstances when students are still uncertain as to University policies and procedures, appropriate channels of communication or alternative options available for resolving disputes. In those circumstances, students may then contact the OSC for guidance. The OSC provides informal assistance by providing recommended actions to help resolve conflicts and disputes, and/or putting students in contact with appropriate resources. The OSC is an advocate for the fair resolution of a problem, not for any particular party, and gives equal attention to the rights of all concerned. To submit a ticket of concern with the OSC, students may log in to MyBrandman and click on the link for the “Office of Student Concerns (https://my.brandman.edu/student/OSC/Pages/default.aspx)” under the “Student” tab.
Library Resources and Services

The Leatherby Libraries' homepage (www.chapman.edu/library (http://www.chapman.edu/library)) is the starting point for accessing more than 334,000 books, over 16,000 e-books, 274 online databases, and 68,000 full-text journals, which are available 24/7. Students, faculty, and staff may borrow books and media from the library's extensive physical collections. Items are sent directly to the borrower's home via an efficient document delivery and interlibrary loan service through the Annenberg Satellite Education Information Center. Library instruction is available throughout the academic year, ensuring that students are connected to the information resources they need to succeed in their courses. Faculty may request library instruction sessions for their blended and online courses. Students may request Individual Research Consultations (IRC) for one-on-one research assistance. Contact the Coordinator of Brandman University Library Services for research assistance, to request a library instruction session, or to schedule an IRC at (800) 344-5756 Ext. 2 or bulib@chapman.edu. For weekend assistance, contact the Leatherby Libraries Reference Desk at libweb@chapman.edu / (714) 532-7714 or (800) 344-5756 Ext. 3. A basic guide for navigating the library is available at: http://chapman.libguides.com/brandman.

The Office of Accessible Education and Counseling Services

The Office of Accessible Education and Counseling Services at Brandman University is committed to ensuring equal educational access and opportunity for all members of our academic community. The Office strives to maximize each student's educational potential by helping to develop self-advocacy, responsibility, and independence, and to promote personal growth. Students will be provided timely, efficient, and equitable accommodations and services that are in compliance with Section 504 of the Federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA)/Americans with Disabilities Act Amendments Act of 2008 (ADAA). The Office works individually with each student to develop an effective and comprehensive accommodation plan. The Office also provides comprehensive counseling services to students regarding their academic concerns and assists students in accessing internal and external resources to address their needs.

In addition to providing direct service to our students, the Office of Accessible Education and Counseling Services also acts as a liaison between students, administrators, faculty, and other staff members to ensure the facilitation of accommodation plans that are reasonable and appropriate. Brandman University strictly prohibits any form of discrimination on the basis of an individual's disability. By providing full access to qualified students with disabilities, Brandman University demonstrates its belief that the university community will greatly benefit from the skills and talents of these individuals.

If you are a Brandman University student with a documented disability, inquire about the Office of Accessible Education and Counseling Services with your Academic Advisor. If you are interested in accommodations and services, access https://www.brandman.edu/accessible-education.

All documents will be kept confidential in the Office of Disability Services in compliance with the Family Educational Rights and Privacy Act (FERPA) and the professional and ethical standards of the Association on Higher Education and Disability (AHEAD).

Military and Veterans Services

Military Partnerships

Brandman University has military partnerships with the Air Force, Navy, Army, Marines, US Department of Education and Department of Defense to meet the needs of military. Additional information is available on the Brandman University web site.

Air Force – AU-ABC

The Air University Associate-to-Baccalaureate Cooperative Program (AU-ABC) is an initiative between Air University and Brandman University to offer baccalaureate degree opportunities to enlisted Air Force personnel with a completed Associate degree from the Community College of the Air Force (CCAF).

Air Force – GEM

The General Education Mobile (GEM) program is a partnership between the Community College of the Air Force (CCAF) and Brandman University to deliver general education coursework required for the CCAF degree. The program includes online courses from each of the following disciplines: oral communication, written communication, mathematics, social sciences, and humanities that meet the CCAF’s pre-approved general education requirements.

Navy – NCPDLP

The Navy College Program Distance Learning Partnership (NCPDLP) was developed by the Navy to support Sailors’ mobile lifestyles. The program provides Sailors an opportunity to earn associate and bachelor degrees based on their military occupation and educational goals. Brandman currently offers ACE recommended credit for military training and experience toward NCPDLP approved degrees in Legal Studies, Social Science, and Sociology. All courses are available online.

SOC

The Servicemembers Opportunity Colleges (SOC) was established in 1972 and functions in cooperation with the Department of Defense (DoD), the Military Services including the National Guard and the Coast Guard, to help meet the voluntary higher education needs of active and reservist Servicemembers and their families. Members of each participating Service will have access to all SOC Degree Network System (DNS) programs (Army, Navy Marine Corps, and Coast Guard). By participating in a SOC DNS program, Servicemembers and their families benefit by obtaining a SOC student agreement contract. A SOC student agreement contract provides a student the flexibility to complete degree requirements by transferring courses from SOC network colleges back to Brandman University once they have met the residency requirements.

A SOC agreement with Brandman University is issued to Active Duty Service Members and their families, Reserve Service Members and their families and Coast Guard civilian employees, who has completed a minimum of 6 semester hours at Brandman and is admitted into a SOC 4-year degree program. A student with a SOC Agreement has a 7-year time limit from when he/she is officially admitted to complete a degree in a SOC 4-year program. A degree will not be issued to a Brandman SOC student who returns for an academic program no longer conferred by the University (i.e. Bachelor of Science in Electronics). Students who qualify for a SOC agreement may contact their Brandman campus to obtain a copy of their SOC Student Agreement.
Troops To Teachers
Brandman University is an active partner with Troops to Teachers, a U.S. Department of Education and Department of Defense program that helps eligible military personnel transition to a career as a public school teacher. The skills, knowledge, and experience one gains in the military are highly valued in our public schools.

MyCAA
The Military Spouse Career Advancement Account (MyCAA) provides tuition assistance to military spouses of active duty Army, Navy, Air Force, or Marine service members, or activated Reservists in pay grades E1-E5, W1-W2, or O1-O2. MyCAA accounts are limited to the $4,000 benefit with a $2,000 fiscal year cap. Funding is subject to eligibility criteria, and program revisions and other limitations may apply. Active duty spouses receive a reduced tuition rate for associates, bachelors and graduate degree programs at Brandman.

Veterans and Active Duty Service Members

Previous Education and Training
a. Brandman maintains a written record of previous education and training.
b. Transcripts of college-level education are part of the record.
c. The records clearly indicate that appropriate credit has been granted with training periods proportionately shortened and the VA so notified.
d. Brandman University maintains an official record of previous education and training of the veteran and active duty military student, or eligible person which clearly indicates that appropriate credit has been given by the institution for previous education and training, with the length of the degree program shortened proportionately. The veteran, the active duty military student, as well as The Department of Veterans Affairs and the respective military branch of the armed forces will be notified of this official evaluation of prior education or training.

Standards for Maintaining Adequate Records and Policies for Satisfactory Progress
a. Brandman maintains adequate records to show the progress of each veteran and active duty military student.
b. Records show continued pursuit at the rate for which enrolled and progress being made.
c. Records include final grades in each subject for each session.
d. Cumulative permanent records are maintained to reflect grades in all subjects undertaken.
e. Students are not permitted to enroll repeatedly in courses not attended or withdrawn from, without penalty. A veteran or an active duty military student may repeat a course in which a passing grade has been achieved only when a higher grade is required by the major.
f. The school records will reflect the point in time when educational benefits should be discontinued for unsatisfactory progress, unsatisfactory conduct, and withdrawals. See Academic Probation and Dismissal policy for more detail information.

Academic Probation and Dismissal
a. The policy includes the grade point average (2.0 on a 4.0 scale) required for graduation for baccalaureate programs and a 3.0 or higher for graduate programs.
b. A minimum grade point average (2.0 on a 4.0 scale) must be maintained to achieve credit for a given proportion of the course load. Academic probation and means for dismissal are clearly delineated. VA interpretation of academic probation requires that a veteran student be placed on probation at the beginning of the session immediately following that in which the veteran student fails to maintain the minimum grade point average. Veteran and active duty military students must meet the required academic standard during the probationary session or be subject to interruption of benefits and/or academic dismissal. The VA is notified when a veteran student is determined to be making unsatisfactory progress resulting in interruption of benefits and/or academic dismissal.
c. No veteran or active duty military student will be considered to have made satisfactory progress when the student ceases to make satisfactory progress toward completion of his or her training objective, receives no credit, or withdraws from all courses undertaken, except when there are extenuating circumstances.

Conduct and Attendance
a. Brandman enforces a policy relative to standards of conduct and progress as defined in the academic policies and procedures in this catalog.
b. Class attendance policies are determined by each instructor and shall be included on the course syllabi distributed during the first week of each class. The university recommends as a minimal policy that students who are absent 20% of the course should be failed.

Requesting your Military and Veteran Benefits
a. Students who wish to use their Tuition Assistance or VA Education benefits are required to fill out the “Request to Use Military/VA Benefits Form” on MyBrandman Self Service, in order for their respective enrollment to be certified.
b. The student’s Brandman primary campus will collect required documents needed for VA benefit certification and validation of military status. Students may be asked for additional and/or updated information at the request of the Military and Veterans Services Department.

Interrupted Enrollment
Active Duty Military students who left the University in order to perform military services will be readmitted with the same academic status that he/she had when last in attendance at Brandman University. The length of absence from Brandman University cannot exceed five years. The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies. If students take coursework during their absence from the University, they must provide official transcripts of that coursework to the Division of Student Services prior to their return. Non-Satisfactory performance or issues of academic integrity may nullify the student’s eligibility to return.
FINANCIAL AID AND EXPENSES

The Financial Aid Office is responsible for awarding financial aid to all students attending classes at Brandman University. Information and application materials are available at every Brandman University campus. Counselors at each campus have been expressly trained and work closely with the Financial Aid Office to ensure that all Brandman University students are well served. All students who need financial assistance are encouraged to apply.

Application Procedure

To submit an application, students need only complete the FAFSA (Free Application for Federal Student Aid) and submit it to the federal processor. Californians who are undergraduates also are urged to complete the Cal Grant GPA Verification Form by March 2, 2018 for the 2018-19 academic year.

When completing the FAFSA, please indicate “Brandman University” in the section of the FAFSA that asks you about the schools to which you would like to apply. The Brandman University Office of Postsecondary Education identification number (OPE ID) is 041618.

The preferential filing date for mailing financial aid applications is March 2 of each year preceding the academic year that you will be attending. For the 2017-2018 academic year, the preferential filing date is March 2, 2017, for the 2018-2019 academic year, the date is March 2, 2018. Every effort will be made to assist those who apply after the preferential filing date; however, disbursement of assistance may be delayed, and funds may be exhausted in some grant programs.

The federal government may require additional documentation from financial aid applicants, such as copies of IRS income tax transcripts. The government and the Financial Aid Office will notify students who need to provide additional documents.

Students must be admitted to a Brandman University degree program or teaching credential program in order to receive financial aid. Financial assistance is unavailable for enrollment in certificate programs unless the certificate is embedded with the degree program to which the student has been admitted.

Federal Student Aid

State of California Student Aid

The State of California provides Cal Grants to financially and academically eligible undergraduates and to teaching credential students who received Cal Grants as undergraduates.
# TUITION AND FEES

Brandman University reserves the right to change any of the following tuition and fee rates at any time without notice.

1. If returned unused/unopened prior to the first day of classes. No refund on or after the 1st day of the session.
2. If course is dropped prior to the first day of the session. No refund on or after the 1st day of the session.
3. See CBE Tuition Refund Policy.
4. See CBE section of the Academic Catalog for more detail.

Tuition Refund Policy – Adds, Drops or Withdrawals

• To add or drop a class, please see the appropriate “Academic Policies and Procedures” sections of this catalog.
• To officially add or drop a class, students must do so either through MyBrandman Self Service or submit an Add/Drop Form to their respective campus One Stop staff.
• Failure to attend class or merely giving notice to an instructor will not be regarded as official notice of add/drop or withdrawal.
• The date of withdrawal for purposes of tuition and/or refundable fees refunds shall be the date on which the class was officially dropped through MyBrandman Self Service or at the campus.
• Dropping below full-time or part-time status may affect any financial aid that has been awarded and/or disbursed. Students who receive federal financial aid are subject to a pro-rated return of federal funds and will be required to return funds to the University that were previously disbursed based on a higher unit load. Please contact your Campus One Stop staff for further information.
• Completely withdrawing from the University or dropping classes after the published tuition and/or refundable fees refund deadline does not absolve students’ financial obligations to the University.
• Any tuition and unit-based fees credits resulting from drops will be applied to the current balance, if applicable.

Tuition and Fees Refund Policy for credit hour programs other than CBE - please see Academic Calendar section for specific trimester dates:

</tbody>
</table>

There are no exceptions to this policy.

CBE Tuition and Fee Refund Policy
A full tuition refund will be given prior to starting competencies, but no refunds will be given once the student begins.

Important Note
It is every student’s responsibility to review their student account every term to ensure that it is correct and that all applicable credits (Grants, Loans, Scholarships, Adjustments) have been applied to their account.

Interest Charge
Interest is calculated at 10.75 percent per annum commencing on the applicable due date and continuing through the payment date based on the student account balance at each month end. Tuition is due on the start date of each 8 week term, as listed in the catalog. Students have additional 30 day grace period to pay the balance in full without penalty. If the balance remains unpaid after the grace period, interest accrues from the term start date. It is a fixed, simple interest rate. Brandman University reserves the right to change interest rate at any time without notice.
ADMISSION

Undergraduate Admission

Students may enroll either as a “degree seeking student” in a particular academic program (including undecided) or as a “non-degree seeking student”. Prospective students should consult the staff of the Brandman campus they wish to attend for specific information regarding enrollment forms and formal application procedures.

Degree Seeking Student Applicants

Students wishing to obtain a degree or certificate are required to make formal application and may apply for admission into a degree program at any time. It is important to note that “degree seeking students” must meet the degree requirements published in the catalog current at the time of their formal admission acceptance. Admission status is valid for one year from date of admission.

Students must have completed 12 or more transferable baccalaureate level credits or the equivalent for admission to Brandman University. The 12 credits may consist of all or any combination of the following credit types: Brandman University coursework, transfer work, dual credit, Advanced Placement, International Baccalaureate, approved PLA (Prior Learning Assessment), CLEP (College Level Examination Program), and DANTES Subject Standardized Test (DSST) scores. For students pursuing the Associate of Arts degree, please see alternative admissions option in the Associate of Arts General Education catalog section under Arts and Sciences.

Prospective students must submit the following:

1. Completed application package. Applications are available online.
2. Official transcripts from ALL colleges and universities attended. Only credits from regionally accredited institutions may be accepted in transfer. Failure to report any previous academic work at another college or university may be considered a violation of academic integrity. Non-satisfactory performance, including but not limited to probation, suspension, or expulsion, as well as issues of academic integrity may nullify the applicant’s eligibility to be admitted.
3. For those applying under an active military agreement with Brandman University, admissibility and minimum transfer credit awarded will be determined based on the Community College of the Air Force, SMART, AARTS or JST transcripts. If additional coursework from other institutions is submitted prior to admission this coursework will also be included in determining admissibility and transferability for course credit. After admission, any additional coursework previously taken must be submitted to the Division of Student Services within the first trimester after admission to be evaluated for transfer credit. If the additional coursework credit was included in the initial minimum transfer credit awarded, while such coursework may meet specific degree requirements, no duplication of credit will be awarded. For those applying under the AU-ABC agreement, transcripts from the Community College of the Air Force will be used to determine eligibility.

A minimum 2.0 cumulative GPA in all prior college-level coursework is required for formal admission into an undergraduate degree or certificate program. The grade point average that determines admission is based solely on work at regionally accredited post-secondary institutions. Official documents submitted for admission consideration become property of the University and cannot be returned or copied for distribution.

Academic Fresh Start

Academic Fresh Start is provided for undergraduate students who believe that their historical academic performance is not reflective of their current demonstrated ability to be successful. Undergraduate students applying for admission to Brandman University through Academic Fresh Start may elect to have all academic coursework, completed at any institution of higher education 10 or more years prior to the time of application, ignored for admission purposes. Once admitted under academic fresh start, the student may not receive course credit for any courses taken 10 or more years prior to admission to Brandman University. Ignored coursework cannot be used to satisfy prerequisite or degree requirements at Brandman University. Students seeking post baccalaureate admissions are not eligible for Academic Fresh Start.

Students applying for Academic Fresh Start must submit official transcripts from all colleges attended, including transcripts which include course work completed ten or more years ago. The Academic Fresh Start Acknowledgement Form must also be completed. Students choosing Academic Fresh Start must meet current admission requirements for course work taken within the past ten years. A minimum of 2.0 cumulative GPA in college-level coursework taken less than 10 years at time of application is required for formal admission into an undergraduate degree program.

Students admitted or readmitted under Academic Fresh Start may elect to use the provisions of this program only once at Brandman University and only at the point of admission or readmission to Brandman University. Academic Fresh Start status and policies are not petitionable and cannot be appealed. The decision is final and binding.

There may be implications for financial aid and veterans benefits for students admitted under Academic Fresh Start. Students should contact these offices for more information.

Non-Degree Seeking Student Enrollees

Students wishing to take credit courses for personal enrichment, job improvement or prior to admission to a degree program may enroll and register as “non-degree seeking students”, via Flex Reg in MyBrandman Self Service. Non-degree seeking students must meet all the prerequisites published in the catalog for enrollment in the individual courses. High school completion (diploma) or its equivalent is required for enrollment in individual courses. Bachelor degree completion is required for enrollment in any graduate level/credential course.

There is no limit on the number of credits that may be taken by a “non-degree seeking student”. However, there is also no guarantee that such courses taken as a “non-degree seeking student” will be accepted toward meeting degree program requirements if the student formally applies for “degree seeking student” status at a later date. That student will then need to meet the degree requirements in the catalog current at the time of his or her formal admission acceptance into the degree program. Admission status is valid for one year from date of admission. If formally admitted to a degree program, an official evaluation will be completed to determine which program requirements have been met.

A “non-degree seeking student” is ineligible to receive most types of financial aid.
Graduate Admission

While requirements vary in each of Brandman University’s graduate programs, this section provides information concerning university-wide admission standards as well as general admission policies and procedures. For specific program admission requirements, please refer to the appropriate program section.

Applicants seeking admission to graduate programs must submit to the Office of Admissions the following:

1. Completed application package listing all institutions attended. Applications are available online. Failure to report any previous academic work at another college or university may be considered a violation of academic integrity.
2. Official transcripts from the regionally accredited Baccalaureate degree granting institution.
3. Transcripts from all regionally accredited institutions where post-baccalaureate coursework was completed or attempted.
4. Transcripts may be requested from all institutions attended upon request for specific degree programs.
5. Non-satisfactory performance, including but not limited to probation, suspension, or expulsion, as well as issues of academic integrity may nullify the applicant’s eligibility to be admitted.
6. Any additional evidence of eligibility required by the graduate program.

Official documents (including Option 4 portfolios) submitted for admission consideration become property of the University and cannot be returned or copied for distribution.

Requirements for Admission

Brandman University is a member of The Council for Adult and Experiential Learning (CAEL) which has published a fundamental standard regarding admission processes focusing on the Adult Learner: “The institution uses an inclusive, non-competitive admissions process to determine the best educational match for the adult learner.” The prospective graduate student in Brandman University must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission options. All graduate admissions options listed below require an earned baccalaureate degree from a regionally accredited institution. Specific program admission requirements must also be met.

Option One
A 3.0 grade point average (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

Option Two
A GPA between 2.5 and 2.99 (MAE/MAT requires 2.75-2.99) calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. In addition, a satisfactory score on an accepted graduate admissions exam such as the Graduate Record Exam (GRE), the Graduate Management Test (GMAT), The California Subject Examinations for Teachers (CSET) or the Miller Analogies Test (MAT). Consult program for acceptable admissions tests and scores.

Option Three
An earned master’s degree or higher from a regionally accredited institution.

Option Four
Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the discipline requested. If the portfolio meets substantive approval of the committee, the applicant may be invited for an interview. The decision of the School Graduate Admissions Committee will be final.

Conditional Admission

This admission status is available for applicants whose final completion of the baccalaureate degree or masters degree is pending at the time of application or their degree has been completed but not yet conferred. Applicants who have already completed 12 credits or more in a Brandman credential, graduate or doctoral program are not eligible for conditional admission.

Specific Requirements for Conditional Admission are:

1. Have fulfilled all Brandman University graduate admission requirements and all specific program requirements for regular admission.
2. Certification by the degree-granting institution that the baccalaureate or masters degree can be completed at the conclusion of the trimester or session specified by the applicant.
3. The degree posting date must be prior to the beginning of the trimester or session for which the applicant has applied.
4. No more than twelve credits of graduate or doctoral coursework may be completed as a conditionally admitted student.

A final graduate classification is determined upon completion of the baccalaureate or masters degree based on graduate admission policies.

Students who complete coursework but who do not complete the admission application process (or are denied and later achieve admission) will be permitted to use only 12 credits of completed coursework toward a degree program.

Applicants who can provide documentation from the degree granting institution verifying that the degree has been completed will be eligible for financial aid.

Non-degree Seeking Post Baccalaureate Students

Students who have not been granted regular admission status may be permitted to enroll and register as non-degree seeking post baccalaureate students via Flex Reg in MyBrandman Self Service. Non-degree seeking students must meet all of the prerequisites published in the catalog for enrollment in individual courses. Bachelor degree completion is required for enrollment in any graduate/credential level course.

See specific program for details. However, no more than 12 credits of graduate coursework taken prior to achieving regular admission status may be applied toward a graduate degree at Brandman University.
ACADEMIC POLICIES AND PROCEDURES

• Undergraduate Credit-Hour Based Academic Policies and Procedures (p. 19)
• Undergraduate Competency-Based Academic Policies and Procedures (p. 28)
• Graduate Credit-Hour Academic Policies and Procedures (p. 33)
• Undergraduate Credit Hour Degree Requirements (p. 42)
• Undergraduate Competency-Based Degree Requirements (p. 42)

Undergraduate Credit-Hour Based Academic Policies and Procedures

Catalog

The catalog assigned to newly admitted students is determined by the date of formal admission. Admission status is valid for one year from date of admission. Students must meet the degree requirements of the catalog under which they are admitted or may select a later catalog for a year in which they are enrolled. However, for all other policies (except degree requirements), students must adhere to the current catalog for each year they are enrolled. Statements in the catalog are for informational purposes and should not be considered as the basis of a contract between students and the University. Information regarding any changes in degree programs, graduation requirements, or academic policies will be made available by the Campus OneStop Services and the appropriate academic Schools.

Students admitted to any of the programs in the School of Nursing and Health Professions will be admitted to the Catalog based on the program start date and not the admission date (See School of Nursing and Health Professions section in the catalog).

Statement of Responsibility

Brandman University publishes its academic policies, programs and required courses for graduation. The student is responsible for his/her program including meeting the published requirements and deadlines. The University assists the student in making appropriate decisions by providing academic advising. However, the decisions made in the advising process are those of the student.

Alternative Pathways to Undergraduate Admission

BrandmanTrack- A 12 credit opportunity

BrandmanTrack provides prospective Brandman undergraduate degree seeking students with an opportunity to obtain 12 credits to meet an admission requirement for Brandman or other institutions. In order to be admitted to a degree program, student must meet all applicable degree program admission requirements. This program is provided in multiple modalities in order to provide alignment with the student’s intended degree program choices.

Following is the description and requirements for our traditional online or blended approach. Our traditional course-based program is perfect for students who:

• Operate better in an environment where deadlines are given to you and the weekly workload is more predictable
• Prefer to learn in a classroom environment with weekly assignments and set due dates
• Enjoy direct weekly interactions with classmates
• Want the pacing of Brandman defined start and end dates for each 8 week course
• Have an interest in one or more of the traditional online or blended Brandman undergraduate degree program disciplines

Students in this program are not eligible for financial aid. Registration into the program is granted to individuals who have a high school diploma or equivalent.

Transfer Credit Policies

General Transfer Credit Policy

Brandman University accepts all university level credit earned from regionally accredited colleges and universities, excluding non-degree/remedial coursework articulated to be in the 001-099 range (See Course Numbering System). Credit will not be granted for coursework which duplicates previous work.

Transfer and Cumulative GPA Calculation

• All transferable baccalaureate credit attempted is calculated into the transfer and cumulative GPAs.
• When a course is repeated in transfer from one or more transfer institutions the credit and grade for the course with the higher grade is counted in the transfer and cumulative GPAs.
• When a course is repeated at Brandman and a transfer institution, only credit for one course will apply and the highest grade is calculated into the cumulative GPA.

GE Block Transfer

Completion of the full CSU or UC IGETC certification (CA), Washington and Oregon state-approved Direct Transfer degrees or other state’s equivalent transfer certification prior to the student being admitted or enrolled and attending his/her first session in a bachelor degree program at Brandman satisfies all Brandman University GE requirements except LBSU 302 Information Fluency and Academic Integrity, LBSU 304 Liberal Arts Core Foundations and University Degree Qualifications. The University Degree Qualifications may be completed through residential coursework taken in the major or through residential electives.

Other Credit Opportunities

Brandman University recognizes that adult learners are diverse and that they bring a wealth of life experiences to the classroom. These reservoirs of experience often include many hours of formal training and education outside the walls of academic institutions. In acknowledgement of such non-classroom acquired learning, Brandman promotes educational flexibility for the adult learner through a variety of earned credit opportunities. Granting of credit is contingent on student’s submission
of official documentation to Student Services. Students are encouraged to consult with an academic advisor concerning the degree applicability. Note that credit granted through "other credit opportunities" does not count toward Brandman University residency requirements. Specific degrees may also have additional requirements with respect to courses that must be taken at Brandman University in order to complete a Brandman degree.

**College Level Examination programs**
Credit by the college level examinations noted below will not be awarded when a student has previously been awarded credit for the equivalent course. Credits earned may be counted towards fulfilling general education, major or elective requirements. Credits are generally lower division unless specifically equivalent to an upper division Brandman course.

- **Advanced Placement (AP) Examinations**: Credit is awarded for scores of 3, 4, or 5 on Advanced Placement Examinations. For a current list of approved exams, minimum scores and credits granted, please refer to the Brandman website.
- **College Level Examination Program (CLEP) and DANTES Subject Standardized Tests (DSST)**: Brandman accepts ACE minimum requirements on selected CLEP and DSST General Examinations and Subject Examinations. A current listing of acceptable exams and the credit awarded may be found on MyBrandman and the Brandman website. Any exam submitted for credit must meet the minimum score requirements regardless of student’s catalog year and when the exam was taken.
- **International Baccalaureate (IB) Examinations**: Credit is awarded for IB exams. For a current list of approved exams, minimum scores and credits granted, please refer to the Brandman website.
- **Defense Language Proficiency Examinations (DLAT/DLPT)**: Brandman accepts ACE guidelines on DLAT/DLPT with a cap of lower division credit at 12 credits and upper division at 6 credits for a total of 18 maximum credits.
- **Subject matter specific exams**: Credit by exam will be accepted for credit as transcribed by the exam provider if the exam was provided by a regionally accredited institution.

**Brandman University Credit by Exam**
Students may receive credit for selected courses in the current Brandman University catalog by satisfactorily completing the end of course assessment.

**Military Credit**
Brandman evaluates credit for both military service and military coursework for academic credit using ACE guidelines. Military students are awarded 6 credits for military service. Based on ACE recommendations, additional credits may be awarded. Brandman will accept these credits which can articulate to a discipline, major, or emphasis area depending upon the ACE recommendation as to number of credits, discipline, and level.

**Prior Learning Assessment by Portfolio**
Evaluation of prior learning assessment by portfolio is a process based on the learning students have gained through life and/or work experiences. Successful portfolio development is predicated on rigorous self-assessment of prior learning using David Kolb’s Model of Experiential Learning, and a demonstration of strong narrative and expository writing skills. To be eligible to submit a portfolio for evaluation, the student must have successfully completed ENGU 103 or its equivalent. The course for which the student seeks credit with a portfolio must appear in the current year’s catalog, and a separate portfolio is required for each 3 credit hours attempted. Each portfolio is evaluated by a subject matter specialist who determines whether the learning demonstrated in the portfolio meets the learning objectives of the identified course.

If the portfolio meets the standards established for the course, credit is awarded. These credit hours are acceptable for completion of a baccalaureate degree at Brandman University. Acceptance of such credits for transfer to other institutions is solely at the discretion of that institution. Students interested in portfolio assessment should consult the Prior Learning Assessment Portfolio Instructions document and their advisor before beginning work on a portfolio. Separate fees apply for each portfolio submitted.

**Prior Learning Assessment by Portfolio Regulations**
1. Credit by portfolio is only available for credit based courses listed in the Brandman University catalog.
2. When credit through portfolio is awarded, a grade of pass “P” is recorded. It is not included when computing the student’s grade point average.
3. Portfolios that successfully meet the established standards will have an appropriate course title, course number, credit hours, and “Credit for Prior Learning” recorded on the transcript.
4. Students must be matriculated in a bachelor degree program at Brandman University to submit portfolios.
5. Enrolled students may submit a specific portfolio only once. If they do not receive a passing score, they will be required to complete the necessary coursework if they wish to receive credit.
6. Credit by portfolio assessment will not be awarded when a student has previously been awarded credit for the equivalent course.
7. Brandman University courses not eligible for portfolio assessment include, but may not be limited to: Capstone/senior thesis courses; Independent Study Courses; Internship Courses; and courses used to fulfill degree requirements within the major for the BA in Social Work program.
8. A maximum of 30 credit hours may be awarded through Prior Learning Assessment by Portfolio.
9. Credit for Portfolio is limited to undergraduate credit only.
10. Credit granted through Prior Learning Assessment by Portfolio, does not count toward Brandman University residency requirements.
11. Students may petition the evaluation results using the grade appeal process in the current University catalog.

**ACE evaluated trainings**
Brandman University accepts ACE recommendations for awarding academic credit. The recommendation is inclusive of level and discipline, subject to residency requirements and other limitations as set forth in specific degree programs. The student can request an evaluation for course equivalency.

**Workforce Development trainings**
Brandman University evaluates workforce development trainings and may award credit toward specified degree programs and/or general elective credit. Refer to the Brandman website for a complete list of these trainings. Representative trainings include Peace Officer Standards and Training for a Basic POST certificate, Washington State
Fire Training Academy specified basic trainings, and specified SHRM certifications.

Additional credit opportunities
Some industry certifications are approved for course substitutions or equivalencies. For current information on these industry recognized certifications, refer to the Brandman University website. Credit obtained as a result of these certifications does not count toward Brandman University residency requirements. Specific degrees may also have additional requirements with respect to courses that must be taken at Brandman to complete a Brandman degree.

Full- and Half-Time Students
Students enrolled in 12 or more credits in a trimester are considered “full-time”. Students enrolled in 6-11.5 credits in a trimester are considered “half-time”. Brandman University strongly advises that students taking more than 6 credits in any one session consult with their academic advisor/faculty.

Undergraduate Class Level
Brandman students are classified according to the number of academic semester credits they have completed. Students who have completed 29.9 credits or fewer are considered freshmen; 30 to 59.9 credits, sophomores; 60 to 89.9 credits, juniors; and 90 credits and above, seniors.

Course Numbering System
(For course numbering systems in previous years, please refer to the catalog in effect at that time)

Note: A designation of “X” on the course prefix has no bearing on course level or degree applicability.

Change of Address
Students must notify the University of any change of address. This can be done via MyBrandman Self Service or through the local campus.

Inter-Brandman University Campus Transfer
Students wishing to transfer from one Brandman University campus to another should go to the MyBrandman portal to access the form to submit the Campus Transfer Request to the new campus. Note: Not all academic programs are available at all campuses.

Attendance Policy
Requirements for students’ attendance and participation will be defined by each instructor based on the following policy:

- Monday of the first week is considered the first day of class for online and blended instruction. This includes instruction for fully online classes and online instruction supporting blended classes.
- Regular onsite attendance is expected for student success. If a student misses more than one onsite class or one week of engagement in an online class, the student may, at the discretion of the instructor, fail the course. Students are expected to attend all classes, particularly the first night of class.
- Students should consider withdrawing from a course if they will be absent more than once. Instructors may, but are not obligated to, accommodate students under extraordinary circumstances, but the student must request accommodation and provide requested supporting documentation. Students enrolled in blended courses must attend at least one class during the first two weeks of classes.
- If a student misses a portion (e.g., arriving late or leaving early) of an onsite course, the student’s grade may be adversely affected. Students who are not in attendance for at least 75 percent of any scheduled class may be considered absent for that class. Students should discuss missing portions of a class with their instructor to determine how their grade may be affected.
- Regular online attendance/participation and engagement is expected for student success in both fully online and blended courses. Online participation is evident through posting to a discussion board, blog, completing assignments including journal entries, or taking quizzes and exams.
- Schools and programs may have different attendance policies. Refer to school and program specific information for additional attendance policies.

Registering for Classes
Students register for each session via MyBrandman Self Service or at their campus location. Registration is not complete until all charges are paid or arrangements for payment have been made with the Student Business Services staff by the add/drop deadline. See academic calendar for registration deadlines. Students are expected to have met all prerequisite requirements for courses in which they register.

Add/Drop Policy (refer to tuition and unit based fees policy for additional information)
To add a class, a student must do so through MyBrandman Self Service by the end of the first week of the session. Registration ends at the end of the first week.

To drop a class without having the course noted on the transcript, a student must do so through MyBrandman Self Service by the end of the second week of the session. Drops that are officially processed prior to or by the end of the second week will not appear on the student’s transcripts. After the second week of the session, students who wish to withdraw from a course must do so by the end of the sixth week, either via MyBrandman Self Service, by telephone or in person at their campus. A grade of “W” will appear on the student’s transcripts indicating the withdrawal. Students must officially withdraw before the end of the sixth week of classes in order to avoid being responsible for a grade in their classes. It is the student’s responsibility to officially withdraw from a course and verify that he/she has been dropped. Students cannot drop a course beyond the sixth week of the session. Failure to attend a course does not constitute a withdrawal from a course. Students who stop attending courses without officially withdrawing will receive

an "FW" (failure to withdraw). A grade of "FW" is calculated as 0.0 in student's grade point average.

**Administrative Drop**

Students who do not attend a class during the first two weeks of classes will be administratively dropped. Students should not assume that nonattendance will automatically result in an administrative drop. To avoid financial obligation to the University it is the responsibility of the student to verify that he/she dropped course(s) via MyBrandman Self Service prior to the deadlines stated in the official Academic Calendar in the catalog.

**Interrupted Enrollment**

Students may find it necessary to interrupt progress during their course of study, leave Brandman and decide to return at a later date. Students who leave the University in good standing and are absent no more than twelve consecutive sessions do not need to reapply, and will retain the program requirements of their designated catalog year. Students who have no remaining course requirements, are absent more than twelve consecutive sessions, and leave in good standing, do not need to reapply, but will be required to meet the current catalog year requirements.

Veterans receiving an honorable discharge, who left the University in order to perform military services, will be readmitted with the same academic status that he or she had when last in attendance at Brandman University. The length of absence from Brandman University cannot exceed five years.

The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies.

If students take coursework during their absence from the University, they must provide official transcripts of that coursework to the Division of Student Services prior to their return. Non-satisfactory performance or issues of academic integrity may nullify the student’s eligibility to return.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding interrupted enrollment.

**Enrolling in Graduate Courses**

Admitted Undergraduates with senior status are allowed to enroll in 500 graduate level courses with Dean approval. Students in the BA Liberal Studies program, regardless of class level, are allowed to enroll in required 500 graduate level courses without Dean approval. Students with senior standing and admitted to the accelerated Bachelor of Business Administration to Master of Business Administration program may enroll in BUSU 630 and BUSU 650 without Dean approval. For these BBA to MBA students, BUSU 630 and BUSU 650 will count as credits toward the BBA program. Credits completed for a baccalaureate degree cannot be accepted for graduate degree credit.

**Re-admission**

Students who are absent more than twelve consecutive sessions are required to submit a full application for re-admission and must meet all current admission entrance requirements.

**Grading System**

All grades are on a 4.0 scale

<table>

</table>

I (plus a grade) is given when the student has been unable to complete the final assignment of the course owing to illness or other extenuating circumstances. The deadline for the final assignment can be no longer than two consecutive sessions following the session the student was enrolled in the course. When entered it is calculated as the grade the student will earn if the incomplete is not removed within the time prescribed by the instructor. (IA, IA-, IB+, IB-, IC+, IC, IC-, ID+, ID, ID-, IF, INP)

AR is Administrative Review. This grade is submitted by the instructor when a grade is under administrative review. A grade of "AR" will be converted to a letter grade upon completion of the review.

AU is for audited coursework. No grade or credit is awarded to students for auditing, and courses are not used in computing the grade point average.

FW is assigned to students who cease attending part way through the semester but who do not officially withdraw via MyBrandman Self Service, their home campus, or the Division of Student Services. "FW" is computed in the grade point average as an "F". Students who take a course Pass/No Pass and cease attending part way through the semester and fail to officially withdraw will receive the "FW" grade.

NP is for No Pass, a grade given when the requirements for credit in the course have not been satisfied. Grade points are not assigned nor computed in the grade average.

NR is for Not Reported, indicating that the instructor has not submitted the final grade; therefore no credits or grade points can be calculated for this course.

P is for Pass, a grade given for satisfactory completion of a course. Grade points are not assigned nor computed in the grade average.

R on the transcript indicates a repeated course (highest grade calculated in GPA).

SP is for Satisfactory Progress. This grading symbol is used to indicate a student is progressing toward the completion of a course which does not end by the normal session ending date or of a thesis or project. It is never a final grade. Upon completion of the course or thesis project, the SP grade is replaced with a letter grade of P, or NP grading symbol.

W signifies that a student has withdrawn from a course in the prescribed manner.

**Pass/No Pass (P/NP)**

Students may select Pass/No Pass as a grading option at the time they initially register for courses via MyBrandman Self Service. Certain courses require letter grades only, while certain courses allow only Pass/
No Pass as the grading option. Such restrictions are noted in the course description.

Undergraduates may take up to 6 credits of coursework per year on a Pass/No Pass basis, excluding courses offered only on a pass/no pass basis. Students should consult with their advisor regarding the choice of P/NP for courses in the major.

After initial registration in a course, in order to change the grading to P/ NP, students must submit an online change of grading request available in MyBrandman by the end of the sixth week. Once a course is graded students cannot request a change in grading option.

P grades are granted if the student earned an equivalent to "C" or above in the course. NP grades are given if the student earned an equivalent to "C-" or below. In either case, grade points are not assigned and the grade is not computed in the student's grade point average.

Students who take a course Pass/No Pass and cease attending part way through the session and fail to officially withdraw will receive the "FW" grade.

Course Audit

Students may audit a class if they choose to do so. No credit is earned from audited classes. A grade of "AU" is assigned to audited classes, which is not used in computing the grade point average. Course requisites are enforced in determination of registration eligibility for the course. Audit fees may be assessed. It is strongly recommended that students confer with their advisor prior to officially auditing a course.

Students may select Audit as an option at the time they initially register for courses via MyBrandman Self Service. After initial registration in a course, in order to change the grading basis to an Audit, students must submit a change of grading system request available in My Brandman, by the end of the sixth week. Changes in grading basis cannot be done via "AU" after the initial grade is recorded.

Students may not change a grading system from an Audit to a letter grade. Course requirements such as homework, exams and papers are not graded by the instructor for students who are auditing a class.

Courses Repeated for Higher Grades

Any undergraduate-level course numbered 100 – 499 at Brandman may be repeated to improve the grade. The lower grade remains on the record with a notation that the course has been repeated. Only the higher grade and credit are computed in the cumulative grade point average. Credit is given only once for a repeated course, except as noted in the course description. It is recommended that a course be repeated as soon as practical if it is to be taken for a higher grade. In exercising this option, an undergraduate student must repeat the course at Brandman University. If the content of a course accepted in transfer is duplicated by coursework taken at Brandman, credit for the transferred course will be removed from the student record.

Incompletes

• Instructors may issue a grade of Incomplete when only the final assignment (e.g., paper, project, exam) is missing. Incomplete grades should be considered only if compelling reasons due to extenuating circumstances exist such as health or other emergency situations. The Incomplete process may not be used for a student to improve a grade. During careful consultation with the student, the instructor will determine the deadline for the final assignment, which shall be no longer than two consecutive sessions following the session the student was enrolled in the course.

• The student is responsible for knowing the deadline and the requirements for course completion.

• Students may select Audit as an option at the time they initially register for courses via MyBrandman Self Service. After initial registration in a course, in order to change the grading basis to an Audit, students must submit a change of grading system request available in My Brandman, by the end of the sixth week. Changes in grading basis cannot be done via "AU" after the initial grade is recorded.

Students will receive credit for the course at the time the initial incomplete grade (e.g., IC, IF+) is entered. The initial grade is calculated in both the session and cumulative GPA, to be updated if necessary when the subsequent grade is submitted (e.g., IC- is changed to C+).

Reading and Conference Courses

Reading and Conference courses are offered to senior or graduate students with a Brandman University grade point average of at least 2.75 and only when absolutely necessary. The courses may be taken only for the purpose of meeting graduation or credential requirements by students who could not meet the requirements because of circumstances beyond their control. They are not offered to resolve scheduling conflicts with other classes, or work, or to complete a schedule. To enroll in reading and conference courses, students must obtain a Request for Course by Reading and Conference form from their campus. Reading and Conference courses must be approved by the appropriate Dean prior to enrollment.

Independent Study and Research

Independent Study and Research is offered to upper-division and graduate students with an overall grade point average of at least 3.0 "B", to research particular topics that are not provided by regular curriculum offerings. To enroll in independent study and research, a student must obtain an Independent Study and Research form from their campus. Independent Study and Research courses must be approved by the appropriate Dean prior to enrollment.

Disclaimer for Programs with On-ground Placements,
Clinals, Internships

As an institution with students nationwide, Brandman University monitors each state's laws and the requirements of each agency therein that regulates Higher Education. We strive to maintain the appropriate approvals in each state, but with hundreds of state agencies nationwide, each having their own (and often changing) requirements, we can make no guarantees.

If it comes to our attention that we must seek State Authorization or complete an approval process, we will take the appropriate steps as quickly as possible. However, your internship or clinical placement at a particular site could be affected or could be prohibited if we are unable to obtain the State authorization or approval on a timely basis. Should you have questions or concerns, please contact your Clinical Coordinator who can assist further.

Standards of Academic Integrity

Brandman University is an academic community based on the principles of honesty, trust, fairness, respect and responsibility. Academic integrity is a core University value, which insures respect for the academic reputation of the University, its students, faculty and staff, and the degrees it confers. The University expects that students will conduct
themselves in an honest and ethical manner and respect the intellectual work of others.

To safeguard the conditions under which scholarship is performed, measured and evaluated, the following will serve to:

1. Distinguish the types of academic integrity violations.
2. Identify procedures for hearing cases involving such violations. Any imposed sanction is intended to be within the reasonable range of standard higher education and professional practices and to be applied equitably.

A. Academic Integrity Violations
Academic dishonesty can take a number of forms. It includes, but is not limited to, cheating on a test or examination; claiming the work of another as your own; plagiarizing any paper, research project, or assignment, including an online discussion board assignment; copying and pasting text from an online source directly into an assignment without properly citing the source; reusing your own work in the same or another course without written instructor permission; or falsely submitting material to fulfill course requirements.

Cheating includes:

1. Unauthorized copying from the work of another student, with or without that student’s consent.
2. Using notes or other unauthorized material during a test period.
3. Having another person do all or a substantive part of the work. Working with Brandman’s Online Writing and Math Community is encouraged.

It is also an academic integrity violation to falsely any academic records or documents. This includes falsely reporting attendance or participation in any field-work or clinical practicum experience or having anyone, other than the registered student, participate in online course activities.

Submitting work done in one course to satisfy the requirements of another course, or a repeated course, or to satisfy a program requirement, is academic dishonesty, unless the instructor(s) receiving the duplicated work agree(s) beforehand, in writing, to accept such work.

Within the same course, submitting work done for one assignment to satisfy the requirements of another assignment is also academic dishonesty, unless the course instructor agrees beforehand, in writing, to accept such work.

Presenting forged or altered documents is academic dishonesty. These documents may include transcripts, add/drop forms, or any academic form that has been falsified or wherein a professor’s signature, or anyone else’s signature, has been forged or altered.

Failing to report any previous academic work presented at another college or University may be considered a violation of academic integrity.

For more details on violations of academic integrity, please see the appropriate section in MyBrandman.

B. Procedures for Hearing and Investigation
The procedures below apply both to current students, and to former students for whom information is discovered after the time of course completion, program requirement completion, and/or degree completion regarding alleged academic integrity violations that occurred during the time of the student’s enrollment.

In cases involving a single academic integrity violation concerning one assignment in one course, the following action should be taken:

1. The instructor must communicate with the student in private to address the possible violation. The instructor’s communication may be through written feedback on an assignment, through Brandman e-mail, by phone, in Adobe Connect, or in person. If the transgression occurs during class (e.g., during a test or examination), the instructor may deal with the situation at that time in as discreet a manner as possible. The student is expected to meet with the instructor (either face-to-face, by phone, in Adobe Connect, or via Brandman email) for the purpose of clarifying the circumstances or settling the issue of responsibility. Students are not eligible to withdraw from the course until final resolution of the alleged violation.

2. After this meeting, if the instructor is satisfied that the incident does not constitute a violation of academic integrity, then the matter is settled, no further action is required, and the Academic Integrity Violation and Sanction Form is not filed.

3. If the instructor determines that there has been a substantiated violation of academic integrity, then the instructor completes the Academic Integrity Violation and Sanction Form on this single violation involving only one assignment, citing the sanction. The form can be found in the faculty area of MyBrandman. The Director of Academic Support and Curriculum will determine whether this is the student’s first, second, or successive academic integrity violation at Brandman.

4. If this is the student’s first reported academic integrity violation at Brandman, the following procedure is followed:

a. The completed Academic Integrity Violation and Sanction Form is emailed to the student, instructor, and appropriate office for processing, if required (e.g., change of grade). A record of the academic integrity violation and sanction is filed. If the case is not resolved by the end of the session or the timeline for petition and appeals has not been exhausted, the instructor should enter the grade “AR” (Administrative Review). The student may not withdraw from the course prior to final resolution of the case. The Grade Change Form will be submitted for final grade once the decision is binding.

b. If the student does not agree with the sanctions imposed by the instructor, as articulated on the Academic Integrity Violation and Sanction Form, the student may work with an advisor to submit a petition within 10 business days of being informed of the imposed sanction. If the student does not submit a petition within 10 business days, the student is ineligible to further appeal the academic integrity violation and sanction.

c. The Dean or the Dean’s Designee will review the petition and contact the involved faculty member (and may also contact the student) in an effort to resolve the matter. The Dean or the Dean’s Designee will initiate whatever action he or she sees fit to sustain, overturn or modify the instructor’s sanctions. The Dean will notify the student and instructor of the decision via email. Filing and further processing, if required (e.g., change of grade), will occur as necessary.

d. If there is dissatisfaction with the petition decision made by the appropriate Dean, the student may request a hearing with the Governance and Appeals Committee (GAC), within ten business days of receiving the Dean’s decision. The request will be forwarded to the GAC for review and to render a decision. To render a decision, the GAC will appoint a quorum of three committee members. The GAC Chair will notify the student, the instructor, and the Dean of their decision. If the student does not
submit a hearing request within 10 business days, the student is ineligible to further appeal the academic integrity violation and sanction.

e. A student has the right to appeal within 30 days of notification by the GAC of the academic integrity decision. Appeal decisions are based on relevant information that was not available at the time of the decision, or if procedures were not followed in accordance with Brandman academic policy/guidelines. An appeal is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

5. In cases involving multiple academic integrity violations concerning more than one assignment in the same course, the following action should be taken:

a. For the student’s first reported academic integrity violation within a course, the procedure in either B1-4e or 6a-c is followed depending upon whether the student has prior academic integrity violations at Brandman University.

b. For a student’s second and successive violations within a single course, the instructor must communicate with the student as soon as possible after each violation. After the deadline for the final course assignment but before final grades are filed, the instructor should then submit a second Academic Integrity Violation and Sanction Form that includes all successive violations and the assignments that they involve. On this second form, the instructor should cite one sanction for each violation reported on the form, or one sanction for all violations reported on the form. A second or successive violation in the same course will be treated as the student’s second or successive academic integrity violation at Brandman, and the procedure described below in 6a – 6c is followed at this point. As the case will not be resolved by the end of the session, the instructor should assign the student a course grade of “AR” (Administrative Review). The student may not withdraw from the course prior to final resolution of the case. The Grade Change Form will be submitted for final grade once the decision is binding.

c. If the student has the right to appeal within 30 days of notification of the academic integrity violation by the GAC. Appeal decisions are based on relevant information that was not available at the time of the decision, or based on whether procedures were followed in accordance with Brandman academic policy/guidelines. An appeal is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

6. If this is the student’s second or successive academic integrity violation at Brandman University, the following procedure is followed:

a. The most recently completed Academic Integrity Violation and Sanction Form is emailed to the student and instructor. A record of the academic integrity violation and sanction is filed. The student may not withdraw from the course before the resolution of the case. Since the student has more than one Academic Integrity Violation, the completed Academic Integrity Violation and Sanction Form and the students’ prior Academic Integrity Violation and Sanction Form(s) are also sent to the Dean or the Dean’s Designee to review. The Dean or the Dean’s Designee will initiate whatever action she or he sees fit to sustain, overturn, or modify the instructor’s sanctions based on the student’s current and prior violations. The Dean will notify the student and instructor of his or her decision via email. Filing and further processing, if required (e.g., change of grade, academic dismissal), will occur as necessary.

b. If there is dissatisfaction with the petition decision made by the appropriate Dean, the student may request a hearing with the Governance and Appeals Committee (GAC), within ten business days of receiving the Dean’s decision. The request will be forwarded to the GAC for review and to render a decision. To render a decision, the GAC will appoint a quorum of three committee members. The GAC Chair will notify the student, instructor, and Dean of the decision.

c. A student has the right to appeal within 30 days of notification of the academic integrity decision by the GAC. Appeal decisions are based on relevant information that was not available at the time of the decision, or based on whether procedures were followed in accordance with Brandman academic policy/guidelines. An appeal is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

7. If the student has already completed the course or program requirement in which the academic integrity violation is subsequently discovered, the following procedure is followed:

a. The Dean or the Dean’s Designee will investigate the allegations and, when possible, attempt to contact the involved faculty member and the involved student as part of the investigation. The Dean or the Dean’s Designee will also review documentation from the student’s prior academic integrity violations, if any. If the Dean or the Dean’s Designee determines that there has been a substantiated violation of academic integrity in the case at hand, they will assess an appropriate sanction based on the violation at hand and on, if applicable, any prior violations. Sanctions may include, but are not limited to, change of course grade and/or retroactive dismissal resulting in revocation of the student’s degree.

b. If there is dissatisfaction with the decision made by the appropriate Dean, the student may request a hearing with the Governance and Appeals Committee (GAC), within 30 calendar days of transmission of the Dean’s decision. The request will be forwarded to the GAC for review and to render a decision. To render a decision, the GAC will appoint a quorum of three committee members. The GAC Chair will notify the student and Dean of the decision.

c. A student has the right to appeal within 30 days of notification of the academic integrity decision by the GAC. Appeal decisions are based on relevant information that was not available at the time of the decision, or based on whether procedures were followed in accordance with Brandman academic policy/guidelines. An appeal is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

8. A formal dismissal for a violation of academic integrity will be recorded on the student’s official transcript. Students dismissed due to an academic integrity violation are not eligible for readmission to the University.

9. Once an academic integrity allegation and sanction have been resolved and finalized, the course grade cannot be challenged on the basis of grounds related to the academic integrity allegation and sanction.

NOTE: In all cases of alleged violations of academic integrity, it is vital to maintain professional confidentiality among those involved. Students must also adhere to ethical standards set forth by professional licensing boards and discipline-specific criteria. Violations of ethical professional behavior may result in dismissal from the university. Refer to appropriate school for professional code of conduct policy.
Student Conduct
Brandman University is an academic community committed to maintaining an environment that encourages personal and intellectual growth. It is a community with high standards and high expectations for those who choose to become a part of it, and it is a community with established rules of conduct intended to foster behaviors that are consistent with a civil and educational setting. Members of the University community are expected to comply with all laws, University policies, and professional ethical standards, conducting themselves in ways that support an academic environment.

Faculty members are responsible for ensuring an effective learning environment for all students in their classes, which encourages active student participation, including the right to raise questions and challenge information. Hence, faculty members also have the responsibility and authority to maintain appropriate student behavior. Classes are defined as including laboratories, internships, field placements, or any settings that can be designated as a learning environment, such as travel studies and field trips.

Consequently, if a student is considered to be threatening or disruptive in the classroom, behaves in a way that interferes with the learning of other students, or refuses to fulfill the academic requirements of the course, the faculty member has the right to have the student who demonstrates such behavior removed from the class, either by administrative withdrawal or by making arrangements for the student to complete the requirements in absentia.

For information regarding potential student conduct violations including electronic media violations, refer to the Student Conduct Code available in MyBrandman.

Students must also adhere to ethical standards set forth by professional licensing boards and discipline specific criteria. Violations of ethical professional behavior may result in dismissal from the university. Refer to appropriate school for professional code of conduct policy.

Incident reports should be made immediately to the appropriate Dean and Campus Director. Refer to the Student Conduct Code in MyBrandman for hearing procedures.

Grade Review Policy
Faculty/Instructors have the final authority in assigning student grades except for cases involving clear evidence of capricious grading or failure to follow the professional standards of a discipline or field. Requests for review of grade must be filed within 30 days from the date that the grade was posted in MyBrandman Self Service. Challenges to allegations of academic integrity violations such as plagiarism must be submitted and adjudicated under the academic integrity policies and procedures, not under the grade challenge policies and procedures.

Faculty/Instructors may change final grades after initial submission only for clerical error. Clerical error revisions are submitted by the instructor via the Grade Change form located on Self-Service for Faculty. Once a grade is submitted, additional work may not be accepted to enable the student to receive a higher grade.

However, a student who believes he or she has received a grade that is capricious or based on standards that are not in line with the professional standards of a discipline or field must contact the faculty/instructor for an explanation of the grade and for possible reconsideration. Students have a right to request a review of a grade within 30 calendar days of the official posting of the grade.

Grade Challenge Procedure
1. Instructors must carry out a grade review process with the student within 15 calendar days of the student request, and notify the dean the results of that review. All grade changes will be submitted via the Grade Change form located on Self-Service for Faculty.
2. If after meeting with the instructor the grade dispute is not resolved, the student may submit a written request for review by the Dean/Dean’s designate. That request for review must be submitted utilizing the Grade Review form within 30 calendar days of the official response to the student by the instructor. This appeal must provide a) the rationale for the request for review, and b) all supporting documentation related to the request, including verification that the student has been in contact with the instructor as specified in step a. An example of verification would be an email from the instructor verifying the grade review meeting with the student, or an email verification that the instructor was not able to meet with the student.
3. If the Dean finds merit in the student’s request, the Dean will review the grade assignment, determine a final grade, and notify the student and instructor of the results via Brandman email. The final grade may be higher, lower, or the same as the grade originally assigned by the instructor.
4. If the Dean does not find merit in the request, the student and instructor will be notified and the grade will stand. The Dean’s finding of a lack of merit in a student’s request for grade review is not subject to appeal.
5. The student may submit an appeal to the Provost within 30 calendar days of the notification of the Dean’s decision. Appeals must be based upon one of the following:
   a. Additional relevant information which the student did not have at the time of the original request/subsequent request is now available for consideration.
   b. Grade challenge procedures were not followed in accordance with Brandman academic policy/guidelines.
   c. The grade determination did not follow guidelines established within the course syllabus.
6. The Provost may determine:
   a. The appeal does not meet the additional criteria and deny the request; or
   b. The appeal does show that one of the appellate criteria has been met, and
      i will refer the request back to the Dean for final review (not subject to appeal); or
      ii will determine a final grade.
7. All decisions by the Provost are final and binding.

To submit a Grade Challenge Form, please contact your Academic Advisor.

Undergraduate Academic Probation and Dismissal

Academic Probation
The following is Brandman University’s guidelines for satisfactory academic achievement in undergraduate programs. Please note that degree GPA requirements and some programs may specify more
stringent policies. Please refer to appropriate degree and program sections.

A degree seeking undergraduate student whose overall GPA (includes Brandman institutional coursework and transfer coursework) falls below 2.0 at the end of one enrolled session or whose session GPA falls below 2.0 at Brandman University will be placed on probation. Students on academic probation will be expected to consult with their advisor for guidance and assistance regarding improving their academic status.

Veteran and Active Military Students: see Military and Veterans Services section of the catalog regarding academic probation.

Academic Dismissal

Students who have been placed on probation three or more times during their undergraduate education are subject to academic dismissal from the university. The appropriate School Dean will review such cases and will render the decision whether a student should be academically dismissed.

The action of dismissal will be placed on the official transcript. A student who has been dismissed will be administratively withdrawn from the university at the end of the current enrolled session and may not continue coursework.

A student has the right to appeal within 30 days of notification of the academic dismissal decision. Students cannot be enrolled in courses during the appeal process. Appeal decisions are based on relevant information that was not available at the time of the decision or if procedures were not followed in accordance with Brandman academic policy/guidelines. It is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

Academic Probation and Dismissal policies are separate from and in addition to policies governing dismissal for violating academic integrity or dismissal for inappropriate student behavior.

Students seeking to be readmitted may do so after one year by requesting to the appropriate School Dean. The School Dean will make the re-admission decision. All students who return after academic dismissal will be placed in a probation status.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding academic probation and dismissal.

Petitions

A petition is a request to waive an academic policy, procedure, or ruling.

- Students may file a petition to request an exception to Brandman University policy, procedure, or ruling. Students must explain fully why the University should act favorably on the petition, citing any exceptional conditions, mitigating circumstances, and/or conditions beyond the student’s control.
- Petitions/requests will be reviewed and ruled upon by the designated office or committee listed on the Brandman Petition/Request location within MyBrandman. Not all university policies, procedures, or rulings can be petitioned; see the Brandman Student location within the MyBrandman portal for more information.

Academic Appeal

An appeal is a review of a petition decision based on relevant information not available to the student at the time of the initial petition submission, or procedures were not followed in accordance with Brandman academic policy/guidelines. It is not a reconsideration of the merits of the decision. Not all Brandman policies or petition decisions are appealable; see the Brandman Petition/Request location within MyBrandman for more information.

Graduation with Latin Honors

A student with superior academic achievement throughout his or her undergraduate career may graduate with university honors. To be eligible for honors, the student must have a Brandman grade point average and cumulative grade point average, including all transfer work, at or above the specific honors category. A minimum of 54 credits must be Brandman coursework taken for a letter grade. Categories of honors are cum laude (3.500 – 3.699 GPA); magna cum laude (3.700 – 3.899 GPA); and summa cum laude (3.900+ GPA).

Graduation

Degree Conferral

Degree conferral is an automatic process; students do not need to apply for degree conferral. Degree conferral is the result of the official program evaluation from Degree Works reflecting all requirements complete. The Degree Conferral date is final and is not subject to a request for back dating.

More information on Degree Conferral is available on MyBrandman.

Commencement

To participate in ceremonies students must submit a "Commencement Attendance Reply" form available in MyBrandman. Brandman email notifications will be sent to eligible students when the form is available to submit starting in February. To be eligible for participation in the commencement ceremonies, the student’s official degree audit must indicate that the student is on course to satisfactorily complete all degree requirements by the end of Summer II of that year or sooner, as verified by the academic advisor and so indicated by the expected graduation date on the student’s record. Participation does not guarantee or automatically imply graduation from the University. For more information, please go to https://www.brandman.edu/commencement or contact your academic advisor.

Diplomas and Transcripts

Diplomas are mailed out approximately two to four weeks after the date of conferral of the degree. This allows time for confirmation that all degree requirements have been met. Under no circumstances will a diploma be released prior to the conferral date.

Transcripts from other institutions which have been presented for admission or evaluation become part of the student’s academic file and are not returned or copied for distribution.

Diplomas and/or transcripts will not be released if the student has an active diploma/transcript hold as indicated in the Holds section of MyBrandman Self Service. Currently enrolled students may order official copies of transcripts or print unofficial copies of transcripts at any time via MyBrandman Self Service; processing and fee information is available at that site.
Transition from Chapman University to Brandman University

Chapman University College is now Brandman University. Brandman University is part of the Chapman University System. During this transition, the following applies:

- Students whose designated catalog year is 2009-2010 or prior may choose either a Brandman University or a Chapman University degree or diploma.
- All students earning a Bachelor of Business Administration, Master of Business Administration, or Master of Public Administration regardless of designated catalog year will be granted a Brandman University degree and diploma.
- All Brandman University diplomas will state that Brandman University is part of the Chapman University System.
- Students whose designated catalog year is 2010-2011 or later will receive a Brandman University degree and diploma.

Undergraduate Competency-Based Academic Policies and Procedures

Students enrolled in the Brandman MyPath competency-based degree programs must adhere to the Undergraduate Credit-Hour Academic Policies in the catalog with the exception of the following policies and procedures that pertain to competency-based programs only.

Academic Calendar

An academic year for the Brandman MyPath competency-based education program consists of the completion of at least 24 units and 48 weeks of instruction. Unlike the traditional academic calendar, the MyPath program has no semesters, trimesters, quarters, or other terms with set beginning and ending dates. Instead, the academic year begins on the day that a student completes the first substantive academic activity (starts attendance) and ends when both the minimum 24 units and 48 weeks of instruction have been completed. Since the program is self-paced, students may earn more than 24 units in a 48-week period, or students can take more than 48 weeks to earn the 24 units.

In addition, there is a two-week break scheduled for December and June of each year in which teaching does not take place; therefore, these weeks do not count toward completion of the 48 weeks of instruction.

The breaks for the 2017-2018 Academic Year are:

- Winter Break: December 17th, 2017 through December 30th, 2017
- Summer Break: June 17th, 2018 through June 30th, 2018

Tuition

Brandman University reserves the right to change tuition and fee rates at any time without notice. Tuition is billed at a flat rate each billing period in the competency-based academic year. The competency-based academic year consists of two billing periods and is defined as a minimum of 24 units and 48 weeks of instruction. The student pays for the time, not by credit hour or by course. The student starts their competencies any time and completes as many as they would like, or are able to, during the billing period.

Students are required to pay their tuition in full before they can start their course competencies. If the student wishes to apply for financial aid, they must submit all forms required by the Financial Aid Office and have the aid applied to their student account bringing their balance owed to the University to a zero balance before they will be allowed to begin their competencies.

Tuition Refund Policy: Withdrawals

The date of withdrawal for purposes of tuition and/or refundable fees refunds shall be the date on which the student officially withdraws from the program through MyBrandman Self Service.

Tuition Refund Policy

A full tuition refund will be given prior to starting competencies, but no refunds will be given once the student begins.

Students with extenuating circumstances may be eligible for a tuition refund through the University petition process. Circumstances must be documented and are subject to review by the University.

No retroactive refunds will be given for prior academic years. It is every student’s responsibility to review their student account every term to ensure that it is correct and that all applicable credits (Grants, Loans, Scholarships, Adjustments) have been applied to their account.

Alternative Pathways to Undergraduate Admission

BrandmanTrack-A 12 credit opportunity

BrandmanTrack provides prospective Brandman undergraduate degree seeking students with an opportunity to obtain 12 credits to meet an admission requirement for Brandman or other institutions. In order to be admitted to a degree program, student must meet all applicable degree program admission requirements. This program is provided in multiple modalities in order to provide alignment with the student’s intended degree program choices.

Following is the description and requirements for Brandman’s MyPath approach. Our MyPath format is the right program for students who:

- Are a self motivated learner that wants to dictate your own learning pace
- Have prior work experience that could apply to certain subject matter areas, for example a marketing manager without formal coursework may move through some of the marketing competencies at a faster rate than a student who does not have the same work experience
- Prefer to work in a self-directed environment without set due dates for each assignment and the ability to complete a competency in less than the time it takes to complete a traditional 8 week course
- Have an interest in Brandman’s MyPath Bachelor of Business Administration (BBA) or Bachelor of Science in Information Technology (BSIT)

Competencies

Students in this program are not eligible for financial aid. Registration into the program is granted to individuals who have a high school diploma or equivalent.

Admission
Undergraduate Admission

Brandman University will admit students to competency-based programs who have the capacity and determination to successfully complete a rigorous Brandman University degree program. The admission process is designed to help the student and the university to make an informed decision about the likelihood of success.

Prospective students must submit the following:

1. Completed application package. Applications are available online.
2. Official transcripts from ALL colleges and universities attended. Only credits from regionally accredited institutions may be accepted in transfer.
3. High School diploma, HiSET or GED equivalent for students with less than 12 transferable credits.

Admission Requirements

Students with 12 or more transferable credits

Students with 12 or more transferable credits are required to have a minimum 2.0 cumulative GPA in all prior coursework.

Students with less than 12 transferable credits

For students with less than 12 transferable credits, the following minimum requirements must be met:

1. A high school diploma, HiSET or GED equivalent.
2. High school cumulative GPA of 2.0.
   a. Successful completion of a transferable course to ENGU 103 Writing and Rhetoric or ENGU 104 Writing About Literature (grade of B- or higher) waives admissions test in English.
   b. Successful completion of a transferable course to MATU 103 Applied Mathematics or higher (grade of B- or higher) waives admissions test in Math.

Transfer Credit Policies

Transferring to Brandman University

Prior to admission, students will meet with their academic coach to discuss, among other items, articulation/transferability of prior coursework. Transfer courses will be evaluated for clearance of competencies through the following methodology:

1. Prior coursework, with a minimum of B- or better from regionally accredited institutions, will first be evaluated against Brandman University’s credit hour-based courses.
2. Once prior credit has been determined to be equivalent to Brandman’s credit hour-based program, the university will then determine whether or not the student will receive transfer credit for any of the competencies in the competency-based program.
3. Transfer credit for competencies will not be granted for prior coursework where the content addresses some, but not all, of the content for a particular competency or block of competencies.

Transferring from Brandman University

The purpose of the Brandman University’s competency-based programs are to prepare students for career opportunities and advancement in a dynamic, global business environment. This purpose does not include preparing students for transfer to another institution for further college study. Since the competency-based programs are based upon direct assessment of competencies rather than credit hours, the competency units completed during a billing period may not equate to a credit-bearing course for transfer purposes. Students should be aware that transfer of credit is always at the discretion of the receiving institution. Any student interested in transferring credit hours should check with the receiving institution directly to determine to what extent, if any, competency units can be transferred. Brandman University students who may be interested in transferring to another institution—either before or after completing their studies at Brandman University—should keep in mind the following points:

1. All institutions reserve the right to determine their own transfer policies, and not all academic work completed at one institution may transfer to another.
2. Students should check the transfer policies at the institution or institutions they are considering by consulting with the admissions or registrar office at those institution(s).
3. Students who transfer should request that the Brandman University registrar send an official transcript of their Brandman University academic work to the institution(s) where they are applying for admission.
4. The Brandman University transcript will be a straight line listing of competencies completed with the corresponding “M” grade for Mastery. Upon request, a corresponding conversion record (credit hour transcript) reflecting courses and credits will be developed.

Transferring within Brandman University

Students wishing to transfer from a competency-based program to a credit hour program within Brandman University should consult with their academic coach and One Stop Student Services. Since the competency-based programs are based upon direct assessment of competencies rather than credit hours, the competency units completed during a billing period may not equate to a credit-bearing course for intra-transfer purposes.

Attendance Policy

All Competency-based students must adhere to the attendance policy as described in the Student Handbook for the Competency-based program.

Add Policy

Students may accelerate their studies by adding additional competencies once they have successfully completed the initial group of competencies. Students who desire to add additional competencies must seek the advice and approval of their academic coach.

Drop Policy

Given the integrated nature of the competency-based curriculum, students may not drop competency units during a billing period.

Interrupted Enrollment

Students may find it necessary to interrupt progress during their course of study, leave Brandman and decide to return at a later date. Students who leave the University in good standing and are absent no more than two years do not need to reapply, and will retain the program requirements of their designated catalog year. Students who have no
remaining course requirements, are absent more than two years, and leave in good standing, do not need to reapply, but will be required to meet the current catalog year requirements.

Veterans receiving an honorable discharge, who left the University in order to perform military services, will be readmitted with the same academic status that he or she had when last in attendance at Brandman University. The length of absence from Brandman University cannot exceed five years.

The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies.

If students take coursework during their absence from the University, they must provide official transcripts of that coursework to the Division of Student Services prior to their return. Non-satisfactory performance or issues of academic integrity may nullify the student's eligibility to return.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding interrupted enrollment.

Administrative Withdrawals
Regular engagement with the learning materials is integral to students successfully completing the degree requirements. To ensure student success, Brandman requires that students maintain close contact with their academic coach. If a student is not connecting with competency course material for seven days, the academic coach immediately sends an email to the student requesting to schedule an appointment. Students who do not respond to this email or other phone outreach within the next seven days will be deemed inactive, reported to the coaching team manager, and the "Return to Title IV" process will begin. The coaching team manager and academic coach will contact inactive students via telephone and email during the next seven days and warn the students that continued inactivity will result in an administrative withdrawal.

Inactive students who fail to reestablish contact with the academic coach and the competency course material for 28 consecutive days will be administratively (unofficially) withdrawn from the program on the next business day. The "Return to Title IV" process will begin after fourteen consecutive days without educational activity.

If a student does not return from a Leave of Absence (LOA) by the end of the date of the LOA, the student will be considered to have withdrawn from the University as of the student's last day of engagement in a substantive educationally related activity. The student's financial aid award will likely have to be repaid by the student to the government and/or University. The student's loans may go into immediate repayment or shortly, thereafter, depending on the loan. Students will be contacted by an academic coach to discuss if a credit-hour program (e.g., blended or online) may be a better fit.

Grading System
In competency-based programs, grades are recorded as Mastered and a grade point average (GPA) is not calculated by the University.

M is for Mastered, a grade given for demonstrated mastery in a competency. Grade points are not assigned.

AR is for Administrative Review, a grade given when a student's work is under review (e.g., due to grade appeals). A grade of "AR" will be removed upon completion of the review.

W signifies that a student has voluntarily withdrawn from a competency.

WX signifies that the student failed to demonstrate mastery in a competency after the maximum number of summative assessment attempts allowed.

WA signifies the student was administratively withdrawn due to failure to engage within a required timeframe.

Academic Dismissal
If a student fails to demonstrate mastery in a competency after a maximum number of Final Assessment attempts allowed in a competency, the student will be administratively withdrawn from the program and the action of dismissal will be placed on the official transcript. For competencies with external certification exams as the Final Assessment, students are allowed the number of attempts as set forth by the certifying organization. For all other competencies, the maximum number of Final Assessments is three.

Assessment Retake and Grade Review Policy
Retaking Final Assessments
Any student who does not demonstrate mastery on a Final Assessment attempt must meet with the tutorial faculty to develop a learning plan for the student, unless the attempt is the last one allowed in the competency. This learning plan will be developed based on Final Assessment report feedback and will provide the student with a detailed description of areas the student should focus on prior to the subsequent attempt.

Grade Review Policy: Final Assessments
For Level II Final Assessments, students may request a second grading for competencies that are not mastered within 30 days from the date that the grade was posted and upon payment of the re-grade fee. The re-grade fee is refundable if the student demonstrates mastery according to the second grading.

Dual Enrollment Policy
Students enrolled in a competency-based program cannot be enrolled in a credit-hour program or take credit hour courses due to financial aid requirements and restrictions.
Standards of Academic Integrity

Brandman University is an academic community based on the principles of honesty, trust, fairness, respect and responsibility. Academic integrity is a core University value, which insures respect for the academic reputation of the University, its students, faculty and staff, and the degrees it confers. The University expects that students will conduct themselves in an honest and ethical manner and respect the intellectual work of others.

To safeguard the conditions under which scholarship is performed, measured and evaluated, the following will serve to:

1. Distinguish the types of academic integrity violations.
2. Identify procedures for hearing cases involving such violations. Any imposed sanction is intended to be within the reasonable range of standard higher education and professional practices and to be applied equitably.

A. Academic Integrity Violations

Academic dishonesty can take a number of forms. It includes, but is not limited to, cheating on a test or examination; claiming the work of another as your own; plagiarizing any paper, research project, or assignment, including an online discussion board assignment; copying and pasting text from an online source directly into an assignment without properly citing the source; reusing your own work in the same or another course without written instructor permission; or falsely submitting material to fulfill course requirements.

Cheating includes:

1. Unauthorized copying from the work of another student, with or without that student’s consent.
2. Using notes or other unauthorized material during a test period.
3. Having another person do all or a substantive part of the work.

Working with Brandman’s Online Writing and Math Community is encouraged.

It is also an academic integrity violation to falsify any academic records or documents. This includes falsely reporting attendance or participation in any field-work or clinical practicum experience or having anyone, other than the registered student, participate in online course activities.

Submitting work done in one course to satisfy the requirements of another course, or a repeated course, or to satisfy a program requirement, is academic dishonesty, unless the instructor(s) receiving the duplicated work agree(s) beforehand, in writing, to accept such work.

Within the same course, submitting work done for one assignment to satisfy the requirements of another assignment is also academic dishonesty, unless the course instructor agrees beforehand, in writing, to accept such work.

Presenting forged or altered documents is academic dishonesty. These documents may include transcripts, add/drop forms, or any academic form that has been falsified or wherein a professor’s signature, or anyone else’s signature, has been forged or altered.

Failing to report any previous academic work presented at another college or University may be considered a violation of academic integrity.

For more details on violations of academic integrity, please see the appropriate section in MyBrandman.
A student has the right to appeal within 30 days of notification of
the most recently completed Academic Integrity Violation and
if this is the student's second or successive academic integrity
violation at Brandman University, the following procedure is followed:

5. If this is the student's second or successive academic integrity
violation at Brandman University, the following procedure is followed:

a. The most recently completed Academic Integrity Violation and
Sanction Form is emailed to the student and involved tutorial
faculty and/or Quality Assurance Manager. A record of the
academic integrity violation and sanction is filed. The student
may not withdraw from the program before the resolution
of the case. Since the student has more than one Academic
Integrity Violation, the completed Academic Integrity Violation
and Sanction Form and the students' prior Academic Integrity
Violation and Sanction Form(s) are also sent to the Dean or the
Dean's Designee to review. The Dean or the Dean's Designee will
initiate whatever action she or he sees fit to sustain, overturn,
modify the involved tutorial faculty and/or Quality Assurance
Manager's sanctions based on the student's current and prior
violations. The Dean will notify the student and involved tutorial
faculty and/or Quality Assurance Manager of his or her decision
via email. Filing and further processing, if required (e.g., change of
grade, academic dismissal), will occur as necessary.

b. If there is dissatisfaction with the petition decision made by the
appropriate Dean or Dean's Designee, the student may request
a hearing with the Governance and Appeals Committee (GAC),
within ten business days of receiving the Dean's or the Dean's
Designee's decision. The request will be forwarded to the GAC
for review and to render a decision. To render a decision, the
GAC will appoint a quorum of three committee members. The
GAC Chair will notify the student, the involved tutorial faculty
and/or Quality Assurance Manager, and the Dean or the Dean’s
Designee of their decision. If the student does not submit a
hearing request within 10 business days, the student is ineligible
to further appeal the academic integrity violation and sanction.

e. A student has the right to appeal within 30 days of notification
by the GAC of the academic integrity decision. Appeal decisions
are based on relevant information that was not available at
the time of the decision, or if procedures were not followed in
accordance with Brandman academic policy/guidelines. An
appeal is not a reconsideration of the merits of the decision. The
appeal decision will be rendered by the Office of the Executive
Vice Chancellor of Academic Affairs. The appeal decision will be
final and binding.

6. If the student has already completed the competency or program
requirement in which the academic integrity violation is subsequently
discovered, the following procedure is followed:

a. The Dean or the Dean's Designee will investigate the allegations
and, when possible, attempt to contact the involved tutorial
faculty member and/or Quality Assurance Manager, and the
involved student, as part of the investigation. The Dean or
the Dean's Designee will also review documentation from
the student's prior academic integrity violations, if any. If the
Dean or the Dean's Designee determines that there has been a
substantiated violation of academic integrity in the case at hand,
they will assess an appropriate sanction based on the violation
at hand and, if applicable, any prior violations. Sanctions may
include, but are not limited to, change of grade and/or retroactive
dismissal resulting in revocation of the student's degree.

b. If there is dissatisfaction with the decision made by the
appropriate Dean, the student may request a hearing with the
Governance and Appeals Committee (GAC), within 30 calendar
days of transmission of the Dean's decision. The request will
be forwarded to the GAC for review and to render a decision.
To render a decision, the GAC will appoint a quorum of three
committee members. The GAC Chair will notify the student and
Dean of the decision.

c. A student has the right to appeal within 30 days of notification
of the academic integrity decision by the GAC. Appeal decisions
are based on relevant information that was not available at the
time of the decision, or based on whether procedures were followed
in accordance with Brandman academic policy/guidelines. An
appeal is not a reconsideration of the merits of the decision. The
appeal decision will be rendered by the Office of the Executive
Vice Chancellor of Academic Affairs. The appeal decision will be
final and binding.

7. A formal dismissal for a violation of academic integrity will be
recorded on the student's official transcript. Students dismissed due
to an academic integrity violation are not eligible for readmission to
the University.

8. Once an academic integrity allegation and sanction have been
resolved and finalized, the competency grade cannot be challenged
on the basis of grounds related to the academic integrity allegation
and sanction.

NOTE: In all cases of alleged violations of academic integrity, it is vital to
maintain professional confidentiality among those involved. Students
must also adhere to ethical standards set forth by professional licensing
boards and discipline-specific criteria. Violations of ethical professional
behavior may result in dismissal from the university. Refer to appropriate
school for professional code of conduct policy.

**Diplomas and Transcripts**

Diplomas are mailed out approximately two to four weeks after the
date of conferral of the degree. This allows time for confirmation that
all degree requirements have been met. Under no circumstances will a
diploma be released prior to the conferral date.

Transcripts from other institutions which have been presented for
admission or evaluation become part of the student's academic file and
are not returned or copied for distribution.
A student’s academic history (transcript) will be a straight line listing of competencies completed with the corresponding "M" grade for Mastery. Competencies in progress or not completed will not be reflected on the academic record/transcript. Competencies, that were not successfully completed, will be reflected on the academic record/transcript with a "W" grade as well as an academic dismissal notation on the academic record/transcript. Upon request, a corresponding conversion record (credit hour transcript) reflecting courses and credits will be developed. As a result, students will receive both a "competency transcript" that indicates competencies satisfied and a separate standard credit hour transcript which will list full credit hour equivalencies.

Diplomas and/or transcripts will not be released if the student has an active diploma/transcript hold as indicated in the Self Service Holds section in MyBrandman. For further processing and fee information contact the Transcript Processing Department at: https://www.brandman.edu/current-students/registrar/transcripts.

Graduate Credit-Hour Academic Policies and Procedures

Catalog

The catalog assigned to newly admitted students is determined by the date of formal admission. Admission status is valid for one year from date of admission. Students must meet the degree requirements of the catalog under which they are admitted or may select a later catalog for a year in which they are enrolled. However, for all other policies (except degree requirements), students must adhere to the current catalog for each year they are enrolled. Statements in the catalog are for informational purposes and should not be considered as the basis of a contract between students and the University. Information regarding any changes in degree programs, graduation requirements, or academic policies will be made available by the campus OneStop Services and the appropriate academic Schools.

Students admitted to the MA in Psychology program or to any of the School of Nursing and Health Professions programs will be admitted to the Catalog based on the program start date and not the admission date. (See MA in Psychology and School of Nursing and Health Professions section in the catalog.)

Statement of Responsibility

Brandman University publishes its academic policies, programs and required courses for graduation. The student is responsible for his/her program including meeting the published requirements and deadlines. The University assists the student in making appropriate decisions by providing academic advising. However, the decisions made in the academic advising process are those of the student.

Residency Requirement

Generally, a minimum of 24 credits in the degree program must be completed at Brandman University for all master’s degrees. Some programs may vary. For specific program requirements, please refer to the appropriate program section. These credits do not include courses taken to fulfill prerequisite requirements. Students in credential programs are required to complete a minimum of two-thirds of the program at Brandman.

Degree Conferral

Degrees and credentials are granted on evidence of intellectual growth and development rather than solely on the basis of formal course credits. Fulfillment of the minimum course requirements is not regarded as the sole requisite of a degree or credential. Refer to appropriate program section as some programs specify more stringent policies.

A cumulative grade point average of 3.0 or higher in all coursework applicable to the graduate degree being sought is required.

Admission to a Degree Program

Admission is based upon possession of a baccalaureate or masters degree from a regionally accredited institution and the fulfillment of requirements specified for each program.

Course Requirements

1. Credits completed for a baccalaureate degree cannot be accepted for graduate degree credit.
2. Courses completed at the undergraduate level to fulfill prerequisite requirements cannot be accepted for graduate degree credit.
3. All graduate degree coursework cross-listed with undergraduate coursework must differentiate course requirements. For example, graduate students enrolled in any courses in which undergraduates are enrolled must complete additional course requirements to receive graduate credit.
4. At least 15 credits must be in coursework at the 500-600 level.
5. The minimum number of credits required for a master’s degree is 30. Some specializations require more (see the individual degree programs).
6. The Degree Works Program Evaluation is the official degree evaluation. Completion of all degree requirements, as indicated on the Program Evaluation, will result in degree conferral.
7. Challenge exams exist for a limited number of graduate programs such as the Constitution Exam in Education. No credit is granted for successful performance on challenge exams.
8. No grade below 2.0 “C” is acceptable toward a degree or credential, but is included in calculating the overall grade point average.
9. Unless specifically noted, all coursework taken in graduate degree programs must be taken for a letter grade.

Full- and Half-Time Students

Students enrolled in 9 or more credits in a trimester are considered “full-time”. Students enrolled in 4.5-8.5 credits in a trimester are considered “half-time”. Brandman University advises that students taking more than 6 credits in any one session consult with their academic advisor/faculty.

Course Numbering System

(For course numbering systems in previous years, please refer to the catalog in effect at that time)

<table>
<thead>
<tr>
<th>Course Numbers</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>001-099</td>
<td>Non-Degree/Remedial Coursework</td>
</tr>
<tr>
<td>100-299</td>
<td>Lower division Undergraduate Coursework</td>
</tr>
<tr>
<td>300-499</td>
<td>Upper division Undergraduate Coursework</td>
</tr>
<tr>
<td>500-799</td>
<td>Graduate level coursework</td>
</tr>
</tbody>
</table>
Graduate Prerequisites
1. Students are expected to complete all Prerequisites within the first year of graduate coursework at Brandman University.
2. Students may not enroll in any course which specifies a prerequisite unless the prerequisite has been completed.
3. Students may not enroll concurrently in the prerequisite for a course and the course which specifies the prerequisite (unless the catalog permits concurrent enrollment).
4. A minimum grade of 2.0 "C" or pass is required in all coursework used to fulfill Prerequisites.

Change of Graduate Degree Program Policies
1. Students wishing to add or change their graduate degree program of study must submit a new Graduate Application form.
2. To be eligible for a change of degree program, students must have a cumulative 3.0 grade point average, no grade below a "C" in Brandman University graduate coursework, and approval of the program requested for change or addition. Students are required to meet all readmission policies/procedures prior to completing coursework.

Second Master’s Degree
The following regulations govern the earning of a second master’s degree from Brandman University:
1. The second master’s degree may be awarded only in a distinctly different area, i.e., the student would not be awarded two master’s degrees in education in differing areas of emphasis.
2. The student must meet all specific requirements for the second master’s degree.
3. The student may not use more than 12 credits of the first master’s degree to satisfy the requirements for a second master’s degree at Brandman.
4. In addition, a minimum of 24 non-duplicated credits must be taken for the second master’s degree.

Second Emphasis Area
Students completing a second emphasis area within one master’s degree program may not use previously completed coursework for one emphasis to fulfill the requirements of a second emphasis. If the second area of emphasis is completed after the initial degree has been awarded, the student will not be issued an updated diploma, nor will the student be allowed to participate in the commencement ceremony a second time. However, the second emphasis will appear on the student’s official Brandman University transcript.

Transfer Credits and Concurrent Enrollment
1. Some degree programs permit 6-15 semester credits to be transferred into their degree program. Some degree programs limit transfers to elective credit only. Consult the appropriate program section of the catalog. Students are responsible for all material covered on the comprehensive examination as required by specific master’s degrees.
2. Students who wish to transfer prior coursework are required to submit a request for transfer coursework form within two sessions after achieving regular admission.
3. The coursework must be taken at a regionally accredited institution and be at the graduate level and/or accepted in a master’s degree program.
4. Credit is not awarded for experience, including fulfillment of prerequisite requirements.
5. A grade of no less than 3.0 "B" must have been earned in the course presented for transfer for all master’s degrees. Credit or Pass coursework is not transferable, unless otherwise noted within specific degree requirements.
6. The coursework must be relevant to the degree program.
7. Transfer of coursework to fulfill required courses is not advised. Please see specific program sections for additional information.
8. The coursework must have been taken within seven years of completion of the degree program for which the course is being requested for transfer credit.
10. If the credits accepted in transfer are not the equivalent of semester credits, additional coursework may be taken to complete degree credit requirements.
11. Requests for transfer of military coursework may be considered as fulfilling Prerequisites, elective or major requirements for those programs which accept military credit. Coursework must meet all other transfer requirements.
12. In the event that the content of one or more of the required courses is waived but the coursework is not accepted in transfer, the student must select a substitute course with the approval of the Dean for additional credits.

Extended Education
Approved academic courses from Brandman University Extended Education or Chapman University Extended Education will be accepted as elective, prerequisite or required credit towards Brandman graduate programs. Extended Education courses designated as providing academic credit are identified by the academic school. The student must have received the minimum grade required of the academic program for credit purposes.

Change of Address
Students must notify the University of any change of address. This can be done via MyBrandman Self Service or through the local campus.

Inter-Brandman University Campus Transfer
Students wishing to transfer from one Brandman University campus to another should go to the MyBrandman portal to access the form to
submit the Campus Transfer Request to the new campus. Note: Not all academic programs are available at all campuses.

Attendance Policy
Requirements for students’ attendance and participation will be defined by each instructor based on the following policy:

- Monday of the first week is considered the first day of class for online and blended instruction. This includes instruction for fully online classes and online instruction supporting blended classes.

- Regular onsite attendance is expected for student success. If a student misses more than one onsite class or one week of engagement in an online class, the student may, at the discretion of the instructor, fail the course. Students are expected to attend all classes, particularly the first night of class.

- Students should consider withdrawing from a course if they will be absent more than once. Instructors may, but are not obligated to, accommodate students under extraordinary circumstances, but the student must request accommodation and provide requested supporting documentation. Students enrolled in blended courses must attend at least one class during the first two weeks of classes.

- If a student misses a portion (e.g., arriving late or leaving early) of an onsite course, the student’s grade may be adversely affected. Students who are not in attendance for at least 75 percent of any scheduled class may be considered absent for that class. Students should discuss missing portions of a class with their instructor to determine how their grade may be affected.

- Regular online attendance/participation and engagement is expected for student success in both fully online and blended courses. Online participation is evident through posting to a discussion board, blog, completing assignments including journal entries, or taking quizzes and exams.

- Schools and programs may have different attendance policies. Refer to school and program specific information for additional attendance policies.

Registering for Classes
Students register for each session via MyBrandman Self Service or at their campus location. Registration is not complete until all charges are paid or arrangements for payment have been made with the Student Business Services staff by the add/drop deadline. See academic calendar for registration deadlines. Students are expected to have met all prerequisite requirements for courses in which they register.

Add/Drop Policy
(refer to tuition and unit based fees policy for additional information)

To add a class, a student must do so through MyBrandman Self Service by the end of the first week of the session. Registration ends at the end of the first week.

To drop a class without having the course noted on the transcript, a student must do so through MyBrandman Self Service by the end of the second week of the session. Drops that are officially processed prior to or by the end of the second week will not appear on the student’s transcripts. After the second week of the session, students who wish to withdraw from a course must do so by the end of the sixth week, either via MyBrandman Self Service, by telephone or in person at their campus. A grade of “W” will appear on the student’s transcripts indicating the withdrawal. Students must officially withdraw before the end of the sixth week of classes in order to avoid being responsible for a grade in their classes. It is the student’s responsibility to officially withdraw from a course and verify that he/she has been dropped. Students cannot drop a course beyond the sixth week of the session. Failure to attend a course does not constitute a withdrawal from a course. Students who stop attending courses without officially withdrawing will receive an “FW” (failure to withdraw). A grade of “FW” is calculated as 0.0 in student’s grade point average.

Administrative Drop
Students who do not attend a class during the first two weeks of classes will be administratively dropped. Students should not assume that nonattendance will automatically result in an administrative drop. To avoid financial obligation to the University it is the responsibility of the student to verify that he/she dropped course(s) via MyBrandman Self Service prior to the deadlines stated in the official Academic Calendar in the catalog.

Interrupted Enrollment
Students may find it necessary to interrupt progress during their course of study, leave Brandman and decide to return at a later date. Students who leave the University in good standing and are absent no more than twelve consecutive sessions do not need to reapply and will retain the program requirements of their designated catalog year. Students who have no remaining course requirements, are absent more than twelve consecutive sessions, and leave in good standing, do not need to reapply, but will be required to meet the current catalog year requirements.

Retaining the program requirements of a student’s designated catalog year must adhere to the seven year limitation policy which states that all requirements for graduate degree and credential programs, including courses accepted for transfer credit from other institutions, must be completed within a seven-year period.

Veterans receiving an honorable discharge, who left the University in order to perform military services, will be readmitted with the same academic status that he or she had when last in attendance at Brandman University. The length of absence from Brandman University cannot exceed five years.

The University may require students to adopt the catalog year program requirements at the time of their return if a program has become impacted or changed by external regulatory agencies.

If students take coursework during their absence from the University, they must provide official transcripts of that coursework to the Division of Student Services prior to their return. Non-satisfactory performance or issues of academic integrity may nullify the student’s eligibility to return.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding interrupted enrollment.

Re-admission
Students who are absent more than twelve consecutive sessions are required to submit a full application for re-admission and must meet all current admission entrance requirements.

Seven-Year Limitation
All requirements for graduate degrees and credential programs, including courses accepted for transfer credit from other institutions, must be completed within a seven-year period. The seven-year period for transfer
work begins once the coursework is approved and applied to a student’s program evaluation. Interrupted enrollment does not alter the seven year period for completion of all graduate degree requirements.

### Grading Symbols

**A** Exceptional performance indicates consistently excellent performance and distinctly superior quality of work.

**B** Good performance indicates overall satisfactory performance in completing course requirements at the level expected for an advanced degree.

**C** Substandard performance indicates performance below the standard necessary for an advanced degree; while credit toward graduation is awarded for most courses, some courses must be repeated. No grade below “C” is acceptable toward a degree program.

**D** Unacceptable work. No credit is awarded toward graduation or program requirements.

**F** Failure indicates failure to satisfy minimum course requirements. No credit is awarded toward graduation or program requirements.

**I** (plus a grade) is given when the student has been unable to complete the final assignment of the course owing to illness or other extenuating circumstances. The deadline for the final assignment can be no longer than two consecutive sessions following the session the student was enrolled in the course. When entered it is calculated as the grade the student will earn if the incomplete is not removed within the time prescribed by the instructor. (IA, IA+, IB, IB+, IC+, IC, IC-, IF, INP)

**AR** Administrative Review. This grade is submitted by the instructor when a grade is under administrative review. A grade of “AR” will be converted to a letter grade upon completion of the review.

**AU** is for audited coursework. No grade or credit is awarded to students for auditing, and courses are not used in computing the grade point average.

**FW** is assigned to students who cease attending part way through the semester but who do not officially withdraw via MyBrandman Self Service, their home campus or the Division of Student Services. “FW” is computed in the grade point average as an “F”. Students who take a course Pass/No Pass and cease attending part way through the semester and fail to officially withdraw will receive the "FW" grade.

**NP** is for No Pass, a grade given when the requirements in the course have not been satisfied. Grade points are not assigned nor computed in the grade average.

**NR** is for Not Reported, indicating that the instructor has not submitted the final grade, therefore no credits or grade points can be calculated for this course.

**P** is for Pass, a grade given for satisfactory completion of a course. Grade points are not assigned nor computed in the grade average.

**R** on the transcript indicates a repeated course (highest grade calculated in GPA).

**SP** is for Satisfactory Progress. This grading symbol is used to indicate a student is progressing toward the completion of a course which does not end by the normal session ending date or of a thesis, dissertation, project or Nursing clinical hours. Except for doctoral 0 credit courses, it is not a final grade. In non-doctoral extension courses, upon completion of the course or thesis project, the SP grade is replaced with a letter grade of P, or NP grading symbol.

**W** signifies that a student has withdrawn from a course in the prescribed manner.

### Grading System used to calculate grade point average

All grades are on a 4.0 scale

<table>
<thead>
<tr>
<th>Grade</th>

</tbody>
</table>

### Course Audit

Students may audit a class if they choose to do so. No credit is earned from audited classes. A grade of "AU" is assigned to audited classes, which is not used in computing the grade point average. Course requisites are enforced in determination of registration eligibility for the course. Audit fees may be assessed. It is strongly recommended that students confer with their advisor prior to officially auditing a course.

Students may select Audit as an option at the time they initially register for courses via MyBrandman Self Service. After initial registration in a course, in order to change the grading basis to Audit, students must submit a change of grading system request available in MyBrandman Self Service. Course requirements such as homework, exams and papers are not graded by the instructor for students who are auditing a class.

### Courses Repeated for Higher Grades

Except as specified in academic programs, any graduate-level course number 400-700 at Brandman University may be repeated to improve the grade. The lower grade remains on the record with a notation that the course has been repeated. Only the higher grade and credit are computed in the grade point average. Credit is given only once for a repeated course, except as noted in the course description. It is recommended that a course be repeated as soon as practical if it is to be taken for a higher grade. In exercising this option, a graduate student must repeat the course at Brandman University.

### Incompletes

- Instructors may issue a grade of Incomplete when only the final assignment (e.g., paper, project, exam) is missing. Incomplete grades should be considered only if compelling reasons due to extenuating circumstances exist such as health or other emergency situations. The Incomplete process may not be used for a student to improve a grade. During careful consultation with the student, the instructor...
will determine the deadline for the final assignment, which shall be no longer than two consecutive sessions following the session the student was enrolled in the course.

- The student is responsible for knowing the deadline and the requirements for course completion.
- When issuing an incomplete grade, instructors will issue the grade the student would have earned by assessing scores on all graded requirements, preceded by an "I" (e.g., IC- IF+). This grade is determined by including zero points for the final assignment in the calculation of the final grade. If the final assignment is not completed in the period allotted the initial grade issued, without the "I", will become the grade of record.
- Students will receive credit for the course at the time the initial incomplete grade (e.g., IC-, IF+) is entered. The initial grade is calculated in both the session and cumulative GPA, to be updated if necessary when the subsequent grade is submitted (e.g., IC- is changed to C+).

Reading and Conference Courses
Reading and Conference courses are offered to graduate students with an overall grade point average of at least 3.00 and only when absolutely necessary. The courses may be taken only for the purpose of meeting graduation or credential requirements by students who could not meet the requirements because of circumstances beyond their control. They are not offered to resolve scheduling conflicts with other classes, or work, or to complete a schedule. To enroll in reading and conference courses, students must obtain a Request for Course by Reading and Conference form from their campus. Reading and Conference courses must be approved by the appropriate Dean prior to enrollment.

Independent Study and Research
Independent Study and Research is offered to upper-division and graduate students with overall grade point averages of at least 3.0 “B”, to research particular topics that are not provided for by regular curriculum offerings. To enroll in independent study and research, a student must obtain an Independent Study and Research form from their campus. Independent Study and Research courses must be approved by the appropriate Dean prior to enrollment.

Disclaimer for Programs with On-ground Placements, Clinicals, Internships
As an institution with students nationwide, Brandman University monitors each state’s laws and the requirements of each agency therein that regulates Higher Education. We strive to maintain the appropriate approvals in each state, but with hundreds of state agencies nationwide, each having their own (and often changing) requirements, we can make no guarantees.

If it comes to our attention that we must seek State Authorization or complete an approval process, we will take the appropriate steps as quickly as possible. However, your internship or clinical placement at a particular site could be affected or could be prohibited if we are unable to obtain the State authorization or approval on a timely basis. Should you have questions or concerns, please contact your Clinical Coordinator who can assist further.

Standards of Academic Integrity
Brandman University is an academic community based on the principles of honesty, trust, fairness, respect and responsibility. Academic integrity is a core University value, which insures respect for the academic reputation of the University, its students, faculty and staff, and the degrees it confers. The University expects that students will conduct themselves in an honest and ethical manner and respect the intellectual work of others.

To safeguard the conditions under which scholarship is performed, measured and evaluated, the following will serve to:

1. Distinguish the types of academic integrity violations.
2. Identify procedures for hearing cases involving such violations. Any imposed sanction is intended to be within the reasonable range of standard higher education and professional practices and to be applied equitably.

A. Academic Integrity Violations
Academic dishonesty can take a number of forms. It includes, but is not limited to, cheating on a test or examination; claiming the work of another as your own; plagiarizing any paper, research project, or assignment, including an online discussion board assignment; copying and pasting text from an online source directly into an assignment without properly citing the source; reusing your own work in the same or another course without written instructor permission; or falsely submitting material to fulfill course requirements.

Cheating includes:

1. Unauthorized copying from the work of another student, with or without that student’s consent.
2. Using notes or other unauthorized material during a test period.
3. Having another person do all or a substantive part of the work.

Working with Brandman’s Online Writing and Math Community is encouraged.

It is also an academic integrity violation to falsify any academic records or documents. This includes falsely reporting attendance or participation in any field-work or clinical practicum experience or having anyone, other than the registered student, participate in online course activities.

Submitting work done in one course to satisfy the requirements of another course, or a repeated course, or to satisfy a program requirement, is academic dishonesty, unless the instructor(s) receiving the duplicated work agree(s) beforehand, in writing, to accept such work.

Within the same course, submitting work done for one assignment to satisfy the requirements of another assignment is also academic dishonesty, unless the course instructor agrees beforehand, in writing, to accept such work.

Presenting forged or altered documents is academic dishonesty. These documents may include transcripts, add/drop forms, or any academic form that has been falsified or wherein a professor’s signature, or anyone else’s signature, has been forged or altered.

Failing to report any previous academic work presented at another college or University may be considered a violation of academic integrity.

For more details on violations of academic integrity, please see the appropriate section in MyBrandman.

B. Procedures for Hearing and Investigation
The procedures below apply both to current students, and to former students for whom information is discovered after the time of course completion, program requirement completion, and/or degree completion.
regarding alleged academic integrity violations that occurred during the time of the student's enrollment.

In cases involving a single academic integrity violation concerning one assignment in one course, the following action should be taken:

1. The instructor must communicate with the student in private to address the possible violation. The instructor's communication may be through written feedback on an assignment, through Brandman email, by phone, in Adobe Connect, or in person. If the transgression occurs during class (e.g., during a test or examination), the instructor may deal with the situation at that time in as discreet a manner as possible. The student is expected to meet with the instructor (either face-to-face, by phone, in Adobe Connect, or via Brandman email) for the purpose of clarifying the circumstances or settling the issue of responsibility. Students are not eligible to withdraw from the course until final resolution of the alleged violation.

2. After this meeting, if the instructor is satisfied that the incident does not constitute a violation of academic integrity, then the matter is settled, no further action is required, and the Academic Integrity Violation and Sanction Form is not filed.

3. If the instructor determines that there has been a substantiated violation of academic integrity, then the instructor completes the Academic Integrity Violation and Sanction Form on this single violation involving only one assignment, citing the sanction. The form can be found in the faculty area of MyBrandman. The Director of Academic Support and Curriculum will determine whether this is the student's first, second, or successive academic integrity violation at Brandman.

4. If this is the student's first reported academic integrity violation at Brandman, the following procedure is followed:
   a. The completed Academic Integrity Violation and Sanction Form is emailed to the student, instructor, and appropriate office for processing, if required (e.g., change of grade). A record of the academic integrity violation and sanction is filed. If the case is not resolved by the end of the session or the timeline for petition and appeals has not been exhausted, the instructor should enter the grade "AR" (Administrative Review). The student may not withdraw from the course prior to final resolution of the case. The Grade Change Form will be submitted for final grade once the decision is binding.
   b. If the student does not agree with the sanctions imposed by the instructor, as articulated on the Academic Integrity Violation and Sanction Form, the student may work with an advisor to submit a petition within 10 business days of being informed of the imposed sanction. If the student does not submit a petition within 10 business days, the student is ineligible to further appeal the academic integrity violation and sanction.
   c. The Dean or the Dean's Designee will review the petition and contact the involved faculty member (and may also contact the student) in an effort to resolve the matter. The Dean or the Dean's Designee will initiate whatever action he or she sees fit to sustain, overturn, or modify the instructor's sanctions. The Dean will notify the student and instructor of the decision via email. Filing and further processing, if required (e.g., change of grade), will occur as necessary.
   d. If there is dissatisfaction with the petition decision made by the appropriate Dean, the student may request a hearing with the Governance and Appeals Committee (GAC), within ten business days of receiving the Dean's decision. The request will be forwarded to the GAC for review and to render a decision.

To render a decision, the GAC will appoint a quorum of three committee members. The GAC Chair will notify the student, the instructor, and the Dean of their decision. If the student does not submit a hearing request within 10 business days, the student is ineligible to further appeal the academic integrity violation and sanction.

e. A student has the right to appeal within 30 days of notification by the GAC of the academic integrity decision. Appeal decisions are based on relevant information that was not available at the time of the decision, or if procedures were not followed in accordance with Brandman academic policy/guidelines. An appeal is not a reconsideration of the merits of the decision. The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

5. In cases involving multiple academic integrity violations concerning more than one assignment in the same course, the following action should be taken:
   a. For the student's first reported academic integrity violation within a course, the procedure in either B1-4e or 6a-c is followed depending upon whether the student has prior academic integrity violations at Brandman University.
   b. For a student's second and successive violations within a single course, the instructor must communicate with the student as soon as possible after each violation. After the deadline for the final course assignment but before final grades are filed, the instructor should submit a second Academic Integrity Violation and Sanction Form that includes all successive violations and the assignments that they involve. On this second form, the instructor should cite one sanction for each violation reported on the form, or one sanction for all violations reported on the form. A second or successive violation in the same course will be treated as the student's second or successive academic integrity violation at Brandman, and the procedure described below in 6a – 6c is followed at this point. As the case will not be resolved by the end of the session, the instructor should assign the student a course grade of "AR" (Administrative Review). The student may not withdraw from the course prior to final resolution of the case. The Grade Change Form will be submitted for final grade once the decision is binding.

6. If this is the student's second or successive academic integrity violation at Brandman University, the following procedure is followed:
   a. The most recently completed Academic Integrity Violation and Sanction Form is emailed to the student and instructor. A record of the academic integrity violation and sanction is filed. The student may not withdraw from the course before the resolution of the case. Since the student has more than one Academic Integrity Violation, the completed Academic Integrity Violation and Sanction Form and the students' prior Academic Integrity Violation and Sanction Form(s) are also sent to the Dean or the Dean's Designee to review. The Dean or the Dean's Designee will initiate whatever action he or she sees fit to sustain, overturn, or modify the instructor's sanctions based on the student's current and prior violations. The Dean will notify the student and instructor of his or her decision via email. Filing and further processing, if required (e.g., change of grade, academic dismissal), will occur as necessary.
   b. If there is dissatisfaction with the petition decision made by the appropriate Dean, the student may request a hearing with the Governance and Appeals Committee (GAC), within ten
boards and discipline-specific criteria. Violations of ethical professional behavior may result in dismissal from the university. Refer to appropriate school for professional code of conduct policy.

Student Conduct

Brandman University is an academic community committed to maintaining an environment that encourages personal and intellectual growth. It is a community with high standards and high expectations for those who choose to become a part of it, and it is a community with established rules of conduct intended to foster behaviors that are consistent with a civil and educational setting. Members of the University community are expected to comply with all laws, University policies, and professional ethical standards, conducting themselves in ways that support an academic environment.

Faculty members are responsible for ensuring an effective learning environment for all students in their classes, which encourages active student participation, including the right to raise questions and challenge information. Hence, faculty members also have the responsibility and authority to maintain appropriate student behavior. Classes are defined as including laboratories, internships, field placements, or any settings that can be designated as a learning environment, such as travel studies and field trips.

Consequently, if a student is considered to be threatening or disruptive in the classroom, behaves in a way that interferes with the learning of other students, or refuses to fulfill the academic requirements of the course, the faculty member has the right to have the student who demonstrates such behavior removed from the class, either by administrative withdrawal or by making arrangements for the student to complete the requirements in absentia.

For information regarding potential student conduct violations including electronic media violations, refer to the Student Conduct Code available in MyBrandman.

Students must also adhere to ethical standards set forth by professional licensing boards and discipline specific criteria. Violations of ethical professional behavior may result in dismissal from the university. Refer to appropriate school for professional code of conduct policy.

Incident reports should be made immediately to the appropriate Dean and Campus Director. Refer to student conduct code for hearing procedure.

Grade Review Policy

Faculty/Instructors have the final authority in assigning student grades except for cases involving clear evidence of capricious grading or failure to follow the professional standards of a discipline or field. Requests for review of grade must be filed within 30 days from the date that the grade was posted in MyBrandman Self Service. Challenges to allegations of academic integrity violations such as plagiarism must be submitted and adjudicated under the academic integrity policies and procedures, not under the grade challenge policies and procedures.

Faculty/Instructors may change final grades after initial submission only for clerical error. Clerical error revisions are submitted by the instructor via the Grade Change form located on Self-Service for Faculty. Once a grade is submitted, additional work may not be accepted to enable the student to receive a higher grade.

However, a student who believes he or she has received a grade that is capricious or based on standards that are not in line with the professional standards of a discipline or field must contact the faculty/instructor for an explanation of the grade and for possible reconsideration. Students...
have a right to request a review of a grade within 30 calendar days of the official posting of the grade.

Grade Challenge Procedure

1. Instructors must carry out a grade review process with the student within 15 calendar days of the student request, and notify the dean the results of that review. All grade changes will be submitted via the Grade Change form located on Self-Service for Faculty.

2. If after meeting with the instructor the grade dispute is not resolved, the student may submit a written request for review by the Dean/Advisor. That request for review must be submitted utilizing the Grade Review form within 30 calendar days of the official response to the student by the instructor. This appeal must provide:
   a. The rationale for the request for review, and
   b. All supporting documentation related to the request, including verification that the student has been in contact with the instructor as specified in step a. An example of verification would be an email from the instructor verifying the grade review meeting with the student, or an email verification that the instructor was not able to meet with the student.

3. If the Dean finds merit in the student’s request, the Dean will review the grade assignment, determine a final grade, and notify the student and instructor of the results via Brandman email. The final grade may be higher, lower, or the same as the grade originally assigned by the instructor.

4. If the Dean does not find merit in the request, the student and instructor will be notified and the grade will stand. The Dean’s finding of a lack of merit in a student’s request for grade review is not subject to appeal.

5. The student may submit an appeal to the Provost within 30 calendar days of the notification of the Dean’s decision. Appeals must be based upon one of the following:
   a. Additional relevant information which the student did not have at the time of the original request/subsequent request is now available for consideration.
   b. Grade challenge procedures were not followed in accordance with Brandman academic policy/guidelines.
   c. The grade determination did not follow guidelines established within the course syllabus.

6. The Provost may determine:
   a. The appeal does not meet the additional criteria and deny the request; or
   b. The appeal does show that one of the appellate criteria has been met, and
      i. will refer the request back to the Dean for final review (not subject to appeal); or
      ii. will determine a final grade.

7. All decisions by the Provost are final and binding.

To submit a Grade Challenge Form, please contact your Academic Advisor.

Graduate Probation and Dismissal

Academic Probation

The following policy is Brandman University’s guideline for satisfactory academic achievement in graduate programs. Please note that program GPA requirements may specify more stringent policies. Please refer to appropriate degree and program section.

A degree seeking graduate student whose overall GPA (includes Brandman institutional coursework and transfer coursework) falls below 3.0 at the end of one enrolled session or whose session GPA falls below 3.0 at Brandman University will be placed on probation. Students on academic probation will be expected to consult with their advisor for guidance and assistance regarding improving their academic status.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding academic probation.

Academic Dismissal

Students who have been placed on probation three or more times during their graduate education are subject to academic dismissal from the university. The appropriate School Dean will review such cases and will render the decision whether a student should be academically dismissed.

The action of dismissal will be placed on the official transcript. A student who has been dismissed will be administratively withdrawn from the university at the end of the current enrolled session and may not continue coursework.

A student has the right to appeal within 30 days of notification of the academic dismissal decision. Students cannot be enrolled in courses during the appeal process. Appeal decisions are based on relevant information that was not available at the time of the decision or if procedures were not followed in accordance with Brandman academic policy/guidelines. It is not a reconsideration of the merits of the decision.

The appeal decision will be rendered by the Office of the Executive Vice Chancellor of Academic Affairs. The appeal decision will be final and binding.

Academic Probation and Dismissal policies are separate from and in addition to policies governing dismissal for violating academic integrity or dismissal for inappropriate student behavior.

Students seeking to be readmitted may do so after one year by requesting to the appropriate School Dean. The School Dean will make the readmission decision. All students who return after academic dismissal will be placed in a probation status.

Veteran and Active Duty Military Students: see Military and Veterans Services section of the catalog regarding academic probation and dismissal.

Petitions

A petition is a request to waive an academic policy, procedure, or ruling.

Students may file a petition to request an exception to Brandman University policy, procedure, or ruling. Students must explain fully why the University should act favorably on the petition, citing any exceptional conditions, mitigating circumstances, and/or conditions beyond the student’s control.

Petitions/requests will be reviewed and ruled upon by the designated office or committee listed on the Brandman Petition/Request location within the Active Campus Portal. Not all university policies, procedures, or rulings can be petitioned; see the Brandman Student location within the MyBrandman portal for more information.
Academic Appeal

An appeal is a review of a petition decision based on relevant information not available to the student at the time of the initial petition submission, or procedures were not followed in accordance with Brandman academic policy/guidelines. It is not a reconsideration of the merits of the decision. Not all Brandman policies or petition decisions are appealable; see the Brandman Petition/Request location within MyBrandman for more information.

Comprehensive Examination

1. Some Master’s degree candidates must pass a computer administered comprehensive examination if required by the specific degree program. Students must be admitted to and active in the degree program.

2. Successful completion of coursework does not alone assure the candidate of passing the comprehensive examination. This examination demonstrates the independent ability of the student to synthesize and present adequate and appropriate knowledge without the focus of a course content outline or an instructor’s prompting. The student must show the ability to cogently apply theory to a variety of situations and applications. Program faculty and advisors do not “tutor” students regarding specific questions on the examination either prior to or following the exam.

3. Students must have achieved a cumulative GPA of 3.0 “B” and must meet specific program eligibility requirements to take the comprehensive examination. Each program has specific eligibility requirements which must be fulfilled prior to the date of the examination. Please consult the appropriate section of the catalog.

4. An application form must be submitted and a fee paid by the student to take or repeat a comprehensive examination. In addition, if the examination is not taken on the date for which the student applied, a new application must be submitted. Applications must be received by the campus before or on the posted deadline date. The comprehensive examination may be repeated at the next offering, subject to additional conditions the degree program may impose.

5. The comprehensive examination is administered by computer in a controlled setting providing equity for all students. If the student has a demonstrated disability which inhibits performance on this controlled exam, the student must make arrangements for the appropriate accommodation when registering for the exam by completing the ADA Accommodations Request. The Director of American Disabilities Act Services located at Brandman University in Irvine, CA will review specific documentation of the disability and recommend appropriate accommodations to the Office of the Executive Vice Chancellor of Academic Affairs who will render the final decision.

6. The comprehensive examination is a summative evaluation. Unlike regular coursework and formative assessments taken during completion of the degree, it is designed to be an integrative, independent endpoint assessment of the student’s cumulative knowledge. Comprehensive examinations are evaluated in a controlled setting with double-blind anonymity. Students receive a PASS/FAIL grade with generic feedback regarding the adequacy of the responses.

7. Comprehensive exam results are final and cannot be appealed. Students have multiple opportunities to take the examination within the seven-year period in which all degree requirements must be completed. After the second failure, specific preparation requirements may be specified, such as auditing or repeating coursework.

Graduation

Degree Conferral

Degree conferral is an automatic process; students do not need to apply for degree conferral. Degree conferral is the result of the official program evaluation from Degree Works reflecting all requirements complete. The Degree Conferral date is final and is not subject to a request for back dating.

More information on Degree Conferral is available on MyBrandman.

Commencement

To participate in ceremonies students must submit a “Commencement Attendance Reply” form available in MyBrandman. Brandman email notifications will be sent to eligible students when the form is available to submit starting in February. To be eligible for participation in the commencement ceremonies, the student’s official degree audit must indicate that the student is on course to satisfactorily complete all degree requirements by the end of Summer II of that year or sooner, as verified by the academic advisor and so indicated by the expected graduation date on the student’s record. Participation does not guarantee or automatically imply graduation from the University. For more information, please go to https://www.brandman.edu/commencement or contact your academic advisor.

Diplomas and Transcripts

Diplomas and/or transcripts will not be released if the student has an active diploma/transcript hold as indicated in the Holds section of MyBrandman Self Service. Currently enrolled students may order official copies of transcripts or print unofficial copies of transcripts at any time via MyBrandman Self Service; processing and fee information is available at that site.

Transcripts from other institutions which have been presented for admission or evaluation become part of the student’s academic file and are not returned or copied for distribution.

Diplomas and/or transcripts will not be released if the student has an active diploma/transcript hold as indicated in the Self Service Holds section in MyBrandman. Currently enrolled students may print unofficial copies of transcripts at any time via MyBrandman Self Service Transcript Ordering Process. For further processing and fee information contact the Transcript Processing Department at https://www.brandman.edu/current-students/registrar/transcripts.

Transition from Chapman University to Brandman University

Chapman University College is now Brandman University. Brandman University is part of the Chapman University System. During this transition, the following applies:

- Students whose designated catalog year is 2009-2010 or prior may choose either a Brandman University or Chapman University degree and diploma.
- All students earning a Bachelor of Business Administration, Master of Business Administration, or Master of Public Administration regardless of designated catalog year will be granted a Brandman University degree and diploma.
• All Brandman University diplomas will state that Brandman University is part of the Chapman University System.
• Students whose designated catalog year is 2010-2011 or later will receive a Brandman University degree and diploma.

Undergraduate Credit Hour Degree Requirements

Graduation Requirements—Associate of Arts in General Education
• A minimum of 60 credits is required.
• Completion of degree program requirements.
• 15 lower division credits in residence.
• 2.0 minimum cumulative grade point average.
• Degree requirements cannot be waived by the CSU or IGETC certification.
• LBSU 100 Student Success Strategies and LBSU 105 Academic Foundations cannot be satisfied in transfer.

Graduation Requirements—Bachelor Degrees
• A minimum of 120 credits.
• 36 credits earned in upper-division coursework.
• Minimum of 30 credits completed in residence at Brandman; 18 of which must be upper-division credits, 12 of which must be completed in students major.
• A 2.0 grade point average on a 4.0 scale at Brandman and transfer work.
• A 2.0 grade point average in all major and minor coursework. Programs may have additional grade requirements.
• Resolution of all “I” grades.
• LBSU 302 Information Fluency and Academic Integrity (Cannot be used as an elective in a major, minor, or certificate program)
• LBSU 304 Liberal Arts Core Foundations (Cannot be used as an elective in a major, minor, or certificate program)

Academic Major Credits and specific courses
• See program listing. Students must follow general education and major requirements of the same year.

Other Requirements
• A minimum of 21 credits of upper-division coursework in the major; a minimum of a 2.0 grade point average on a 4.0 scale in the major and in upper-division work.

Double Major (Seeking Concurrently)
• A maximum of 18 credits may be duplicated by the second major.
• Completion of all requirements for both majors.
• Diploma(s) will be issued for each type of degree showing the majors completed at the time of graduation.

Minors
• Must be completed in a discipline outside the student’s major or, outside the primary emphasis area in the social science major.
• A minimum of 18 credits, 9 of which, may not be duplicated by the major.
• A minimum of 9 upper-division credits.
• A minimum of 6 upper-division credits completed in residence.
• 2.0 cumulative average and 2.0 GPA for all upper-division coursework.

Electives
• Course of the student’s own choosing taken beyond requirements of general education and major/minor in order to meet minimum credit requirements for graduation.

Second or Additional Bachelor’s Degree at Brandman or Chapman University
(After initial Bachelors degree has been conferred)
• A student must apply and be admitted to seek a second bachelor degree or major.
• All major requirements must be met.
• A minimum of 30 semester credits in residence beyond the minimum requirements for the first bachelor’s degree.
• LBSU 302 Information Fluency and Academic Integrity and LBSU 304 Liberal Arts Core Foundations are waived for all bachelor degree holders from another regionally accredited institution.

Undergraduate Competency-Based Degree Requirements

Graduation Requirements—Bachelor Degrees
• Completion of Orientation Competency
• Mastery of all competencies required for the degree program(s)
• Minimum of 30 equivalent credits completed in residency at Brandman University
GENERAL EDUCATION REQUIREMENTS (CREDIT HOUR)

The General Education requirements at Brandman University provide both the broad, integrative knowledge and the intellectual foundation that enables students to expand their perspectives beyond the focus of a major. In addition, they impart comprehensive, cross-disciplinary skills that are relevant within the student’s major as well as valuable to employers.

The General Education Requirements are comprised of 42 total units as follows:

<table>

Total Credits: 42

* Cannot be used as an elective in a major, minor, or certificate program. Must be taken within the first two sessions if not satisfied in transfer, or within first two sessions after completing required remedial writing coursework.

** Cannot be used as an elective in a major, minor, or certificate program. These must be taken within first two sessions after matriculation if ENGU 103 Writing and Rhetoric and ENGU 104 Writing About Literature are satisfied, or within the first two sessions after those requirements are completed. They cannot be satisfied in transfer.

Brandman University Institutional Learning Outcomes

Institutional Learning Outcomes identify the competencies students will demonstrate by the end of their degree program. Every baccalaureate degree program introduces these skills and provides students opportunities to practice and demonstrate mastery.

The Institutional Learning Outcomes are:

- **Applied Learning**: Design a project, paper, performance, or other appropriate task linking knowledge skills from work, experiential learning, or community activities with knowledge acquired in academic disciplines.
- **Innovation and Creativity**: Construct a novel or unique idea, question, format, or product.
- **Civic Engagement**: Describe insights gained from engaging physically and/or intellectually with activities of personal and public concern that are both individually life enriching and socially beneficial to the community.
- **Global Cultures**: Explain the relationship between a global issue and the history, values, politics, economy, communication styles, or beliefs and practices of one or more cultures affected by that issue.
- **Integrated Learning**: Devise connections among experiences inside and outside the formal classroom, or connections among multiple fields of study.
SCHOOL OF ARTS AND SCIENCES

Undergraduate Degree Programs

• Associate of Arts in General Education (p. 45)
• Bachelor of Arts in Applied Studies (p. 47)
• Bachelor of Arts in Communications and Media (p. 48)
• Bachelor of Arts in Criminal Justice (p. 50)
• Bachelor of Arts in Integrated Social Sciences (p. 53)
• Bachelor of Arts in Legal Studies (p. 55)
• Bachelor of Arts in Liberal Studies (p. 58)
• Bachelor of Arts in Psychology (p. 63)
• Bachelor of Arts in Social Work (p. 66)
• Bachelor of Arts in Sociology (p. 70)

Undergraduate Minors

• Minor in Communications and Media (p. 49)
• Minor in Criminal Justice (p. 52)
• Minor in Integrated Social Sciences (p. 54)
• Minor in Legal Studies (p. 57)
• Minor in Psychology (p. 65)

Undergraduate Certificates

• Nutrition and Wellness (p. 72)
• Paralegal (p. 73)

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Graduate Degree Program

• Master of Arts in Psychology (p. 74)

Arts and Sciences Mission Statement

The mission of the School of Arts and Sciences is to provide a dynamic education that nurtures and stimulates intellectual growth and a greater understanding of our diverse communities. With cross-disciplinary curricula in the arts, humanities, behavioral, natural, and social sciences, the school utilizes innovative curricula, pedagogy, and technologies to foster scholar-practitioners who value ethics and service to others.

The School of Arts & Sciences is a member of the Council of Colleges of Arts & Sciences.
ASSOCIATE OF ARTS IN GENERAL EDUCATION

Graduation Requirements – Associate of Arts

- A minimum of 60 credits is required.
- Completion of degree program requirements.
- 15 lower division credits in residence.
- 2.0 minimum cumulative grade point average.
- Degree requirements cannot be waived by the CSU or IGETC certification.
- LBSU 100 Student Success Strategies and LBSU 105 Academic Foundations cannot be satisfied in transfer.

The Associate of Arts (A.A.) in General Education is designed to introduce students to the challenges and to a broad range of subjects, including written and oral communication, liberal studies, mathematics, history, art, philosophy, social sciences, and natural sciences. The program’s outcomes emphasize key intellectual skills which transcend disciplinary boundaries and which are essential for the successful college undergraduate. Upon successful completion of the A.A. program, students will have a solid preparation for further undergraduate study at the bachelor’s level and for the baseline needs and expectations of the contemporary American workplace.

The A.A. Degree requires successful completion of 60 credit hours with a minimum cumulative 2.0 G.P.A. Successful completion of the A.A. Degree satisfies the Basic Skills and Breadth requirements in the General Education program for Brandman University bachelor’s programs.

Students who are admitted to the program will begin their studies with the following sequence of courses: LBSU 100 Student Success Strategies, ENU 103 Writing and Rhetoric, ENU 104 Writing About Literature, LBSU 105 Academic Foundations. LBSU 100 Student Success Strategies and ENU 103 Writing and Rhetoric may be taken concurrently; and ENU 104 Writing About Literature and LBSU 105 Academic Foundations may be taken concurrently. ENU 103 Writing and Rhetoric and ENU 104 Writing About Literature may be satisfied in transfer.

Program Learning Outcomes

- **Written Fluency**: Compose written arguments that are coherent, grammatically correct, and rhetorically aware.
- **Oral Fluency**: Present effective, audience-appropriate oral presentations that develop and support a point.
- **Quantitative Fluency**: Explain how accurate calculations and symbolic operations are used in interpreting social and economic trends.
- **Applied Learning**: Evaluate a scenario in which academic knowledge and skills could be applied to a work or community issue.
- **Innovation and Creativity**: Discuss a novel or unique idea, question, format, or product.
- **Global Cultures/Engaging Diverse Perspectives**: Explain how knowledge from different cultural perspectives would affect one’s interpretation of prominent problems in politics, society, the arts, and/or global relations.
- **Information Literacy**: Evaluate and cite various information resources necessary to complete an academic research essay.

Admission to the Program

Admission to the Associate of Arts in General Education may be achieved through Undergraduate Admission criteria “Degree Seeking Student Applicants” or by completion of the following requirements:

1. High school diploma, HiSET or GED equivalent.
2. High school cumulative GPA of 2.0
   a. Successful completion of a transferable course to ENU 103 Writing and Rhetoric or ENU 104 Writing About Literature (grade of “C” or higher) waives admissions test in English.
   b. Successful completion of a transferable course to MATU 103 Applied Mathematics or higher (grade of “C” or higher) waives admissions test in Math.

Basic Skills (12 credits)

| Written Communication I:          | 3 |
| ENU 103  Writing and Rhetoric     |

| Written Communication II:         | 3 |
| ENU 104  Writing About Literature |

| Quantitative Fluency:             | 3 |
| MATU 103  Applied Mathematics     |

| Oral Communication:               | 3 |
| COMU 101  Public Speaking I       |

Breadth Requirements (24 Credits)

Humanities:
Select 9 credits from 3 different areas: 9

- Communications
- English
- Fine Arts
- Foreign Languages
- Humanities
- Liberal Studies
- Philosophy
- Religious Studies

Natural Sciences 6

BACHELOR OF ARTS IN APPLIED STUDIES

The Bachelor of Arts (B.A.) in Applied Studies is designed to accommodate the varied educational and professional backgrounds of students by teaching competencies that are relevant for a broad range of career and work settings. Students apply to their academic studies the knowledge and skills they have acquired in work, educational, and community environments; and in turn, students apply to their professional work the skills and competencies from their academic coursework. This is a degree completion program especially suited for police officers, EMS workers, firefighters, and other professionals seeking a college degree for career growth and advancement.

While a traditional degree provides depth within a single discipline, the B.A. in Applied Studies offers a learning experience that is transdisciplinary. Students complete a set of core courses and choose electives or themed concentrations that are suited to their personal interests and career goals. In their capstone course, students produce a portfolio that showcases the synthesis of their academic and professional work for current and future employers.

Program Mission Statement

The Bachelor of Arts (B.A.) in Applied Studies offers a clear and attainable path to degree for students pursuing their careers and whose previous college level credits may not be easily applied to a single discipline or major. The degree integrates upper-division academic study in areas such as organizational and written communication, diversity, and ethics with students' professional experience, preparing them to achieve their goals for professional advancement and/or to pursue graduate education.

Program Learning Outcomes

- **Communication**: Communicate effectively through a variety of mediums.
- **Diversity**: Demonstrate an understanding of intercultural complexities.
- **Ethics**: Apply ethical principles to personal and professional contexts.
- **Applied Learning**: Create a professional portfolio linking knowledge or skills acquired in work or community with knowledge acquired in academic study.

Degree Requirements

In addition to the University General Education (p. 43) and elective requirements, the BAAS has a foundation requirement of 15 credits and a degree concentration of 21 credit hours at the upper division level. All courses taken in the major program must be passed with a letter grade of "C" or higher.

Courses may be used to fulfill both major and general education requirements.

BACHELOR OF ARTS IN COMMUNICATIONS AND MEDIA

The Bachelor of Arts (B.A.) in Communications and Media is designed to provide undergraduates with the knowledge, skills, and adaptability necessary to succeed in professional environments which require application of communication skills and media. The curriculum emphasizes the intersections between communication, media and technology, ethical considerations in media and communication, and interpretation of data analytics as a strategy to gather information and engage diverse audiences across separate and converging media platforms. Students will develop an understanding of storytelling skills that connect mass media production to stakeholder communities in the context of journalism, public relations and social media. This degree provides a strong foundation for students seeking careers related to social media, public relations, journalism, digital marketing, project and product management, media relations, and communication strategy, as well as for further studies in a variety of professional disciplines.

All courses taken in the major program must be passed with a letter grade of “C” or higher.

Courses may be used to fulfill both major and general education requirements.

Program Mission Statement

The mission of the communications and media program is to inspire students to develop solutions and adapt to real world challenges by communicating effectively, gathering and interpreting data, examining ethical considerations, and creating compelling stories to engage diverse audiences across media platforms in the ever changing cultural and technological landscape.

Program Learning Outcomes (PLOs)

• Communication: Apply effective communication skills to meet the needs of diverse audiences.
• Technoculture: Analyze the relationship between culture, media and technology.
• Ethics: Examine ethical considerations in media and communication environments.
• Storytelling: Create compelling stories to engage stakeholders across a variety of media platforms.
• Data Analytics: Interpret data analytics in a media environment.
• Real World Implementation: Create a solution to a real world challenge by integrating communication skills and media tools.

BACHELOR OF ARTS IN CRIMINAL JUSTICE

Who commits crime? Is the United States correctional system tough or easy on criminals? Has Homeland Security effectively created a safer environment in a post 9/11 world? The Bachelor of Arts degree in Criminal Justice leads students to examine these and other questions about the scientific study of criminal behaviors in their complex sociological settings. The B.A. in Criminal Justice (BACJ) imparts leadership skills to a new class of specialist—a dedicated person who employs professional knowledge of social and organizational groups and the individuals within them to enhance the fairness and effectiveness of the American criminal justice system.

The BACJ degree program utilizes the subject matter expertise from criminal justice, social science, sociology, political science, and organizational leadership. The course offerings provide adult learners the requisite tools to quickly become valuable and valued members of both public and private sector organizations, possessing effective communication skills, analytical problem-solving skills, strong ethical principles, and both a practical and theoretical understanding of organizational dynamics.

Program Learning Outcomes

- **Legal System**: Demonstrate an understanding of the legal system, including where and how the system of criminal justice and its actors fit within it.
- **Theory**: Apply basic criminological and sociological theories to various criminal and deviant behaviors.
- **Ethics**: Demonstrate an understanding of various ethical and legal dilemmas that typically confront criminal justice professionals whether employed domestically or internationally.
- **Pressures**: Demonstrate an understanding of the pressures that diverse, social, cultural, economic and political actors have exerted, and continue to exert, on criminal justice systems, both domestically and internationally.
- **Research**: Evaluate published research pertaining to a criminal justice issue, trend, or practice.

All courses taken in the major program must be passed with a letter grade of "C" or higher.

Courses may be used to fulfill both major and general education requirements.

Total Credits 9
The Integrated Social Sciences major is grounded in Brandman University's commitment to the liberal arts tradition united with intellectual abilities that are vital for 21st century challenges. The curriculum prepares students to create relevant empirical inquiries focused on solving real-world, integrated problems using applied research skills. The Integrated Social Sciences major brings together thoughts and approaches from different disciplines and teaches methodological, communication, cultural and interdisciplinary thinking skills that enable students to identify and analyze societal and workplace challenges. Students in the program develop skills for understanding people, the places they live, the complex challenges they face, and the interconnections among these dynamics. They creatively apply diverse and integrated methods (quantitative, spatial and qualitative) to generate policies and solutions. Graduates of the program are integrated problem-solvers who have the ability to think holistically, identify societal issues of concern, and use a variety of research methods to study such problems and develop solutions. This degree provides a strong foundation for careers in such fields as social services, health, analytics, government, non-profit and for-profit enterprises, teaching and environmental science. The Integrated Social Sciences major also prepares students for many fields that require analytical, problem solving skills and for graduate study in a wide range of disciplines.

The Integrated Social Sciences curriculum requires students to take 10 core courses and to choose five elective courses. Moving through the core courses, students follow a progression that begins with learning how to think about issues in an integrated manner, how to identify a societal problem, and how to creatively approach problems using spatial thinking and cutting-edge effective technologies such as Geographic Information Systems (GIS). Additionally, students master interdisciplinary critical thinking skills and the quantitative, qualitative and spatial methods collectively needed to understand complex phenomena in society and the environment. After developing integrated thinking skills in their coursework, students apply those skills in the culminating capstone experience, designing policies to help solve complex social and environmental challenges.

**Program Mission Statement**

The mission of the Bachelor of Arts (B.A.) in Integrated Social Sciences is to equip students with an understanding of interdisciplinary problem-solving, multiple research methods, policy, effective communication skills, and the relationship between society and the environment to creatively meet challenges in public, private, educational and non-profit sectors.

**Program Learning Outcomes**

- **Integrated Research Methods**: Employ multiple research methods within an interdisciplinary context.

- **Policy**: Analyze the creation and application of policy in society.

- **Communication**: Practice culturally relevant verbal and written communication.

- **Interdisciplinary Thinking and Evaluation**: Evaluate a problem and determine creative solutions using holistic thinking.

- **Environment**: Generate interdisciplinary connections between environment, health and societal well-being.

- **Spatial Thinking and Analysis**: Apply spatial thinking to analyze and develop solutions to societal problems.

All courses taken in the major program must be passed with a letter grade of "C" or higher.

Courses may be used to fulfill both major and general requirements.

BACHELOR OF ARTS IN LEGAL STUDIES

The Bachelor of Arts (B.A.) in Legal Studies is designed to provide undergraduates with the knowledge and skills necessary to excel in environments which require an understanding of legal concepts. The curriculum addresses the application of writing, research, analysis, ethics, and communication in a legal setting and includes a focus on American constitutional governance. The major in Legal Studies offers a general concentration as well as specific concentrations in the Paralegal Profession and in Business Law. This degree provides a strong foundation for students seeking challenging work in diverse legal settings, and for further study in legal and related disciplines. Students completing the BA in Legal Studies with Paralegal Professional Concentration will meet the qualifications required to sit for the Paralegal Core Competencies Exam (NFPA), to sit for the Certified Paralegal Exam (NALA), and to work as a paralegal within the state of California.

Program Mission Statement
The mission of the Bachelor of Arts (B.A.) in Legal Studies is to empower students to be dynamic, ethical problem-solvers who effectively apply critical thinking, analytical and research skills in a legal context.

Program Learning Outcomes
- **Legal Writing**: Demonstrate proficiency in legal writing.
- **Governance**: Demonstrate an understanding of modern American constitutional governance.
- **Ethics**: Apply ethical practices to situations in a legal environment.
- **Legal Research**: Demonstrate proficiency in current legal research methods.
- **Communication**: Apply communication skills in such areas as negotiation, arbitration, mediation, dispute resolution, and interviewing.
- **Legal Analysis**: Apply critical thinking and analytical skills in a legal environment.

All courses taken in the major program must be passed with a letter grade of "C" or higher. Courses may be used to fulfill both major and general education requirements.

BACHELOR OF ARTS IN LIBERAL STUDIES

The B.A. in Liberal Studies is the undergraduate major of choice for the individual desiring to teach in an elementary classroom or for those students seeking a broad liberal studies education. The program has two emphasis options, the Multiple Subject Teaching Emphasis and the Integrated California Multiple Subjects Teaching Credential Emphasis. The Multiple Subject Teaching Emphasis provides the undergraduate preparation needed for entry into post-baccalaureate Multiple Subject Credential Programs while the Integrated California Multiple Subjects Teaching Credential Emphasis combines that undergraduate coursework with the curriculum of the School of Education’s Multiple Subject Teacher Credential Program. Admission requirements for the two options differ so please note requirements listed below. The B.A. in Liberal Studies program is administered jointly by the School of Arts & Sciences and the School of Education.

I. The Multiple Subjects Teaching Emphasis

The Multiple Subject Teaching Emphasis encompasses college instruction in the subjects that are commonly taught in California’s elementary schools including courses in English/language arts, natural sciences, mathematics, visual and performing arts, history and social science, human development, physical education and health. Courses are aligned with subject matter requirements for multiple subject credential candidates and the Common Core State Standards. Candidates examine education from a variety of perspectives, explore child development as it relates to learning and teaching, and conduct applied research projects.

Program Learning Outcomes

• Educational Perspectives: Analyze the relationships between education, self, society and nature.
• Child Development: Apply theories of social, emotional, cognitive, and physical development to learning and teaching.
• Research: Create an applied research project.
• Subject Matter Knowledge: Apply subject matter knowledge in an educational context.

Admission Requirements

The standard Brandman University undergraduate admission requirements described in the admission section of the catalog apply to this emphasis.

Subject Matter Preparation

The program focuses on the use of technology in the classroom and the engaging lessons and develop skills in planning and differentiating Common Core Standards and other state content standards to design current research in education and best practices. Candidates utilize Credentialing (CTC) Teacher Performance Expectations and reflect experiences are aligned with the California Commission on Teacher teach in an elementary school (K-6). Credential courses and fieldwork Learners; it is the credential typically sought by those who wish to subjects in a self-contained classroom, K-12, including English Language The Multiple Subject Credential program prepares individuals to teach all sciences, mathematics, visual and performing arts, history and social education from a variety of perspectives, explore child development as it relates to learning and teaching, and conduct applied research projects.

II. Integrated California Multiple Subjects Teaching Credential Emphasis

The Integrated California Multiple Subject Credential Emphasis provides students with a Bachelor of Arts degree in Liberal Studies from the School of Arts and Sciences and a Multiple Subject Teaching Credential from the School of Education. The program includes upper division and graduate-level courses that are taken across the schools.

The Multiple Subject Teaching Emphasis encompasses college instruction in the subjects that are commonly taught in California's elementary schools including courses in English/language arts, natural sciences, mathematics, visual and performing arts, history and social science, human development, physical education and health. Courses are aligned with subject matter requirements for multiple subject credential candidates and the Common Core State Standards. Candidates examine education from a variety of perspectives, explore child development as it relates to learning and teaching, and conduct applied research projects.

The Multiple Subject Credential program prepares individuals to teach all subjects in a self-contained classroom, K-12, including English Language Learners; it is the credential typically sought by those who wish to teach in an elementary school (K-6). Credential courses and fieldwork experiences are aligned with the California Commission on Teacher Credentialing (CTC) Teacher Performance Expectations and reflect current research in education and best practices. Candidates utilize Common Core Standards and other state content standards to design engaging lessons and develop skills in planning and differentiating instruction, classroom management, and assessment. In addition, the program focuses on the use of technology in the classroom and the development of 21st Century Skills.

Program Learning Outcomes for the Subject Matter Preparation

- **Educational Perspectives:** Analyze the relationships between education, self, society and nature.
- **Child Development:** Apply theories of social, emotional, cognitive, and physical development to learning and teaching.
- **Research:** Create an applied research project.

- **Subject Matter Knowledge:** Apply subject matter knowledge in an educational context.

Program Learning Outcomes for the Multiple Subject Credential

- **Focused Inquiry:** Examine classroom, school and the community contexts and use information to plan and design learning experiences.
- **Positive Learning Environment:** Develop and utilize classroom management strategies that support student learning and encourage positive social interaction.
- **Curriculum Design:** Create learning experiences that make subject matter accessible and comprehensible to students.
- **Instruction:** Design differentiated instruction based on the needs of students.
- **Assessment:** Utilize multiple methods of assessment to monitor student learning and inform instruction.
- **Clinical Practice:** Apply subject matter pedagogical skills in authentic settings and continually reflect on and evaluate the effects of decisions and actions on others.

Professional Dispositions

The School of Education has adopted a set of professional behaviors or dispositions and candidates are expected to demonstrate these dispositions throughout all education programs. Dispositions are evaluated by course instructors at different points in the program and candidates do a self-assessment at the beginning and end of the program. The Professional Dispositions are provided to all education students at their initial advising session and can also be found on the University Student Code of Conduct section and on the School of Education Student Services page in MyBrandman.

Admission Requirements

1. Applicants to this emphasis must complete the formal application process through the School of Education, with all required documents including official (sealed) transcripts from ALL colleges and universities attended (only credits from regionally accredited institutions may be accepted in transfer), a “Statement of Intent” and three recommendation forms.
2. Proof of a passing score on the California Basic Education Skills Test (CBEST) or any CTC approved basic skills tests is required for admission to this program.
3. Applicants must possess a grade point average of 2.75 (GPA) in all prior college-level coursework. The grade point average that determines admission is based solely on work at regionally accredited post-secondary institutions.
4. Applicants transferring from another institution’s integrated teacher preparation program must supply a letter from that institution’s Education Department attesting to the applicant’s good standing in one’s program. Such a letter should be written on institutional letterhead by the Dean, the department chair, the director of teacher education, or some other person in a similar position.
5. Students must have completed 12 or more transferable baccalaureate level credits or the equivalent for admission to Brandman University. The 12 credits may consist of all or any combination of the following credit types: transfer work, dual credit, Advanced Placement, International Baccalaureate, approved PLA (Prior Learning Assessment), CLEP (College Level Examination Program), and DANTES Subject Standardized Test (DSST) scores.

</tbody>
</table>

Subject Matter Courses Subtotal (42 Credits)

Total Credits 51

* Students in the BA Liberal Studies program, regardless of class level, are allowed to enroll in required 500 graduate level courses without Dean approval.

NOTE: Teacher Credential Programs: A California Multiple Subject credential requires both proof of subject matter competence, i.e. passing score on the appropriate CSET and CBEST, and completion of an approved credential program. Students seeking a multiple subject credential must make formal application to the School of Education. See your program advisor for information about the requirements and procedures for applying to the multiple subject credential program.
6. For those applying under an active military agreement with Brandman University, admissibility and minimum transfer credit awarded will be determined based on the Community College of the Air Force, SMART, AARTS or JST transcripts. If additional coursework from other institutions is submitted prior to admission this coursework will also be included in determining admissibility and transferability for course credit. After admission, any additional coursework previously taken must be submitted to the Division of Student Services within the first trimester after admission to be evaluated for transfer credit. If the additional coursework credit was included in the initial minimum transfer credit awarded, while such coursework may meet specific degree requirements, no duplication of credit will be awarded. For those applying under the AU-ABC agreement, transcripts from the Community College of the Air Force will be used to determine eligibility.

NOTE: Students may not be eligible for this emphasis based on previous coursework taken. Admission decisions are determined by the School of Education.

Transfer Credit
Transferability of coursework is subject to the standard undergraduate transfer policy except for EDMU and EDUU coursework. Transferability of EDMU and EDUU credential coursework that is not on the approved list cannot be determined until a student is admitted to the Integrated California Multiple Subjects Teaching Credential Emphasis. A request to transfer coursework may be granted IF:

1. the course(s) can be shown to be equivalent in content to the Brandman course(s) and
2. meets the Brandman University graduate transfer credit policy and
3. is approved by the Associate Dean.

EDUU 510 Introduction to Teaching must be taken at Brandman University.

Credential courses that are more than seven years old prior to application for the credential cannot be transferred into the program. Up to 6 credits may be transferred into the credential program.

Program Requirements

Intake Interview
All candidates, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

Subject Matter Competency
All candidates in the Integrated California Multiple Subjects Teaching Credential Emphasis must demonstrate subject matter competency with verification of a passing score indicating passage of all subtests for the appropriate subject matter examination (CSET). Verification must be reflected in the candidate’s electronic file and been received prior to an application for Directed Teaching. Subject Matter Examination subtest results can be no older than ten (10) years. Students may request for Brandman University to receive their scores directly from Pearson so students will not have to submit passing scores to a campus.

Certificate of Clearance
A Certificate of Clearance (including fingerprints) or a copy of a valid credential or short-term permit must be submitted to the School of Education within the first session of enrollment. Candidates who do not submit verification of a certificate of clearance cannot advance in any coursework that requires observation or fieldwork in a K–12 setting. A certificate of clearance or child development permit must be active prior to clinical practice.

Tuberculosis Test
Candidates must submit to the School of Education within the first session of enrollment a current “negative” tuberculosis test that verifies the candidate does not have active tuberculosis. Negative tuberculosis tests must be no more than two years old and cover the clinical practice period. Candidates who do not submit verification of a negative T.B. test cannot advance in any coursework that requires observation or fieldwork in a K–12 setting. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis. The negative tuberculosis tests done by X-rays must be no more than five years old and cover the two practicum periods.

Cardiopulmonary Resuscitation (CPR) Certification
All candidates must submit to the School of Education a valid CPR certification for pediatric and adult. The CPR certification must verify both categories and the card must be submitted prior to applying for any clinical practice. CPR certification must be valid and be current when a candidate applies for their preliminary credential.

U.S. Constitution Requirement
All candidates must complete a course in the provisions and principles of the U.S. Constitution. For this program HISU 358 United States History and Democracy meets the requirement.

RICA Exam
All candidates must pass the state Reading Instruction Competence Assessment (RICA) prior to the exit interview. The RICA should not be taken until EDMU 520 Literacy and Language in K–8 Classrooms I and EDMU 521 Literacy and Language in K–8 Classrooms II have been successfully completed. Students may request for Brandman University to receive their scores directly from Pearson so students will not have to submit passing scores to a campus.

Student Teaching (Clinical Practice)
Advancement to Student Teaching
Applications for Clinical Practice must be submitted online by the candidate through the SOE Services MyBrandman site by the established deadline date. Subject matter competency and all requirements listed above must be met prior to the application deadline except the RICA exam. Candidates also need to have completed all Education Foundations, Subject Matter and credential coursework with the exception of EDUU 544 Student Teaching Seminar I and EDUU 545 Student Teaching Seminar II maintaining a 3.0 GPA in all credential courses.
**Directed Teaching**

1. Directed Teaching consists of two sessions of full-day directed teaching at two different grade levels that meet the cross-cultural criteria.

2. Directed Teaching placements must be completed in public schools.

3. The Clinical Coordinator, not the student, at each campus location will make the Directed Teaching placements.

4. Approved university personnel will supervise all student teachers.

5. Summer school placements are not acceptable unless in year-round public schools.

Candidate performance in Directed Teaching will be reflected with a grade of Pass or No Pass. A grade of Pass indicates that the candidate has demonstrated acceptable competency in meeting the required Teacher Performance Expectations (TPE) standards. A grade of No Pass indicates that the candidate has not met the TPE standards and must meet with the Campus Clinical Coordinator. Students in this situation may have to complete an additional Directed Teaching assignment or may be dismissed from the program.

**California Teaching Performance Assessment (CalTPA)**

The California Teaching Performance Assessment is required for Integrated California Multiple Subjects Teaching Credential Emphasis candidates. The assessment consists of two instructional cycles based on the pedagogical sequence of plan, teach and assess, reflect and apply. Each of these four steps is addressed by each instructional cycle. Candidates complete Instructional Cycle 1 during Directed Teaching I and Instructional Cycle 2 during Directed Teaching II. Tasks are submitted through Pearson Education and candidates pay a fee to submit each cycle. Candidates who fail either of the two cycles must retake the cycle and pay the associated fee. Both cycles must passed in order to be recommended for the multiple or single subject credential.

**Recommendation for Credential**

Candidates may apply to the Teaching Accreditation Department to be recommended to the Commission on Teacher Credentialing (CTC) for their credential after they have successfully completed and passed all coursework for the degree and program requirements listed above and the BA Liberal Studies degree has been conferred. To apply for the credential candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.
BACHELOR OF ARTS IN PSYCHOLOGY

The mission of the psychology program is to provide diverse, dynamic, and personalized learning that inspires student achievement, fosters academic excellence and critical thinking skills, instills personal and professional ethics and values, promotes service, and facilitates lifelong learning in order to promote academic inquiry and professional preparation.

The Bachelor of Arts in Psychology provides a core curriculum that emphasizes psychological theory, critical thinking, research methodology, psychology processes, and the application of psychological principles to diverse areas of human behavior. Students take required core courses that provide the student with the essentials of psychological science and thought. The program has a senior capstone, where students reflect on their psychology program, as well as their goals for the future.

In addition to the core courses, students have choices of concentration areas, which offer a variety of options to meet students’ interests and educational and career goals, while providing content from biological, evolutionary, behavioral, psychoanalytic, cognitive, sociocultural, and humanistic perspectives. Students have the opportunity to participate in practical fieldwork experience and elective independent research projects.

All courses taken in the major program must be passed with a letter grade of “C” or higher. Courses may be used to fulfill both major and general education requirements. In addition to PSYU 101 Introduction to Psychology, a total of 6 lower-division credits in the psychology elective area will be accepted for credit by CLEP and DANTES examinations.

Overall, the psychology undergraduate curriculum is designed for students who want to prepare for graduate study in psychology or related disciplines, graduate study in fields where knowledge of human behavior would be beneficial, professional careers in psychology, or baccalaureate-level careers in human services or in psychological support settings.

Program Learning Outcomes
- Application of Theory: Connect psychological theory to real life applications.
- Human Behavior: Examine psychological principles of human behavior from a historical perspective.
- Research Methods and Statistics: Understand methodology and statistical techniques related to behavioral science research.
- Scientific Writing: Apply appropriate methods of scientific writing in APA format.
- Life Span Development: Understand and apply the major theories related to the entire lifespan from prenatal development through childhood, adolescence, young adulthood, middle-age, and late adulthood.

Program Learning Outcomes (Continued)

Concentrations

Pre-clinical Concentration

The preclinical concentration is designed for students who are interested in pursuing a higher level of education in psychology, which is necessary in this field. The students who choose this concentration will be provided with a variety of courses that address the study of human behavior from biological, evolutionary, psychoanalytic, behavioral, cognitive, sociocultural, and humanistic perspectives, giving them a strong background to proceed to a doctoral degree in different psychological domains.

Industrial/Organizational Concentration

Students who are interested in applying their psychology degree in a business setting will thrive in the Industrial/Organizational Concentration. This concentration gives students the ability to take theoretical perspectives and use them in a practical and applied manner in a variety of workplace settings. Industrial/organizational (I/O) psychology is a high demand field designed to promote employee productivity and retention support organizations in dealing with diversity issues, job selection, training, performance feedback, coaching and other issues related to personnel in organizational settings.

Bachelor of Arts in Psychology

PSYU 481 Organizational Psychology 3
Total Credits 15

Child Psychology Concentration
The child psychology concentration is designed for students interested in working with all children with a specific emphasis on children with various developmental challenges. The Child Psychology Concentration provides students with a greater depth of study in child development, learning, and current treatment options for children with autism and other disabilities. It addresses child development from biological, evolutionary, behavioral, psychoanalytic, cognitive, sociocultural, and humanistic perspectives and provides applied courses on how to enhance child development and learning.

PSYU 310 Psychology of Learning 3
PSYU 323 Child Development 3
PSYU 398 Pediatric Neuropsychology 3
PSYU 464 Applied Behavioral Analysis 3
PSYU 466 Preferred Behavior Enhancement 3
Total Credits 15

Community Psychology Concentration
The Community Psychology Concentration is designed for students who are interested in working with community programs designed to serve individuals who are disadvantaged or feel disenfranchised. The focus of this concentration is on the cultural, environmental, economic, social, and political factors that influence and shape the lives of people throughout the world. It prepares students to apply psychological principles to person-environment fit. Classes cover theoretical perspectives, as well as applied experiences where problems are identified and solutions are developed.

PSYU 418 Community Mental Health 3
PSYU 421 Cross-Cultural Psychology 3
PSYU 450 Introduction to Counseling 3
PSYU 468 Case Management 3
Select one elective of student’s choice 3
Total Credits 15

Gerontology Concentration
The Gerontology Concentration is designed to prepare students to understand and apply psychological and sociological principles when working with the aging population. They address psychological issues related to aging, grief and bereavement, successful and functional aging, social policy, and aging and culture, among other important content. These courses take a multidisciplinary approach, because geropsychology practitioners serve as members of interdisciplinary teams, collaborating with a variety of professionals, including psychologists, medical and other mental health care services providers, to ensure quality care.

Total Credits 15

General Psychology Concentration
The General Psychology Concentration is designed for students who are interested in addressing a broad range of topics in psychology, without being tied to one particular focus. Students are able to select any psychology elective classes they desire in order to build a diverse basis of psychological theory and application, giving students the opportunity to explore multiple domains of psychology. A student who graduates with a general psychology concentration may consider careers that demand an understanding of human behavior and cognition. The general psychology concentration can offer a student a better understanding of various specialties that can be pursued at the graduate level if desired.

* Must total at least 15 credits, and must be upper division or equivalent
MINOR IN PSYCHOLOGY

There are two tracks for a Psychology minor. The general track is designed to enhance knowledge of a psychological process and/or area within the discipline. The applied track is designed to provide exposure to the essential skills and procedures underlying the use of psychological processes and procedures. Students seeking a Psychology minor should discuss the selection of track and courses with an advisor.

BACHELOR OF ARTS IN SOCIAL WORK

The purpose of the social work profession is to enhance the well-being of individuals, families, and communities. The Bachelor of Arts in Social Work (BASW) program prepares students for positions as generalist practice social workers and for graduate education in social work. As generalist practitioners, students apply the knowledge, values, and skills of the social work profession to empower individuals and communities to overcome life challenges. Social work incorporates a holistic, strength-based approach to helping individuals, families, and communities. The BASW degree provides the foundation for entry-level social work careers in areas such as child welfare, community mental health, developmental disabilities, drug and alcohol, criminal justice, aging, community organizations, and other social service settings.

The social work major is based in a liberal arts education that promotes scientific inquiry and critical thinking. The BASW program provides an evidence-based approach to social work education that identifies best practices in social work. Students are taught the purpose, history, values, and ethics of the social work profession. Subject matter also includes communication and assessment skills, problem-solving approaches, human diversity, research, social welfare and policy, and intervention skills with individuals, families, and communities. Students in the BASW program are encouraged to take either or both of PSYU 101 Introduction to Psychology and SOCU 101 Introduction to Sociology as general electives. As a professional program, the BASW program requires 400 hours of field education experience. Field education includes placement in a BASW program-approved field site in the student’s geographic area. The BASW program is professionally accredited by the Council on Social Work Education (CSWE).

All courses taken in the major program must be passed with a letter grade of “C” or higher.

Program Mission Statement

The mission of the BASW program is to provide baccalaureate students with a strong generalist foundation in the knowledge and skills necessary for professional entry-level social work practice.

Program Learning Outcomes

- **Ethical and Professional Behavior**: Identify as a professional social worker and demonstrate behavior accordingly.
- **Diversity**: Engage diversity and difference in practice.
- **Human Rights**: Advance human rights and social and economic justice.
- **Research**: Engage in research-informed practice and practice-informed research.
- **Policy Practice**: Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
- **Engage**: Understand the interactive process, theories of human behavior, and apply knowledge to facilitate engagement to enhance work with individuals, families, groups, organizations, and communities.
- **Assess**: Understand assessment methods and theories to work with individuals, families, groups, organizations, and communities.
- **Intervene**: Use evidence-based interventions to achieve goals of clients including with individuals, families, groups, organizations, and communities.
- **Evaluate Practice**: Evaluating processes and outcomes to advance practice, policy and service delivery to individuals, families, groups, organizations, and communities.

**Ethical and Professional Standards**

Students are expected to meet all program standards and abide by the ethical standards of the profession as published in the National Association of Social Workers Code of Ethics, and by the Brandman University Student Code of Conduct. Since the BASW program involves preparing people to work in the helping profession, the program faculty assumes the responsibility for reasonably assuring that individuals who complete the program are not only academically competent, but are aware of and are capable of functioning within the established ethical and professional standards of the profession. A student in the BASW program must adhere to the National Association of Social Workers (NASW) ethical standards and should understand that he/she is being trained in a program which is not only academic, but also professional in nature. The NASW Code of Ethics is available on the NASW website.

The university has both the right and obligation to evaluate continually, and, if necessary, to suspend or terminate the student’s participation in the practicum and/or the BASW program at any point for ethical violations and/or personal unsuitability for the profession. This philosophy is consistent with that of other professional academic programs which are engaged in explicitly or implicitly certifying that their graduates are competent to engage in the practice of those programs’ respective professions.

It is understood, therefore, that students will be required to maintain appropriate professional, ethical, and personal standards in order to continue in the program. Faculty will assess each student’s status in meeting these standards on a continuing basis, and students experiencing difficulties will be advised as to appropriate means of remediating such difficulties by the faculty or Dean’s Office.

The BASW professional conduct policy applies to both current BA Social Work students and graduated BA Social Work students.

For current BA Social Work students, the professional conduct procedures are as follows:

1. When a BASW program faculty member observes or becomes aware of behavior that brings into question a student’s ability to maintain appropriate professional, ethical, or personal standards, the faculty member shall meet with the student (in person, by phone, or by electronic means) to discuss the behavior and to advise as to appropriate means of remediating such behavioral concerns. The faculty member will document the behavior and the advisement provided, and will submit the documentation to the BASW program director.

2. When the BASW program director and field director deem that, after one or more occurrences of such faculty advisement, a student’s ability to maintain appropriate professional, ethical, or personal standards remains in question and behavioral concerns remain unresolved, a Professional Conduct Meeting shall be convened. The meeting shall consist of a conference call for the program director, field director, and student. If the faculty member who met with the student in step 1 was the program director or field director, the Dean will appoint a different faculty member to substitute for the
program director or field director in steps 2 and 3 of this process. A staff member will also attend the meeting silently for the purpose of documenting the meeting’s proceedings.

The student may choose to have a silent observer attend the conference call. This does not include attorneys. The presence of attorneys at the meeting is not permitted as the meeting is not meant to function as a court of law. The silent observer may not participate directly in the meeting. Failure to comply with these rules may result in the removal of the silent observer or the termination of the meeting. One five-minute recess may be requested during the course of the meeting if the student wishes to consult with the silent observer.

During the meeting, the program director and field director will discuss the behavior in question with the student, will solicit the student’s response to the behavioral concerns in question, and will advise the student as to appropriate means of remediating the behavioral concerns. The staff member will document the meeting’s proceedings, and the program director will further document the advisement provided. Subject to written approval from all participants, the meeting shall be recorded with the URL for the recording provided to the student, program director, and field director.

3. At any time after the Professional Conduct Meeting, if the BASW program director and field director deem that the student’s ability to maintain appropriate professional, ethical, and/or personal standards remains in question and the behavioral concerns remain unresolved, they may recommend to the Dean that the student be suspended or dismissed from the BASW program. The Dean may suspend or dismiss the student from the program, with written notice provided to the student.

4. A student who is dismissed or suspended from the program may, within 30 calendar days of receipt of the dismissal or suspension notification, petition the Dean’s ruling to a professional review committee. The petition process is documentation-based and does not include a synchronous hearing. To file a petition, the student must submit to the Dean a written petition with supporting documentation appended. The Dean will forward the written petition and supporting documentation to the professional review committee. After review, the professional review committee will issue a final ruling within 30 calendar days of Dean’s receipt of the student’s petition. The committee’s ruling is not subject to appeal.

For graduated BA Social Work students, for whom information is discovered after the time of their degree completion regarding alleged ethical or professional violations that occurred during the time they were enrolled in the BA Social Work program, the professional conduct procedures are as follows:

1. When the BA Social Work program director and field director learn that a graduated student may have committed ethical or professional violations during the time they were enrolled in the BA Social Work program, they may investigate the allegations.

2. After reviewing their findings, the program director and field director may choose to convene a Professional Conduct Meeting. The meeting shall consist of a conference call for the program director, field director, and graduated student. A staff member will also attend the meeting silently for the purpose of documenting the meeting’s proceedings.

   The graduated student may choose to have a silent observer attend the conference call. This does not include attorneys. The presence of attorneys at the meeting is not permitted as the meeting is not meant to function as a court of law. The silent observer may not participate directly in the meeting. Failure to comply with these rules may result in the removal of the silent observer or the termination of the meeting. One five-minute recess may be requested during the course of the meeting if the student wishes to consult with the silent observer.

During the meeting, the program director and field director will discuss the behavior in question with the graduated student and will solicit the student’s response to the behavioral concerns in question. The staff member will document the meeting’s proceedings. Subject to written approval from all participants, the meeting shall be recorded with the URL for the recording provided to the graduated student, program director, and field director.

The program director and field director may, at their discretion, proceed to conduct a Professional Conduct Meeting in the absence of a graduated student who fails to appear. Should there be a hearing, the findings of the program director’s and field director’s investigation shall be presented and considered regardless of whether or not the graduated student attended the meeting.

3. Based on their investigation and on the proceedings of the Professional Conduct Meeting, if the BA Social Work program director and field director deem that the graduated student committed egregious violation(s) of ethical or professional conduct during the time that they were enrolled in the BA Social Work program, and that such violation(s) would have merited a recommendation to the Dean of suspension or dismissal from the program if the violation(s) had been discovered when the graduated student was enrolled in the program, the program director and field director may recommend to the Dean that the graduated student’s degree be revoked. The Dean may issue the graduated student a letter of intent to revoke the graduated student’s degree.

4. A graduated student receiving a Dean’s letter of intent to revoke the student’s BA Social Work degree may submit a written appeal to the Dean with supporting documentation, within 30 calendar days of transmission of the Dean’s letter of intent. This appeal process is documentation-based and does not include a synchronous hearing. After review of the student’s written appeal and supporting documentation, the Dean may or may not decide to revoke the graduated student’s degree, with written notice of either outcome provided to the student.

5. A graduated BA Social Work student whose degree is revoked may, within 30 calendar days of transmission of the notification of degree revocation, petition the Dean’s ruling to a professional review committee. The petition process is documentation-based and does not include a synchronous hearing. To file a petition, the graduated student must submit to the Dean a written petition with supporting documentation appended. The Dean will forward the written petition and supporting documentation to the professional review committee. After review, the professional review committee will issue a final ruling within 30 calendar days of Dean’s receipt of the graduated student’s petition. The committee’s ruling is not subject to appeal.

Field Education

Prior to becoming eligible to begin field education, students must successfully complete at least 27 required prerequisite credits, with a grade equivalent of “C” or higher, successfully complete the field.
readiness interview, a field site interview, and be approved to begin field by the Field Director.

All required documents including the practicum site agreement must be completed and students must be enrolled in field practicum seminar prior to starting any trainee hours at the approved site. Practicum hour requirements and other practicum policies are available from the BASW Field Director.

The practicum courses are graded on a pass/no pass basis. Practicum courses are to be taken consecutively.

BACHELOR OF ARTS IN SOCIOLOGY

Sociology is the scientific study of how society organizes itself. Sociologists study society by using the sociological perspective, also known as the sociological imagination, which allows them to understand how social forces shape individual experiences and choices. Students of Brandman University’s B.A. Sociology program learn the major sociological theories and methods of inquiry that have derived from a sociological perspective. They also apply these theories and methods in order to gain a greater understanding of societal phenomena, such as social inequality and stratification, social institutions and organizations, as well as globalization. In addition, Brandman’s BA Sociology students research and write about a sociological topic of their choice in a culminating capstone experience. With a major in Sociology, students are prepared for careers such as social and community service professions, academia, education, management, marketing, criminology, international relations, law, and social justice.

All courses taken in the major program must be passed with a letter grade of "C" or higher.

Courses may be used to fulfill both major and general education requirements.

Program Mission Statement

The mission of the B.A. Sociology degree program is to position students to succeed in professions that require the application of sociological theory and inquiry to analyze societal phenomena, including social inequality, institutions and organizations, and globalization.

Program Learning Outcomes

- **Social Inequality, Diversity and Stratification**: Critically analyze United States and global social stratification and diversity, as well as the societal inequalities that result.
- **Social Theory**: Apply major sociological theories to societal phenomena.
- **Social Scientific Writing**: Practice appropriate methods of scientific writing in APA format.
- **Social Research Methodology**: Apply both quantitative and qualitative methods of sociological inquiry to societal phenomena.
- **Organizations and Institutions**: Evaluate the structure of major social institutions and organizations using a sociological perspective.

UNDERGRADUATE CERTIFICATE: NUTRITION AND WELLNESS

The undergraduate Certificate in Nutrition and Wellness trains students in nutrition as it relates to the dynamic influences of diet, society, exercise, stress and disease. This program will benefit those individuals in the health care, teaching, coaching, organizational leadership, fitness and sports therapy, physical therapy, home health aide, exercise specialists, health coaches, nutrition or fitness writers/bloggers, human resources, nutritional advising and senior wellness fields.

The 15-credit undergraduate certificate focuses on recognizing needs for changing health behaviors, reducing diet and exercise disparities and reducing liabilities that may influence disease development. It may assist and prepare the student for the registered dietitians program.

The registered dietitians (RD) program is a bachelor’s degree given from an accredited university approved by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association (ADA). Additionally, to become a RD the student must pass a national examination administered by the Commission on Dietetic Registration (CDR) as well as other requirements.

The Certificate in Nutrition and Wellness is a unique fully online interdisciplinary course of study.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission Requirements

Admission to the certificate program is granted to individuals who apply and meet the standards for regular undergraduate admission to Brandman University. Students enrolled in a credential program, graduate degree program, or graduate certificate program may not enroll concurrently in an undergraduate certificate program. At least nine credits in the certificate program must be taken at Brandman University. Coursework in the undergraduate Certificate in Nutrition and Wellness requires a minimum 2.0 cumulative GPA, with no course below a "C" or equivalent.

UNDERGRADUATE CERTIFICATE: PARALEGAL

The Department of Labor’s Bureau of Labor Statistics predicts that the need for paralegals and legal assistants is growing faster than average. An individual who wants to market him/herself as a paralegal must meet specific criteria. Successfully completing the Brandman University paralegal certificate meets the California paralegal requirements. This Brandman certificate can also be used toward completion of the Bachelor of Arts of Legal Studies.

The 24 credit undergraduate certificate focuses on attainment of the knowledge, skills, and abilities required of a paralegal. Paralegals are professionals expected to support private law offices, corporate counsel offices, governmental agencies, contract management departments and other types of departments. This certificate prepares the student with a basic understanding of the legal system, and with the ability to research and prepare legal documents, to investigate legal precedent, and to project manage law office activity and case management. Specialized skills may also be included.

This certificate is a unique fully online course of study.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission Requirements

Admission to the certificate program is granted to individuals who apply and meet the standards for regular undergraduate admission to Brandman University. Coursework requires a minimum 2.0 cumulative GPA, with no course below a “C” or equivalent.

MASTER OF ARTS IN PSYCHOLOGY

The mission of the psychology program is to help students acquire a broad-based knowledge in the field of psychology in its historical and cultural contexts, both as an empirical science of human behavior and as a foundation for a professional career in human services.

Brandman University offers a Master of Arts in psychology with three emphases designed to provide the student with the academic and professional training necessary for a career in counseling and human services and/or provide the foundation for further graduate study in psychology or one of the related disciplines. The emphasis areas include Marriage and Family Therapy, Professional Clinical Counseling (CA only), and Counseling (WA only). California offers the option to combine the MFT and PCC Emphases. Additional post degree requirements are necessary for licensure. Consult with your state licensing authority for information. Emphasis descriptions are listed below.

Program Learning Outcomes

All MA Psychology Students

• **Assessment, Psychopathology, and Diagnostics**: Apply assessment techniques to include crisis evaluation and diagnostic assessment to clinical cases.

• **Ethics, Law, and Professional Issues**: Apply ethical and professional decision making to issues in the practice of psychotherapy and counseling.

• **Group Counseling Theories and Interventions**: Implement theory and techniques to facilitate a group process.

• **Psychopharmacology**: Analyze the role of the psychopharmacological agents on the prevention and treatment of psychological dysfunction.

All MFT Emphasis Students

• **Family Theories and Intervention**: Implement theory and techniques to therapeutic problems and developmental challenges of families.

ALL MFT Emphasis and CA-PCC Emphasis Students

• **Community Mental Health**: Analyze the role of environmental factors and community resources in providing mental health services.

All PCC (CA) Emphasis and CE (WA) Emphasis Students

• **Career Counseling**: Apply career development theories and techniques to work/career issues and problems.

• **Advanced Individual Counseling**: Implement theory and techniques from multiple orientations to therapeutic problems of individuals.

Marriage and Family Therapy Emphasis

This emphasis is a practice-oriented psychology master’s program. It provides a solid foundation for practice as a marriage and family therapist. This program meets the education requirements for licensure in California and Washington or certification in other states, and membership in the American Association for Marriage and Family Therapy. This program includes a substantial experiential component in which the student works under supervision in an approved counseling site. Students in this emphasis complete a minimum of 60 semester credits.

Brandman University is accredited by the Western Association of Schools and Colleges. In California the Master of Arts in Psychology, Marriage and Family Therapy program at Brandman University meets and exceeds the curriculum requirements set forth in the California Business and Professional Code sections 4980.37 and 4980.40 and has notified the Board of Behavioral Science (the licensing board for marriage and family therapists in California) of our curriculum as required by law. In Washington State the MFT Program meets and exceeds the curriculum requirements established by state licensing law under the Revised Code of Washington (RCW 18).

Counseling Emphasis

(Offered only at Brandman University campuses in Washington)

This emphasis is a practice-oriented psychology master’s program. It provides a solid foundation for practice as a mental health therapist. This program meets the education requirements for licensure in Washington or certification in other states, and membership for the National Board for Certified Counselors (NBCC). This program includes a substantial experiential component in which the student works under supervision in an approved counseling site. Students in this emphasis complete a minimum of 48 semester credits.

Brandman University is accredited by the Western Association of Schools and Colleges. In Washington State the MFT Program meets and exceeds the curriculum requirements established by state licensing law under the Revised Code of Washington (RCW 18).

Professional Clinical Counseling Emphasis

(Offered only at Brandman University campuses in California)

This emphasis is a practice-oriented psychology master’s program. It provides a solid foundation for practice as a professional clinical counselor. This program meets the education requirements for licensure in California as a Licensed Professional Clinical Counselor (Business and Professions Code section 4999.33) or certification in other states, and membership in the National Board for Certified Counselors (NBCC). This program includes a substantial experiential component in which the student works under supervision in an approved counseling site. Students in this emphasis complete a minimum of 63 semester credits.

Combined Marriage and Family Therapy and Professional Clinical Counseling Emphases Option

(For California Students only)

Students may wish to work toward both emphasis areas if they plan to complete requirements for both an MFT and PCC license in the State of California. This combined program includes a substantial experiential component in which the student works under supervision in an approved counseling site. Please note that only one degree will be awarded, with two emphasis areas. Students who choose this option will complete a program that meets the education requirements for licensure in California as a Marriage and Family Therapist and a Licensed Professional Clinical Counselor. Completing both emphasis areas may give students more options in terms of future careers and may increase marketability in diverse work settings. Students who choose to complete both emphasis areas will complete a total of 69 units.
Admission to the Program

Admissions decisions to the MA Psychology program are based on evaluation of all application materials and information provided by the applicant. Submission of all required application materials does not guarantee admission to the program.

The following requirements must be completed in order to become eligible for consideration for admission to the program:

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog. (See the Graduate Admissions section.)
2. If the student uses Option Two in the Brandman University graduate admissions requirements, submit passing scores from one of the following standard admission tests:
   a. Graduate Record Examination (GRE): achieve a minimum score of 300 on the combined scores of the verbal and quantitative subsections of the GRE or score at or above the 60th percentile on the Graduate Subject Test in psychology.
   b. Miller’s Analogies Test (MAT): achieve a scaled score of 400.
3. Admission is also contingent on the quality of the autobiography and the recommendation forms. The student should submit an autobiography, which must be at least three to four typed pages in length and conform to the following guidelines:
   a. Include childhood, family and (if applicable) marital data and values derived from these experiences in relation to your choice of a career in marriage and family therapy/counseling. Incorporate two or three relevant experiences that have helped to shape your development and personality; and
   b. Discuss how you arrived at this point in your career development. Include any relevant professional experience.
4. Submit three recommendation forms from individuals who know you in a professional, and/or academic, and/or personal context (i.e. skills with youth, intellectual problem solving skills, character). Relatives may not submit recommendations.
5. The application process includes submission of both the Graduate Admissions application and the Psychology program supplemental form as well as viewing and acknowledging that the program video was reviewed. The application packet must be complete, including an autobiography, recommendation forms, and the ethical and responsibility statement form. Psychology program faculty may require an interview with the applicant if clarification is required.
6. Note that licensing and certification agencies typically have regulations denying licensure or certification to anyone who has been convicted of a felony, most especially one which reflects an offense which would be a cause for disciplinary action if committed by one already holding the license. Please contact the licensing board in the state you plan to license for clarification of how a conviction may affect licensing. This clarification should be done before the application for admission to this program is submitted.
7. Students must have regular admission status prior to enrollment in graduate coursework. Students from the Washington Campuses are permitted to enroll in up to 12 credits of graduate coursework prior to receiving regular admission.
8. Students admitted to the MA in Psychology program will be admitted to the Catalog based on the program start date and not the admission date.

Transfer of Coursework

A maximum of 12 semester credits or 18 quarter credits may be accepted in transfer toward the Master of Arts in Psychology degree program. (See Academic Policies and Procedure section.)

Advisement/Orientation

Prior to admission, students are required to review, and submit acknowledgement of the review, of the Masters of Arts in Psychology program advisement and orientation video. This video contains pertinent program information focused on advising students of program requirements such as core courses, advancement, practicum, and much more. Upon admission, students are strongly encouraged to contact and maintain a mentoring relationship with the lead faculty at the student’s campus. All questions related to academic and professional pursuits should be directed to the lead faculty.

Advancement to Candidacy

During the session before the student plans to begin the first practicum, he/she must apply to the Brandman University campus for advancement to candidacy. The following courses must be successfully completed as shown for each emphasis below.

advancement interview. The treatment plan will address identification of problems, proposed interventions, ethical issues, prognosis and further assessment and any "red flags" that may need further attention. An Advancement to Candidacy Study Guide for students is available at the campus.

Specifically, the functions of the advancement to candidacy committee are:

1. To review the student’s academic status with respect to fulfilling required coursework in a satisfactory manner.
2. To provide information and counsel to the student in matters pertaining to his or her academic progress and plans.
3. To ascertain whether significant gaps exist in the student’s knowledge and/or understanding of the subject field.
4. To apprise the student of any academic, professional or ethical aspects of the counseling program that may be a source of concern.
5. To assess the student’s academic and psychological readiness, and personal suitability to engage in the profession of marriage and family therapy/counseling; and
6. To assess the student’s readiness to begin the practicum. Successful advancement to candidacy is a prerequisite to enrolling in practicum.

### Ethical and Professional Standards

Students are expected to meet all program standards and abide by the ethical standards of the profession and the Brandman University Student Code of Conduct. Since the MA Psychology program involves preparing people to work in the helping profession, the program faculty assumes the responsibility for reasonably assuring that individuals who complete the program are not only academically competent, but are aware of and are capable of functioning within the established ethical and professional standards of the profession. A student in the MA Psychology program must adhere to the ethical standards propounded by the relevant professional associations and should understand that he/she is being trained in a program which is not only academic, but also professional in nature.

The university has both the right and obligation to evaluate continually, and, if necessary, to suspend or terminate the student’s participation in the master’s program at any point for ethical violations and/or personal unsuitability for the profession. This philosophy is consistent with that of most psychology graduate programs which are engaged in explicitly or implicitly certifying that their graduates are competent to engage in the practice of professional counseling or psychotherapy.

It is understood, therefore, that students will be required to maintain appropriate professional, ethical, and personal standards in order to continue in the program. Faculty will assess each student’s status in meeting these standards on a continuing basis, and students experiencing difficulties will be advised as to appropriate means of remediating such difficulties by the faculty or Dean’s Office. Compendia of the prevailing ethical standards are available from the American Psychological Association, the American Association for Marriage and Family Therapy, the California Association of Marriage and Family Therapists, the Washington Association for Marriage and Family Therapy and the National Board of Certified Counselors.

The MA Psychology professional conduct policy applies both to current MA Psychology students and graduated MA Psychology students.

For current MA Psychology students, the professional conduct procedures are as follows:

A student must receive a "C" or better in a course for successful completion. The degree requires an overall 3.0 average for required courses in the student’s degree program. At the advancement to candidacy interview, the student will meet with a faculty committee. The committee determines whether the student is prepared to be formally declared a candidate for a Master of Arts degree and be permitted to proceed into the practicum phase of the program.

At the time of the advancement interview, each student will be provided with a vignette for which the student will discuss a diagnosis and a tentative treatment plan, which will be the foundation of the advancement interview. The treatment plan will address identification of
1. When a MA Psychology program faculty member observes or becomes aware of behavior that brings into question a student's ability to maintain appropriate professional, ethical, or personal standards, the faculty member shall meet with the student (in person, by phone, or by electronic means) to discuss the behavior and to advise as to appropriate means of remediating such behavioral concerns. This meeting may be attended by a staff member. The faculty member will document the behavior, the advisement provided at the meeting and any additional advisement for remediating the behavioral concerns in light of the meeting's proceedings, and will submit the documentation to the MA Psychology program chair and the student.

2. When the MA Psychology program chair and vice chair deem that, after one or more occurrences of such faculty advisement, a student's ability to maintain appropriate professional, ethical, or personal standards remains in question and behavioral concerns remain unresolved, a Professional Conduct Meeting shall be convened. The meeting shall consist of a conference call for the program chair, vice chair, and student. If the faculty member who met with the student in step 1 was the program chair or vice chair, the Dean will appoint a different psychology faculty member to substitute for the program chair or vice chair in steps 2 and 3 of this process. A staff member will also attend the meeting silently for the purpose of documenting the meeting's proceedings.

The student may choose to have a silent observer attend the conference call. This does not include attorneys. The presence of attorneys at the meeting is not permitted as the meeting is not meant to function as a court of law. The silent observer may not participate directly in the meeting. Failure to comply with these rules may result in the removal of the silent observer or the termination of the meeting. One five-minute recess may be requested during the course of the meeting if the student wishes to consult with the silent observer.

During the meeting, the program chair and vice chair will discuss the behavior in question with the student, will solicit the student's response to the behavioral concerns in question, and will advise the student as to appropriate means of remediating the behavioral concerns. The staff member will document the meeting's proceedings, and the program chair will further document the advisement provided. Subject to written approval from all participants, the meeting shall be recorded with the URL for the recording provided to the student, program chair, and vice chair.

3. At any time after the Professional Conduct Meeting, if the MA Psychology program chair and vice chair deem that the student's ability to maintain appropriate professional, ethical, and/or personal standards remains in question and the behavioral concerns remain unresolved, they may recommend to the Dean that the student be suspended or dismissed from the MA Psychology program. The Dean may suspend or dismiss the student from the program, with written notice provided to the student.

4. A student who is dismissed or suspended from the program may, within 30 calendar days of receipt of the dismissal or suspension notification, petition the Dean's ruling to a professional review committee. The petition process is documentation-based and does not include a synchronous hearing. To file a petition, the student must submit to the Dean a written petition with supporting documentation appended. The Dean will forward the written petition and supporting documentation to the professional review committee. After review, the professional review committee will issue a final ruling within 30 calendar days of Dean's receipt of the student's petition. The committee's ruling is not subject to appeal.

For graduated MA Psychology students, for whom information is discovered after the time of their degree completion regarding alleged ethical or professional violations that occurred during the time they were enrolled in the MA Psychology program, the professional conduct procedures are as follows:

1. When the MA Psychology program chair and vice chair learn that a graduated student may have committed ethical or professional violations during the time they were enrolled in the MA Psychology program, they may investigate the allegations.

2. After reviewing their findings, the program chair and vice chair may choose to convene a Professional Conduct Meeting. The meeting shall consist of a conference call for the program chair, vice chair, and graduated student. A staff member will also attend the meeting silently for the purpose of documenting the meeting's proceedings.

The graduated student may choose to have a silent observer attend the conference call. This does not include attorneys. The presence of attorneys at the meeting is not permitted as the meeting is not meant to function as a court of law. The silent observer may not participate directly in the meeting. Failure to comply with these rules may result in the removal of the silent observer or the termination of the meeting. One five-minute recess may be requested during the course of the meeting if the student wishes to consult with the silent observer.

During the meeting, the program chair and vice chair will discuss the behavior in question with the graduated student and will solicit the student's response to the behavioral concerns in question. The staff member will document the meeting's proceedings. Subject to written approval from all participants, the meeting shall be recorded with the URL for the recording provided to the graduated student, program chair, and vice chair.

The program chair and vice chair may, at their discretion, proceed to conduct a Professional Conduct Meeting in the absence of a graduated student who fails to appear. Should there be a hearing, the findings of the program chair's and vice chair's investigation shall be presented and considered regardless of whether or not the graduated student attended the meeting.

3. Based on their investigation and on the proceedings of the Professional Conduct Meeting, if the MA Psychology program chair and vice chair deem that the graduated student submitted egregious violation(s) of ethical or professional conduct during the time that they were enrolled in the MA Psychology program, and that such violation(s) would have merited a recommendation to the Dean of suspension or dismissal from the program if the violation(s) had been discovered when the graduated student was enrolled in the program, the program chair and vice chair may recommend to the Dean that the graduated student's degree be revoked. The Dean may issue the graduated student a letter of intent to revoke the graduated student's degree.

4. A graduated student receiving a Dean's letter of intent to revoke the student's MA Psychology degree may submit a written appeal to the Dean with supporting documentation, within 30 calendar days of transmission of the Dean's letter of intent. This appeal process is documentation-based and does not include a synchronous
hearing. After review of the student’s written appeal and supporting documentation, the Dean may or may not decide to revoke the graduated student’s degree, with written notice of either outcome provided to the student.

5. A graduated MA Psychology student whose degree is revoked may, within 30 calendar days of submission of the notification of degree revocation, petition the Dean’s ruling to a professional review committee. The petition process is documentation-based and does not include a synchronous hearing. To file a petition, the graduated student must submit to the Dean a written petition with supporting documentation appended. The Dean will forward the written petition and supporting documentation to the professional review committee. After review, the professional review committee will issue a final ruling within 30 calendar days of Dean’s receipt of the graduated student’s petition. The committee’s ruling is not subject to appeal.

6. If a graduated MA Psychology student’s degree is revoked, and if the student had been a California resident at the time of degree conferral, the program’s Board of Behavioral Science (BBS) liaison will inform the BBS that the student no longer holds a degree from Brandman University. If the graduated student resided in Washington at the time of degree conferral, the program’s Washington State Department of Health (WHD) liaison will inform the WHD that the student no longer holds a degree from Brandman University. In addition, and only if known, the University representative will also inform the state governing body where the student is currently in clinical authorized practice.

**Personal Therapy**

The psychology faculty believes that participating as a client in individual or group therapy is an important educational aspect of a program to prepare mental health professionals. Experience as a client in personal therapy is, therefore, one of the program requirements for the Masters of Arts in Psychology degree. The requirement is met through a minimum of 20 sessions of individual or group therapy conducted by a current licensed marriage and family therapist, licensed clinical social worker, licensed clinical psychologist, board-eligible psychiatrist, or mental health worker of equivalent status. Verification will consist of a letter by the therapist (on the therapist’s letterhead and must include the therapist’s license number) or an official psychotherapy form from the state in which the therapist practices. Verification will be submitted with a written appeal to the Program’s Board of Behavioral Science (BBS) if a student’s degree is revoked. Additional personal therapy may at any time be recommended by program faculty for the student to continue in the program. Commencement of therapy or recommendation of additional therapy may be a stipulation or condition at the time of a student’s screening or advancement to candidacy interview. The student has the right to choose his/her own therapist for this requirement within the limitations of ethical standards prohibiting dual relationships and the criteria of the paragraph above.

**Practicum**

The practicum site Field Agreement must be completed and approved by the university and the practicum site prior to starting any trainee hours at the approved site. The student should obtain the required forms from the faculty/staff at the local campus well in advance of the deadline to enable him/her to fully comply with the requirements for the practicum and to deal with any special problems or circumstances that may affect the acceptability of the proposed practicum. Students must advance to candidacy prior to registration for practicum. Practicum students will be required to continue to meet with instructors and complete assignments related to the practicum experience. Practicum hour requirements are specified in the course description.

The student may elect to begin the Capstone Case Study in PSYU 688 Practicum I. Work on the case study will continue through the remaining practicum course(s). The case study requirement will be fulfilled after passing a written and oral presentation. The practicum courses are graded on a pass/no pass basis. Practicum courses are to be taken consecutively.

**Capstone Case Study**

The student will complete a written case study based on a case selected during the practicum experience and ultimately make an oral presentation to a committee of faculty, adjunct faculty and/or other selected members. After the student has successfully advanced to candidacy and has acquired an approved practicum site, he/she is eligible to begin the Capstone Case Study. The selection of the case occurs in the first or second practicum course and the final oral presentation must be completed prior to graduation. Capstone information is available in the student area of MyBrandman. As determined in consultation with faculty and depending upon the student’s particular emphasis, the Case Study may include several of the following content areas:

1. Assessment and treatment of Substance Abuse
2. Ethical and Legal issues
3. Assessment and treatment of Sexual Disorders
4. Advanced Psychopathology and Individual Counseling
5. Child/Adolescent Psychopathology
6. Family therapy, including Human Diversity
7. Crisis/Trauma
8. Community Mental Health Issues

The School of Business and Professional Studies Mission Statement
The mission of the School of Business and Professional Studies is to provide adult learners with a relevant, flexible and quality education that inspires innovation and global leadership.

Undergraduate Degree Programs

- Bachelor of Arts in Organizational Leadership (p. 82)
- Accelerated Bachelor of Business Administration to Master of Business Administration (p. 85)
- Bachelor of Business Administration (Credit Hour) (p. 88)
- Bachelor of Business Administration (Competency Based) (p. 91)
- Bachelor of Science in Computing Technology (p. 96)
- Bachelor of Science in Information Technology (Competency Based) (p. 98)

Undergraduate Minor

- Organizational Leadership (p. 84)

Graduate Degree Programs

- Master of Arts in Organizational Leadership (p. 101)
- Master of Business Administration (p. 102)
- Master of Public Administration (p. 105)
- Master of Science in Human Resources (p. 106)

Graduate Certificates

- Business Administration (p. 108)
- Executive Certificate in Public and Nonprofit Leadership (p. 107)
- Health Administration (p. 108)
- Human Resources (p. 108)
- Organizational Leadership (p. 109)
- Public Administration (p. 109)

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.
BACHELOR OF ARTS IN ORGANIZATIONAL LEADERSHIP

This program is ideally suited for students with strong interests or experience in leadership, management and/or administration. Preparation for entry and mid-level supervisory positions in a wide range of administrative careers is emphasized.

Mission

The Bachelor of Arts in Organizational Leadership prepares students to be effective leaders in today’s rapidly changing workplace.

Program Learning Outcomes

- **Diversity:** Demonstrate the understanding of diversity competence in a global society.
- **Communication:** Apply effective and efficient communication skills for interacting collaboratively.
- **Critical Inquiry:** Research, analyze and evaluate data, information and situations to draw reasonable conclusions.
- **Leadership:** Apply leadership theories and models to the practice of leadership.
- **Ethics:** Assess ethical behavior and decision making.
- **Application:** Identify and complete a research project to address an organizational leadership issue.

The B.A. in Organizational Leadership consists of 48 credits of coursework, including 18 credits in electives or a pre-selected emphasis area, and 3 credits in a research project. This project should be completed toward the end of the student’s program.

A minor in organizational leadership (18 credits), a Master of Arts (36 credits), and graduate certificates in organizational leadership and organization development are also offered.

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. All required courses must be taken for a letter grade where the option exists.

Requirements

**Foundation Courses (15 credits)**

- OLCU 300 Organizational Behavior 3
- OLCU 350 Leadership and Professional Ethics 3
- OLCU 400 Theory and Practice of Leadership 3
- OLCU 425 Leadership in Diverse and Multicultural Organizations 3
- OLCU 380 Research and Analytical Thinking 3

**Competencies (12 credits)**

- COMU 410 Organizational Communication 3
- OLCU 303 Organizational Development and Change 3
- OLCU 325 Leadership Skills Development Lab 3
- OLCU 414 Team Building 3

**Electives/Emphasis Areas (18 credits)**

Complete the electives or emphasis area 18

</tbody>
</table>

**Electives/Emphasis Area (18 credits in electives)**

Upon admission, students work with their program advisors to develop a plan for electives in the degree program. Electives may lead toward a formal emphasis area in Organizational Administration or Supply Chain Systems (see below). Students who do not wish to develop a formal emphasis area, which are not designated on the student’s transcript, may select 18 elective credits to meet individual educational and professional goals, and may be selected to build either functional career skills and/or career context awareness. With the assistance of their advisor, students may design an emphasis area that reflects their career goals. Approved electives include courses from the following programs: Organizational Leadership, Human Resources, Criminal Justice, Organizational Administration, Business Administration (to include courses from Accounting, Entrepreneurship, Finance, Information Systems Management, Marketing, and Management). Electives may also be selected from other programs with advisor guidance and Dean/Associate Dean approval. At least 9 credits must be upper division (300+). Internship and independent study credits do not count toward an emphasis area, but do count as electives in the major.

**Emphasis in Organizational Administration (18 credits)**

The emphasis in organizational administration addresses the fundamental principles of management and administration. This emphasis will be designated on the student’s transcript. Students select six courses (18 credits) from the following:

**Required (15 credits)**

- ACCU 201 Principles of Accounting I 3
- ECU 201 Principles of Macroeconomics 3
- ENU 401 Introduction to Entrepreneurship 3
- MKTU 301 Principles of Marketing 3
- MGTU 301 Principles of Management 3

Select one of the following: 3

- HRCU 430 Conflict Resolution
- SOCU 401 Sociology of Social Conflict, Analysis, and Resolution
- HRCU 445 Human Resource Studies*
- CSCU 315 Organizational Information Systems

**Total Credits**

- 18

*PHR, SHRM-CP or SHRM-SCP certification or recertification within three years may be used as a substitute for HRCU 445 Human Resource Studies.

**Emphasis in Supply Chain Systems (18 credits)**

This emphasis area in supply chain systems combines an overview and systems approach to understanding supply chain requirements as well as a drill down into specific competencies such as leadership, communication, labor relations and organizational information systems which are crucial to supply chain management and understanding. Students complete six courses (18 credits) as follows:

**Required (15 credits)**

- ECNU 201 Principles of Accounting I 3
- MGTU 301 Principles of Marketing 3
- MGTU 301 Principles of Management 3

Select one of the following: 3

- MGTU 320 Strategies Across the Supply Chain
- MGTU 321 Project Management and Supply Chain Leadership

**Total Credits**

- 18

MINOR IN ORGANIZATIONAL LEADERSHIP

Consistent with the program’s commitment to educate students about and for leadership, a minor in organizational leadership is offered as an option to students who prefer to major in a different academic subject, but who wish to supplement their academic program with leadership studies. Students desiring a minor in organizational leadership may file their Intent to Minor with the offering School as soon as possible, but no later than their junior year. Filing does not obligate the student. Internship and independent study credits do not count toward the minor.

ACCELERATED BACHELOR OF BUSINESS ADMINISTRATION TO MASTER OF BUSINESS ADMINISTRATION

Program Entry Options
The BBA program has three program options:

1. Accelerated Bachelor of Business Administration to Master of Business Administration
2. Credit-hour Bachelor of Business Administration
3. Competency-based Bachelor of Business Administration

The accelerated BBA to MBA degree program offers students a degree path with up to eighteen fewer credits than the combined traditional BBA and MBA degree programs.

Mission:
The Accelerated Bachelor of Business Administration to Master of Business Administration (BBA to MBA) prepares graduates to manage and lead enterprises that create value for stakeholders in a dynamic, global business environment.

Program Learning Outcomes:
• Business Functions/Processes: Analyze and evaluate business functions and processes.
• Strategic Planning: Evaluate and formulate effective domestic and global business strategies.
• Sustainability/Ethics: Integrate ethics, corporate social responsibility and sustainability in decision-making.
• Leadership: Identify, evaluate, communicate and implement effective leadership of a diverse workforce.
• Innovation: Research, design and apply the innovation process from creativity to solution design and implementation.

Requirements for Admission
Admission requirements include two phases, BBA admission and MBA admission during the student’s senior year:

Phase 1, BBA Admission: Regular undergraduate admission standards apply. See Undergraduate Admission for Degree Seeking Student Applicants in this catalog. Students interested in participating in the Accelerated BBA to MBA degree program must select this track during their undergraduate admission process so they will be identified as candidates for this degree program and advised accordingly. Formal admission to MBA phase of the Accelerated BBA to MBA does not occur until the student attains senior status.

Phase 2, MBA Admission: Accelerated BBA to MBA candidates apply for formal admission to the MBA at the beginning of their senior year. At this time, candidates for this program must demonstrate readiness to do graduate level work by satisfactorily fulfilling one of the following admission options.

Option One
A 3.0 grade point average (GPA) calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

Option Two
A GPA between 2.5 and 2.99 calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. A satisfactory score on an accepted graduate admission exam is required.

• Graduate Record Exam (GRE): Achieve the required minimum scores on two out of three of the subsections of the GRE. (Minimum score for Quantitative: 141, minimum score for Verbal: 150, minimum score for Analytic Writing: 4.5)
• Millar Analogies Test (MAT): Achieve a minimum scaled score of 400.
• Graduate Management Admissions Test (GMAT): Fulfill the formula GMAT + (GPA X 200) > 1000.

Option Three
An earned master’s degree or higher from a regionally accredited institution.

Option Four
Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: Writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the field of Business Administration.

Transfer Credit Policy
A maximum of six credits may be accepted in transfer toward electives in the MBA degree program. (See the Graduate Academic Policies and Procedures section of this catalog.)

In addition to university policies concerning transfer of coursework, the MBA program will accept transfer of military coursework which meets the following requirements:

1. Course requested for transfer must include an official transcript or copy of an ACE evaluation which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion at a grade of “B” or higher;
3. Coursework must be comparable to program requirements (if marginal comparability, a written statement of rationale must be provided); and
4. Military coursework will be accepted in transfer as fulfilling elective requirements only.

In addition to University policies concerning transfer of coursework, Brandman University will award 12 elective credits toward the MBA upon receipt of appropriate official documentation of successful completion of the University of California, Irvine Extension Project Management Certificate provided that all required certificate courses were completed with a grade of “B” or better within the last seven years.

Core Course Waiver Policy
The Accelerated BBA to MBA degree track has four MBA core courses eligible for waiver consideration, which can reduce a student’s degree path by up to twelve credits provided that waiver requirements are met. The courses eligible for waiver consideration are:

• ACCU 602 Financial Reporting & Analysis
• BUSU 610 Data Analysis for Decision Making
• BUSU 620 Economic Analysis for Managers
• OLCU 613 Seminar in Organizational Dynamics

Course Waiver Requirements
• For graduate courses supporting an eligible MBA core waiver course: Produce evidence of equivalent graduate course content by attaching relevant course descriptions.
• For undergraduate courses supporting an eligible MBA core waiver: Produce transcript evidence of the following courses:
  - A computer course and a statistics course are required for waiver consideration of BUSU 610 Data Analysis for Decision Making.
  - Microeconomics and Macroeconomics are required for waiver consideration of BUSU 620 Economic Analysis for Managers.
  - Two theory oriented Leadership or Management courses are required for waiver consideration of OLCU 613 Seminar in Organizational Dynamics.
• Only courses with a grade of “B” (3.0) or higher in appropriate courses will be considered.
• Undergraduate and graduate courses taken within the last seven years may be used toward waivers. A course older than seven years may be authorized via the petition process provided that currency in the field can be verified by matching current student knowledge and experience with the course’s Course Learning Outcomes. Verification of currency in the field requires the submission of a current job description and supervisor’s letter. Currency in the field cannot be self-reported.
• A course that has been waived may not be taken or used for elective credit for this degree.
• No tuition and unit-based fees refund or cancellation will be issued for courses taken and subsequently waived.

The Dean has the final decision on all course waivers. This decision may not be appealed.

BBA Course Substitutions: PHR, SHRM-CP or SHRM-SCP certification within three years may be used as a substitute for HRCU 445 Human Resource Studies

Students with IT professional certification(s) may substitute courses as outlined below provided that their certification(s) are unexpired and currently recognized in the field. Refer to MyBrandman for additional information on IT certification substitutions listed by catalog year.

| OLCU 613 | Seminar in Organizational Dynamics (Waivable) | 0-3 |
| ACCU 602 | Financial Reporting & Analysis (Waivable) | 0-3 |
| BUSU 610 | Data Analysis for Decision Making (Waivable) | 0-3 |
| BUSU 620 | Economic Analysis for Managers (Waivable) | 0-3 |

Subtotal (15-27 Credits)

**Graduate Electives (12 credits)**

MBA students may select an individualized set of electives from the graduate courses listed in the following areas: Accounting, Entrepreneurship, Finance, Public Administration, Health Administration, Human Resources, International Business, Organizational Leadership, Marketing, and Computer Science. Instead of individualized electives, MBA students may specialize in one of the above areas of study as an emphasis area.

**MBA Capstone**

| BUSU 640 | Business Strategy and Competitive Advantage Capstone | 3 |

All MBA core courses must be completed prior to enrolling in the MBA capstone course (one core course may be taken concurrently)

Total Credits 30-42

**Accelerated BBA to MBA for CPA Exam Preparation**

Students interested in pursuing a CPA license with the State of California, beginning January 1st, 2017, will need to complete a total of 150 credits, with 20 units in Accounting and 10 units in Ethics Study. Prospective students who wish to qualify to sit for the CPA exam must have a Bachelor’s degree and on an accelerated path may take General Education courses (48 credits), the Accelerated BBA program with an Accounting emphasis (72 credits), and the Accelerated MBA program with an Accounting emphasis (30 credits).
BACHELOR OF BUSINESS ADMINISTRATION (CREDIT HOUR)

Program Entry Options
The BBA program has three program options:
1. Accelerated Bachelor of Business Administration to Master of Business Administration
2. Credit-hour Bachelor of Business Administration
3. Competency-based Bachelor of Business Administration

Bachelor of Business Administration (Credit Hour)

Mission
The Bachelor of Business Administration (BBA) prepares students for career opportunities and advancement in a dynamic, global business environment.

Program Learning Outcome
- Communication: Demonstrate effective oral and written communication skills in organizational and professional settings.
- Ethics: Identify and evaluate ethical issues and formulate a defensible resolution in business environments.
- Global: Apply cultural differences, diversity issues, and business functions and processes, in domestic and global settings.
- Technology: Apply technology to support decision making in businesses; leadership.
- Business Functions/Processes: Interpret and implement business functions and processes.

Students pursuing the Bachelor of Business Administration (BBA) are encouraged to complete the lower-division core requirements before the start of their junior year. Transfer credits may be applied toward major requirements, subject to all university policies and guidelines. BBA students must attain at least a 2.0 ("C") grade point average in the major. All required courses must be taken for a letter grade where the option exists.

Bachelor of Business Administration (Credit Hour)

Degree Requirements
In addition to the University General Education and elective requirements, the BBA major consists of three components. The first component consists of 18 credits of Lower-Division Core Requirements (see Lower-Division Core Requirements). The second component consists of 33 credits of Upper-Division BBA Core Requirements (see Upper-Division Core Requirements). The third component consists of 21 credits of Business Electives or 21 credits of specialized courses in a selected area of Emphasis (see BBA Electives/Emphases).

MGTU 410 Strategic Management, is the Bachelor of Arts in Business Administration capstone course. All core courses must be satisfactorily completed prior to enrolling in the capstone course with one exception; one core course may be taken concurrently with the capstone.

Note: Applicable courses may be used to fulfill both the major and general education requirements (see the General Education Requirements section of this catalog).

Professional Certifications Course Substitutions
PHR, SHRM-CP or SHRM-SCP certification or recertification within three years may be used as a substitute for HRCU 445 Human Resource Studies.

Students with IT professional certification(s) may substitute courses as outlined below provided that their certification(s) are unexpired and currently recognized in the field. Refer to MyBrandman for additional information on IT certification substitutions listed by catalog year.

BACHELOR OF BUSINESS ADMINISTRATION
(COMpetency-BASED)

Program Entry Options
The BBA program has three program options:

1. Accelerated Bachelor of Business Administration to Master of Business Administration
2. Credit-hour Bachelor of Business Administration
3. Competency-based Bachelor of Business Administration

Bachelor of Business Administration (Competency-Based)

Colleges and universities traditionally award credit for classroom hours attended, conferring degrees based on students’ completion of a certain set of courses for a given number of credit hours. The focus of a competency-based program is the mastery of student learning outcomes — what they know and can do — rather than on how many hours, semesters, or years a student spends in school. A competency-based program allows students to demonstrate through assessments that they have acquired the set of competencies (levels of knowledge, skill, or ability) required for a particular degree including general education and the major. Some students have often acquired many of the knowledge, skills and abilities necessary for a degree through their life or previous work experience. Brandman University’s competency-based BBA allows students to prove their competency through assessments thereby reducing the time needed to earn a degree.

Students must demonstrate mastery of all competencies required for the BBA degree.

Brandman University offers a competency-based Bachelor of Business Administration degree (BBA) in one of the following emphasis areas:

- General Business
- Information Systems Management
- Supply Chain Management and Logistics
- Management and Organizational Leadership
- Marketing

BBA Mission
The Bachelor of Business Administration (BBA) prepares students for career opportunities and advancement in a dynamic, global business environment.

Brandman University Institutional Learning Outcomes
The Brandman University competencies are based on the American Association of Colleges and Universities (AAC&U) Liberal Education and America’s Promise (LEAP) Essential Learning Outcomes and the Lumina Degree Qualifications Profile (DQP). Of special importance in the framing of the DQP was recognition of graduates’ need to prepare for jobs that are rapidly changing in today’s contemporary workplace. The DQP framework provided Brandman a basis for establishing 21st century competencies for all of our baccalaureate students. As a result, the following Brandman institutional learning outcomes are threaded throughout the Brandman Competency-Based BBA program with a strong foundation built into the general education domain:

- Applied Learning: Design a project, paper, performance, or other appropriate task linking knowledge skills from work, experiential learning, or community activities with knowledge acquired in academic disciplines.
- Innovation and Creativity: Construct a novel or unique idea, question, format, or product.
- Civic Engagement: Describe insights gained from engaging physically and/or intellectually with activities of personal and public concern that are both individually life enriching and socially beneficial to the community.
- Global Cultures: Explain the relationship between a global issue and the history, values, politics, economy, communication styles, or beliefs and practices of one or more cultures affected by that issue.
- Integrated Learning: Devise connections among experiences inside and outside the formal classroom, or connections among multiple fields of study.

BBA Program Learning Outcomes
- Communication: Demonstrate effective oral and written communication skills in organizational and professional settings.
- Ethics: Identify and evaluate ethical issues and formulate a defensible resolution in business environments.
- Global: Apply cultural differences, diversity issues, and business functions and processes, in domestic and global settings.
- Technology: Apply technology to support decision making in businesses; leadership.
- Business Functions/Processes: Interpret and implement business functions and processes.

Bachelor of Business Administration (Competency-Based)
Orientation:
ORIC 100 Orientation
Gain familiarity with Brandman University’s MyPath and explore strategies to succeed in the program.

Completion is required prior to graduation.

Degree Requirements
The BBA consists of three major components or domains:

1. General Education (13 Competencies)
2. Business Core (34 Competencies)
3. Emphasis Areas: General Business; Information Systems Management; Supply Chain Management and Logistics; Management and Organizational Leadership; and, Marketing (9 – 12 Competencies each)

I. Domain: General Education
The General Education Requirements at Brandman University provides the liberal arts tradition the intellectual foundation that enables students to expand their perspectives beyond the focus of a major. Brandman University graduates will be intellectually flexible, creative, articulate, and prepared for active and life-long participation in the knowledge-based world of 21st century. The Brandman University General Education requirements are comprised of 6 Subdomains and 13 Competencies:
Subdomain: Communications
COMC 410 Interpersonal Communications
Understand the skills required to interact effectively with others.

COMC 101 Oral Communications
Deliver a well-organized oral presentation using delivery techniques and supporting materials appropriate for the audience.

ENGC 103 Written Communications, Level A
Identify and apply key components of effective writing skills and APA.

ENGC 104 Written Communications, Level B
Compose written arguments that are coherent, grammatically correct, and rhetorically aware.

Subdomain: Humanities
PHLC 110 Creative and Critical Thinking
Develop a creative solution to a historical, social, ethnic, economic, technological, and/or geographic problem.

HUMC 110 Disciplinary Relationships
Analyze relationships between disciplines such as history, literature, religion, philosophy, and the fine arts.

HUMC 115 Human Experience
Analyze the ways in which the human experience is influenced by historical, social, ethnic, economic, technological, and/or geographic contexts.

Subdomain: Information Literacy
LBSC 320 Information Literacy, Level A
Evaluate and cite various information resources to understand ethical research practices.

LBSC 321 Information Literacy, Level B
Apply academic research practices to complete an academic research project.

Subdomain: Natural Sciences
NSCC 115 Methods and Applications
Apply the principles, concepts, and methods of the natural sciences.

NSCC 111 Principles and Concepts, Level A
Understand the Scientific Method as a process and master the fundamental principles, concepts, and methods of biology.

NSCC 112 Principles and Concepts, Level B
Master the fundamental principles, concepts, and methods of chemistry and environmental science.

Subdomain: Quantitative Reasoning
MATC 203 Quantitative Fluency, Level B
Apply the concepts of statistical reasoning, data analysis, modeling, and interpretation.

MATC 103 Quantitative Literacy, Level A
Explain accurate calculations and symbolic operations to interpret social and economic trends.

Subdomain: Social Sciences
SOSC 110 Behavior and Cognition
Evaluate individual, organizational, and social behavior.

SOSC 115 Social Systems
Using a social systems perspective, investigate global problems and develop possible solutions.

II. Domain: Business Core
The Brandman University Business Core requirements are comprised of 7 Subdomains and 34 Competencies.

Subdomain: Accounting, Economics and Finance
ACCC 215 Accounting Cycle & Transaction Analysis
Demonstrate an understanding of the accounting cycle and the analysis of accounting transactions.

ACCC 230 Accounting for Long-Term Investing Financing Decisions
Demonstrate how to account for long-term investment and financing decisions.

ACCC 240 Accounting for Managerial Decisions
Demonstrate knowledge and application of managerial accounting tools and techniques used in making decisions.

ACCC 225 Accounting for Working Capital
Demonstrate an understanding of working capital management decisions and issues involving short-term credit and the management and accounting for cash, accounts receivable, and inventory.

ACCC 235 Financial Planning and Control
Demonstrate knowledge and application of the 3 key steps of financial planning (1) forecasting the firm’s short-term and long-term financial needs; (2) developing budgets to meet those needs; and (3) establishing financial controls to see if the company is achieving its goals.

ACCC 220 Financial Reporting
Demonstrate an understanding of financial reports and their use by decision-makers.

ACCC 360 Financial Statement Analysis
Analyze the financial performance of a business using financial statement analysis.

ACCC 210 Fundamentals of Accounting
Demonstrate an understanding of the fundamentals of accounting.

FINC 305 Fundamentals of Finance
Demonstrate an understanding of the fundamentals of finance.

ECNC 201 Fundamentals of Macroeconomics
Demonstrate an understanding of the structure of economies and the impact of policies on their performance.

ECNC 202 Fundamentals of Microeconomics Level A
Understand the basic principles and concepts of supply and demand and consumer behavior.

ECNC 205 Fundamentals of Microeconomics Level B
Explain firm producer, behavior, market structures and the different forms of competition.

MGTC 400 Global Economics
Understand the fundamentals and significance of international trade theories and systems.

BUSC 305 Managerial Economics
Apply macroeconomic and microeconomic theories in making economic business decisions in forecasting.

Subdomain: Business Law and Ethics
MGTC 315 Consumer Protection
Demonstrate an understanding of a business’s legal and ethical responsibilities for warranties, product liability, and consumer protection.

MGTC 310 Contracting and Negotiation
Demonstrate an understanding of whether a contractual relationship exists and satisfies legal requirements.
OLCC 350 Ethics Social Responsibility
Describe the importance of ethical principles and social responsibility to business decisions.

MGTC 305 Legal Environment
Demonstrate an understanding of the U.S. legal system and the legal environment of business.

MGTC 330 Risk Management
Identify and describe the different types of risk and the techniques used by businesses to control risk.

Subdomain: Business Strategy
MGTC 415 Competitive Advantage
Demonstrate knowledge of competitive advantage and strategic positioning.

BUSC 300 Implementing and Monitoring Business Plan
Demonstrate the ability to prepare a business plan and evaluate organizational performance.

MGTC 420 Strategic Development
Demonstrate an understanding of the appropriate tools and options for developing business strategies.

MGTC 410 Strategic Fundamentals and Environment
Demonstrate an understanding of the business environment and the fundamentals of strategy.

Subdomain: Information Technology
CSCC 200 Fundamentals of Information Technology
Develop an understanding of information technology fundamentals

Subdomain: Management and Leadership
MGTC 301 Fundamentals of Management
Demonstrate an understanding of management theory and practice.

OLCC 430 Human Resources
Develop an understanding of human resource management best practices (e.g., identifying talent and motivating, developing, and directing people as they work).

OLCC 425 Leadership in Diverse and Multicultural Organizations
Demonstrate an understanding of leadership in the context of diverse and multicultural organizations.

MGTC 405 Organizational Change
Demonstrate an understanding and application of effective change strategies to enhance business performance.

OLCC 355 Organizational Dynamics
Demonstrate an understanding of the impact organizational dynamics has on performance.

Subdomain: Marketing
MKTC 305 Fundamentals of Consumer Behavior
Demonstrate an understanding of consumer behavior fundamentals e.g., demographics and purchasing behavior) and promotional practices.

MKTC 301 Fundamentals of Marketing
Develop an understanding of marketing fundamentals.

Subdomain: Supply Chain/Operations Management (Logistics)
MGTC 325 Fundamentals of Supply Chain
Develop an understanding of supply chain fundamentals including project management.

MGTC 335 Negotiating and Managing Supplier Relationships
Develop an understanding of how to negotiate and manage supplier relationships.

MGTC 320 Operations Management
Develop an understanding of the role of operations management in business.

III. Domain Emphasis Areas

General Business
The purpose of the General Business emphasis is to serve those students who want a broad business education without an in-depth study in one discipline. This program provides students a broad business education that permits them the freedom to take coursework in multiple business disciplines. The general business emphasis consists of 21 equivalent credits of electives from any of the business disciplines.

Information Systems Management
The Brandman University Information Systems Management Emphasis requirements are comprised of 7 Subdomains and 9 Competencies.

Subdomain: Computer Systems Organization
CSCC 251 Computer Systems Architecture
Demonstrate an understanding of computer systems architecture.

Subdomain: Database
CSCC 408 Database
Demonstrate an understanding of database systems, their applications and tools used to develop databases.

Subdomain: Fundamentals of Management Information Systems
CSCC 315 Organizations, Management, and the Network Enterprise
Demonstrate an understanding of information systems in global business.

Subdomain: Networking
CSCC 353 Networking
Demonstrate an understanding of networks, and create a network.

Subdomain: Programming
CSCC 205 Computer Programming
Demonstrate an understanding of computer programming and its applications.

CSCC 410 Systems Analysis and Design
Demonstrate an understanding of systems analysis and design, applications and tools used.

Subdomain: Security
CSCC 270 Security
Demonstrate an understanding of information system security, applications, and the tools used.

Management and Organizational Leadership
The Brandman University Management and Organizational Leadership Emphasis requirements are comprised of 5 Subdomains and 12 Competencies.

Subdomain: Human Resource Management and Diversity
HRCC 445 Human Resource Management
Demonstrate an understanding of the fundamentals of human resource management.
OLCC 303 Managing Change
Demonstrate an understanding how leaders effectively implement and manage change.

OLCC 300 Organizational Behavior
Demonstrate an understanding of organizational behavior factors, processes and theoretical concepts as they relate to organizational effectiveness and productivity.

OLCC 325 Personal Leadership
Develop a personal philosophy of leadership through a personal assessment, and focused on personal and professional development.

HRCC 406 Workforce Diversity
Develop an understanding of the impact a diverse workforce can have on an organization.

Subdomain: Leading and Controlling
HRCC 430 Conflict Management
Develop and apply conflict management skills in an organizational setting.

OLCC 445 Operations Control
Understand and apply the tools used for operational control.

OLCC 440 Organizational Control
Develop an understanding of organizational control systems and the related use of qualitative and quantitative tools for an organization.

Subdomain: Organizational Structures and Culture
OLCC 400 Organizational Structure and Control
Demonstrate an understanding of the impact organizational structure and culture has on organizations.

OLCC 414 Team Building
Demonstrate an understanding of the importance of team dynamics to organizational effectiveness, productivity, and communication within an organization.

Subdomain: Project Management
CSCC 383 Project Management
Demonstrate an understanding of project management, applications and tools used.

Subdomain: Social Responsibility and Risk
MGTC 435 Social Responsibility & Risk
Apply an understanding of how to integrate the theoretical concepts of sustainability and social responsibility and risk throughout the supply chain.

Marketing
The Brandman University Marketing Emphasis requirements are comprised of 7 Subdomains and 14 Competencies.

Subdomain: Ethical Issues Affecting the Marketplace
MKTC 415 Marketing Ethics
Understand and apply marketing ethics.

Subdomain: Marketing Communications
MKTC 450 Advertising, Public Relations, Direct Marketing, and Sales Promotion
Develop an understanding of advertising, public relations, direct marketing, and sales promotion.

MKTC 460 Interactive Marketing and Customer Relationship Management
Develop and apply interactive marketing strategies using the internet and social media for customer relationship management.

MKTC 445 Integrated Marketing Communications and Promotions
Understand the fundamentals of integrated marketing communications and promotions.

Subdomain: Strategic Marketing
MKTC 425 Marketing Planning
Develop an understanding of strategic marketing and prepare a marketing plan.

MKTC 310 Marketing Research and Analysis
Develop an understanding of marketing research and analysis.

Subdomain: Understanding and Targeting the Marketplace
MKTC 465 Business-to-Business Marketing
Develop an understanding of business-to-business (B2B) marketing.

MKTC 320 Consumer Behavior
Develop an understanding of consumer behavior in marketing.

MKTC 410 Global Marketing
Understand and evaluate global markets and strategies.

MKTC 325 Segmentation Targeting and Positioning
Understand and apply segmentation targeting and positioning.

Subdomain: Value Capture
MKTC 440 Branding and Packaging Decisions
Explain the various components of brand equity.

MKTC 420 Pricing and Methods
Understand and apply pricing strategies.

Subdomain: Value Creation
MKTC 430 Product Development
Develop an understanding of how to increase value to an organization through the improvement in the design and/or implementation of products and services.

Subdomain: Value Delivery
MKTC 470 Midllemen and Multichannel Market
Understand and apply principles of multichannel marketing.

Supply Chain Management and Logistics
The Brandman University Supply Chain Management and Logistics Emphasis requirements are comprised of 8 Subdomains and 9 Competencies.

Subdomain: Materials and Inventory Management
MGTC 350 Materials and Inventory Management
Utilize inventory management tools to create value.

Subdomain: Product Development
MKTC 430 Product Development
Develop an understanding of how to increase value to an organization through the improvement in the design and/or implementation of products and services.

Subdomain: Project Management
CSCC 383 Project Management
Demonstrate an understanding of project management, applications and tools used.

Subdomain: Quality
MGTC 430 Quality
Develop an understanding of the necessity of quality and the measurements for continuous quality improvement and target setting.
Subdomain: Social Responsibility and Risk
MGTC 435 Social Responsibility & Risk
Apply an understanding of how to integrate the theoretical concepts of sustainability and social responsibility and risk throughout the supply chain.

Subdomain: Sourcing (Sourcing Analysis and International, Domestic, Local and In-sourcing)
CSCC 325 International, Domestic, Local and In-Sourcing
Develop an understanding of advantages and disadvantages of international, domestic, local, and in-sourcing options to source goods and services, including total cost of ownership.

CSCC 320 Sourcing Analysis
Develop the ability to identify, select and manage appropriate sources for procurement.

Subdomain: Supplier Relationship Management
MGTC 425 Supplier Relationship Management.
Develop an understanding of the opportunities to create value through supplier relationship management (SRM).

Subdomain: Transportation
MGTC 345 Transportation
Apply an understanding of the principles and methods for moving people or goods by air, rail, sea, road, pipeline, or digitally, including the benefits, costs, and risks associated with each option.

Brandman University accepts the following industry standard certification examinations for college credit in the competency based Bachelor of Arts in Business Administration degree program:

<table>

Bachelor of Science in Computing Technology

This program of study emphasizes the foundations of Information Technology (IT) and the latest practical technologies. Students interested in working in the areas of IT analysis and design, administration of network systems, management of information security and/or IT project management would benefit from this degree program.

Mission

The Bachelor of Science degree program in Computing Technology (BSCT) prepares the graduates for career opportunities, advancements, and participation in IT innovations.

Program Learning Outcomes

- **Communication**: Demonstrate effective oral and written communication skills in organizational and professional settings.
- **Mathematics**: Determine probability and analyze data for decision making.
- **Logic**: Apply logical reasoning to analyze IT problems to meet organizational needs.
- **Implementation**: Create a complete set of systems analysis, design and implementation based on emphasis area.

Degree Requirements

In addition to the University general education and elective requirements, the BSCT major consists of two components. The first component consists of 36 credits of common requirement courses (See Common Requirements). The second component consists of 12 credits of upper-division Computing Technology courses in a selected area of emphasis (See Emphasis Requirements). Note: some courses may be used to fulfill both the major and general education requirements (see the General Education Requirements section of this catalog).

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. All required courses must be taken for a letter grade where the option exists.

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY (COMPETENCY-BASED)

Colleges and universities traditionally award credit for classroom hours attended, conferring degrees based on students’ completion of a certain set of courses for a given number of credit hours. The focus of a competency-based program is on the mastery of student learning outcomes – what they know and can do – rather than on how many hours, semesters, or years a student spends in school. A competency-based program allows students to demonstrate through assessments that they have acquired the set of competencies (levels of knowledge, skill, or ability) required for a particular degree including general education and the major. Some students have often acquired many of the knowledge, skills and abilities necessary for a degree through their life or previous work experience. Brandman University’s competency-based BSIT program allows students to prove their competency through assessments thereby reducing the time needed to earn a degree.

This program of study emphasizes the foundations of Information Technology (IT) and the latest practical technologies. Students interested in working in the areas of IT analysis and design, network administration, information security management and/or IT project management would benefit from this degree program.

The quality focus of this degree program requires students to demonstrate mastery of all competencies required for the BS IT degree.

In addition to core course requirements derived from identified employer needs, the BSIT offers an Information Technology Generalist emphasis area.

BSIT Mission

The Bachelor of Science in Information Technology (BSIT) prepares students for career opportunities, advancement, participation and service in a variety of 21st century IT specializations.

Brandman University Institutional Learning Outcomes

The Brandman University competencies are based on the American Association of Colleges and Universities (AAC&U) Liberal Education and America’s Promise (LEAP) Essential Learning Outcomes and the Lumina Degree Qualifications Profile (DQP). Of special importance in the framing of the DQP was recognition of graduates’ need to prepare for jobs that are rapidly changing in today’s contemporary workplace. The DQP framework provided Brandman a basis for establishing 21st century competencies for all of our baccalaureate students. As a result, the following Brandman institutional learning outcomes are threaded throughout the Brandman Competency-Based BBA program with a strong foundation built into the general education domain:

- **Applied Learning:** Design a project, paper, performance, or other appropriate task linking knowledge skills from work, experiential learning, or community activities with knowledge acquired in academic disciplines.
- **Innovation and Creativity:** Construct a novel or unique idea, question, format, or product.

- **Civic Engagement:** Describe insights gained from engaging physically and/or intellectually with activities of personal and public concern that are both individually life enriching and socially beneficial to the community.
- **Global Cultures:** Explain the relationship between a global issue and the history, values, politics, economy, communication styles, or beliefs and practices of one or more cultures affected by that issue.
- **Integrated Learning:** Devise connections among experiences inside and outside the formal classroom, or connections among multiple fields of study.

BS in Information Technology Program Learning Outcomes

- **Interpersonal Skills:** Demonstrate written and oral communication skills in collaborative environments.
- **Problem Solving:** Apply current IT tools and techniques to solve multi-faceted technological issues.
- **Professionalism and Ethics:** Engage in IT professional, ethical, legal, and social responsibilities and practices.
- **IT Integration:** Apply IT best practices and standards to integrate systems to address a business need.
- **Information Assurance:** Employ current information assurance principles to manage risk.

Orientation:

**ORIC 100 Orientation**

Gain familiarity with Brandman University’s MyPath and explore strategies to succeed in the program.

Completion is required prior to graduation.

Degree Requirements

The BS in Information Technology consists of three major components or domains:

1. **General Education (13 Competencies)**
2. **Information Technology (IT) Core (18 Competencies)**
3. **Emphasis Area: Information Technology Generalist (8 Competencies)**

I. DOMAIN: General Education

The General Education Requirements at Brandman University provides the liberal arts tradition the intellectual foundation that enables students to expand their perspectives beyond the focus of a major. Brandman University graduates will be intellectually flexible, creative, articulate, and prepared for active and life-long participation in the knowledge-based world of 21st century. The Brandman University General Education requirements are comprised of 6 Subdomains and 13 Competencies:

**SUBDOMAIN: Communications**

**COMC 410 Interpersonal Communications**

Understand the skills required to interact effectively with others.

**COMC 101 Oral Communications**

Deliver a well-organized oral presentation using delivery techniques and supporting materials appropriate for the audience.

**ENGC 103 Written Communications Level A**

Identify and apply key components of effective writing skills and APA.

II. DOMAIN: Information Technology

The Information Technology Core requirements are comprised of 18 Competencies:

1. **Information Assurance**
2. **Professionalism and Ethics**
3. **Problem Solving**
4. **Interpersonal Skills**
5. **Integrated Learning**
6. **Applied Learning**
7. **Civic Engagement**
8. **Global Cultures**
9. **Innovation and Creativity**
10. **Integrated Learning**
11. **Civic Engagement**
12. **Global Cultures**
13. **Innovation and Creativity**

III. Emphasis Area: Information Technology Generalist

The Information Technology Generalist Emphasis Area requires students to demonstrate mastery of all competencies required for the BS IT degree.

- **BSIT Mission**
- **BSIT Program**
- **Orientation**
- **Degree Requirements**
- **General Education**
- **Information Technology**
- **Emphasis Area: Information Technology Generalist**
ENGC 104 Written Communications Level B
Compose written arguments that are coherent, grammatically correct, and rhetorically aware.

SUBDOMAIN: Humanities
PHLC 110 Creative and Critical Thinking
Develop a creative solution to a historical, social, ethnic, economic, technological, and/or geographic problem.

HUMC 110 Disciplinary Relationships
Analyze relationships between disciplines such as history, literature, religion, philosophy, and the fine arts.

HUMC 115 Human Experience
Analyze the ways in which the human experience is influenced by historical, social, ethnic, economic, technological, and/or geographic contexts.

SUBDOMAIN: Information Literacy
LBSC 320 Information Literacy Level A
Evaluate and cite various information resources to understand ethical research practices.

LBSC 321 Information Literacy Level B
Apply academic research practices to complete an academic research project.

SUBDOMAIN: Natural Sciences
NSCC 115 Methods and Applications
Apply the principles, concepts, and methods of the natural sciences.

NSCC 111 Principles and Concepts, Level A
Understand the Scientific Method as a process and master the fundamental principles, concepts, and methods of biology.

NSCC 112 Principles & Concepts Level B
Master the fundamental principles, concepts, and methods of chemistry and environmental science.

SUBDOMAIN: Quantitative Reasoning
MATC 203 Quantitative Fluency, Level B
Apply the concepts of statistical reasoning, data analysis, modeling, and interpretation.

MATC 103 Quantitative Literacy, Level A
Explain accurate calculations and symbolic operations used to interpret social and economic trends.

SUBDOMAIN: Social Sciences
SOSC 110 Behavior and Cognition
Evaluate individual, organizational, and social behavior.

SOSC 115 Social Systems
Using a social systems perspective, investigate global problems and develop possible solutions.

II. DOMAIN: Information Technology Core
The Brandman University Information Technology Core requirements are comprised of 4 Subdomains and 18 Competencies.

SUBDOMAIN: Information Technology Foundations
CSCC 251 Computer Systems Architecture
Demonstrate an understanding of computer systems architecture.

CSCC 408 Database
Demonstrate an understanding of database systems, their applications and tools used to develop databases.

CSCC 200 Fundamentals of Information Technology
Develop an understanding of information technology fundamentals

CSCC 353 Networking
Demonstrate an understanding of networks, and create a network.

CSCC 270 Security
Demonstrate an understanding of information system security, applications, and the tools used.

SUBDOMAIN: Information Technology Management
OLCC 350 Ethics and Social Responsibility
Describe the importance of ethical principles and social responsibility to business decisions.

CSCC 363 Information Management
Utilize industry best practices to manage and organize organization data and information.

OLCC 355 Organizational Dynamics
Demonstrate an understanding of the impact organizational dynamics has on performance.

CSCC 315 Organizations, Management, and the Networked Enterprise
Demonstrate an understanding of information systems in global business.

OLCC 414 Team Building
Demonstrate an understanding of the importance of team dynamics to organizational effectiveness, productivity, and communication within an organization.

SUBDOMAIN: Information Technology Operations
MATC 251 Discrete Mathematics
Identify fundamental concepts of discrete mathematics as they apply to computer programming techniques.

CSCC 497 Information Technology Capstone
Design an information technology solution for an enterprise-wide organizational need.

CSCC 361 Operating Systems
Troubleshoot and utilize modern operating systems in a variety of business settings.

CSCC 383 Project Management
Demonstrate an understanding of project management, applications and tools used.

CSCC 410 Systems Analysis and Design
Demonstrate an understanding of systems analysis and design, applications and tools used.

SUBDOMAIN: Software Development
CSCC 362 Fundamentals of Software Development
Recognize appropriate programming constructs utilized in the building, testing, and debugging of software programs.

CSCC 470 Mobile Development Fundamentals
Develop and deploy an effective mobile based program for the web and mobile devices.

CSCC 360 Web Design Technologies
Utilize web development foundations and standards in the design, development and deployment of interactive web content.
III. DOMAIN: Information Technology Generalist Emphasis

The Brandman University Information Technology Generalist Emphasis requirements are comprised of 3 Subdomains and 8 Competencies.

SUBDOMAIN: Data Analysis

CSCC 477 Advanced Database Querying and Reporting
Utilize advanced administration techniques to manage database design, security, and architecture.

CSCC 478 Business Intelligence and Data Analytics
Transform data into meaningful and useful information for business analysis and reporting needs.

CSCC 420 Database Querying and Reporting
Develop database queries to manage tables and data using common SQL commands.

SUBDOMAIN: Leadership

HRCC 430 Conflict Management
Develop and apply conflict management skills in an organizational setting.

OLCC 325 Personal Leadership
Develop a personal philosophy of leadership through a personal assessment, and focused on personal and professional development.

SUBDOMAIN: Server Management

CSCC 475 Cloud Computing
Employ industry best practices in the development, maintenance, and deployment of cloud computing and virtualization technologies.

CSCC 476 Server & Desktop Virtualization
Utilize server virtualization technologies in the implementation and maintenance of virtualized desktops, servers, and network infrastructures.

CSCC 364 Server Administration
Use server administration techniques in the installation and maintenance of network infrastructure and directory services.

Credit for Industry Standard Information Technology Certification(s)

GRADUATE DEGREE PROGRAMS

• Master of Arts in Organizational Leadership (p. 101)
• Master of Business Administration  (p. 102)
• Master of Public Administration (p. 105)
• Master of Science in Human Resources (p. 106)
• Executive Certificate: Public and Nonprofit Leadership (p. 107)
• Graduate Certificate: Business Administration (p. 108)
• Graduate Certificate: Health Administration (p. 108)
• Graduate Certificate: Human Resources (p. 108)
• Graduate Certificate: Organizational Leadership (p. 109)
• Graduate Certificate: Public Administration (p. 109)

Master of Arts in Organizational Leadership

Mission

The mission of the MAOL program is to provide students with an innovative theory to practice-oriented leadership program of study based on excellence and flexibility that creates lasting value and relevance for evolving leaders and their organizations.

Program Learning Outcomes

The focus of the MAOL program is on the development of the people and conceptual skills which are essential to success at all levels of administration. Through our student-centered, largely "hands-on" approach to learning, students in organizational leadership have the opportunity to:

• Leadership: Articulate a personal philosophy of leadership that reflects a sense of self as leader.
• Critical Analysis: Analyze organizational leadership issues using a theory based approach.
• Systems: Evaluate personal and organizational effectiveness using systems thinking principles.
• Ethics: Create a personal ethical decision making model.
• Collaboration: Apply collaboration and team skills.
• Change: Apply change management strategies to practical situations in organizations.

The MAOL consists of 36 credits of coursework, including 12 credits in electives, and 3 credits in a leadership capstone seminar, in which students synthesize and apply what they have learned.

Requirements for Admission

The prospective graduate student in the MAOL program must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission options. All graduate admissions options listed below require an earned baccalaureate degree from a regionally accredited institution.

Option One

A 3.0 grade point average (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

Option Two

A GPA between 2.5 and 2.99 calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. A satisfactory score on an accepted graduate admissions exam is required.

1. Graduate Record Exam (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE. (Minimum score for Quantitative: 141, minimum score for Verbal: 150, minimum score for Analytic Writing: 4.5)
2. Miller Analogies Test (MAT): achieve a minimum scaled score of 400.
3. Graduate Management Admissions Test (GMAT): fulfill the formula GMAT + (GPA x 200) > 1000.

Option Three

An earned master's degree or higher from a regionally accredited institution.

Option Four

Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant's ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the field of Organizational Leadership.

Transfer of Coursework

A maximum of 9 semester credits may be accepted in transfer toward electives in the MAOL degree program. (See Academic Policies and Procedure section.)

In addition to university policies concerning transfer of coursework, the MAOL program will accept transfer of coursework which specifically meets the following criteria:

• Project Management Certificate Twelve Credit Transfer: Brandman University will award 12 elective credits toward the MAOL upon receipt of appropriate official documentation of successful completion of the UC, Irvine Extension Project Management Certificate provided that all certificate courses were completed with a grade of “B” or better.
• Military Coursework Fifteen Credit Transfer: Active Duty, Reserve, National Guard, retired and prior military service members may qualify for a transfer of fifteen credits toward the MAOL degree for completion of military coursework comparable OLCU 614 Leadership & Team Development, OLCU 641 Leadership in Military Communication, OLCU 643 Military Operations Leadership, HRCU 618 Career Management, HRCU 646. Qualifications and provisions of this fifteen credit transfer opportunity follow:
  • The service member must qualify for admission to the MAOL program. (See Graduate Admission section of this catalog).
• Active Duty, active reserve, retired and prior service military members in the following ranks are eligible: Commissioned Officer (any rank), Senior NCO (E7 or above) or CW2 or above.
• Commissioned Officers must be graduates of a commissioning program (OCS or equivalent, ROTC, Military Academy) and a basic officer career course. Senior NCOs must be E7 or above and graduates of a career NCO Advanced Course. Warrant Officers must be CW2 or above and graduates of a Warrant Officer Candidate School and a Warrant Officer career course.
• The seven year rule for completion of all coursework toward the MAOL degree applies, including transfer credit for military schooling. (See Seven-Year Limitation in Graduate Academic Policies and Procedures section of this catalog.)
• Recipients of the fifteen credit transfer must complete all remaining coursework for the MAOL degree from Brandman University (online or on ground) in accordance with academic policy.
• This is not an online only program. Service members who qualify may enroll in the MAOL program at a nearby campus or as an online student.

Specific Requirements for the Degree
The MAOL consists of four segments. The first segment consists of 12 credits related to the theoretical foundation of organizational leadership; the second segment consists of 9 credits related to putting leadership into practice; the third segment consists of 12 credits of electives to enhance the Leadership program of study; and the fourth is an integrative capstone course to reinforce the application of concepts and theories learned throughout the degree program (3 credits).

Integrative Capstone Subtotal (3 Credits)

Total Credits 36

1 These electives may be used to acquire either specific leadership related competencies or greater knowledge about the student’s intended professional arena. Electives may be selected from programs in criminal justice, education, human resources, business administration, computer science and information systems, health administration, public administration, organizational leadership and psychology. Successful completion of the University of California, Irvine Extension Project Management Certificate, as described in the MAOL Transfer of Coursework section, may substitute for the described MAOL electives. Not all courses may be offered at all sites or in all sessions.

Master of Business Administration Mission

The Master of Business Administration (MBA) prepares graduates to manage and lead enterprises that create value for stakeholders in a dynamic, global business environment.

Program Learning Outcomes

• Business Functions/Processes: Analyze and evaluate business functions and processes.
• Strategic Planning: Evaluate and formulate effective domestic and global business strategies.
• Sustainability/Ethics: Integrate ethics, corporate social responsibility and sustainability in decision-making.
• Leadership: Identify, evaluate, communicate and implement effective leadership of a diverse workforce.
• Innovation: Research, design and apply the innovation process from creativity to solution design and implementation.

Requirements for Admission

The prospective graduate student in the MBA program must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission options. All graduate admissions options listed below require an earned baccalaureate degree from a regionally accredited institution.

Option One

A 3.0 grade point average (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

Option Two

A GPA between 2.5 and 2.99 calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. A satisfactory score on an accepted graduate admissions exam is required.

• Graduate Record Exam (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE. (Minimum score for Quantitative: 141, minimum score for Verbal: 150, minimum score for Analytic Writing: 4.5)
• Miller Analogies Test (MAT): achieve a minimum scaled score of 400.
Graduate Management Admissions Test (GMAT): fulfill the formula
\[ \text{GMAT} + (\text{GPA} \times 200) > 1000. \]

Option Three
An earned master’s degree or higher from a regionally accredited institution.

Option Four
Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the field of Business Administration.

Transfer Credit Policy
A maximum of 6 credits may be accepted in transfer toward electives in the MBA degree program. (See the Graduate Academic Policies and Procedures section of this catalog.)

In addition to university policies concerning transfer of coursework, the MBA program will accept transfer of military coursework which meets the following requirements:

1. Course requested for transfer must include an official transcript or copy of an ACE evaluation which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion at a grade of “B” or higher;
3. Coursework must be comparable to program requirements (if marginal comparability, a written statement of rationale must be provided); and
4. Military coursework will be accepted in transfer as fulfilling elective requirements only.

In addition to University policies concerning transfer of coursework, Brandman University will award 12 elective credits toward the MBA upon receipt of appropriate official documentation of successful completion of the University of California, Irvine Extension Project Management Certificate provided that all required certificate courses were completed with a grade of “B” or better within the last seven years.

Core Course Waiver Policy
Though the MBA program consists of 48 credits, a student with comparable undergraduate or graduate coursework may have a maximum of 12 credits waived. This decreases the number of credits and courses needed to earn the MBA degree. The four MBA core courses eligible for waiver include:

- ACCU 602 Financial Reporting & Analysis 3
- BUSU 610 Data Analysis for Decision Making 3
- BUSU 620 Economic Analysis for Managers 3
- OLCU 613 Seminar in Organizational Dynamics 3

Course Waiver Requirements
- Dean approval within the second eight-week session of study. MBA waiver petitions submitted after a student’s second eight week session has ended will not be considered.

Course Substitutions
Students with the following certifications will be granted a maximum of 6 credits as defined below:

<table>
<thead>

</tbody>
</table>

Total Credits 36-48

Prior to enrolling in the MBA (BUSU 640 Business Strategy and Competitive Advantage Capstone) course, all core courses must be satisfactorily completed with one exception; one core course may be taken concurrently with the capstone.

MBA Electives

MBA students may select an individualized set of electives from the graduate courses listed in the following emphasis areas: Accounting, Entrepreneurship, Finance, Public Administration, Health Administration, Human Resources, International Business, Organizational Leadership, Marketing, and Computer Science. Successful completion of the University of California, Irvine Extension Project Management Certificate, as described in the Transfer Credit Policy, may substitute for the described MBA electives.

MBA Emphases

Instead of individualized electives, MBA students may specialize in one of the following designated emphasis areas:

Accounting Emphasis

Total Credits 3
All graduate admissions options listed below require an earned baccalaureate degree from a regionally accredited institution.

**Option One**
A 3.0 grade point average (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

**Option Two**
A GPA between 2.5 and 2.99 calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. A satisfactory score on an accepted graduate admissions exam is required.

1. Graduate Record Exam (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE. (Minimum score for Quantitative: 141, minimum score for Verbal: 150, minimum score for Analytic Writing: 4.5)
2. Miller Analogies Test (MAT): achieve a minimum scaled score of 400.
3. Graduate Management Admissions Test (GMAT): fulfill the formula GMAT + (GPA X 200) > 1000.

**Option Three**
An earned master’s degree or higher from a regionally accredited institution.

**Option Four**
Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the field of Public Administration.

**Transfer of Coursework**
A maximum of 9 semester credits may be accepted in transfer toward electives in the MPA degree program. (See Academic Policies and Procedure section.)

In addition to university policies concerning transfer of coursework, the MPA program will accept transfer of military coursework which meet the following requirements:

1. Course requested for transfer must include an official transcript or copy of an ACE evaluation which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion with a grade of “B” or higher;
3. Coursework must be comparable to program requirements (if marginal comparability, a written statement of rationale must be provided); and
4. Military coursework will be accepted in transfer as fulfilling prerequisite and elective requirements only.

---

**Master of Public Administration**

The Master of Public Administration curriculum focuses on 21st century theoretical and practical perspectives of public service leadership. Individualized programs of study can be tailored around specific areas of societal demand and student interest.

**Mission**
The Master of Public Administration (MPA) degree prepares students for meaningful contributions in the world of public service, particularly for transformational leadership in local and state public agencies and non-profit organizations.

**Program Learning Outcomes**
- Administration: Apply principles of public administration to increase effectiveness and efficiency in public service provision and delivery.
- Public Policy: Analyze public policy to improve public decision making processes.
- Political Strategy: Develop strategies for problem solving.
- Finance: Apply principles of public finance to decision making.
- Ethics: Apply ethical reasoning strategy to a public administration case study.

**Requirements for Admission**
The prospective graduate student in the MPA program must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission options.
Introduction

The MPA program consists of two segments. The first segment is the 27 credits for the specific core requirements, and the second segment consists of 9 elective or emphasis area credits.

Total Credits 36

Prior to enrolling in the capstone course (PADU 688 Action Learning Project), all core courses must be satisfactorily completed with one exception; one core course may be taken concurrently with the capstone.

MPA Electives/Emphasis

Individualized Electives

MPA students may select an individualized set of electives (9 credit limit) from the graduate courses listed in the following areas (in consultation with an academic advisor): Accounting, Entrepreneurship, Finance, Health Administration, Human Resources, Business Administration, Organizational Leadership, Marketing, Computer Science and Public Administration courses. These electives may be used to acquire either specific leadership related competencies or greater knowledge about the student’s intended professional area.

Students may transfer up to nine elective credits into the MPA program of study.

Emphasis Area

Organizational Leadership Emphasis

This leadership focus is best suited for students interested in careers in the non-profit sector.

Master of Science in Human Resources

The Master of Science in Human Resources (MSHR) is designed to provide practitioners and leaders with the knowledge, skills and tools to maximize employee engagement and optimize organizational performance. It is a degree designed to promote the career development of human resources professionals.

Mission

The MSHR prepares graduates with the knowledge and skills needed to deliver innovative ideas and solutions to advance the practice of Human Resource Management in the 21st century.

Program Learning Outcomes

- **Business Acumen**: Apply an integrated and systems-oriented approach to Human Resources that aligns and supports business strategy.
- **Globalization and Diversity**: Assess the impact of globalization, multiculturalism, and multi-generational workforces on organizational policy, practices and performance.
- **Workforce Planning**: Design strategies to ensure workforce capabilities are aligned with organizational needs.
- **Talent Management**: Develop strategies to ensure workforce performance is continuously aligned with organizational needs.
- **Strategic Leadership**: Build strategic partnerships that address complex business needs and meet corporate social responsibility, ethical objectives, and legal considerations.
- **Data-Driven Decision-Making**: Evaluate business data to make effective strategic decisions that align with and support business goals.

Requirements for Admission

The prospective graduate student in the MSHR program must demonstrate his or her readiness to succeed in graduate-level academic coursework by satisfactorily fulfilling one of the following admission options. All graduate admissions options listed below require an earned baccalaureate degree from a regionally accredited institution.

**Option One**

A 3.0 grade point average (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution.

**Option Two**

A GPA between 2.5 and 2.99 calculated over the most recent graded 30 semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. A satisfactory score on an accepted graduate admissions exam is required.

1. Graduate Record Exam (GRE): achieve the required minimum scores on two out of three of the subsections of the GRE. (Minimum score for Quantitative: 141, minimum score for Verbal: 150, minimum score for Analytic Writing: 4.5)
Management of Human Resources

The human resources program consists of three segments. The first segment is the 24-credit core; the second segment is the 9 credit elective area; and the third segment is the capstone course, HRCU 650 Strategic Management of Human Resources, 3 credits.

Specific Requirements for the Degree

The human resources program consists of three segments. The first segment is the 24-credit core; the second segment is the 9 credit elective area; and the third segment is the capstone course, HRCU 650 Strategic Management of Human Resources, 3 credits.

Option Three

An earned master’s degree or higher from a regionally accredited institution.

Option Four

Submission of a portfolio of evidence that shows adequate preparation for graduate studies. The portfolio will contain: writing samples that show graduate level communications and analytical skills; a detailed resume showing professional development and achievements; awards; professional recognition; letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of explanation detailing the reasons the student believes he or she is a good candidate for graduate study in the field of Human Resources.

Transfer of Coursework

A maximum of 9 semester credits may be accepted in transfer toward the Master of Science in Human Resources degree program. (See Academic Policies and Procedures section.)

In addition to university policies concerning transfer of coursework (see Academic Policies and Procedures section), the human resources program will accept transfer of military coursework which meet the following requirements:

1. Course requested for transfer must include an official transcript or copy of ACE evaluation which verifies graduate-level work;
2. Coursework must be letter graded or provide verification of completion at a grade of “B” or higher;
3. Coursework must be comparable to program requirements (if marginal comparability, a written statement of rationale must be provided); and

Capstone Course Subtotal (24 Credits)

Total Credits 36

Elective Courses

The student may choose among human resources graduate courses as well as graduate courses in Accounting, Business Administration, Computer Science, Economics, Entrepreneurship, Finance, Health Administration, Marketing, Organizational Leadership and/or Public Administration.

Capstone Course Subtotal (9 Credits)

Total Credits 36

Executive Certificate: Public and Nonprofit Leadership

The executive certificate in public and nonprofit leadership is a 6-credit graduate-level program intended for executives, managers and other professionals from the non-profit, public or civic sectors who wish to enhance their ability to lead volunteers. In a situation where participation cannot be demanded or extracted, the importance of inspiring commitment through the power of mutual influence (as opposed to the power of one’s position) becomes paramount. That is the essence of voluntary leadership.

The certificate is awarded upon successful completion of OLCU 621 Frontiers of Public and Nonprofit Leadership and OLCU 626 Dynamics of Public and Nonprofit Leadership with a minimum grade of “C” and an overall grade point average of 3.0 or higher. No transfer credits may be used. Students who wish to pursue further study in any graduate degree program in the School of Business and Professional Studies may use the above courses as electives, provided that they meet the graduate program admissions requirements for the degree they are seeking.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission to the Certificate Program

Admission to the certificate program is granted to individuals who apply and meet the standards for admission to a graduate program.
Graduate Certificate: Business Administration

The graduate certificate program in business administration allows students to achieve a firm grasp of contemporary business practices. It is designed for both business and non-business majors serving within for-profit, public sector or nonprofit organizations who wish to enhance their administrative ability in the organizations in which they work.

The 15-credit program is designed to introduce conceptual and practical skills in operations, marketing, finance, and analytical decision making. Through these courses, students in the certificate program will develop a heightened awareness of their role as business administrators in their current or future organizations.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission to the Certificate Program

Admission to the certificate program is granted to individuals who apply and meet the standards for admission to a graduate program. The certificate is awarded upon successful completion of all coursework with a minimum grade of "C" and an overall grade point average of 3.0 or above. No transfer credits may be used.

Graduate Certificate: Human Resources

The Graduate Certificate in Human Resources is designed to develop professionals in human resources who wish to broaden their conceptual knowledge, skills and abilities in the field. Individuals working in non-human resources departments who wish to increase their knowledge of human resources may benefit as well.

Eligibility for the masters' level certificate is granted to students who meet graduate program admission standards. Students who wish to pursue a Master of Science in Human Resources, a Master of Arts in Organizational Leadership, or a Master of Health Administration may use the credits in this certificate program toward the master's degree requirements.

</table>
Admission to the Certificate Program

Admission to the certificate program is granted to individuals who apply and meet the standards for admission to a graduate program. The certificate is awarded upon successful completion of all coursework with a minimum grade of "C" and an overall grade point average of 3.0 or above. No transfer credits may be used.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Graduate Certificate: Organizational Leadership

The graduate certificate program in organizational leadership allows students to achieve a firm grasp of contemporary leadership theory and practice. It is designed for individuals in leadership positions who wish to enhance their ability to lead.

The 15-credit program is designed to enhance a leader's conceptual and interpersonal skills, allowing them to include value-centered, service-driven leadership in their everyday operating philosophy and style. Students in the certificate program develop a heightened awareness of their capabilities and limitations and a corresponding commitment to uniting one's organizational colleagues around the creation and attainment of a common vision.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Graduate Certificate: Public Administration

The graduate certificate in Public Administration offers an opportunity for leaders in all sectors, private or public, to broaden their knowledge base to include principles of effective public service leadership. The 15 credit program introduces theoretical and practical perspectives involving public administration, public policy, local government and politics. It is designed to complement programs of study in business, leadership and human resource management.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission to the Certificate Program

Admission to the certificate program is granted to individuals who apply and meet the standards for admission to a graduate program. The certificate is awarded upon successful completion of all coursework with a minimum grade of "C" and an overall grade point average of 3.0 or above. No transfer credits may be used. Public Administration Graduate Certificate course requirements may be applied toward the completion of a graduate degree in Business, Leadership, Human Resources or Public Administration.

Undergraduate Degree Program

• Bachelor of Arts in Early Childhood Education (p. 112)

Teaching Credential Programs in Education (p. 114)

• 2042 Multiple Subject Credential Program with an English Learner Authorization (p. 119)
• 2042 Single Subject Credential Program with an English Learner Authorization (p. 120)
• Special Education - Preliminary Education Specialist (p. 120)
  • Mild/Moderate with an English Learner and Autism Authorizations
  • Moderate/Severe with an English Learner and Autism Authorizations

Service Credential Programs in Education (p. 124)

• Pupil Personnel Services Credential in School Counseling (p. 125)
• Preliminary Administrative Services Credential (p. 124)

Professional Authorizations in Education (p. 127)

• California Teacher of English Learners (CTEL) that leads to the English Learner (EL) Authorization
• Multiple Subject Added Authorization
• Single Subject Added Authorization
• Autism Spectrum Disorders, Added Authorization
• Early Childhood Special Education, Added Authorization

Graduate Degree Programs in Education

• Master of Arts in Education (MAE) (p. 130) in:
  • Curriculum and Instruction
  • Educational Administration
  • Educational Leadership
  • Instructional Technology: Teaching the 21st Century Learner
  • Leadership in Early Childhood Education
  • Teaching and Learning

• Master of Arts in Educational Leadership and Administration with Preliminary Administrative Services Credential (p. 134)
• Master of Arts in Special Education (p. 141) in:
  • Advanced Methodology
  • Autism
  • Early Childhood Special Education
  • Behavior Analysis
  • Teaching and Learning

• Master of Arts in Counseling with the Pupil Personnel Services Credential in School Counseling (PPSC) (p. 136)
• Education Specialist Degree in School Psychology (Ed.S.)/ Master of Arts in Educational Psychology with the Pupil Personnel Services Credential in School Psychology (PPSP) with optional emphasis areas in: (p. 138)
  • Autism
  • Applied Behavior Analysis
  • CTEL

• Master of Arts in Teaching (MAT) (p. 144) in:
  • Elementary Education with 2042 Multiple Subject Credential with an English Learner Authorization (p. 145)
  • Secondary Education with 2042 Single Subject Credential with an English Learner Authorization (p. 145)
  • Preliminary Education Specialist, mild/moderate and/or moderate/severe with an English Learner and Autism Authorizations (p. 146)
• Ed.D. in Organizational Leadership (p. 148)
  • Ed.D. in Organizational Leadership with Clear Administrative Services Credential

Please note that not all programs are offered at every Brandman University campus.

Mission
The mission of the Brandman University’s School of Education is to develop innovative and caring leaders, scholars, and practitioners who collaborate to solve complex problems, transform organizations, and educate diverse student populations through discovery, inspiration, and innovation.

Mission on Inclusion
Through inclusive curriculum, the SOE will ensure that our graduates are prepared for meeting the needs of all learners for full participation in a diverse and integrated society. This would include but is not limited to meeting the needs of students with disabilities, gifted learners, second language learners, and students from other underrepresented populations.

Brandman University’s School of Education is committed to creating an environment where all people feel supported, listened to, and able to reach their highest potential. In order to provide equity, access, and participation for all learners, students are provided supports and an inclusive curriculum that allows them to become an agent of change within their diverse local, state, national, and global communities.

Professional Dispositions
The School of Education has adopted a set of professional behaviors or dispositions and candidates are expected to demonstrate these dispositions throughout all education programs. Dispositions are evaluated by course instructors at different points in the program and candidates do a self-assessment at the beginning and end of the program. The Professional Dispositions are provided to all education students at their initial advising session and can also be found on the University Student Code of Conduct section and on the School of Education Student Services page.

Minimum Grade Requirement
All graduate courses within the School of Education must be passed with a grade equivalent of “B-” or higher. A grade of “C+” or lower is considered unacceptable and the course must be repeated. A cumulative GPA of 3.0 is required for graduation and recommendation for a credential.

Exit Survey
All Education Programs require candidates to complete an exit survey at the end of their program. Some exit surveys are done through the CTC and exit survey results are used to evaluate program effectiveness and for program improvement.
BACHELOR OF ARTS IN EARLY CHILDHOOD EDUCATION

The Bachelor of Arts (B.A.) in Early Childhood Education prepares individuals for careers in early care and education. Based on the National Association for the Education of Young Children (NAEYC) Professional Preparation Standards for Initial Licensure, this program focuses on building the knowledge, skills and dispositions that early childhood educators need to provide high quality, inclusive early care and education for children ages birth to eight in a variety of settings. Students will explore areas including, but not limited to, the following: child development and learning; relationships, interactions and guidance; screening, observation, assessment and documentation; learning environments, meaningful content and curriculum. Culture, equity and diversity are introduced in lower division coursework and then embedded throughout the program. The early childhood education program provides students with the depth of study required for entry into graduate studies in early childhood.

The program is designed to complement previous early childhood educational training and fieldwork typically received in community colleges. Lower division coursework mirrors the Curriculum Alignment Project Eight (CAP 8) and is designed to provide the foundations for the upper division content and experiences. The upper division early childhood education coursework encapsulates current thinking and research in early childhood education. Throughout the program, students apply their learning through fieldwork experiences in at least one of the following age groups: birth to three, three to five, and five to eight. Fieldwork experiences must be completed in at least one of the following settings: primary or elementary school, private or publicly funded early care and education center or family childcare home. Moreover, two practicums offer the opportunity for students to demonstrate their teaching competencies under guided supervision. The capstone course requires students to integrate their knowledge and skills to develop and maintain healthy, safe, supportive and challenging learning environments for young children.

Program Learning Outcomes

- **Research-based Practice**: Integrate brain research and evidence based practices that support development and learning across the curriculum.
- **Child Development**: Integrate child development theories into classroom practices.
- **Reciprocal Relationships**: Develop plans to promote child, family and community relationships that enhance children’s development and learning.
- **Responsive Environments**: Create learning environments that maximize child development, learning, health, and safety.
- **Comprehensive Assessments**: Employ formal and informal assessment procedures to gather child and family information to provide meaningful programs and curricula.
- **Ethical Practice**: Implement the NAEYC Code of Ethics and demonstrate professional behaviors.
- **Embracing Diversity**: Create classroom environments and curriculum that acknowledge and celebrate children and families’ diversity.

Bachelor’s Degree in Early Childhood Education Program Information and Requirements

**Background Check, Certificate of Clearance, Child Development Permit**

A Background Check, Certificate of Clearance (including fingerprints) or a copy of a valid Child Development Permit or equivalent must be submitted within the first session of enrollment. No student will be permitted to register for a course requiring field experience until the Background Check, Certificate of Clearance or Child Development Permit has been verified. A Background Check, Certificate of Clearance or Child Development Permit must be active prior to the fieldwork experience.

**Negative Tuberculosis Test**

Candidates must submit a current “negative” tuberculosis test that verifies the candidate does not have active tuberculosis. Negative tuberculosis tests must be no more than two years old and cover the field experience period. Candidates who do not submit verification of a negative T.B. test cannot advance in any coursework that requires observation or field experience. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis. The negative tuberculosis tests done by X-rays must be no more than five years old and cover the two practicum periods.

**Immunizations**

SB 792 requires that candidates volunteering or working in day care centers and family day care homes must be immunized against influenza, pertussis, and measles. Candidates must submit verification of immunization or provide documentation of an exemption prior to any observations or fieldwork experiences.

**Minimum Grade Requirement**

All courses taken in the major program must be passed with a grade equivalent of “C” or higher. A grade of “C-” or lower is considered unacceptable and the course must be repeated.

**Transfer Credit Policy**

The Curriculum Alignment Eight (CAP 8) or equivalent may be transferred in from a community college. A request to transfer coursework may be granted if a) the course(s) can be shown to be equivalent in content to the CAP 8 course(s) and b) is approved by the Associate Dean. An Associate’s degree in Child Development or Early Childhood Education earned at a regionally accredited institution may be used to fulfill the CAP 8 requirement.

**Advancement to Field Experience**

Applications for field experience must be submitted online by the candidate on the SOE Services MyBrandman site at least two terms prior to the session in which a student plans to begin field experience (or by the deadline established on the SOE Services MyBrandman site). Candidates also need to have completed all the CAP 8, core and content courses with the exception of ECED 399 Integrated Practice-Practicum II and ECED 401 The Early Childhood Educator as Decision Maker-Capstone.

TEACHING CREDENTIAL PROGRAMS

The School of Education offers several teaching credential programs for initial licensure. For those interested in becoming teachers at the elementary or secondary levels, the School of Education offers programs that lead to the Preliminary 2042 Multiple Subject or 2042 Single Subject California Teaching Credential with the English Learner Authorization. For those interested in becoming teachers in special education, the School of Education offers the Preliminary Mild/Moderate and/or Moderate/Severe Education Specialist California Teaching Credentials with the English Learner Authorization. The Early Childhood Special Education Credential is designed for candidates who want to work with infants, toddlers and preschool age children with identified special needs.

Admission Requirements

1. Applicants must complete the formal application process, with all required documents including official (sealed) transcripts indicating a conferred Bachelor's degree from a regionally accredited baccalaureate degree granting institution, a "Statement of Intent" and three recommendation forms. Applicants seeking one or more of these teaching credentials must make formal application to the teacher credential program before beginning any coursework other than Prerequisites.

2. Proof of a passing score on the California Basic Education Skills Test (CBEST) or any CTC approved basic skills tests is required for admission to all credential programs. Multiple Subject candidates may use the passage of the Multiple Subject CSET (all four subsets) in place of the CBEST.

3. All Multiple Subject, Single Subject and Education Specialists credential candidates (except Early Childhood Special Education Credential candidates) must prove subject matter competency by providing evidence that they have registered for, have taken or have passed the appropriate subject matter examination (CSET) prior to admission to the program. Multiple Subject, Single Subject, and Education Specialist candidates may submit verification of completion of a subject matter preparation program in the appropriate subject matter to meet this requirement.

4. Applicants transferring from another institution's credential program must supply a letter from that institution's Education Department attesting to the applicant's good standing in the program. Such a letter should be written on institutional letterhead by the Dean, the department chair, the director of teacher education, or some other person in a similar position.

5. Applicants to a credential program must possess a grade point average of 2.75 (GPA) calculated over the most recent 30 graded semester (45 quarter) credits completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential. All credits used for GPA calculation must be from a regionally accredited institution. Applicants to the Single Subject or Education Specialist Credential program who are using an academic major or coursework for subject matter competency must also have a cumulative grade point average of 2.75 in their major field to be admitted.

6. Applicants with GPAs between 2.50* and 2.74 can qualify for admission to a credential program by earning a passing score on one of the qualifying examinations listed below. A passing score will fulfill both the admission and the major grade point average requirements. Applicants may not enroll in any 500 level course other than prerequisites, until successful completion of an entrance examination:
   a. Graduate Record Examination (GRE): achieve the required minimum scores on two out of the three subsections. The minimum acceptable score for the Quantitative section is 141. The minimum acceptable score for the Verbal section is 150. The minimum acceptable score for the Writing section is 4.5.
   b. Miller Analogies Test (MAT): Achieve a minimum scaled score of 403.
   c. Subject Matter Competency Examinations: Successfully pass all subtests of the appropriate California Subject Examinations for Teachers (CSET).

7. Multiple and Single Subject, and Education Specialist applicants with a GPA lower than 2.5 may, under certain conditions, petition for admission consideration under an “exceptional admit” category. Applicants must have passed the CBEST and one of the approved graduate admission examinations specified in number 6 above to be considered for an “exceptional admit”. The School of Education encourages applicants to take the appropriate Subject Matter Competency Examination as a way to demonstrate suitability for admission to a credential program. To petition for admission, candidates must submit all required admission documents specified in #1 above and each of following:
   a. Petition for exceptional admission.
   b. Letter from the candidate specifying exceptional admission criteria and how those criteria have been met.
   c. Passing scores on CBEST and passing scores on one of the approved graduate admission exams listed in #6 above.
   d. Three current letters of reference attesting to the candidate’s ability to complete graduate coursework. The letters cannot be older than two years from the date of application. A letter of support from the local campus education committee. The committee must have three members, with one full-time faculty member.
   e. A letter of support from the local campus education committee. The committee must have three members, with one full time faculty member.

Applicants who choose to enroll in these credential programs have the option of completing their programs in a "credential only" format, or, if they meet graduate degree admission criteria in a Master of Arts in Teaching format, except for the Early Childhood Special Education program (please see MAT degree program for details).

* Students admitted to credential programs are not automatically admitted to Master’s degree programs.

Credential Program Information and Requirements

Transfer Credit

Teacher preparation coursework is not automatically transferable from another institution and transferability of coursework cannot be determined until a student is admitted to a credential program. A request to transfer coursework may be granted IF

1. The course(s) can be shown to be equivalent in content to the Brandman course(s)
2. Meets the Brandman University graduate transfer credit policy.
3. Is approved by the Associate Dean.

Credential courses that are more than seven years old prior to application for the credential cannot be transferred into the program. There is no time limit on prerequisite courses. Up to 6 credits may be transferred into the credential programs (excluding candidates adding an additional Education Specialist credential).

**Residency**

Candidates entering the Multiple Subject or Single Subject Credential program from another institution must take EDUU 510 Introduction to Teaching at Brandman University and will be required to complete at least 12 semester credits of education coursework toward the Preliminary Credential in residence at Brandman University prior to Directed Teaching. Supported Teaching and Directed Teaching credits do not count toward residency.

Candidates entering the Preliminary Education Specialist Credential program who hold a valid preliminary Multiple or Single Subject Credential may waive certain courses in the program. Please see an academic advisor to determine which courses can be waived. Those who do not hold such a credential must take EDUU 510 Introduction to Teaching at Brandman University. All candidates entering these programs are required to complete a minimum of 12 credits of their coursework plus Supported or Directed Teaching at Brandman University.

Candidates adding an additional authorization to their active Special Education credential are required to complete a minimum of 9 credits of their coursework including Directed Teaching. If these candidates enter into an internship they are required to take all the supported teaching and internship seminar courses.

**Early Field Experience**

Prior to admission, or within the first session of enrollment, applicants must complete 40 hours of field experience in public school educational settings that reflects the credential sought. Candidates who add another credential area must complete an additional 20 hours of field experience in the setting that reflects the second credential area. Candidates in the Early Childhood Special Education Credential program must complete 40 hours of field experience in private or public programs serving infants, toddlers and/or preschoolers identified as having special needs. Please visit the SOE Services site for the applicable forms.

**Intake Interview**

All candidates entering a teaching credential program, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

**Subject Matter Competency**

All applicants must demonstrate subject matter competency either with verification of completion of a subject matter preparation program in the appropriate subject matter (Elementary, Single Subject, or Education Specialist candidates) or verification of a passing score indicating passage of all subtests for the appropriate subject matter examination (CSET). Verification of either of these must be reflected in the candidate’s electronic file and be received prior to an application for an Internship Credential or Directed Teaching. Subject Matter Examination subtests results can be no older than ten (10) years. The CSET is not required for the Early Childhood Special Education credential. Students may request for Brandman University to receive their scores directly from Pearson or the student may submit the passing scores directly to their campus.

**Certificate of Clearance**

A Certificate of Clearance (including fingerprints) or a copy of a valid credential or short-term permit must be submitted to the School of Education within the first session of enrollment. Candidates who do not submit verification of a certificate of clearance cannot advance in any credential coursework that requires observation or fieldwork in a K-12 setting. Anyone with a revoked credential will not be admitted to any credential program until the credential is reinstated by the CTC. A certificate of clearance or child development permit must be active prior to clinical practice.

**Negative Tuberculosis Test**

Candidates must submit to the School of Education, within the first session of enrollment, a current “negative” tuberculosis test that verifies the candidate does not have active tuberculosis. Negative tuberculosis tests must be no more than two years old and cover the clinical practice period. Candidates who do not submit verification of a negative T.B. test cannot advance in any coursework that requires observation or fieldwork in a P-12 setting. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis. The negative tuberculosis tests done by x-rays must be no more than five years old and cover clinical practice.

**Cardiopulmonary Resuscitation (CPR) Certification**

All candidates must submit to the School of Education a valid CPR certification for pediatric and adult. The CPR certification must verify both categories and must be current and submitted prior to applying for any clinical practice. CPR certification must be valid and current when a candidate applies for their preliminary credential.

**U.S. Constitution Requirement**

All candidates must meet this requirement prior to applying for any clinical practice. Candidates must meet this requirement in one of the following ways:

1. Passing score on a college-level exam on the U.S. Constitution from a regionally accredited college or university;
2. A two-semester credit college-level course from a regionally accredited institution with a grade of “C” or better; or
3. Bachelor’s degree from a California State University.
4. One of the following Brandman University undergraduate courses:

**RICA Exam**

Multiple Subject and Education Specialist credential candidates (with the exception of candidates in the Early Childhood Special Education program) must pass the state Reading Instruction Competence Assessment (RICA) prior to a credential exit interview. The RICA should not be taken until EDMU 520 Literacy and Language in K-8 Classrooms I and EDMU 521 Literacy and Language in K-8 Classrooms II have been successfully completed. Education Specialist credential candidates that hold a multiple or single subject credential are exempt from this requirement. Students may request for Brandman University to receive
their scores directly from Pearson or the student may submit the passing scores directly to their campus.

**Student Teaching (Clinical Practice)**
- **Multiple Subject, Single Subject or Education Specialist**

**Advancement to Clinical Practice**
Applications for clinical practice must be submitted online by the candidate through the SOE Services MyBrandman site by the established deadline date. Subject matter competence and all requirements listed above must be met prior to the application deadline except the RICA exam. Candidates also need to have completed all credential coursework with the exception of EDUU 544 Student Teaching Seminar I and EDUU 545 Student Teaching Seminar II, maintaining a 3.0 cumulative GPA.

For information on internship eligibility and requirements please refer to the "internship credential programs" section below.

**Directed Teaching**
1. Directed Teaching in the Multiple and Single Subject programs consists of two sessions of full-day directed teaching at two different grade levels that meet the cross-cultural criteria. For special education only credentials, the candidate has two sessions of full-day directed teaching assignment that meets the cross-cultural criteria.
2. Directed Teaching placements must be completed in public schools or approved settings.
3. The Campus Clinical Coordinator, not the student, will determine the student's placement in Directed Teaching. Placement requests are not permitted per CTC regulations.
4. Approved university personnel will supervise all student teachers.
5. Directed Teaching placements in special education classrooms are not acceptable for the Single Subject or Multiple Subject Credentials. Summer school placements are not acceptable unless in year-round public schools.

Under certain conditions a candidate may petition to waive the first session of Directed Teaching and the first directed teaching seminar. Documented evidence must be provided that the candidate has completed one full year (175 days) of satisfactory teaching as a contracted full-time teacher prior to the commencement of Directed Teaching at Brandman University. This teaching experience must have been at an appropriate grade level and Single Subject candidates must have taught in the appropriate subject area. Experience under an Internship Credential, substitute teaching, work as a paraprofessional, and/or various specialist-type teaching experiences do NOT qualify for a waiver. An exception may be made in a situation in which a district hires a full-time permanent substitute assigned to a single classroom for a full year and the candidate is evaluated by the same procedures as a contract teacher. This permanent substitute assignment must have been completed prior to the commencement of Directed Teaching at Brandman University. Contact your Campus Clinical Coordinator for the Directed Teaching waiver requirements and form.

Candidate performance in Directed Teaching will be reflected with a grade of Pass or No Pass. A grade of Pass indicates that the candidate has demonstrated acceptable competency in meeting the required Teacher Performance Expectations (TPEs). A grade of No Pass indicates that the candidate has not met the TPEs and must meet with the Campus Clinical Coordinator. Students in this situation will be placed on an action plan and may have to complete an additional Directed Teaching assignment or may be dismissed from the program.

**Internship Credential Programs – Multiple Subject, Single Subject and Preliminary Education Specialist**
Brandman University offers Commission on Teacher Credentialing (CTC) approved Internship Credential Programs in Multiple Subject, Single Subject and Preliminary Education Specialist. The Internship Credential has the same legal status as the CTC Preliminary Credential, except that it is valid only in a specifically designated school district or consortium and is only valid for a 2 year consecutive time period. For this reason, interns must obtain an employment contract before an intern credential can be issued. The intern assumes full teaching and legal responsibility for his/her classroom from the first day of the teaching assignment as a paid employee of the School District. Each intern candidate must work under the direct and continuing supervision of a Brandman University Supervisor and District Mentor who provides support at the classroom level in the cooperating school. To be eligible for a Brandman University Internship Credential candidates must have a 3.0 cumulative GPA or above in credential program courses.

**Internship Admission Requirements**
To be admitted to an Internship Program an applicant must:
1. Be admitted into a Brandman University stand alone or MAT credential program for Multiple Subjects, Single Subjects, Special Education.
2. Meet with a Campus Clinical Coordinator for to obtain information about these internship credential options and eligibility.
3. Submit a passing score for the appropriate CSET exam or a verification letter from a CTC approved subject matter preparation program with an authorized signature from the institution where the program was completed (Single Subject Credential Program or Special Education Program only, excluding the Early Childhood Special Education program);
4. Provide proof of meeting U.S. Constitution requirements;
5. Provide a copy of a negative T.B. clearance (cannot be older than two years);
6. Provide an active Copy of a Certificate of Clearance or any active permit issued by the CTC to teach P-12 in a public school;
7. Complete program specific 120-hour pre-service requirements for Internship Credentials. Please meet with your Campus Clinical Coordinator for pre-service course requirements.
8. Submit Credential Recommendation and clinical practice application forms which are found on the SOE Services MyBrandman site.
9. Submit a completed Verification of Employment Form from the school district. The form is provided by the Campus Clinical Coordinator or found on the SOE Services site and submitted through the credential recommendation application or clinical practice application.

All internship candidates must enroll in Supported Teaching courses and the co-requisite Intern Seminars for the fall and spring trimesters in each academic year that the intern credential is valid. Candidates are also required to maintain a log of hours documenting support/mentoring and supervision.

Students coming to the Brandman University Internship program from another University must end their current internship credential with their
previous University and complete the restriction change on the SOE Services MyBrandman site.

An intern who does not enroll in courses for two or more consecutive sessions may be ineligible for the intern credential. If a student’s internship is terminated by the district or the student, the student must contact the campus clinical coordinator.

Multiple Subject Intern Option
Interns in the first year of an internship must be continuously enrolled in the following:

- EDU 559  Advanced Internship Seminar II  2

EDUU 558  Advanced Internship Seminar I  2
EDUU 559  Advanced Internship Seminar II  2

**Early Completion Options (Multiple and Single Subject Only)**
1. To qualify for the Early Completion Internship Option candidates must first be admitted to the Multiple or Single Subject Internship Program.
2. Once admitted to the internship program candidates must pass two entry assessments to enroll in the Early Completion Option:
   - California Teaching Performance Assessment (TPA) Task 1-4 * and RICA (if in the Multiple subject internship option).
3. Candidates must then complete and pass EDU 551, specific supported teaching and the appropriate co-requisite internship seminar courses, California Teaching Performance Assessments (CalTPA) Tasks 2, 3, and 4 on the first attempt or they will be placed back into the regular internship program and be required to complete all MS or SS program requirements and courses.

**SB 57 Private School Option (Multiple and Single Subject Only)**
Under the provisions of S.B. 57, candidates who have taught in a WASC Senior College and University Commission (WSCUC) accredited private school for 3-5 years, within the past 7 years, may be eligible to waive all of student teaching and are not subject to the CalTPA, California Teaching Performance Assessment requirements. See an academic advisor or the teacher Accreditation Department for complete details regarding this program option.

**California Teaching Performance Assessment (CalTPA)**
The state mandated California Teaching Performance Assessment is required for Multiple and Single Subject candidates. The assessment consists of two instructional cycles based on the pedagogical sequence of plan, teach and assess, reflect and apply. Each of these four steps is addressed by each instructional cycle. Candidates complete Instructional Cycle I during Directed Teaching I and Instructional Cycle 2
Program Learning Outcomes

- **Focused Inquiry:** Examine classroom, school and the community contexts and use information to plan and design learning experiences.

- **Positive Learning Environment:** Develop and utilize classroom management strategies that support student learning and encourage positive social interaction.

- **Curriculum Design:** Create learning experiences that make subject matter accessible and comprehensible to students.

- **Instruction:** Design differentiated instruction based on the needs of students.

- **Assessment:** Utilize multiple methods of assessment to monitor student learning and inform instruction.

- **Clinical Practice:** Apply subject matter pedagogical skills in authentic settings and continually reflect on and evaluate the effects of decisions and actions on others.

- A waiver of the technology requirement may be granted based on successful completion of both subtests of the CSET Preliminary Educational Technology Exam, documentation of completion of acceptable regular education computers in education coursework from an accredited college or university, or submission of an electronic portfolio (under certain conditions).
2042 Single Subject Credential Program with an English Learner Authorization

The 2042 Single Subject Credential with English Learner Authorization program prepares individuals to teach a specific subject, such as math or English, in a departmentalized (K-12) classroom. This credential allows the holder to teach English language learners and is typically required of those who teach at the middle school or high school level. Credential courses and fieldwork experiences are aligned with the California Commission on Teacher Credentialing (CTC) Teaching Performance Expectations and reflect current research in education and best practices. Candidates utilize Common Core Standards and other state content standards to design engaging lessons and develop skills in planning and differentiating instruction, classroom management, and assessment. In addition, the program focuses on the use of technology in the classroom and the development of 21st Century Skills.

Program Learning Outcomes

- **Focused Inquiry**: Examine classroom, school and the community contexts and use information to plan and design learning experiences.
- **Positive Learning Environment**: Develop and utilize classroom management strategies that support student learning and encourage positive social interaction.
- **Curriculum Design**: Create learning experiences that make subject matter accessible and comprehensible to students.
- **Instruction**: Differentiate instruction based on the needs of students.
- **Assessment**: Utilize multiple methods of assessment to monitor learning and inform instruction.
- **Clinical Practice**: Apply subject matter pedagogical skills in authentic settings and continually reflect on and evaluate the effects of decisions and actions on others.

Special Education - Preliminary Education Specialist

Brandman University offers the Preliminary Education Specialist teaching credentials with the English Learner and Autism authorizations in three areas of exceptionality: Mild/Moderate (M/M), Moderate/Severe (M/S), and Early Childhood Special Education (ECSE). The special education program, once completed, authorizes the holder to teach in special education in K-12 (and through age 22) special education settings (M/M and M/S) or in Birth through Pre-Kindergarten special education programs (ECSE). Credential courses and fieldwork experiences are aligned with the California Commission on Teacher Credentialing (CTC) Special Education Teaching Performance Expectations and reflect current research and best practices in special education. Candidates utilize Common Core Standards and California state content standards to design engaging lessons and develop skills in planning and differentiating instruction, classroom management, and assessment. In addition, the program focuses on the use of technology in the classroom and the development of 21st Century Skills for all learners.

Program Learning Outcomes

- **Collaboration**: Integrate skills and knowledge related to understanding appropriate collaborative partnerships with multidisciplinary teams that include families/guardians/caregivers, community members, and educational personnel.
- **Diversity**: Demonstrate professional practices and attitudes that reflect value of and knowledge about children and families from diverse backgrounds and experiences.
- **Instruction**: Implement and promote evidence-based and multifaceted teaching methodologies and strategies, including those incorporating appropriate technology to meet students’ individualized needs.
- **Assessment**: Critically analyze, select, and use formal and informal assessments that are appropriate for each child’s culture, language and unique learning needs. Candidates will incorporate assessment results for IEP/IFSP/ITP development, Response to Intervention (RTI), instruction, and interventions.
• **Behavioral Strategies**: Implement Positive Behavior Supports, social skills instruction, and environmental arrangement to support developmentally appropriate social and educational behaviors.

• **Clinical Practice**: Apply subject matter pedagogical skills in authentic settings.

### Credential Program Information

Candidates entering the Preliminary Education Specialist Credential Program who hold a valid general education credential may waive certain courses in the program. Please see an academic advisor to determine which courses can be waived. Those who do not hold such a credential must take EDUU 510 Introduction to Teaching and a minimum of 12 credits of coursework plus Supported or Directed Teaching at Brandman University to establish residency. Candidates adding an additional authorization to their active Special Education credential are required to complete a minimum of 9 credits of their coursework including Directed teaching. If these candidates enter into an internship they are required to take all the supported teaching and internship seminar courses. To obtain the Preliminary Education Specialist credential, candidates must meet the following requirements and those listed under teaching. If these candidates enter into an internship they are required to take all the supported teaching and internship seminar courses. Additionally, all candidates are responsible for ALL program requirements outlined within each specific credential program. Candidates can earn both education specialist and general education credentials at the same time. However, candidates entering both the Preliminary Education Specialist Credential Program and a general education credential program must meet the following requirements and those listed under teaching.

Candidates can earn both education specialist and general education credentials at the same time. However, candidates entering both the education specialist and general education credential programs are responsible for ALL program requirements outlined within each specific credential program. Candidates can also earn both the mild/moderate and moderate/severe credentials, or mild/moderate moderate/severe and early childhood special education credentials at the same time.

Adding a Mild/Moderate or Moderate/Severe Credential to an Existing Education Specialist Credential

**Option:** Adding a mild/moderate or moderate/severe Preliminary Education Specialist Credential.

**Prerequisites**

Valid Preliminary or Clear Education Specialist Credential, mild/moderate or moderate/severe with EL Authorization based on 2009 CTC Program Standards and an Autism Authorization. This program may be available to candidates who hold a Level II clear credential.

Up to 3 credits of General Education Elective may be waived or transferred into program. Three credits of the first Directed Teaching course and the first student teaching seminar (EDU 544 Student Teaching Seminar I) may be waived with 1 year of documented full-time teaching experience in the respective credential area being sought. Internship experience may not be used to waive student teaching credits. Students must establish residency with at least 9 credits.

Candidates adding a Preliminary Education Specialist Credential must successfully complete an exit portfolio consisting of signature assignments and artifacts from required coursework, an exemplary lesson plan, evaluation and observation from student teaching, and reflective essays. Students will submit their portfolio upon meeting all other program requirements. Candidates submit portfolios through LiveText and pay a fee to have the portfolio evaluated.
Portfolio requirements and directions are located on the SOE Services MyBrandman site.

Per CTC, holders of a clear education specialist credential may complete another preliminary specialty area program and add the new specialty area to their Clear credential. These individuals do not need to verify completion of an Induction program and will be issued a new clear credential with the additional specialty area.

Program Learning Outcomes

- **Visionary Leadership**: Collaboratively develop, implement and evaluate an actionable and sustainable vision of teaching and learning that is responsive to the changing context of a given school and local education agency.
- **School Improvement Leadership**: Strategically design continuous improvement plans based on analysis of program assessment data.
- **Community Leadership**: Advocate for the school and communicate its successes, needs, and challenges with a broad range of audiences through a variety of media to achieve the school’s vision and goals.
- **Instructional Leadership**: Evaluate classroom instruction using research-based instructional and assessment practices to provide focused, constructive coaching and feedback.
- **Organizational and Systems Leadership**: Integrate organizational values, structures, processes, and policies in solving problems and making decisions that productively impact the school’s ability to achieve its vision and goals.
- **Professional Learning and Growth Leadership**: Create, implement, and evaluate a professional growth plan to build individual and collective capacity for leadership.

Admission Requirements

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admissions section) and possess a valid California clear prerequisite credential.
2. Proof of a passing score on the California Basic Education Skills Test (CBEST) or any CTC approved basic skills tests is required for admission to all credential programs or a valid California credential that required passage of basic skills to receive the credential.
3. Candidates must submit a resume and a letter of intent.
4. Two letters of recommendation are required. These letters must be on official letterhead; must be written by individuals who are familiar with the candidate in an academic or professional setting and who have knowledge of the candidate’s ability to successfully complete graduate courses. The letters must address the candidate’s fit for the program, and cannot be older than two years from the date of application.
5. If the candidate is not currently employed in a position requiring a “basic” CTC credential, he/she must submit a letter identifying the school and principal under whom field work assignments will be completed.

Credential and Program Requirements

1. A minimum of five years of verified full time employment under a prerequisite CTC credential at the time of University recommendation for the credential.
2. Exit Interview.

Internship Eligibility

Students who wish to pursue an Internship must meet all of the admission requirements of the Preliminary Administrative Services Credential Option and:

1. Provide verification that they have three years of full time experience under a valid prerequisite credential.
2. Provide written evidence that they have been offered an administrative position by submitting the Brandman University Verification of Employment for Internship Credential Form to the Campus Clinical Coordinator at their campus. These forms can be obtained on MyBrandman, School of Education Services page or from the campus clinical coordinator. These forms must be completed by the candidate.
3. Submit the online internship recommendation credential application form found on MyBrandman, School of Education Services page prior to the start of the internship. These forms must be completed by the candidate.
4. Enroll in EDAD 698 Educational Leadership Internship Seminar within one term of assuming administrative employment. If candidate is already scheduled to be enrolled in EDAD 695 Educational Leadership Seminar I, EDAD 696 Educational Leadership Seminar II or EDAD 697 Educational Leadership Seminar III, upon approval of the administrative internship, the candidate will enroll in EDAD 698 Educational Leadership Internship Seminar the following term. EDAD 698 Educational Leadership Internship Seminar will assist the candidate in making the successful transition in their role as an educational leader and administrator with support from their Leadership Coach.

Required Courses
Program Learning Outcomes

**School Counseling Credential Only Option**

This option is only available to candidates who have earned a Master's Degree in Marriage and Family Therapy (MFT), a Master's degree in Social Work, a Master's degree in Counseling, or the equivalent in a directly related field from a regionally accredited institution (pending program review by the Associate Dean). Additional courses may be required to meet program standards. This program prepares candidates to serve as counselors in the public schools for grades K-12 and meets the requirements for a California State Pupil Personnel Services Credential authorizing service as a school counselor.

**Admissions Requirements**

Admission requirements for students who have earned a Master’s Degree in Counseling or the equivalent in a directly related field are the same as those listed for the Master of Arts in Counseling and Pupil Personnel Services Credential in School Counseling (PPSC). Please refer to the Master Degree section for specific Admission Requirements.

**Credential Program Information and Requirements**

Program requirements for the School Counseling Credential Only Option are the same as those listed for the Master of Arts in Counseling and Pupil Personnel Services Credential in School Counseling (PPSC) with the exception of the transfer policy and the Praxis Exam. Up to 3 credits of Required Courses (excluding Supervision and Mentoring) may be waived or transferred into program. Students must establish residency with at least 15 credits.

Students seeking a service credential only may not be eligible for financial aid.

**Intake Interview**

All candidates entering a pupil personnel service program, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

**Certificate of Clearance**

A Certificate of Clearance application (including fingerprints) or a copy of a valid short-term permit must be submitted at the time of the intake interview or by the end of the first session of enrollment. Students who do not have verification of being issued a certificate of clearance cannot advance in any School Counseling coursework that requires observation or fieldwork in a K-12 setting. Anyone with a revoked credential will not be admitted to any credential program until the credential is reinstated by the CTC.

**Tuberculosis Test**

A current "negative" tuberculosis test that is not more than two years old and covers the internship period must be submitted to the School of Education at the time of the intake interview or by the beginning of the first session of enrollment. A person whose tuberculosis test is "positive" can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis.

**Basic Skills Requirement**

Proof of a passing score on the California Basic Education Skills Test (CBEST) or any of the CTC approved basic skills tests is required for

</table>

* EDAD 698 Educational Leadership Internship Seminar Educational Leadership Seminar is only required for those candidates serving under an Internship Credential.

**Time Limitations**

All coursework must be completed within a consecutive SEVEN year period immediately prior to the awarding of the degree.

**Recommendation for Credential**

Upon successfully completing and passing all coursework and meeting the five years of experience on a pre-requisite credential, the candidate may apply to be recommended to the CTC for the Preliminary Administrative Services credential. To apply for the credential, candidates complete the on-line Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department, candidates can submit the credential fee.

**Pupil Personnel Services Credential in School Counseling (PPSC)**

**Program Learning Outcomes**

- **Law:** Understand state and federal laws and regulations affecting school district guidance programs.
- **Intrapersonal:** Demonstrate knowledge of personal strengths, assets, values, beliefs, and attitudes.
- **Research:** Apply research based counseling theory to particular problems.
- **Leadership:** Demonstrate skill in leading small groups.
- **Interpersonal:** Create effective counseling program.

**Transfer of Coursework**

No transfer credits or waivers will be accepted.

**Intake Interview**

All candidates entering a pupil personnel service program, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

**Certificate of Clearance**

A Certificate of Clearance application (including fingerprints) or a copy of a valid short-term permit must be submitted at the time of the intake interview or by the end of the first session of enrollment. Students who do not have verification of being issued a certificate of clearance cannot advance in any School Counseling coursework that requires observation or fieldwork in a K-12 setting. Anyone with a revoked credential will not be admitted to any credential program until the credential is reinstated by the CTC.

**Tuberculosis Test**

A current "negative" tuberculosis test that is not more than two years old and covers the internship period must be submitted to the School of Education at the time of the intake interview or by the beginning of the first session of enrollment. A person whose tuberculosis test is "positive" can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis.

**Basic Skills Requirement**

Proof of a passing score on the California Basic Education Skills Test (CBEST) or any of the CTC approved basic skills tests is required for
admission to all credential programs prior to enrollment in the second session of coursework.

**Exit Interview**
An exit interview is conducted by a faculty mentor at the end of the program to determine that the CTC’s Standards have been met. All coursework, non-coursework requirements, and the exit portfolio must be completed and passed prior to the exit interview. Candidates must fill out the exit interview application found on the SOE Services MyBrandman site prior to participating in an exit interview by a faculty mentor.

PROFESSIONAL AUTHORIZATIONS IN EDUCATION

Multiple Subject Added Authorization

A candidate who holds a Single Subject Credential can add a Multiple Subject Content Authorization to their Single Subject credential by:

1. Taking EDMU 521 Literacy and Language in K-8 Classrooms II;
2. Taking EDMU 523 History, Social Science and Visual/Performing Arts in K-8 Classrooms, or EDMU 524 Teaching and Learning Mathematics in K-8 Classrooms or EDMU 525 Teaching and Learning Science in K-8 Classrooms (3 credits);
3. Demonstrating subject matter competency by passing the CSET Multiple Subject exam;
4. Passing the RICA examination

Single Subject Added Authorization

A candidate who holds a Multiple Subject Credential can add a Single Subject Authorization to their Multiple Subject credential by:

1. Taking EDSU 533 Content Specific Strategies for Single Subjects (Series) (3 credits)
2. Demonstrating subject matter competence through coursework or by passing the appropriate CSET.

Candidates who have completed the requirements for a Single Subject Credential in one content area can add a different Single Subject Authorization in another content area to their credential by:

1. Taking EDSU 533 Content Specific Strategies for Single Subjects (Series) (3 credits) in the additional content area with the exception of candidates who are:
   a. Adding a new science content area to an existing science credential.
   b. Upgrading a Foundational Level Mathematics credential to a full Math credential.
   c. Adding an additional World Language content area to an existing World Language Credential.
2. Demonstrating subject matter competence through coursework or by passing the appropriate CSET.

California Teacher of English Learners (CTEL) leading to an English Learner (EL) Authorization

This program provides credentialed teachers or credential candidates with a CTC-designated authorization to serve limited English proficient students. The CTEL program follows all school of education graduate policies and procedures, including GPA and grade requirements.

Up to 3 credits may be waived or transferred. At least 9 credits must be taken at Brandman University.

Please note that admissions requirements are different than those for other credentials and certificates.

Admissions Requirements

1. Eligible candidates are those with an appropriate valid CTC designated credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to the School of Extended Education by visiting their web site at http://www.brandman.edu/exed or by calling 800-632-0094.
2. Applicants must complete and submit the Brandman University application and be enrolled into the California Teacher of English Learners (CTEL) program.

Total Credits 12

Demonstration of Mastery

Candidates must submit a Portfolio of Evidence demonstrating abilities or competence in the courses and includes a reflective essay that applies course content to CTEL. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency. Candidates submit the Demonstration of Mastery portfolio (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman site.

Recommendation for Authorization

Eligible candidates that can be recommended for the English Learner (EL) Authorization are those with an appropriate and valid CTC designated credential. Upon successfully completing and passing the coursework and Demonstration of Mastery, the candidate may apply to be recommended to the CTC for the authorization. To apply for the authorization, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

Autism Spectrum Disorders, added Authorization

This program provides eligible candidates with a CTC designated authorization to serve learners with Autism Spectrum Disorders. The Autism Spectrum Disorders added Authorization authorizes the holder to conduct assessments, provide instruction, and special education related services to individuals with a primary disability of autism as defined in subsection 300.8(c)(1) of Title 34 Code of Federal Regulations, Subpart A, across the continuum of special education program options at the grade and age levels authorized by the prerequisite credential required in (a)(1).

The Autism Spectrum Disorders added Authorization is limited to the grade and age levels authorized by the prerequisite credential. For
example, when the holder of a Specialist Instruction Teaching Credential in Learning Handicapped adds an Autism Spectrum Disorders added Authorization, the teacher may serve students in grades preschool, K-12, and adults while the holder of an Education Specialist in Mild/Moderate Disabilities with the Autism Spectrum Disorders added Authorization may serve students in grades K-12 through age 22.

Please note that admissions requirements for the Autism Spectrum Disorders added Authorization are different than those for other credentials and certificates.

Admissions Requirements
1. Eligible candidates are those with an appropriate valid CTC designated credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to the School of Extended Education by visiting their web site at http://www.brandman.edu/exed or by calling 800-632-0094.
2. Applicants must complete and submit the Brandman University application and be admitted into the Autism Spectrum Disorders added Authorization program.

Total Credits 12

No more than 3 credits may be waived or transferred into the ASDA. At least 9 credits must be taken at Brandman University.

Demonstration of Mastery
Candidates must submit via LiveText a Portfolio of Evidence demonstrating abilities or competence in the courses which includes a reflective essay that applies course content to Autism. This portfolio is completed as part of EDUU 677 Autism Spectrum Disorders: Programming and Strategies, II. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency.

Recommendation for Authorization
Eligible candidates that can be recommended for the Autism Spectrum Disorders added Authorization are those with an appropriate and valid CTC designated credential. Upon successfully completing and passing the coursework the candidate may apply to be recommended to the CTC for the authorization. To apply for the authorization, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

Early Childhood Special Education, added Authorization
This program provides eligible candidates with a CTC designated authorization to serve children with disabilities, ages birth to pre-K. The Early Childhood Special Education added authorization (ECSEAA) authorizes the holder to conduct assessments, provide instruction, and special education related services to children with developmental delays, specific learning disabilities, mild/moderate intellectual disabilities, traumatic brain injury, other health impairment, autism spectrum disorders, moderate/severe mental retardation, emotional disturbance, and low incidence and multiple disabilities. Each candidate demonstrates the skills required to ensure that the intervention and/or instructional environments are appropriate to the child's chronological age, developmental differences, and disability-specific needs.

Eligible candidates are those with an appropriate, valid CTC designated Special Education credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Please note that admissions requirements for the ECSEAA are different than those for other credentials and certificates.

Admissions Requirements
Applicants must:
1. Submit a copy of their appropriate, valid, CTC designated credential in special education.
2. Complete and submit the Brandman University application and be admitted into the Early Childhood Special Education added authorization (ECSEAA) program.

Total Credits 18

Candidates can only waive or transfer in 3 credits for this program and must take EDUU 670 Field Experience in Early Intervention and Early Childhood Special Education at Brandman University. At least 15 credits must be taken at Brandman University.

Demonstration of Mastery
Candidates must submit via LiveText a Portfolio of Evidence demonstrating abilities or competence in the courses which includes a reflective essay that applies course content to Early Childhood Special Education. This portfolio is completed as part of EDUU 670 Field
Experience in Early Intervention and Early Childhood Special Education. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency.

**Recommendation for Authorization**

Eligible candidates that can be recommended for the Early Childhood Special Education added authorization (ECSEAA) are those with an appropriate and valid CTC designated credential. Upon successfully completing and passing the coursework the candidate may apply to be recommended to the CTC for the authorization. To apply for the authorization, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.
MASTER OF ARTS IN EDUCATION (MAE)

This program is designed for individuals seeking career or advancement opportunities in education or related fields. None of the six emphasis areas leads to a license or credential to teach or provide services in the K-12 education system. All students complete six MAE core courses and one emphasis area cluster of courses. Six emphasis areas are offered: Curriculum and Instruction, Educational Leadership, Instructional Technology: Teaching the 21st Century Learner, Leadership in Early Childhood Education, Teaching and Learning, and Educational Administration. It is possible to complete a degree with more than one emphasis. Candidates completing a second emphasis area within one master’s degree program may not use previously completed emphasis coursework for one emphasis to fulfill the requirements of a second emphasis.

Program Learning Outcomes

- **Research:** Evaluate the various educational research paradigms and develop a theoretical research project utilizing one or more of the methodologies.
- **Democratic Schools:** Apply democratic principles to an authentic educational context.
- **Global Perspectives:** Analyze best practices of global educational systems.
- **Learning Theory:** Utilize theories of learning and brain research to enhance teaching and student learning.
- **Curriculum Design:** Evaluate curriculum design and curricular decisions as they relate to meeting the diverse needs of students.
- **Ethics:** Analyze issues and make ethical decisions within an educational context.

Program Learning Outcomes by Emphasis Area

- **Curriculum and Instruction:** Pedagogical Expertise- Apply understanding of curriculum and instruction to a contemporary issue in curriculum design.
- **Instructional Technology:** Teaching the 21st Century Learner- Facilitate transferable, curricular-based, assessable learning opportunities to specific student audiences (K-12 and/or higher education) through selection, and professional application of a variety of appropriate 21st century tools, strategies, and skills.
- **Educational Administration:** Apply collaborative educational philosophies, theories, and practices to promote change, policy development, and governance.
- **Educational Leadership:** Apply facilitative leadership skills to promote effective, problem-solving and collaborative decision-making in specific organizational situations.
- **Leadership in Early Childhood Education – Leadership and Program Quality:** Analyze the effectiveness of an Early Childhood Education program based on NAECY standards.
- **Teaching and Learning – Differentiated Instruction:** Apply pedagogical concepts in educational settings to meet the diverse needs of students.

Admission Requirements

Admission to the program may be achieved by meeting the following requirements:

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admission section).
2. Applicants using Admission Option Two must possess a GPA between 2.75 and 2.99 in the last 30 semester credits (45 quarter credits) in either a baccalaureate or post baccalaureate program including credits earned toward a credential to be admitted to the Master of Arts in Education degree program and must have a passing score on one of the examinations noted below:
   a. Graduate Record Examination (GRE): achieve the required minimum scores on two out of the three subsections. The minimum acceptable score for the Quantitative section is 141. The minimum acceptable score for the Verbal section is 150. The minimum acceptable score for the Analytic Writing is 4.5.
   b. Miller Analogies Test (MAT): achieve a minimum scaled score of 403.
   c. State Teacher Examinations: successfully complete the appropriate California Subject Examinations for Teachers (CSET), or Single Subject Assessments for Teaching (SSAT) and/or Praxis Examination.
3. Applicants who have successfully completed any of the Brandman University Preliminary Credential programs and have passed the CSET, MSAT, SSAT or PRAXIS examination automatically qualify for admission to MAE program.
4. Applicants to the MAE/Educational Leadership must submit a resume and a letter of intent, indicating their purpose in acquiring this degree and potential career goals.
5. Two letters of recommendation are required. These letters must be on official letterhead; must be written by individuals who are familiar with the candidate in an academic or professional setting and who have knowledge of the candidate’s ability to successfully complete graduate courses; and, must address the candidate’s fit for the program. The letters cannot be older than two years from the date of application.
6. Applicants to the MAE/Leadership in Early Childhood Education emphasis must hold one of the following certifications: California Child Development Associate Teacher Permit or higher, Single Subject Credential Home Economics, Child Development Associate Credential or a comparable credential. Applicants who hold Multiple Subject Credentials must complete at least 12 units of upper division early childhood coursework prior to admission.
7. Applicants to the MAE/Teaching and Learning emphasis must have at least one year of induction completed or hold a valid California Multiple or Single Subject SB 2042 Professional “Clear” Teaching Credential earned through a California Commission on Teacher Credentialing (CTC) approved 2042 Induction Program. If the candidate was not required to but did complete an approved induction program, it may be possible to be admitted into the Teaching and Learning emphasis. Please speak with your advisor and obtain approval from the Associate Dean. If the applicant has only one year of completion required, then a letter written on District letterhead indicating the one year of completion is required. This letter must be signed by the applicant’s Induction coordinator or Director of Human Resources.
8. Applicants to the MAE Educational Administration emphasis must hold a valid CCTC approved Preliminary Administrative Services Credential received through a CTC district approved program or CTC university approved program. If a student took the preliminary test they may not be admitted into this program.

Program Information and Requirements

Second Emphasis Area

It is possible to complete the MAE degree with more than one emphasis. Candidates completing a second emphasis area within one master’s degree program may not use coursework from one emphasis area to fulfill the requirements of the second. Further, students completing a second emphasis must successfully complete the Demonstration of Mastery task associated with that emphasis area.

If the second area of emphasis is completed after the initial degree has been awarded, the student will not be issued an updated diploma, nor will the student be allowed to participate in the commencement ceremony a second time. However, the second emphasis will appear on the student’s official Brandman University transcript.

Transfer of Coursework

In the Master of Arts in Education, a total of six semester or nine quarter credits can be transferred into the program. These must be graduate-level courses and a grade of “B” or higher must have been earned in each course being transferred. Transferred courses can only be applied to emphasis area; no transfer credit is permitted for the six core courses. For the Master of Arts in Education, Teaching and Learning emphasis and Educational Administration, 12 credits of block transfer are allowed.

Time Limitations

With the exception of Prerequisites, all requirements for a master’s degree, including courses accepted for transfer credit, must be completed within a consecutive SEVEN year period immediately prior to the awarding of the degree.

Demonstration of Mastery

See each emphasis area for specific demonstration of mastery requirements.

Total Credits 12

**Demonstration of Mastery**

Candidates for the Master of Arts in Education degree with an emphasis in Leadership in Early Childhood Education must successfully develop a program evaluation of a local preschool or infant/toddler program. Candidates submit their program evaluation plans in EDU 643 Early Childhood Program Evaluation: Capstone and must earn a “B” or better in the course.

**Master of Arts in Education – Teaching and Learning**

Emphasis Block Transfer

Brandman University awards a block of 12 semester credits for successful completion of a Multiple or Single Subjects SB 2042 BTSA Induction Clear Credential Program. Please see an advisor for more details.

**Demonstration of Mastery**

Candidates must submit a Portfolio of Evidence demonstrating abilities or competence in the core courses and includes a reflective essay that applies course content to teaching and learning. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency. Candidates submit the Demonstration of Mastery (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman.

**Master of Arts in Education – Educational Administration**

Emphasis Block Transfer

Brandman University awards a block of 12 semester credits for successful completion of a CCTC Approved Preliminary Administrative Services Credential Program. Please see an advisor for more details.

**Demonstration of Mastery**

Candidates must submit a Portfolio of Evidence demonstrating abilities or competence in the core courses and includes a reflective essay that applies course content to educational administration. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency. Candidates submit the Demonstration of Mastery (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman.

**Master of Arts in Education – Educational Leadership**

This program is designed for those seeking to develop their 21st century leadership skills but are not interested in pursuing a Preliminary Administrative Services Credential for public school administration.

**Emphasis Courses**

Candidates must complete 9 required credits and will select one, 3 credit elective to customize and strengthen their program of study to meet their individual career goals. Candidates can choose any three credit course from 500 or 600-level EDCI or EDUU courses or by taking one, 3 credit course from the following related disciplines: human resources, public administration, organizational leadership, or business administration. EDAD courses will not be accepted as emphasis courses for this program. Courses completed as part of a general or special education credential program will also not be accepted as fulfilling the 12 credit emphasis area.

**Demonstration of Mastery**

A candidate for the MAE in Educational Leadership must successfully complete a portfolio that reflects mastery of course content. Candidates may submit the portfolio during the last remaining course at the conclusion of their course of their program of study. Candidates submit the Demonstration of Mastery (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman site.
MASTER OF ARTS IN EDUCATIONAL LEADERSHIP AND ADMINISTRATION WITH PRELIMINARY ADMINISTRATIVE SERVICES CREDENTIAL

The Master of Arts degree in Educational Leadership and Administration with Preliminary Administrative Services Credential at Brandman University is an innovative program designed to produce highly effective 21st century school leaders. The program is grounded in sound theory and research in organizational leadership, systems thinking and transformational change. An emphasis on best practices in school leadership will also play a key role in this unique, practitioner based program. Specifically, this program is designed for individuals seeking a career in school administration and educational leadership. All students complete ten courses in educational leadership and administration and three, one-credit leadership seminar courses. The program utilizes a cohort model and the course of study is sequential, therefore courses must be taken in a prescribed order.

In addition to the California Commission on Teacher Credentialing (CTC) Program Standards, which include Content Knowledge Expectations and Performance Expectations, the program has been aligned to the highest national standards in leadership, including the Educational Leadership Constituent Council (ELCC) Standards and the International Society for Technology in Education (ISTE) Standards. This MA program includes the California requirements for an Administrative Services Certificate of Eligibility or the Preliminary Administrative Services Credential. Candidates who complete all program requirements and courses for this degree may be eligible to be recommended for a Certificate of Eligibility or Preliminary Administrative Services Credential needed to serve as a school site/district administrator. While enrolled, students who are offered an opportunity for employment as a site or district administrator may qualify for an Internship credential.

Program Learning Outcomes

- **Visionary Leadership:** Collaboratively develop, implement and evaluate an actionable and sustainable vision of teaching and learning that is responsive to the changing context of a given school and local education agency.
- **School Improvement Leadership:** Strategically design continuous improvement plans based on analysis of program assessment data.
- **Community Leadership:** Advocate for the school and communicate its successes, needs, and challenges with a broad range of audiences through a variety of media to achieve the school’s vision and goals.
- **Instructional Leadership:** Evaluate classroom instruction using research-based instructional and assessment practices to provide focused, constructive coaching and feedback.
- **Organizational and Systems Leadership:** Integrate organizational values, structures, processes, and policies in solving problems and making decisions that productively impact the school’s ability to achieve its vision and goals.
- **Professional Learning and Growth Leadership:** Create, implement, and evaluate a professional growth plan to build individual and collective capacity for leadership.

Admission Requirements

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admissions section) and possess a valid California clear prerequisite credential.
2. Proof of a passing score on the California Basic Education Skills Test (CBEST) or any CTC approved basic skills tests is required for admission to all credential programs or a valid California credential that required passage of basic skills to receive the credential.
3. Candidates must submit a resume and a letter of intent.
4. Two letters of recommendation are required. These letters must be on official letterhead; must be written by individuals who are familiar with the candidate in an academic or professional setting and who have knowledge of the candidate's ability to successfully complete graduate courses. The letters must address the candidate's fit for the program, and cannot be older than two years from the date of application.
5. If the candidate is not currently employed in a position requiring a "basic" CTC credential, he/she must submit a letter identifying the school and principal under whom field work assignments will be completed.

Credential and Program Requirements

1. A minimum of five years of verified full time employment under a prerequisite CTC credential at the time of University recommendation for the credential.
2. Exit Interview.
3. Demonstration of Mastery Leadership Portfolio completed in EDAD 620 Educational Leadership & Administration Capstone.

Internship Eligibility

Students who wish to pursue an Internship must meet all of the admission requirements of the Masters of Arts in Education Leadership and Administration Program and:

1. Provide verification that they have three years of full time experience under a valid prerequisite credential.
2. Provide written evidence that they have been offered an administrative position by submitting the Brandman University Verification of Employment for Internship Credential Form to the Campus Clinical Coordinator at their campus. These forms can be obtained on MyBrandman, School of Education Services page or from the campus clinical coordinator. These forms must be completed by the candidate.
3. Submit the online internship recommendation credential application form found on MyBrandman, School of Education Services page prior to the start of the internship. These forms must be completed by the candidate.
4. Enroll in EDAD 698 Educational Leadership Internship Seminar within one term of assuming administrative employment. If candidate is already scheduled to be enrolled in EDAD 695 Educational Leadership Seminar I, EDAD 696 Educational Leadership Seminar II or EDAD 697 Educational Leadership Seminar III, upon approval of the administrative internship, the candidate will enroll in EDAD 698 Educational Leadership Internship Seminar the following term. EDAD 698 Educational Leadership Internship Seminar will assist the candidate in making the successful transition in their role as
an educational leader and administrator with support from their Leadership Coach.

Total Credits 33-34

* EDAD 698 Educational Leadership Internship Seminar Educational Leadership Seminar is only required for those candidates serving under an Internship Credential.

**Transfer of Coursework**

No transfer credits or waivers will be accepted.

**Time Limitations**

All coursework must be completed within a consecutive SEVEN year period immediately prior to the awarding of the degree.

**Demonstration of Mastery**

Candidates for the Master of Arts degree in Educational Leadership and Administration with Preliminary Administrative Services Credential must successfully complete a Demonstration of Mastery Project in EDAD 620 Educational Leadership & Administration Capstone course that includes documented evidence they have obtained satisfactory knowledge and understanding of the Program Learning Outcomes.

**Recommendation for Credential**

Upon successfully completing and passing all coursework and meeting the five years of experience on a pre-requisite credential, the candidate may apply to be recommended to the CTC for the Preliminary Administrative Services credential. To apply for the credential, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department, candidates can submit the credential fee to the CTC for the credential.
MASTER OF ARTS IN COUNSELING AND PUPIL PERSONNEL SERVICES CREDENTIAL IN SCHOOL COUNSELING (PPSC)

Program Learning Outcomes

- **Law:** Understand state and federal laws and regulations affecting school district guidance programs.
- **Intrapersonal:** Demonstrate knowledge of personal strengths, assets, values, beliefs, and attitudes.
- **Research:** Apply research based counseling theory to particular problems.
- **Leadership:** Demonstrate skill in leading small groups.
- **Interpersonal:** Create effective counseling program.

Brandman University offers a Master of Arts in Counseling. The program in school counseling prepares students to serve as counselors in the public schools for grades K-12 and meets the requirements for a California state credential authorizing service as a school counselor. Students with a previously earned master’s degree in counseling or a related field may earn a California state PPSC credential without enrolling in this master’s degree program. Those candidates who enroll only in the PPSC credential program will be governed by credential policies. All other candidates will be governed by graduate degree and credential policies with credential policies superseding graduate policies.

Admission Requirements

Acceptance into the graduate program in counseling will be based on multiple criteria. These criteria include academic potential, experience with children and youth, and compatibility with program philosophy. To be considered for admission students must complete the following:

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admissions section) including meeting the grade point average requirement for a graduate degree program.
2. Applicants using the Brandman University Admissions Option Two with a grade point average between 2.5 and 2.99 in the last 30 graded semester credits (45 quarter credits) in either a baccalaureate or post baccalaureate program including credits earned toward a credential are required to submit passing scores from one of the following standard admission tests:
   a. Graduate Record Examination (GRE): any two of the three GRE scores (Verbal, Quantitative or Analytical Writing) may be used to meet graduate admissions standards for this program. The minimum acceptable score for the Verbal and Quantitative sections is 450. The minimum acceptable score for the Analytic Writing is 4.5.
   b. Miller Analogies Test (MAT): achieve a minimum scaled score of 403.
3. Submit a graduate application with the following:
   a. Two letters of recommendation from individuals who have had experience with the candidate in an academic setting and knowledge of the candidate’s academic potential and from someone who knows the candidate in a work setting, preferably one where the candidate has worked with children.
   b. A current resume which includes experiences working with children.
   c. An autobiographical essay (2-3 pages) describing life experiences that have shaped the candidate’s approach to working with children and what led them to the decision to become a school counselor and their commitment to the PPSC program.

Credential and Program Requirements

The Counseling program requires 48 credits of coursework. Students entering the Counseling program or within the first session of being fully admitted to the program are expected to have the following:

**Intake Interview:** All candidates entering a pupil personnel service program, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

**Certificate of Clearance:** A Certificate of Clearance application (including fingerprints) or a copy of a valid short-term permit must be submitted at the time of the intake interview or by the end of the first session of enrollment. Students who do not have verification of being issued a certificate of clearance cannot advance in any School Counseling coursework that requires observation or fieldwork in a K-12 setting. Anyone with a revoked credential will not be admitted to any credential program until the credential is reinstated by the CTC.

**Tuberculosis Test:** A current “negative” tuberculosis test that is not more than two years old and covers the internship period must be submitted to the School of Education at the time of the intake interview or by the beginning of the first session of enrollment. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis.

**Basic Skills Requirement:** Proof of a passing score on the California Basic Education Skills Test (CBEST) or any of the CTC approved basic skills tests is required for admission to all credential programs prior to enrollment in the second session of coursework.

**Transfer Policy:** No more than 12 credits may be transferred into the school counseling program from other graduate institutions upon approval by course transfer request to the Associate Dean. Transferred courses must have been awarded a grade of “B” or better and cannot be older than seven years at the completion of the program. CSPU 618 Best Practices in Counseling, CSPU 620 Supervision and Mentoring in School Counseling I, and CSPU 621 Supervision and Mentoring in School Counseling II must be taken at Brandman University.

**The School Counseling program also requires the following:**

**Fieldwork and Internship:** Candidates must complete the Practicum in School Counseling course and a minimum of 100 hours of practica fieldwork prior to beginning the final fieldwork or internship in CSPU 620 Supervision and Mentoring in School Counseling I and CSPU 621 Supervision and Mentoring in School Counseling II. A minimum of 600 hours of post-practicum fieldwork or internship is required to apply for the credential. A minimum of 400 hours must be done at a public school setting at two different levels. All public school hours must be under the supervision of an experienced professional who holds a PPS credential.
Applications for the practicum in School Counseling must be filed with the clinical coordinator by the deadline established at the campus of residence. All Credential and Program requirements must be met prior to starting any practicum courses.

**Portfolio:** After successfully completing Fieldwork/Internship and all other program requirements and coursework, candidates submit a portfolio demonstrating their competency through LiveText and pay a fee to have the portfolio evaluated. Portfolio requirements and directions are located on the SOE Services MyBrandman site.

**Exit Interview:** An exit interview is conducted by a faculty mentor at the end of the program to determine that the CTC’s Standards have been met. All coursework, non-coursework requirements, and the exit portfolio must be completed and passed prior to the exit interview. Candidates must fill out the exit interview application found on the SOE Services MyBrandman site prior to participating in an exit interview by a faculty mentor.

**Completion of Degree Programs**

**Praxis Exam**
Candidates who wish to earn a Master of Arts in Counseling must meet all the course requirements and earn a score of 156 or higher on the ETS Praxis Examination in Counseling and Guidance (#0421/5421).

**Recommendation for Credential**
Upon successfully completing all coursework and the exit interview, the candidate may apply to be recommended to the CTC for the Pupil Personnel Services credential in School Counseling (PPSC). To apply for the credential, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

**Total Credits: 45-48**

*Students with an active CTC Pupil Personnel School Psychology or School Social Work credential may waive CSPU 515 and do not need to make up the units for the degree.
EDUCATION SPECIALIST DEGREE IN SCHOOL PSYCHOLOGY (ED.S.) AND A MASTER OF ARTS IN EDUCATIONAL PSYCHOLOGY WITH A PUPIL PERSONNEL SERVICES CREDENTIAL IN SCHOOL PSYCHOLOGY (PPSP)

Program Learning Outcomes

- **Law**: Interpret legal mandates and regulations to determine possible special education eligibility.
- **Interpersonal**: Demonstrate group counseling interventions.
- **Assessment**: Identify the ability level of students using empirically-based, valid, standardized instruments.
- **Behavior**: Design a behavior plan based on a functional analysis using the NASP guidelines.
- **Communication**: Present a comprehensive written report that combines different kinds of information gathered from various sources to evaluate students’ abilities.

Program Learning Outcomes by Optional Emphasis Area:

**Autism**: Implement evidence-based instructional and behavioral strategies to meet the varied needs of students across the autism spectrum.

**Applied Behavior Analysis**: Design behavior intervention which targets and defines a socially significant behavior, creates data collection tools, implements behavior change procedures, and evaluates progress in behavior change.

**California Teachers of English Learners (CTEL)**: Implement evidence-based instructional and assessment strategies to meet the varied cultural and language needs of students who are English Language Learners.

Admission Requirements

Acceptance into the graduate program in school psychology is based on multiple criteria. These criteria include academic potential, experience working with children and youth, and compatibility with program philosophy. To be considered for admission the applicant must:

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admissions section) including meeting the grade point average for a graduate program.
2. Applicants using Brandman University Admissions Option Two with a grade point average between 2.5 and 2.99 in the last 30 graded semester credits (45 quarter credits) in either a baccalaureate or post baccalaureate program including credits earned toward a credential are required to submit passing scores from one of the following standard admission tests:
   a. Graduate Record Examination (GRE): achieve the required minimum scores on two out of the three subsections. The minimum acceptable score for the Quantitative section is 141. The minimum acceptable score for the Verbal section is 150. The minimum acceptable score for the Analytic Writing is 4.5.
   b. Miller Analogies Test (MAT): achieve a minimum scaled score of 403.
3. Submit a graduate application with the following:
   a. Two letters of recommendation are required. These letters must be on official letterhead; must be written by individuals who are familiar with the candidate in an academic setting and who have knowledge of the candidate’s ability to successfully complete graduate courses; and, must address the candidate’s fit for the program. The letters cannot be older than two years from the date of application.
   b. A current resume which includes experiences working with children.
   c. An autobiographical essay (2-3 pages) describing the life experiences that have shaped the candidate’s approach to working with children and youth and what led to the decision to become a school psychologist and their commitment to the program.

Credential and Program Requirements

The school psychology program requires 72 credits of coursework. Students entering or by the end of the first session of complete admission to the school psychology program are expected to have the following:

**Intake Interview**

All candidates entering a pupil personnel service program, including those transferring from another institution, must successfully participate in an intake interview with a faculty member within the first session of enrollment.

**Certificate of Clearance**

A Certificate of Clearance application (including fingerprints) or a copy of a valid credential or short-term permit must be submitted to the School of Education within the first session of enrollment. Students who do not have verification of being issued a certificate of clearance cannot advance in any School Psychology coursework that requires observation or fieldwork in a K-12 setting. Anyone with a revoked credential will not be admitted to any credential program until the credential is reinstated by
the CTC. A certificate of clearance or valid credential or short-term permit must be active when applying for mentoring and supervision.

**Negative Tuberculosis Test**
Candidates must submit a current “negative” tuberculosis test that verifies the candidate does not have active tuberculosis. Negative tuberculosis tests must be no more than two years old and cover the student teaching/internship period. Candidates who do not submit verification of a negative T.B. test cannot advance in any coursework that requires observation or fieldwork in a K-12 setting. A person whose tuberculosis test is “positive” can submit results from a chest x-ray examination that verifies the candidate does not have active tuberculosis. The negative tuberculosis tests done by X-rays must be no more than five years old and cover the two practicum periods.

Students who do not have verification of a negative T.B. test cannot advance in any School Psychology coursework that requires observation or fieldwork in a K-12 setting.

**Basic Skills Requirement:**
Proof of a passing score on the California Basic Education Skills Test (CBEST) or any of the CTC approved basic skills tests is required for admission to all credential programs prior to enrollment in the second session of coursework.

**Transfer Policy**
Candidates with an earned master’s degree from another graduate institution may transfer no more than 24 graduate credits into the school psychology program pending approval of the Associate Dean. Candidates without an earned master’s degree may transfer up to 12 credits of graduate coursework upon approval of the Associate Dean. Transferred courses must have been awarded a grade of “B” or better and cannot be older than seven years at the completion of the school psychology program. CSPU 534 Practicum in School Psychology I, CSPU 535 Practicum in School Psychology II, CSPU 622 Supervision and Mentoring in School Psychology I, CSPU 623 Supervision and Mentoring in School Psychology II, CSPU 624 Supervision and Mentoring in School Psychology III, CSPU 625 Supervision and Mentoring in School Psychology IV, CSPU 640 Consultation and Indirect Intervention, and CSPU 641 Best Practices in School Psychology must be taken at Brandman University.

**Optional Emphasis Area**
Candidates in this program may choose to complete an optional emphasis area in Autism, Behavior Analysis, or Culturally and Linguistically Diverse Populations (California Teachers of English Learners - CTEL). Additional coursework and Demonstration of Mastery projects will be required.

**Second Emphasis Area**
It is possible to complete the ED.S. PPSP degree with more than one emphasis. Candidates completing a second emphasis area within one master’s degree program may not use coursework from one emphasis area to fulfill the requirements of the second. Further, students completing a second emphasis must successfully complete the Demonstration of Mastery task associated with that emphasis area.

If the second area of emphasis is completed after the initial degree has been awarded, the student will not be issued an updated diploma, nor will the student be allowed to participate in the commencement ceremony a second time. However, the second emphasis will appear on the student’s official Brandman University transcript.

The school psychology program also requires the following:

**Practicum in School Psychology**
All candidates must complete the two practicum courses in school psychology and a minimum of 450 hours of practical fieldwork which is embedded in their coursework prior to beginning the final year fieldwork.

**Fieldwork/Internship**
During the final year candidates participate in a minimum of 1200 hours of field experience. A minimum of 800 hours must be completed in a public school setting. All public school hours must be under the supervision of a professional with two years of experience as a school psychologist and who holds a Pupil Personnel Services credential in school psychology.

Applications for fieldwork/internship courses must be filed on the MyBrandman SOE Services site by the deadline established at the campus of residence in which a student plans to begin supervision and mentoring courses. All the Credential and Program requirements must be met prior to any mentoring and supervision courses being taken.

**Portfolio**
After successfully completing Fieldwork/Internship and all other program requirements and coursework, candidates submit a portfolio demonstrating their competency based on the NASP Standards through LiveText and pay a fee to have the portfolio evaluated. Portfolio requirements and directions are located on the SOE Services MyBrandman site.

**Exit Interview**
An exit interview is conducted by a faculty mentor at the end of the program to determine that the CTC and NASP Standards have been met. All coursework, non-coursework requirements, and the exit portfolio must be completed and passed prior to the exit interview. Candidates must fill out the exit interview application found on the SOE Services MyBrandman site prior to participating in an exit interview by a faculty mentor.

**Completion of Degree Programs**

**Praxis Exam**
Candidates must meet all course requirements and earn a score of 147 or better on the ETS Praxis exam in school psychology (#5402). Verification of passing scores must be official from ETS and in the candidate’s electronic file prior to the conferral of degrees. Students may request for Brandman University to receive their scores directly from ETS.

**Recommendation for Credential**
Upon successfully completing all coursework and the exit interview, the candidate may apply to be recommended to the CTC for the Pupil Personnel Services credential in School Psychology (PPSP). To apply for the credential, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

**Demonstration of Mastery:**
Candidates must submit a Portfolio of Evidence demonstrating abilities or competence in the courses and includes a reflective essay that applies course content to Culturally and Linguistically Diverse Populations from the CTEL program. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency. Candidates submit the Demonstration of Mastery (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman site.

**Total Credits (not including pre-requisites)**: 72-90
MASTER OF ARTS IN SPECIAL EDUCATION

Special education teachers are an exceptional group of educators - as advocates for social justice and the dignity of all people including those with disabilities. The Master of Arts in Special Education program provides candidates with advanced knowledge based on the Council for Exceptional Children’s Advanced Content Standards to address educational learning needs and improve teaching, assessment, and programmatic strategies to enhance student performance. It should be noted that candidates completing this program will not have met the requirements for the preliminary education specialist credential.

Program Learning Outcomes

- **Leadership and Policy**: advocate for policy and curriculum development by utilizing the breadth and depth of special education history, pedagogy, and latest research.
- **Program Development & Organization**: apply and expand content and professional knowledge to enhance instructional programs and curricula through evidence-based and innovative practices that reflect the needs of diverse populations.
- **Research & Inquiry**: evaluate current research studies and methodologies using evidence-based educational research to improve curricula, instruction, or interventions.
- **Student and Program Evaluation**: evaluate and analyze student achievement and program effectiveness utilizing nonbiased instruments and knowledge of research-based best practices.
- **Professional Development and Ethical Practice**: exemplify professional, legal, and ethical behavior by participating in and providing opportunities for professional development that best support children with special needs, their families, schools, and the community.
- **Collaboration**: implement culturally responsive collaborative and consultation structures to enhance the opportunities for students with exceptional learning needs.

Program Learning Outcomes by Emphasis Area

- **Advanced Methodology emphasis**: Utilize data based strategies to meet the individual needs of students with disabilities.
- **Autism emphasis**: Implement evidence-based instructional and behavioral strategies to meet the varied needs of students across the autism spectrum.
- **Early Childhood in Special Education emphasis**: Apply ECSE best practice in all aspects of service coordination and delivery.
- **Behavior Analysis emphasis**: Design behavior intervention which targets and defines a socially significant behavior, creates data collection tools, implements behavior change procedures, and evaluates progress in behavior change.
- **Teaching and Learning**: Apply pedagogical concepts in educational settings to meet the diverse needs of students with disabilities.

Admissions Requirements

1. Satisfactorily fulfill graduate admission requirements for Brandman University as stated in the catalog (see the Graduate Admissions section) including meeting the grade point average for a graduate program.
2. Two letters of recommendation are required. These letters must be on official letterhead; must be written by individuals who are familiar with the candidate in an academic setting and who have knowledge of the candidate’s ability to successfully complete graduate courses; and, must address the candidate’s fit for the program. The letters cannot be older than two years from the date of application.
3. Candidates must have a current special education teaching credential or take EDUU 511 Collaboration For Inclusive Schooling.
4. Students admitting into the Behavior Analysis emphasis area must be employed at least part-time in a field of employment which uses Applied Behavior Analysis (i.e., education, medicine, social work, occupational or speech therapy). This employment must be provided on the candidate’s application and via a resume.
5. Applicants to the MASE/Teaching and Learning emphasis must have one year of induction completed or hold a valid California Education Specialist Clear Induction Teaching Credential earned through a California Commission on Teacher Credentialing (CTC) approved Induction Program. If applicant has one year of induction completed, then a letter is required on District letterhead indicating the one year of completion. The letter must be signed by the applicant’s Induction coordinator or Director of Human Resources department.

Transfer of Coursework

In the Master of Arts in Special Education, a total of six semester or nine quarter credits can be transferred into the program. These must be graduate-level courses and a grade of “B” or higher must have been earned in each course being transferred. Transferred courses can only be applied to the emphasis area; no transfer credit is permitted for the six core courses. Courses cannot be transferred in to the Behavior Analysis emphasis area. Only one course transfer is allowed in the Autism and Early Childhood Special Education emphasis areas. EDUU 670 Field Experience in Early Intervention and Early Childhood Special Education is not available for transfer.

Brandman University awards 6 semester credits towards the Advanced Methodology emphasis area for successful completion of an Education Specialist Clear Induction Program. The Education Specialist Clear Induction program must be completed prior to the student being awarded these 6 units. These 6 units can only be used towards the Advanced Methodology emphasis area.

Authorizations within the Master of Arts in Special Education: Candidates who complete an emphasis area that leads to an authorization may be eligible to be recommended prior to the completion of their degree.

Second Emphasis

It is possible to complete the MASE degree with more than one emphasis. Candidates completing a second emphasis area within one master’s degree program may not use coursework from one emphasis area to fulfill the requirements of the second.

If the second area of emphasis is completed after the initial degree has been awarded, the student will not be issued an updated diploma, nor will the student be allowed to participate in the commencement ceremony a second time. However, the second emphasis area will appear on the student’s official Brandman University transcript.

**Demonstration of Mastery**

Candidates for the Master of Arts in Special Education degree with an emphasis in Behavior Analysis must successfully complete a research project in EDUU 633 Special Education Capstone with a grade of "B" or better.
Master of Arts in Special Education - Teaching and Learning

**Emphasis Block Transfer (12 credits)**: Brandman University awards a block of 12 semester credits for successful completion of an Education Specialist Clear Induction Credential Program. Please see an advisor for more details.

**Demonstration of Mastery**
Candidates for the Master of Arts in Special Education degree with an emphasis in Teaching and Learning must successfully complete a research project in EDUU 633 with a grade of "B" or better.
MASTER OF ARTS IN TEACHING (MAT)

The Master of Arts in Teaching is designed for individuals pursuing careers as teachers. The program combines an Elementary, Secondary or Preliminary Education Specialist credential with a master's degree. Credential courses and fieldwork experiences are aligned with the California Commission on Teacher Credentialing (CTC) Teaching Performance Expectations and reflect current research in education and best practices. Candidates utilize Common Core Standards and other state content standards to design engaging lessons and develop skills in planning and differentiating instruction, classroom management, and assessment. In addition, the program focuses the use of technology in the classroom and the development of 21st Century Skills. Advanced courses in research, learning theory and curriculum design prepare candidates to engage in systematic inquiry into their own teaching, and enhance their ability to make sound pedagogical decisions.

Applicants entering the Master of Arts in Teaching (MAT) in Elementary Education, Secondary Education, Special Education or Combined Special Education and General Education programs must meet all of the requirements listed under “Credential Program Requirements”. In addition, applicants must possess a grade point average (GPA) of 3.0 in the last 30 graded semester credits (45 quarter credits) completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential.

Program Learning Outcomes

- **Learning Theory**: Utilize theories of learning and brain research to enhance teaching and student learning.
- **Instruction**: Differentiate instruction based on the needs of students.
- **Assessment**: Utilize a variety of assessment data to inform instruction.
- **Curriculum Design**: Evaluate curriculum design and curricular decisions as they relate to meeting the diverse needs of students.
- **Clinical Practice**: Apply subject matter pedagogical skills in authentic settings and continually reflect on and evaluate the effects of decisions and actions on others.
- **Action Research**: Create an action research proposal that seeks to solve a personal educational dilemma.

Admissions Requirements

1. Applicants must possess a grade point average (GPA) of 3.0 in the last 30 graded semester credits (45 quarter credits) completed in either a baccalaureate or post baccalaureate program, including credits earned toward a credential.
2. Applicants using the Brandman University Admissions Option Two must possess a GPA between 2.75 and 2.99 in the last 30 graded semester credits (45 quarter credits) in either a baccalaureate or post baccalaureate program, including credits earned toward another credential, to be admitted to the graduate MAT degree program and must have a passing score on one of the examinations noted below:
   a. Graduate Record Examination (GRE): achieve the required minimum scores on two out of the three subsections. The minimum acceptable score for the Quantitative section is 141. The minimum acceptable score for the Verbal section is 150. The minimum acceptable score for the Analytic Writing is 4.5.
   b. Miller Analogies Test (MAT): achieve a minimum scaled score of 403.
   c. Subject Matter Competency Examination: earn passing score on all subsets of the appropriate content area CSET. Exceptions are Foundational Level General Math where only subtests I and II are required and Foundational Level Science where only subtests I and II are required
3. Applicants with a 2.5-2.74 GPA electing Option Four must have passing scores on CBEST and one of the approved graduate admission exams listed above.
4. Applicants electing to use Option Four for admission to the MAT program with a GPA lower than 2.5 must also fulfill all exceptional admit criteria and submit a portfolio that shows adequate preparation for graduate studies. Exceptional admission candidates must submit all required admission documents and each of following:
   a. Petition for exceptional admission.
   b. Letter from the candidate specifying exceptional admission criteria and how those criteria have been met.
   c. Passing scores on CBEST and passing scores on one of the approved graduate admission exams listed above. The School of Education encourages applicants to take the appropriate Subject Matter Competency Examination as a way to demonstrate suitability for admission to a credential program.
   d. Three current letters of reference attesting to the candidate’s ability to complete graduate level work.
   e. A letter of support from the local campus education committee. The panel has three members and must include one faculty member.

Transfer of Coursework

A total of six graduate level semester credits is the maximum allowed to transfer into the MAT Degree Program. No advanced core courses may be transferred into the degree program. For all MAT programs undergraduate credits may be used to meet course content requirements but will not meet unit requirements.

NOTE: Candidates who are currently enrolled in a credential standalone program and would like to enroll in the M.A.T. program need to complete a new application and the Change of Academic Level form. Candidates must meet all the Admission requirements for the M.A.T. and have no less than 24 remaining credits in the proposed M.A.T. program to be admitted.

Credential Program Requirements

Candidates in the MAT program are governed by both graduate degree and credential requirements. Students may obtain the degree prior to completing the individual credential requirements and students may be recommended for the credential prior to completing the full M.A.T. advanced coursework requirement.

Demonstration of Mastery

All Master of Arts in Teaching degree candidates, as part of their demonstration of mastery, must write an Action Research Proposal (ARP) paper. The ARP paper is begun in EDUU 610 The Teacher As Scholarly Practitioner and completed in EDUU 611 Action Research Development. A detailed description of requirements and guidelines for the ARP are presented in the MAT Handbook available on the SOE Services MyBrandman site. Candidates must have a cumulative GPA of
3.0 or better for all of the courses completed prior to starting the Action Research Proposal.

**Recommendation for Credential**

Upon successfully completing and passing all credential, program and coursework requirements, the candidate may apply to be recommended to the CTC for the credential. To apply for the credential, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department, candidates complete a CTC exit survey and submit the credential fee.

- Master of Arts in Teaching (MAT) in Elementary Education with 2042 Multiple Subject Credential with an English Learner Authorization (p. 145)
- Master of Arts in Teaching (MAT) in Secondary Education with 2042 Single Subject Credential with an English Learner Authorization (p. 145)
- Master of Arts in Teaching (MAT) with Preliminary Education Specialist, Mild/Moderate and/or Moderate/Severe Credential(s) with an English Learner Authorization and Autism Authorizations (p. 146)

**Master of Arts in Teaching (MAT) in Elementary Education with 2042 Multiple Subject Credential with an English Learner Authorization**

**Required Coursework**

Please note that the required Prerequisites for the credential are completed outside of the degree program.

ED.D. IN ORGANIZATIONAL LEADERSHIP

Mission
The Ed.D. Program in Organizational Leadership develops visionary leaders who are creative agents of change in transforming their diverse organizations through collaboration, innovation, positive influence, strategic thinking and a profound commitment to lifelong learning.

Program Learning Outcomes
- **Transformational Leadership**: Create a vision of the future as an ethical agent of change, who mobilizes stakeholders to transform the organization.
- **Diversity**: Integrate the strengths that individual and cultural differences contribute to create an organization that is equitable, respectful, responsive and morally accountable in a global society.
- **Collaborative Relationships**: Build a culture of trusting relationships and purposeful involvement that supports critical and creative problem solving and decision making through effective communication and conflict resolution.
- **Political Intelligence**: Generate organizational influence to ethically advocate for causes and changes that will advance the organization’s vision and mission.
- **Strategic Thinking**: Construct a systems-oriented learning organization to develop, implement, and assess effective, futures-based plans that facilitate innovation, problem solving and continuous improvement.
- **Creativity and Sustained Innovation**: Develop a culture of divergent thinking and responsible risk taking that harnesses the potential of available human capital to transform the organization.

Application Deadline
Applications are accepted annually. Applications close in May, the specific date will be established by the university. The deadline for receiving the non-refundable enrollment deposit will be within 45 days after the close of applications. An extension may be granted for extenuating circumstances.

Admission Requirements
Admission to the Doctoral Program in Organizational Leadership may be achieved by fulfilling the graduate admission requirements as stated in the catalog.

1. Transcripts documenting successful attainment of a Masters Degree with a minimum GPA of 3.0.
2. Submission of a portfolio consisting of the following: two essays on topics provided in the application packet that show graduate level writing and analytical skills; a resume showing leadership experience, professional development, achievement awards or professional recognition; two letters of reference from persons who can attest to the applicant’s ability to do graduate level work; and a letter of intent explaining reasons for wanting to enter this program.
3. If the applicant is not in a leadership position, a letter must be submitted explaining his/her plans for addressing assignments in nearly every course that involve working with individuals and groups in an organization to bring about important change.
4. All applicants must successfully participate in an intake interview with a doctoral faculty member designated by the Associate Dean.

Transfer Credit Policy
Transfer credits from other degrees or programs will not be accepted.

Course Waivers
Course waivers will not be permitted.

New Student Orientation
To acquaint students with the unique technology and instructional practices of the doctoral program, students will be required to complete a Doctoral Boot Camp prior to the first Immersion. The Doctoral Bootcamp is a mandatory induction program designed for candidates to gain pertinent knowledge and skills needed to be successful in the EDOL program. The Boot Camp experience is both online and face to face. Students will complete portions of the orientation in Blackboard as well as attending a series of live trainings Friday before the first immersion. Attendance is mandatory.

Transformational Change Project
To integrate change theory into real world settings and provide an opportunity for clinical practice, each student will design, implement,
and assess a Transformational Change Project (TCP), which will be operationalized in a real organization. The Transformational Change Project will be introduced and explored in various courses throughout the program, beginning with the first course, EDOL 700 Transformational Leadership. Field-based assignments in which students begin to work on projects and deliverables that will be used in their second year TCP will spiral through every content course in their first year.

In Year 2, students will implement the TCP in selected organizations while enrolled in EDOL 780 Transformational Change Field Experiences, which will be a 16-week field experience. In EDOL 724 The Leader as Change Agent the students will deconstruct their experience implementing the Transformational Change Project. At their final Immersion in June of their second year, students will participate in a Transformational Change Symposium, in which they will present their findings, implications for practice, and recommendations for further research.

**Advancement to Candidacy**

In the second semester of their second year, students will participate in a faculty review of their work to date. Students will present their dissertation prospectus and their Transformational Change Leader Portfolio, which consists of their Transformational Leadership Development Plan, and their Transformational Change Project artifacts and analysis. Candidates who successfully meet all criteria required in the Dissertation Handbook will be advanced to candidacy, allowed to petition for a Dissertation Chair, and be permitted to register for Dissertation I.

**Program Design**

The Ed.D. Program is a rigorous program that is designed to serve the needs of working professionals. Courses are organized around an 8-week hybrid format of online instruction with face to face support. Individual online work and study will be augmented with extended activities through required participation in cohort meetings, immersion sessions, and synchronous online meetings or seminars. The learning environment is one of collaboration balanced with independent learning. Instructional strategies include experiential activities, large and small group activities, presentations, discussions, and opportunities for real world application. Additionally, online instructional strategies, including threaded discussions, journals, wikis, blogs, readings, videos, links to web research and resources, access to a digital library of books and journals, and the use of audio/video synchronous and asynchronous multimedia tools.

**Writing Standard**

Students in the Doctoral Program in Organizational Leadership must meet Graduate-level academic writing standards. A writing pretest will be administered as part of the New Student Orientation after admission is granted. This test will be used to determine support strategies that will be initiated in EDOL 750 Writing for Research and Publication I. Student work will be evaluated based on a writing rubric in that course. The writing rubric will also be used in other courses and the student will be reevaluated in EDOL 751 Writing for Research and Publication II, which takes place in Summer II of the first year. Students whose work does not meet standards will be expected to take advantage of the online tutorials available in the Online Writing and Math Center and follow through on other faculty recommendations to improve their writing.

**Cohorts**

Cohorts are a "laboratory for learning," in which students work together to develop their leadership competencies. Students will be assigned to a local cohort with others in their geographical area. Each cohort will have a cohort leader, who is an adjunct faculty member and leading practitioner in the field. These experienced leaders will mentor students in their career development and lead students in dialogue and practice around the application of theory and skills in the real world. Working in small groups, students will deepen their understanding, build collaboration skills, and practice team work. Cohort leaders will also coach and assess students as they create individual action plans to develop leadership competencies and serve as mentors in exploring and developing dissertation topics. Students will meet with their local cohorts for half a day (four hours) each month, scheduling to be determined by the cohort members and leader.

**Cohort Locations for Out of State or Distance Students**

The Doctor of Education program courses are delivered online. In addition to asynchronous coursework and synchronous webinars with instructors, the program also requires online attendance at monthly, half-day virtual cohort meetings for out-of-state students or those at a great distance from a campus cohort. Physical attendance at three immersions during each of the two years of coursework is also required. Immersions are held over long weekends—Labor Day Weekend, Martin Luther King weekend, and the last weekend in June—generally near the Irvine campus.

**Interdisciplinary Degree**

The Ed.D. in Organizational Leadership is an interdisciplinary degree, integrating the latest theory and best practices from both Education and Organizational Leadership. It will draw on both fields to produce transformational leaders who collaboratively design and implement innovative changes and creative solutions in their diverse organizations.

**360 Degree Assessment**

Each student will have the opportunity twice during the doctoral program for 360 degree feedback on their leadership performance skills. In addition to a self-analysis, students will request colleagues, supervisors, and subordinates to respond to a confidentially administered electronic survey assessing their strengths and growth areas. Students will review the compiled results and develop a Transformational Leadership Development Plan (TLDP) to address growth goals over the course of the program. The cohort leader will coach students on their plan and their progress in achieving personal goals. This leadership performance assessment will be offered at the beginning of the first year and again during the second year.

**Immersions**

The program includes six immersions, where all students from throughout the program will meet near the Irvine campus for extensive relationship-building with faculty and students program-wide, presentations by expert speakers, and in-depth engagement in learning. Immersions will introduce major themes for the coming term and culminate learning from previous terms. They will also offer an opportunity to receive guided practice in mastering leadership competencies. Students will be able to dialogue with faculty and experts from the field about the content they are learning. Immersions also feature more exposure to research development in preparation for the
dissertation and offer students the opportunity to get acquainted with faculty members who may serve as potential dissertation chairs.

**Attendance**

The Ed.D. in Organizational Leadership program uses the best of online learning and face-to-face support through local and virtual cohort meetings, three immersion sessions a year, and synchronous online meetings or seminars. The Brandman commitment to learning requires that students be present and participate fully in all activities. For Immersion sessions, cohort meetings and online learning to be successful, everyone’s ideas, feedback and participation is imperative. It is required that students attend all sessions and be on time.

To maximize learning and in fairness to colleagues, students should not ask to be excused from all or part of an Immersion session, synchronous online meeting, seminar or cohort meeting. If an emergency (such as personal illness, death in the immediate family, job requirement, or child birth and adoption) requires absence for part or all of an Immersion it is the student’s responsibility to contact the Associate Dean to determine a contract for making up the time and work. If a student is required to be absent from a cohort meeting, the student will be responsible for discussing the absence and makeup contract with the Cohort Mentor in advance if possible. Faculty may require that the student attend outside sessions related to the content missed which may involve additional expense. Absence from an online meeting or webinar must be arranged with the instructor in advance if possible and will require the student to complete makeup work with the course instructor. Patterns of tardiness or absence may result in a cause for concern notice, followed by a disposition action plan, and can affect the course grade or continuation in the course or program.

Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.

**Interrupted Enrollment**

Although the university has an interrupted enrollment policy that applies to other programs, the School of Education has a separate policy for the Ed.D. in Organizational Leadership program. If a student needs to interrupt enrollment from the program for personal or professional reasons, it will be necessary to complete the form entitled, Leave of Absence Application: Ed.D program, stating the reasons for the absence and the expected date of return. This form must be submitted to the Associate Dean for approval at least four weeks prior to the term in which the leave is requested.

When a student interrupts enrollment in the Ed.D. program, course sequence and program design makes it necessary to reenter the program at the same term a year or two years later, depending on the length of the leave. Students who interrupt enrollment for more than two years will need to reapply.

**Dissertation**

Each student is required to complete a dissertation that reflect scholarly research and competent academic writing that is rated as proficient on all criteria identified on the dissertation rubric. The dissertation will be developed under the supervision of a Dissertation Chair and Committee of two additional members. Dissertation Chairs and members must meet the criteria established by the university and submit all required documentation, including Curriculum Vita, NIH Certificate, and Transcripts from the Institution of Terminal Degree. The student’s dissertation proposal must be approved in Quality Review prior to conducting the proposal defense. After the student is authorized by the committee to collect data, an application must be approved by IRB before data collection can begin.

The dissertation is completed in EDOL 791 Dissertation I and EDOL 792 Dissertation II with continuing candidacy in 0 credit EDOL 799 Dissertation Extension until completion.

**Program Completion Timeline**

It is expected that most students will complete the dissertation within one to two years after coursework, but the deadline for completion of all program requirements, including the dissertation, is seven years from the student’s program start date.

**Continuing Candidacy Fees**

Students who have been advanced to candidacy are eligible to request a Dissertation Chair and register in EDOL 791 Dissertation I. At the conclusion of this course, students who have made satisfactory progress will register for EDOL 792 Dissertation III. Students who are enrolled in EDOL 792 Dissertation II but have not completed the Dissertation at the end of the term, will be granted an “SP” grade and will be permitted to continue until the Dissertation is completed or until the student’s seven-year program completion timeline has expired, by registering for 0 credit EDOL 799 Dissertation Extension course and paying the Continuing Candidacy Fee. Your account must be in good standing in order for students to continue to have the services of their Chair and Committee, as well as access to Leatherby Library. This is also a pre-condition for moving on to Proposal Defense, Oral Defense, and Commencement Hooding Ceremony. Please see Tuition and Fees section for more detail on the Continuing Candidacy Fee.

**Commencement**

Ed.D. Candidates will be permitted to participate in commencement ceremonies if they successfully complete the Oral Defense of their Dissertation not later than April 15 prior to Commencement. Students receiving their degrees in subsequent sessions are entitled to participate in commencement ceremonies the following Spring.

**Clear Administrative Services Credential Option**

Brandman University offers the Administrative Services Credential Clear Induction Program (ASC CIP) through the Doctor of Education in Organizational Leadership Program. This option allows students in the Ed. D. Organization Leadership to pursue the Clear Administrative Services credential in conjunction with the Ed. D. Candidates who simultaneously complete the ASC CIP program requirements and the Ed. D. course of study may be recommended for the Clear Administrative Services Credential.

Brandman University’s ASC CIP is aligned to the Clear Induction Program Standards. It provides a two year induction program that supports the individual needs and leadership development of beginning educational administrators using the intersecting elements of individual coaching, professional learning and assessment of skills. The design of the program is based on sound rationale informed by theory and research and includes personalized learning and support through coaching. The beginning educational administrator enrolled in ASC CIP fulfills their induction program professional learning requirements through ASC CIP Professional Learning and Induction Coaching courses and specifically identified Ed. D. Course Learning Outcomes that match the California
Professional Standards for Education Leaders (CPSEL). To support the professional learning and leadership development of the beginning educational administrator, the induction program provides the clear credential candidate with a well-trained and experienced induction coach who may also serve as an Ed. D. cohort mentor. The induction coach supports the school administrator through individualized, on-going, job-embedded coaching that is directed by the identified needs and goals of the school administrator.

Admission Requirements
1. Candidate must be admitted and concurrently enrolled in Brandman University’s, Education Doctorate in Organizational Leadership program.
2. Candidate must possess a valid Preliminary Administrative Services Credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to the School of Extended Education by visiting their web site at http://www.brandman.edu/exed or by calling 800-632-0094.
3. Candidate must be employed in a position requiring an Administrative Services Credential.
4. Candidate must provide Verification of Employment Form completed by employer.

Credential and Program Requirements
1. Completion of a minimum of 40 hours of induction coaching each year.
2. Completion of a minimum of 20 - 30 hours of professional learning each year.
3. Completion of all induction program E-Portfolio components and requirements indicating demonstration of CPSEL competencies.
4. Verification of two years of successful experience in a full-time administrative position at the time of filing for the clear administrative services credential

Total Credits 6

* Clear administrative services credential courses are not eligible for financial aid

Transfer of Coursework
No transfer credits or waivers will be accepted.

Time Limitations
All program components must be completed during enrollment in the Brandman University, Doctor of Education in Organizational Leadership program and prior to or concurrent to earning the Ed. D. degree.

Demonstration of Competency
Candidates recommended for the Clear Administrative Services Credential must successfully complete an Induction Portfolio demonstrating satisfactory completion of the coaching hours, professional learning hours and formative and summative assessments that include an evaluation of the candidate’s Individual Induction Plan (IIP) goal attainment and CPSEL competencies. The Induction Portfolio will be reviewed by the induction coach who will evaluate the candidate’s competence and performance.

Recommendation for Credential
Upon successfully completing and passing all the Administrative Services Clear credential program and coursework requirements, the candidate may apply to be recommended to the CTC for the credential. To apply for the credential, candidates complete the on-line Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

Undergraduate Degree Program
• RN to Bachelor of Science in Nursing (p. 153)

Doctorate Degree Program
• Doctor of Nursing Practice (DNP) (p. 156)

Post-Doctoral Certificates
• Adult-Gerontology Acute Care Nurse Practitioner (p. 168)
• Family/Across the Lifespan Nurse Practitioner (p. 168)
• Psychiatric and Mental Health Nurse Practitioner (p. 169)

Post-Doctoral Certificates are offered through the Musco School of Nursing and Health Professions. Students seeking a certificate program only may not be eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Musco School of Nursing and Health Professions Mission Statement
To provide dynamic education that focuses on inquiry and innovative practice relevant to an ever changing healthcare system.

Musco School of Nursing and Health Professions Vision
As leaders of healthcare change, our graduates embrace the spirit of inquiry to identify evidence-based strategies, create innovative solutions and inspire others while optimizing patient care.
RN TO BACHELOR OF SCIENCE IN NURSING

The RN to Bachelor of Science Degree in Nursing (BSN) is designed for the Registered Nurse (RN) with an Associate’s Degree in Nursing who is ready to change healthcare delivery to patients. This degree builds on nursing practice skills and experience integrating new and innovative methods to advance healthcare. Emphasis is placed on the professional nursing role including patient-centered care, use of technology, improving outcomes and innovative leadership while using evidence as a foundation for best practice.

Program Learning Outcomes

The RN to Bachelor of Science Degree in Nursing provides a curriculum that links theory and practice to promote nine program learning outcomes that are based on the American Association of Colleges of Nursing (2008) Essentials of Baccalaureate Education for Professional Nursing Practice:

- **Liberal Education**: Integrate knowledge, skills, and values from the arts and sciences into nursing practice.
- **Organizational and Systems Leadership**: Incorporate managerial and leadership principles to achieve desired healthcare outcomes.
- **Scholarship**: Implement evidence-based thinking into practice.
- **Information and Patient Care Technology**: Apply informatics and patient care technology skills to improve patient care.
- **Healthcare Policy, Finance, and Regulatory Environments**: Demonstrate responsibility and accountability as a manager of care in all healthcare environments.
- **Interprofessional Communication and Collaboration**: Engage in effective interprofessional, personal and collaborative communication to improve patient outcomes.
- **Clinical Prevention and Population Health**: Provide population focused nursing care with an emphasis on health promotion and disease prevention across healthcare settings.
- **Professionalism and Professional Values**: Demonstrate core professional values and practices within an ethical and legal framework.
- **Baccalaureate Generalist Nursing Practice**: Incorporate knowledge, skills, and attitudes essential to clinical decision making and patient care provision for individuals and populations across the lifespan.

Course Delivery

The RN to Bachelor of Science Degree in Nursing (BSN) is designed for the working RN with an Associate Degree in Nursing from a regionally accredited institution. Students have 4 options to complete this degree program:

- **Option 1**: Full-time students take 2 courses per 8-week session and complete the nursing core coursework within 1 academic year.
- **Option 2**: Part-time students take 1 course per 8-week session and complete the nursing core coursework within 2 academic years.
- **Option 3**: Community College Wrap Full-time: Students will take 2 courses in the summer sessions between their first and second year in the associate degree program, and 2 courses during the following summer session. Students will take 2 courses per 8-week session during the fall and spring semesters following the completion of their associate degree program. Students complete the RN to BSN program within 1 year of completing their Associate Degree in Nursing.
- **Option 4**: Community College Wrap Part-time: Students will take 2 courses in the summer sessions between their first and second year in the associate degree program, and 2 courses during the following summer session and 1 course during each of the subsequent 8-week sessions. Students complete the RN to BSN program within 2 years of completing their Associate Degree in Nursing.

The Musco School of Nursing and Health Professions program blends three instructional strategies to produce an engaged learning curriculum. The first is immersion: our programs include face-to-face meetings conducted at the Irvine campus or regional locations in a 2 to 3 day session. There is one immersion session for the RN to BSN program, at the beginning of the program to introduce students to their cohort, the University and to orient them to our digital platforms. During the immersion sessions, students may receive orientation instruction, work as teams, and participate in demonstrations, exercises, assessments, and evaluations. Students are invited to present their evidence-based baccalaureate leadership change projects at a subsequent immersion.

The second is practicum experience: our program includes a community practicum and evidence-based leadership experience conducted where students live or work. The third is self-directed study: all courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, and/or other homework. Many courses include additional real-time instruction via web conference, phone conference, or live chat sessions.

**Attendance**: Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.

**Transfer Credit**

Brandman University awards a maximum of 72 semester credits in a block transfer for successful completion of an Associate’s Degree in Nursing from an accredited institution. Additional transfer credits may be granted per Brandman University Transfer Credit Policy.

**Admission to the Program**

Admission into the RN to BSN program is three times per year in Fall I, Spring I or Summer II for students taking Option 1 or Option 2. Community College Wrap students are admitted once a year during Summer I for Option 3 or Option 4.

**Application Deadlines**

- **Priority application deadline for Fall 1, 2017 admission is May 15, 2017.**
- **Final completed application deadline for Fall 1, 2017 admission is August 15, 2017.**
- **Priority application deadline for the Spring 1, 2018 admission is October 30, 2017.**
- **Final completed application deadline for Spring 1, 2018 admission is December 1, 2017.**
- **Priority application deadline for Summer 1, 2018 admission is March 15, 2018.**
- **Final completed application deadline for Summer 1, 2018 admission is May 15, 2018.**
Admission Requirements

1. Complete a Musco School of Nursing and Health Professions RN to BSN application available online at https://www.brandman.edu/nursing-health-professions.

2. Students who are applying for Options:
   a. Students who are applying for Option 1 or Option 2 must have an Associate Degree in Nursing from a regionally accredited Institution with a minimum cumulative GPA of 2.0, or have an Associate Degree or Bachelor’s Degree from a regionally accredited associate degree nursing program with a minimum cumulative GPA of 2.0.
   b. Students who are applying for Option 3 or Option 4 must be currently enrolled in a regionally accredited institution and nationally accredited associate degree nursing program and currently maintaining a GPA of 2.0.

3. Official transcripts from all colleges and universities attended. Only credits from regionally accredited institutions and nationally accredited associate degree nursing programs will be accepted in transfer. Failure to report any previous academic work at another college or university is considered a violation of academic integrity.

4. Self-evaluation and goal statement.

5. Three letters of recommendation.

6. Students who are taking Option 1 or Option 2 must hold an unencumbered RN license in the state where you plan to do your practicum experiences (or has evidence of a scheduled National Council Licensure Examination [NCLEX*]).

   * The NCLEX must be passed by the end of the first session of enrollment to continue in the program.

CertifiedBackground.com (http://certifiedbackground.com)

(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):

1. Proof of unencumbered RN or APRN licensure in the state where the student will be completing clinical practicum and/or CSP residency hours;
2. Proof of a negative Tuberculosis (TB) Skin Test or blood test (within 90 days prior to the start of clinical practicum or CSP residency hours);
3. Proof of completion of Hepatitis A and B immunization series or titer;
4. Proof of two doses of Measles/Mumps/Rubella (MMR) immunization or titer;
5. Proof of Tetanus/Diphtheria/acellular Pertussis (Tdap) immunization within the past 5 years;
6. Proof of two doses of Chicken Pox (Varicella) immunization or titer;
7. Background clearance;
8. Copy of American Heart Association Basic Life Support CPR card that will not be expiring within the next 12 months and/or during clinical practicum or residency hours;
9. Proof of current negative drug screen (within 90 days prior to the start of clinical practicum or CSP residency hours);
10. Proof of annual Influenza immunization;
11. Professional Student Liability Insurance (1 mil per occurrence/3 mil aggregate) for the time that the student is engaged in clinical practicum or CSP residency hours (within 90 days prior to the start of clinical practicum or CSP residency hours) and
12. Any additional laboratory tests, immunizations, physical exam and/or documentation required by a student’s clinical practicum or CSP residency hours site.

Catalog Year

Students admitted to the Musco School of Nursing and Health Professions are admitted to the catalog year that is in effect the date when they begin the program (either Fall I, Spring I or Summer I).

Specific Requirements for the RN to Bachelor of Science Degree in Nursing

In addition to the general education requirements as described below, the RN to Bachelor of Science Degree in Nursing consists of three components. The first component involves five foundation courses. The second component describes the 36 credits of upper division nursing core requirements. The third component entails possible elective credits to satisfy the 120 undergraduate credits for the degree.

Foundation courses will be evaluated on a course-by-course basis in the block transfer of credits to be applied to the degree and must be passed with a grade of "C" or higher.

All courses taken in the Nursing Major (36 credits) must be passed with a grade of "C" or higher.

* Students in the RN to BSN degree program must meet the minimum 42 general education credits. Credits are satisfied with the Basic Skill and Breadth Requirements sections.
** These credits may be embedded in the block transfer and/or satisfy General Education Requirements for course content. However, if these credits are not embedded in the block transfer, additional credits may be required to meet the 120 total credit hours for the degree.
THE DOCTORATE OF NURSING PRACTICE (DNP) DEGREE IN NURSING

The Doctorate of Nursing Practice (DNP) Degree is designed for the RN or Advanced Practice Registered Nurse (APRN) who is ready to take a leadership role in the professional clinical practice of nursing. This degree builds on the nursing practice skills and experience that each student possesses. These skills will be integrated with new and innovative ways to advance the healthcare system. An innovative, technology-enriched, educational approach will be used to create advanced practice clinical nursing experts who base decisions on the best evidence available to provide patient-centered, culturally appropriate care. Emphasis will be placed on the use of technology, improving outcomes, innovative leadership, scholarship, and using evidence as a foundation for practice.

Program Learning Outcomes

The Doctorate of Nursing Practice program provides a curriculum that links theory and practice to promote eight program learning outcomes that are based on the American Association of Colleges of Nursing (2006) The Essentials of Doctoral Education for Advanced Nursing Practice:

- Scientific Underpinnings for Practice: Integrate nursing science with knowledge from biophysical, psychosocial, analytical, ethics, and organizational sciences as the basis for advanced practice nursing and new approaches to care delivery.
- Organizational and Systems Leadership: Create environments that support quality improvement across systems.
- Clinical Scholarship: Create and disseminate innovations in evidence-based practice.
- Information Systems and Patient Care Technology: Evaluate emerging technologies for their utility in advanced nursing practice.
- Health Care Policy: Evaluate health policy and advocate for patients and the discipline.
- Interprofessional Collaboration: Create collaborative interprofessional relationships to improve patient and population health outcomes.
- Clinical Prevention and Population Health: Evaluate the social, cultural, and environmental dimensions of population health in practice patterns/systems.
- Advanced Practice Registered Nursing: Independently assess, diagnose, treat, and manage undifferentiated patients.

Entry Options

There are four entry options for the degree.

Entry Option 1

The first entry option (p. 156) is for the APRN (nurse practitioner or clinical nurse specialist), who has a Masters of Science Degree in Nursing (MSN) and is ready to complete the clinical doctorate degree. These applicants apply directly to the Post Masters (PM) to DNP program.

Entry Option 2

The second entry option (p. 158) is for the APRN (nurse practitioner or clinical nurse specialist), who has a Masters of Science Degree in Nursing (MSN) and is ready to complete the clinical doctorate degree and wants to add one of three specialties. The offered specialties are:

- Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)
- Psychiatric Mental Health Nurse Practitioner (PMHNP)
- Family/Across the Lifespan Nurse Practitioner (FNP)

Students are interviewed by the specialty Program Director prior to the end of the first session for approval to start the specialty program. An individualized program of study will be developed after specialty program approval.

Entry Option 3

The third entry option is for the RN with a Bachelor of Science Degree in Nursing who is ready to complete the clinical doctorate degree and move into advanced practice in one of three specialties. The offered specialties are: Adult-Gerontology Acute Care Nurse Practitioner (AGACNP), Psychiatric Mental Health Nurse Practitioner (PMHNP), and Family/Across the Lifespan Nurse Practitioner (FNP). These applicants are interviewed by the specialty Program Director for approval prior to admission.

Entry Option 4

The fourth entry option is for the RN who has a Masters of Science Degree in Nursing (MSN), who is not an APRN, but is ready to complete the clinical doctorate degree and move into advanced practice in one of the three specialties. The offered specialties are: Adult-Gerontology Acute Care Nurse Practitioner (AGACNP), Psychiatric Mental Health Nurse Practitioner (PMHNP), and Family/Across the Lifespan Nurse Practitioner (FNP). Applicants are interviewed by the specialty Program Director for approval prior to admission.

Post Masters (PM) to Doctor of Nursing Practice (DNP) Entry Option 1

Course Delivery

The PM-DNP program is designed for the working APRN. Students take 1 course for nine 8 week sessions and 2 courses for one 8 week session. The program is completed in 10 sessions.

The Musco School of Nursing and Health Professions program blends three instructional strategies to produce an engaged learning curriculum. The first strategy is Immersion: our programs include face-to-face meetings conducted at the Irvine campus or regional locations in 3 day sessions. Immersion sessions are conducted 2 times during the program; at the beginning and at the middle of the program. During these immersion sessions, students may receive orientation instruction, work as teams with peers and mentors and participate in demonstrations, exercises, assessments and/or evaluations. The second strategy is practicum experience: our programs include clinical practice residencies conducted where the student lives or works. The third strategy is self-directed study: courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, and/or other homework. Many courses may include additional real-time instruction via web conference, phone conference, and/or live chat sessions.

Attendance: Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.
Admission to the Program
Admission into the PM-DNP is twice a year in August (Fall 1) and January (Spring 1).

Application Deadlines: PM-DNP
- Priority application deadline for Fall 1, 2017 admission is May 15, 2017.
- Final completed application deadline for Fall 1, 2017 admission is August 15, 2017.
- Priority application deadline for the Spring 1, 2018 admission is October 30, 2017.
- Final completed application deadline for Spring 1, 2018 admission is December 1, 2017.

Admission Requirements
1. Complete a Musco School of Nursing and Health Professions application available online at https://www.brandman.edu/nursing-health-professions.
2. Masters of Science Degree in Nursing from a Commission on Collegiate Nursing Education (CCNE) or a National League of Nursing Accreditation Commission (NLNAC) accredited program with Advanced Practice Specialty (Nurse Practitioner [NP] or Clinical Nurse Specialist [CNS]).
3. National certification as an APRN or CNS (or eligible to take National Certification exam), if required by their state to practice.
4. Official transcripts from all regionally accredited institutions where post-baccalaureate coursework was completed or attempted.
5. Current and detailed resume or curriculum vita.
6. Self-evaluation and goal statement.
7. Three letters of recommendation.
8. Unencumbered RN license in the state where you plan to do your clinical hours.
9. Unencumbered APRN license in the state where you plan to do your clinical hours.
10. Unencumbered APRN license is not required of CNS or other APRN if license is not required by their state to practice, or if in the process of taking national certification exam in specialty.
11. Personal interview with Program Director.

CertifiedBackground.com (http://CertifiedBackground.com)
(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):
1. Proof of unencumbered RN or APRN licensure in the state where the student will be completing clinical practicum and/or CSP residency hours;
2. Proof of a negative Tuberculosis (TB) Skin Test or blood test (within 90 days prior to the start of clinical practicum or CSP residency hours);
3. Proof of completion of Hepatitis A and B immunization series or titer;
4. Proof of two doses of Measles/Mumps/Rubella (MMR) immunization or titer;
5. Proof of two doses of Chicken Pox (Varicella) immunization or titer;
6. Proof of two doses of Tdap immunization within the past 5 years;
7. Background clearance;
8. Copy of American Heart Association Basic Life Support CPR card that will not be expiring within the next 12 months and/or during clinical practicum or residency hours;
9. Proof of annual Influenza immunization;
10. Proof of current negative drug screen (within 90 days prior to the start of clinical practicum or CSP residency hours);
11. Professional Student Liability Insurance (1 mil per occurrence/3 mil aggregate) for the time that the student is engaged in clinical practicum or CSP residency hours (within 90 days prior to the start of clinical practicum or CSP residency hours) and
12. Any additional laboratory tests, immunizations, physical exam and/or documentation required by a student’s clinical practicum or CSP residency hours site.

Catalog Year
Students admitted to the Musco School of Nursing and Health Professions are admitted to the catalog year that is in effect the date when they begin the program (either Fall I, Spring I or Summer I).

Transfer of Coursework
Brandman University awards a maximum of 40 semester credits as a block transfer from a regionally accredited Masters of Science Degree in Nursing program toward the Doctorate of Nursing Practice degree. Credits transferred as a block credit from the Masters of Science degree in Nursing may be transferred regardless of the year the courses for the degree were taken, which supersedes the University’s seven-year rule limitation.

Degree Requirements for the Post Masters to Doctor of Nursing Practice
Entry Option 1
To be awarded the Doctorate of Nursing Practice Degree, students may transfer 500 clinical hours and a maximum of 40 credit hours from the MSN degree. Students must take all 33 credit hours in residence, which includes 510 clinical residency hours for the clinical scholarly project, at Brandman University. This program is designed to follow the guidelines and DNP essentials as set forth by the American Association of Colleges of Nursing (2006) and the National Organization of Nurse Practitioner Faculties (2013; 2014). All courses must be passed with a grade of “B-” or higher. Clinical practicum and residency courses are graded on a Pass/No Pass basis; a Pass is equivalent to a “B-” grade.

PM-DNP Entry Option 2: Adding a New Specialty

Course Delivery

The PM-DNP program is designed for the working APRN. Students take 1 course for nine 8 week sessions and 2 courses for one 8 week session. The program is completed in 10 sessions.

The Musco School of Nursing and Health Professions program blends three instructional strategies to produce an engaged learning curriculum. The first strategy is Immersion: our programs include face-to-face meetings conducted at the Irvine campus or regional locations in 3 day sessions. Immersion sessions are conducted 2 times during the program; at the beginning and at the middle of the program. During these immersion sessions, students may receive orientation instruction, work as teams with peers and mentors and participate in demonstrations, exercises, assessments and/or evaluations. The second strategy is practicum experience: our programs include clinical practice residencies conducted where the student lives or works. The third strategy is self-directed study: courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, and/or other homework. Many courses may include additional real-time instruction via web conference, phone conference, and/or live chat sessions.

Upon admission to the PM-DNP program, students who desire to add a new specialty are required to submit a petition via their academic advisor by the end of the first enrolled session in order to create an individualized education plan. Upon receipt of the petition, the Program Director will notify the student and the student will be interviewed for admission to the specialty. If awarded admission, the academic advisor will create an individual education plan based on the required specialty courses and additional courses determined as needed by the gap analysis.

National certifying bodies require that all students applying for a new certification must take 4 core courses:

1. Advanced health assessment (across the lifespan)
2. Advance pathophysiology (across the lifespan)
3. Advanced pharmacology courses (across the lifespan)
4. A nurse practitioner role course

Students are required to earn 3 credits in each of the 4 core courses to meet eligibility to sit for national certification exams. If a student has earned only 2 credits in an approved transfer course, an additional credit may be taken at Brandman University to meet the minimum credit requirements for the degree. For students who have not taken these courses as part of their MSN, these courses will be included on the student’s education plan. Upon completion of the DNP, including all courses required for the additional specialty, the student will be eligible to take the national certification exam for his or her chosen specialty offered by the American Nurses Credentialing Center (ANCC) and/or American Association of Nurse Practitioners Certification Program (AANPCP).

Attendance: Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.

Admission to the Program

Admission into the PM-DNP is twice a year in August (Fall 1) and January (Spring 1).

Application Deadlines: PM-DNP

- Priority application deadline for Fall 1, 2017 admission is May 15, 2017.
- Final completed application deadline for Fall 1, 2017 admission is August 15, 2017.
- Priority application deadline for the Spring 1, 2018 admission is October 30, 2017.
- Final completed application deadline for Spring 1, 2018 admission is December 1, 2017.

Admission Requirements

1. Complete a Musco School of Nursing and Health Professions application available online at https://www.brandman.edu/nursing-health-professions.
2. Masters of Science Degree in Nursing from a Commission on Collegiate Nursing Education (CCNE) or a National League of Nursing Accreditation Commission (NLNAC) accredited program with Advanced Practice Specialty (Nurse Practitioner [NP] or Clinical Nurse Specialist [CNS]).
3. National certification as an APRN or CNS (or eligible to take National Certification exam), if required by their state to practice.
4. Official transcripts from all regionally accredited institutions where post-baccalaureate coursework was completed or attempted.
5. Current and detailed resume or curriculum vita.
6. Self-evaluation and goal statement.
7. Three letters of recommendation.
8. Unencumbered RN license in the state where you plan to do your clinical hours.
9. Unencumbered APRN license in the state where you plan to do your clinical hours.
10. Unencumbered APRN license is not required of CNS or other APRN if license is not required by their state to practice, or if in the process of taking national certification exam in specialty.
11. Personal interview with Program Director.

CertifiedBackground.com (http://certifiedbackground.com)

(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):

Bachelor of Science in Nursing to Doctor of Nursing Practice Entry Option 3

Course Delivery
The Bachelor of Science Degree in Nursing (BSN) to Doctorate of Nursing Practice (DNP) program is designed for the RN who desires to be an APRN. Students complete the program in 3 years: 2 years of the program as part-time study, taking 1 course per 8-week session and a third year as full-time study, taking 2 courses per 8 week session. When students are in the third year of the program, they may need to reduce work hours to accommodate time to complete clinical hours.

The Musco School of Nursing and Health Professions programs blend three instructional strategies to produce an engaged learning curriculum. The first strategy is immersion: our programs include face-to-face meetings conducted at the Irvine campus or regional locations in 3 sessions. During these immersion sessions, students may receive orientation instruction; work as teams with peers and mentors, participate in demonstrations, exercises, assessments or evaluations, complete hands-on skills training in a simulation center using standardized patients, manikins, or three-dimensional gaming, and/or present their work on scholarship projects to peers, faculty, and community members. The second strategy is practicum experience: our programs include supervised clinical practice residencies conducted where the student lives or works. The third is self-directed study: all courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, and/or other homework. Many courses may include additional real-time instruction via web conference, phone conference, and/or live chat sessions.

Attendance: Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.

Admission to the Program
Admission into the BSN to DNP is once a year in January (Spring I).

Application Deadline
Priority application deadline for Spring I, 2018 admission is October 30, 2017.

Final completed application deadline for Spring I, 2018 admission is December 1, 2017.

Admission Requirements
1. Admission to the BSN to DNP program is granted to individuals who apply and meet the standards for admission to a graduate program.
2. Complete a Musco School of Nursing and Health Professions application available online at https://www.brandman.edu/nursing-health-professions.
3. Bachelor of Science Degree in Nursing from a Commission on Collegiate Nursing Education (CCNE) or a National League of Nursing Accreditation Commission (NLNAC) accredited program. Applicants who have a Bachelors in something else and have completed either a Post-Baccalaureate Certificate in Nursing, or the equivalent of the BSN in the first year of a Masters Entry Nursing Program, passed the NCLEX and are licensed, may be considered for admission.
4. Official transcripts from all regionally accredited institutions where baccalaureate and/or post-baccalaureate coursework was completed or attempted.
5. *Graduate Record Exam (GRE): Analytical Writing Score (minimum score of 4.0) from the General Test. Request that scores be sent electronically to Brandman University. See web site http://www.ets.org/gre
6. Current and detailed resume or curriculum vita.
7. Self-evaluation and goal statement.
8. Three recommendations.
9. Unencumbered RN license from the state where you plan to do your clinical hours, or date for NCLEX scheduled before classes start. NCLEX must be passed for enrollment with application for license pending. The NCLEX must be passed by the end of the first session of enrollment to continue in the program.
10. Personal interview with specialty Program Director.
  * Not required if you have a Masters degree or higher from a regionally accredited institution.

CertifiedBackground.com (http://CertifiedBackground.com)
(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):

1. Proof of unencumbered RN or APRN licensure in the state where the student will be completing clinical practicum and/or CSP residency hours;
2. Proof of a negative Tuberculosis (TB) Skin Test or blood test (within 90 days prior to the start of clinical practicum or CSP residency hours);
3. Proof of completion of Hepatitis A and B immunization series or titer;
4. Proof of two doses of Measles/Mumps/Rubella (MMR) immunization or titer;
5. Proof of Tetanus/Diphtheriaacellular Pertussis (Tdap) immunization within the past 5 years;
6. Proof of two doses of Chicken Pox (Varicella) immunization or titer;
7. Background clearance;
8. Copy of American Heart Association Basic Life Support CPR card that will not be expiring within the next 12 months and/or during clinical practicum or residency hours;
9. Proof of current negative drug screen (within 90 days prior to the start of clinical practicum or CSP residency hours);
10. Proof of annual Influenza immunization;
11. Professional Student Liability Insurance (1 mil per occurrence/3 mil aggregate) for the time that the student is engaged in clinical practicum or CSP residency hours (within 90 days prior to the start of clinical practicum or CSP residency hours) and
12. Any additional laboratory tests, immunizations, physical exam and/or documentation required by a student’s clinical practicum or CSP residency hours site.

Catalog Year
Students admitted to the Musco School of Nursing and Health Professions are admitted to the catalog year that is in effect the date when they begin the program (either Fall I, Spring I or Summer I).
**Transfer Credit**

A maximum of 12 semester graduate credits may be transferred per the Transfer Credit policy (see Graduate Academic Policies and Procedures).

**Degree Requirements**

To be awarded the Doctorate of Nursing Practice Degree, students must complete 73 credit hours, which requires clinical residency of 1020 precepted clinical practicum hours. This program is designed following the guidelines and DNP essentials as set forth by the American Association of Colleges of Nursing (2006) and the National Association of Nurse Practitioner Faculties (2013; 2014).

All students must take the following:

- Graduate Science Core Courses (15 credits)
- DNP Core Essentials (24 credits)
- Advanced Practice Core Courses (19 credits)
- Specialty Courses (15 credits)

Students will choose one of the following specialties:

- Adult-Gerontology Acute Care Nurse Practitioner
- Psychiatric and Mental Health Nurse Practitioner
- Family/Across the Lifespan Nurse Practitioner

Students graduating from this program will be eligible to take the national certification examination of their chosen specialty offered by the American Nurses Credentialing Center (ANCC) and/or the American Association of Nurse Practitioners Certification Program (AANPCP) and apply for licensure as an APRN in the state where they plan to practice.

All courses must be passed with a grade of "B-" or higher. Clinical practicum and residency courses are graded Pass/No Pass. A Pass is equivalent to a "B-" grade.

---

**Master of Science in Nursing to Doctor of Nursing Practice Entry Option 4**

**Course Delivery**

The fourth entry option is for the RN who has a Masters of Science Degree in Nursing (MSN), who is not an APRN, but is ready to complete the clinical doctorate degree and move into advanced practice in one of the three specialties. Students complete the program in 3 years: 2 years of the program as part-time study, taking 1 course per 8-week session and a third year as full-time study, taking 2 courses per 8 week session. When students are in the third year of the program, they may need to reduce work hours to accommodate time to complete clinical hours.

The Musco School of Nursing and Health Professions programs blend three instructional strategies to produce an engaged learning curriculum. The first strategy is immersion: our programs include face-to-face meetings conducted at the Irvine campus or regional locations in 3 sessions. During these immersion sessions, students may receive orientation instruction; work as teams with peers and mentors, participate in demonstrations, exercises, assessments or evaluations, complete hands-on skills training in a simulation center using standardized patients, manikins, or three-dimensional gaming, and/or present their work on scholarship projects to peers, faculty, and community members. The second strategy is practicum experience: our programs include supervised clinical practice residencies conducted where the student lives or works. The third is self-directed study: all courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, and/or other homework. Many courses may include additional real-time instruction via web conference, phone conference, and/or live chat sessions.

**Attendance:** Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.
Admission to the Program
Admission into the BSN to DNP is once a year in January (Spring I).

Application Deadline
- Priority application deadline for Spring I, 2018 admission is October 30, 2017.
- Final completed application deadline for Spring I, 2018 admission is December 1, 2017.

Admission Requirements
1. Admission to the BSN to DNP program is granted to individuals who apply and meet the standards for admission to a graduate program.
2. Complete a Musco School of Nursing and Health Professions application available online at https://www.brandman.edu/nursing-health-professions.
3. Bachelor of Science Degree in Nursing from a Commission on Collegiate Nursing Education (CCNE) or a National League of Nursing Accreditation Commission (NLNAC) accredited program. Applicants who have a Bachelors in something else and have completed either a Post-Baccalaureate Certificate in Nursing, or the equivalent of the BSN in the first year of a Masters Entry Nursing Program, passed the NCLEX and are licensed, may be considered for admission.
4. Official transcripts from all regionally accredited institutions where baccalaureate and/or post-baccalaureate coursework was completed or attempted.
5. *Graduate Record Exam (GRE): Analytical Writing Score (minimum score of 4.0) from the General Test. Request that scores be sent electronically to Brandman University. See web site http://www.ets.org/gre
6. Current and detailed resume or curriculum vita.
7. Self-evaluation and goal statement.
8. Three recommendations.
9. Unencumbered RN license from the state where you plan to do your clinical hours, or date for NCLEX scheduled before classes start. NCLX must be passed for enrollment with application for license pending. The NCLEX must be passed by the end of the first session of enrollment to continue in the program.
10. Personal interview with specialty Program Director.
* Not required if you have a Masters degree or higher from a regionally accredited institution.

CertifiedBackground.com (http://certifiedbackground.com)
(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):
1. Proof of unencumbered RN or APRN licensure in the state where the student will be completing clinical practicum and/or CSP residency hours;
2. Proof of a negative Tuberculosis (TB) Skin Test or blood test (within 90 days prior to the start of clinical practicum or CSP residency hours);
3. Proof of completion of Hepatitis A and B immunization series or titer;
4. Proof of two doses of Measles/Mumps/Rubella (MMR) immunization or titer;
5. Proof of Tetanus/Diphtheria/acellular Pertussis (Tdap) immunization within the past 5 years;
6. Proof of two doses of Chicken Pox (Varicella) immunization or titer;
7. Background clearance;
8. Copy of American Heart Association Basic Life Support CPR card that will not be expiring within the next 12 months and/or during clinical practicum or residency hours;
9. Proof of current negative drug screen (within 90 days prior to the start of clinical practicum or CSP residency hours);
10. Proof of annual Influenza immunization;
11. Professional Student Liability Insurance (1 mil per occurrence/3 mil aggregate) for the time that the student is engaged in clinical practicum or CSP residency hours (within 90 days prior to the start of clinical practicum or CSP residency hours) and
12. Any additional laboratory tests, immunizations, physical exam and/or documentation required by a student’s clinical practicum or CSP residency hours site.

Catalog Year
Students admitted to the Musco School of Nursing and Health Professions are admitted to the catalog year that is in effect the date when they begin the program (either Fall I, Spring I or Summer I).

Transfer Credit
A maximum of 12 semester graduate credits may be transferred per the Transfer Credit policy (see Graduate Academic Policies and Procedures).

Degree Requirements
To be awarded the Doctorate of Nursing Practice Degree, students must complete 73 credit hours, which requires clinical residency of 1020 precepted clinical practicum hours. This program is designed following the guidelines and DNP essentials as set forth by the American Association of Colleges of Nursing (2006) and the National Association of Nurse Practitioner Faculties (2013; 2014).

All students must take the following:
- Graduate Science Core Courses (15 credits)
- DNP Core Essentials (24 Credits)
- Advanced Practice Core Courses (19 credits)
- Specialty Courses (15 credits)

Students will choose one of the following specialties:
- Adult-Gerontology Acute Care Nurse Practitioner
- Psychiatric and Mental Health Nurse Practitioner
- Family/Across the Lifespan Nurse Practitioner

Students graduating from this program will be eligible to take the national certification examination of their chosen specialty offered by the American Nurses Credentialing Center (ANCC) and/or the American Association of Nurse Practitioners Certification Program (AANPCP) and apply for licensure as an APRN in the state where they plan to practice.

All courses must be passed with a grade of “B-” or higher. Clinical practicum and residency courses are graded Pass/No Pass. A Pass is equivalent to a “B-” grade.

POST-DOCTORAL NURSE PRACTITIONER CERTIFICATES

These certificates are designed for the APRN with a Ph.D. or DNP who wants to obtain a new specialty in one of three nurse practitioner specialty options.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Course Delivery

The Musco School of Nursing and Health Professions programs blend three instructional strategies to produce an engaged learning curriculum. The first strategy is immersion: our programs include face-to-face meetings conducted at the Irvine campus. During these immersion sessions, students may receive orientation instruction; work as teams with peers and mentors; participate in demonstrations, exercises, assessments or evaluations; complete hands-on skills training in a simulation center using standardized patients and/or high-fidelity manikins. Many courses include additional real-time instruction via web conference, phone conference, or live chat sessions. The second is practical experience: our programs include internships or supervised clinical practice residencies conducted where the student lives or works. The third is self-directed study: all courses include online lectures, discussions, social networking, demonstrations, tutorials, readings, or other homework.

Students in the Certificate program are required to attend 3 immersion sessions; the first is a virtual immersion Spring 1 or Spring 2 to learn how to be a virtual student and to be oriented to the resources of the University. The second immersion is for 3 days before starting the initial precepted clinical practicum course to learn and practice procedures. The third immersion is for 3 days before starting the final precepted clinical practicum course for competency examination.

Attendance: Students may be dismissed from the program at the Dean’s discretion due to absence from required meetings.

Admission Requirements

1. Complete a Musco School of Nursing and Health Professions application available online at https://www.brandman.edu/nursing-health-professions.
2. DNP or Ph.D. degree from a Commission on Collegiate Nursing Education (CCNE) or a National League of Nursing Accreditation Commission (NLNAC) accredited program.
3. National certification as APRN (or eligible to take National Certification Exam).
4. Official transcripts from all regionally accredited institutions where post-baccalaureate coursework was completed or attempted.
5. Current and detailed resume or curriculum vita.
6. *Unencumbered RN license in the State where you plan to do your precepted clinical practicum hours.
7. *Unencumbered APRN license in your current specialty.
8. Self-evaluation and goal statement.
10. Personal interview with the specialty Program Director.

CertifiedBackground.com (http://certifiedbackground.com)

(All requirements are due by the end of the first session unless otherwise indicated and/or required by a student’s clinical practicum or Clinical Scholarly Project [CSP] site):

1. Proof of unencumbered RN or APRN licensure in the state where the student will be completing clinical practicum or CSP residency hours;
2. Proof of a negative Tuberculosis (TB) Skin Test or blood test (within 90 days prior to the start of clinical practicum or CSP residency hours);
3. Proof of completion of Hepatitis A and B immunization series or titer;
4. Proof of two doses of Measles/Mumps/Rubella (MMR) immunization or titer;
5. Proof of Tetanus/Diphtheria/acellular Pertussis (Tdap) immunization within the past 5 years;
6. Proof of two doses of Chicken Pox (Varicella) immunization or titer;
7. Background clearance;
8. Copy of American Heart Association Basic Life Support CPR card that will not be expiring within the next 12 months and/or during clinical practicum or residency hours;
9. Proof of current negative drug screen (within 90 days prior to the start of clinical practicum or CSP residency hours);
10. Proof of annual Influenza immunization;
11. Professional Student Liability Insurance (1 mil per occurrence/3 mil aggregate) for the time that the student is engaged in clinical practicum or CSP residency hours (within 90 days prior to the start of clinical practicum or CSP residency hours) and
12. Any additional laboratory tests, immunizations, physical exam and/or documentation required by a student’s clinical practicum or CSP residency hours site.

Catalog Year

Students admitted to the Musco School of Nursing and Health Professions are admitted to the catalog year that is in effect the date when they begin the program (either Fall I, Spring I or Summer I).

As part of the application process, the Program Director of the chosen specialty will interview the applicant for admission to the specialty. If approved for admission, the academic advisor will create an individual education plan based on the required specialty courses and additional courses determined as needed by the gap analysis. Additional courses may be transferred up to a maximum of 12 semester graduate credits per the Transfer Credit policy (see Graduate Academic Policies and Procedures) determined by gap analysis.

National certifying bodies require that all students applying for a new certification must take 4 core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advanced Health Assessment</td>
<td>3</td>
</tr>
<tr>
<td>Advance Pathophysiology</td>
<td>3</td>
</tr>
<tr>
<td>Advanced Pharmacology Courses (all across the lifespan)</td>
<td>3</td>
</tr>
<tr>
<td>Nurse Practitioner Role Course</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

Students are required to earn 3 credits in each of the 4 core courses. If a student has earned only 2 credits in an approved program, an additional credit may be taken from Brandman University to meet the minimum
credit requirements for the degree. For students who have not taken these courses as part of their MSN, these courses are embedded within the education plan. Upon completion of the DNP, including all courses required for the additional specialty, a student will be eligible to take the national certification exam for their chosen specialty: American Nurses Credentialing Center (ANCC) or the American Association of Nurse Practitioners Certification Program (AANPCP) and apply for licensure as an APRN in the state where they plan to practice.

All courses must be passed with a grade of "B-" or higher. Clinical practicum and residency courses are graded Pass/No Pass. A Pass is equivalent to a "B-" grade.

**A STUDENT MUST PETITION FOR THEIR SELECTED SPECIALTY BY THE END OF THE FIRST ENROLLED SESSION. THE STUDENT CANNOT BE ADMITTED INTO THE SPECIALTY UNLESS REQUIRED CERTIFIED BACKGROUND DOCUMENTS ARE UPLOADED AND ACCEPTED.**

**Post-Doctoral Certificates**

School of Extended Education
The School of Extended Education provides academic credit and non-credit bearing courses, programs, and certificates providing opportunities for individuals, business organizations and governmental entities. Through Extended Education offerings, individuals can obtain lower cost academic credit toward Brandman degree programs before or after being admitted to the University. Certificate and Certification programs allow students to prepare for new careers, augment degree programs, or demonstrate mastery over and above degrees already obtained, thereby providing specializations. Many of these certificates, courses and certifications also provide degree seeking students with opportunities to substitute a degree program course in order to graduate with a certification or certificate and a degree without increasing time to degree. Extended Education offerings also provide opportunities to obtain professional development and CEU credits often required to move up salary scales, maintain certifications and transition into new career paths. Businesses, government agencies and nonprofits utilize Extended Education custom solutions to develop and train their workforces. Courses are delivered face to face, online and in blended formats at campuses throughout the Brandman system as well as onsite for business clients and other cohort groups. All programming can be customized to align with needs and objectives of business clients and other cohorts. Business services, including coaching, strategic planning facilitation, assessments, and more are also available. Education plans are prepared to assist students in utilizing Extended Education programming in order to align with career and personal goals.

Credits

Academic Semester Credit
Undergraduate Level Coursework
Courses with numbers 100 – 499 provide semester credit. These courses may be used to satisfy requirements in undergraduate level degree or certificate programs.

Graduate Level Coursework
Courses with numbers 500 – 799 provide semester credit. These courses may be used to satisfy requirements in graduate level degree, credential, or certificate programs.

Other Academic Opportunities
Certifications: Some professional certifications may qualify as substitutions for specific courses in Brandman University academic certificate and degree programs. The School of Extended Education offers courses to prepare students for the examinations of these certifications.

Students with IT professional certification(s) may substitute courses as outlined below provided that their certification(s) are unexpired and currently recognized in the field. Refer to MyBrandman for additional information on IT certification substitutions listed by catalog year.

</tbody>
</table>

Some professional certifications may qualify as academic credit through an ACE recommendation. The recommendation is inclusive of level and discipline, subject to residency requirements, and other limitations as set forth in specific degree programs. Students can request an evaluation for credit equivalencies. The School of Extended Education offers courses to prepare students for the examinations of these certifications.

- CPP – Certified Payroll Professional
- FPC – Fundamental Payroll Certification

### Continuing Education Units

Continuing Education Units (CEU) are calculated at 10 contact hours per one CEU, or fraction thereof. Courses that award CEUs may be useful to move up salary scales, maintain certifications and transition into new career paths. Unless specifically articulated to an academic credit bearing course or program, these courses may not be used to satisfy coursework in any degree program.

### Professional Development Units

Most Professional Development Units (PDU) are calculated at 15 contact hours per one PDU. Courses that award PDUs may be useful to move up salary scales, maintain certifications or licensures. Unless specifically articulated to an academic credit bearing course or program, these courses may not be used to satisfy coursework in any degree program.

Professional Development Units used for recertification with the Project Management Institute are calculated at one contact hour per one PDU. Courses that offer PDUs with this calculation are indicated appropriately.

### Clock Hours

Courses that award CEUs may also indicate a Clock Hour equivalency. Clock Hours are used by specific government entities to measure professional and continuing education and determine program eligibility for the awarding of benefits. One Clock Hour is equivalent to one contact hour.
Recertification Credit Hours

Courses that award CEUs may also indicate a Recertification Credit Hour (RCH) equivalency. RCHs are calculated at one contact hour per one RCH and are specific to the professional licensing body.

Transitional Kindergarten Certificate

This certificate meets the requirements credentialed teachers need to qualify to teach transitional kindergarten and apply to CTC for a Child Development Master Teacher Level Permit. Each course awards 3 academic credits (undergraduate). A grade of "C" or higher must be earned in each course in this program. Students successfully completing this certificate and who hold an appropriate, valid CTC designated credential, such as a multiple subject credential, will receive the Transitional Kindergarten Certificate.

Students seeking a certificate only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission Requirements

1. Eligible candidates are those with an appropriate, valid CTC designated credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to Extended Education by visiting their website at https://www.brandman.edu/extended-education or by calling 800-632-0094.
2. Applicants must complete and submit the Brandman University Application.

Total Credits 15

* ECED 302 Social and Emotional Competence in Early Childhood Education must be taken first. Subsequent courses may be taken in any order with the exception of ECED 210 Practicum in Early Childhood Education I which will be the final course in the program.

Course Prerequisites

Prerequisites noted in course descriptions are not applicable to students in this certificate program.

Transfer Credits

Students may substitute a CAP 8 aligned practicum for ECED 210 Practicum in Early Childhood Education I. No other transfer credits are accepted toward completion of this certificate.
ECED 410 Engaging Interactions and Environments Providing a Solid Foundation for Young Children's Development

Admissions Requirements

This course is designed to increase participants' knowledge about the importance of high-quality early childhood education and the specific types of environments and interactions that support the development of social, emotional, cognitive, and early academic skills. Students will engage in practice-based coaching experiences that enable them to explore multiple ways to design well-organized, materials-rich environments and to implement warm, responsive, and instructionally supportive interactions with children. Course content is aligned with NAECY Standards 1, 4, and 7 as well as the following CA Early Childhood Educator Competencies: Child Development and Learning, Relationships, Interactions & Guidance; and Learning Environments & Curriculum. 3 credits.

Autism Spectrum Disorder

Autism Spectrum Disorders, added Authorization

This program provides eligible candidates with a CTC designated authorization to serve learners with Autism Spectrum Disorders. The Autism Spectrum Disorders added Authorization authorizes the holder to conduct assessments, provide instruction, and special education-related services to individuals with a primary disability of autism as defined in subsection 300.8(c)(1) of Title 34 Code of Federal Regulations, Subpart A, across the continuum of special education program options at the grade and age levels authorized by the prerequisite credential required in (a)(1).

The Autism Spectrum Disorders added Authorization is limited to the grade and age levels authorized by the prerequisite credential. For example, when the holder of a Specialist Instruction Teaching Credential in Learning Handicapped adds an Autism Spectrum Disorders added Authorization, the teacher may serve students in grades preschool, K-12, and adults while the holder of an Education Specialist in Mild/Moderate Disabilities who adds the Autism Spectrum Disorders added Authorization may serve students in grades K-12 through age 22.

Please note that admissions requirements for the Autism Spectrum Disorders added Authorization differ from those for other credentials and certificates.

Admissions Requirements

1. Eligible candidates are those with an appropriate valid CTC designated credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to the School of Extended Education by visiting their web site at http://www.brandman.edu/exed or by calling 800-632-0094.
2. Applicants must complete and submit the Brandman University application and be admitted into the Autism Spectrum Disorders added Authorization program.

Autism Spectrum Disorder, Certificate

A Certificate of Completion will be awarded to students who wish to better understand students with autism and learn effective teaching strategies but do not need to obtain the Added Authorization. All four Added Authorization courses must be completed to earn the certificate. Admission is not required for those completing the certificate. Each course awards 3 academic credits (graduate).

</tr>
</tbody>
</table>

Total Credits: 12

No more than 3 credits may be waived or transferred into the ASDA. At least 9 credits must be taken at Brandman University.

Demonstration of Mastery

Candidates must submit via LiveText a Portfolio of Evidence demonstrating abilities or competence in the courses which includes a reflective essay that applies course content to Autism. This portfolio is completed as part of EDUU 677 Autism Spectrum Disorders: Programming and Strategies, II. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency.

Recommendation for Authorization

Eligible candidates that can be recommended for the Autism Spectrum Disorders added Authorization are those with an appropriate and valid CTC designated credential. Upon successfully completing and passing the coursework the candidate may apply to be recommended to the CTC for the authorization. To apply for the authorization, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

Applied Behavior Analysis

Applied behavior analysis has been demonstrated as an effective approach to treating autism, related developmental disorders, dementia, and head trauma. The Applied Behavior Analysis certificate programs are designed to provide working professionals—including current behavior analysts or professionals in psychology, education, child care, speech and language pathology, and social services—a mastery of behavior analysis theories and procedures.

Graduate Certificate: Applied Behavior Analysis [available also as an emphasis area within the Master of Arts in Special Education (MASE)]

These courses incorporate the 4th edition of the Behavioral Analyst Certification Board (BACB) task list requirements. Students will gain the knowledge and skill required to sit for the Board Certified Behavioral Analyst (BCBA) certification examination. This six-course, fully online program is designed for individuals seeking a career as a certified behavioral analyst or the ability to incorporate applied behavior analysis processes into their professional or personal practices. While many certificants will enter the field in order to provide services to people with ASD, other fields benefit from the skills acquired through this program: namely, the fields of psychology (from which ABA is originally derived) and education. The level of expertise acquired by completing the coursework requirements has significant value, not just as a preparation for passing the exam, but as a general knowledge base gained to supplement other credentials.

The certificate, taken with additional course requirements, can lead to a Master’s degree in Special Education (MASE). Admission requirements for the degree program can be found in the School of Education catalog section. Each course awards 3 academic credits (graduate). A grade of B- or higher must be earned in each course in this program.

Restrictions

Courses are taken in sequential order at a maximum of one course per session.

The six-course sequence requires a student be employed at least part-time in a field of employment which uses Applied Behavior Analysis (i.e. education, medicine, social work, occupational or speech therapy). Assignments in each course will require access to clients in order to complete a client-based project. The assignments give students the opportunity to practice and research the behavioral principles in a practical format.

The certificate is awarded upon successful completion of all coursework with a cumulative grade point average of 3.0 or above. No transfer credit may be used.

Effective January 1, 2016, the Behavior Analyst Certification Board will require all applicants for certification possess a master’s degree in behavior analysis, education or psychology.

Admissions Requirements for Certificate

1. Satisfactorily fulfill graduate admission requirements for Brandman University (see the Graduate Admissions section).
2. Online application for graduate admission.
3. Two letters of recommendation.
4. Resume or CV showing current employment in a field related to Applied Behavior Analysis. Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

* Prerequisites
   EDUU 636 An Introduction to Applied Behavior Analysis must be taken first. Courses must be taken sequentially.

Licensure

Prepares students to sit for examination to become a Board Certified Behavior Analyst (BCBA).

SPNU 120 Spanish for Educators

SPNU 120 Spanish for Educators
This course is designed to provide early childhood educators with basic knowledge about the Latino culture, Spanish vocabulary and phrases necessary to communicate with parents and students on a very basic level. Students will explore the culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking students and parents. No previous Spanish language experience is required. 3 credits.

CTEL

California Teacher of English Learners (CTEL) leading to an English Learner (EL) Authorization

This program provides credentialed teachers or credential candidates with a CTC-designated authorization to serve limited English proficient students. The CTEL program follows all school of education graduate policies and procedures, including GPA and grade requirements.

Up to 3 credits may be waived or transferred. At least 9 credits must be taken at Brandman University.

Please note that admissions requirements are different than those for other credentials and certificates.

Admissions Requirements

1. Eligible candidates are those with an appropriate valid CTC designated credential. Questions regarding the eligibility of specific credentials should be directed to the Teacher Accreditation Department at 949-341-9899. Questions regarding schedules, program requirements, and registration should be directed to the
School of Extended Education by visiting their web site at http://www.brandman.edu/exed or by calling 800-632-0094.

2. Applicants must complete and submit the Brandman University application and be enrolled into the California Teacher of English Learners (CTEL) program.

### Demonstration of Mastery

Candidates must submit a Portfolio of Evidence demonstrating abilities or competence in the courses and includes a reflective essay that applies course content to CTEL. A standardized assessment rubric will be used to determine that the candidate has demonstrated competency. Candidates submit the Demonstration of Mastery portfolio (DOM) through LiveText and pay a fee to have the DOM evaluated. The DOM handbook containing requirements, scoring rubrics, and directions are located on the SOE Services MyBrandman site.

### Recommendation for Authorization

Eligible candidates that can be recommended for the English Learner (EL) Authorization are those with an appropriate and valid CTC designated credential. Upon successfully completing and passing the coursework and Demonstration of Mastery, the candidate may apply to be recommended to the CTC for the authorization. To apply for the authorization, candidates complete the Recommendation Form on the SOE Services MyBrandman site. Once the recommendation is made by the Teacher Accreditation Department candidates can submit the credential fee to the CTC for the credential.

### Certificate in Teaching the 21st Century Learner

**Also available as an emphasis area within the Master of Arts in Education**

A Certificate of Completion will be awarded to students who complete these courses that incorporate the National Standards for Quality

Online Teaching. Students will gain knowledge and skills needed to teach effectively in online and blended K-12 and higher education environments. This four course online program is designed for individuals seeking career or advancement opportunities in education or related fields. Admission is not required for those completing the certificate only.

This certificate, taken with additional course requirements, leads to a Master of Arts in Education with an emphasis in Instructional Technology, Teaching the 21st Century Learner. Admissions requirements and course descriptions for this degree program can be found in the School of Education catalog section. Each course awards 3 academic credits (graduate).

### Illinois ESL Endorsement

#### EDEU 500 Theory/Foundations of ESL Programs
Explore how historical, political, sociocultural, and educational events, policies, laws, and issues drive and affect education of linguistically and culturally diverse students in ESL programs in schools. Become familiar with services and programs are to be provided to ELL students in ESL programs based on local, state, and federal policies and laws. Explore program delivery models and various theories of Second Language Acquisition (SLA), bilingualism, and sociocultural variables. *This course is only available for Illinois residents. 3 credits.*

#### EDEU 501 Methods of Teaching ESL in Bilingual Programs
Learn about best practices and resources for teaching English Language Learners within bilingual programs including print materials, games, multimedia materials, online resources, and effective short and long term lesson planning. *This course is only available for Illinois residents. 3 credits.*

#### EDEU 502 Cross Cultural Issues for Teaching ESL
Gain deeper awareness of how one’s personal attitudes, values, and beliefs about language, patriotism, culture, teaching, learning, power, privilege, and other cultural norms, values, and mores impact teaching and learning. Participants will relate these concepts to cross-cultural interactions in educational settings and explore implications about how these impact interactions with students and their families, instructional decisions, and perceptions about student performance, teaching, and learning within your professional practice. *This course is only available for Illinois residents. 3 credits.*

#### EDEU 503 Methods and Materials for Teaching ESL
Learn about best practices and resources for teaching English Language Learners including print materials, games, multimedia materials, online resources, and effective short and long term lesson planning. *This course is only available for Illinois residents. 3 credits.*
EDEU 504 Linguistics for ESL Teachers
Analyze the role language plays in society. Deepen your awareness about sounds, words, sentence structure, oral and written communication, key aspects of nonverbal communication, the history of the English language, and the evolution of language. Explore elements of linguistics relevant to second language learning and teaching English Language Learners. Similarities and differences between the structures of English and other languages will be emphasized (but not limited to) languages found in the classrooms, schools, and communities of the participants as well as those of major groups in the US will be explored. *This course is only available for Illinois residents. 3 credits.

EDEU 505 Assessment of Bilingual Students
Acquire understanding of strategies and instruments for diagnosing and evaluating learning and instruction in English and the student’s home language. Focus will be on the purposes, characteristics, strengths, and limitations of teacher-made and commercial assessments used to assess acquisition of content, language and social skills in students for whom English is a new language. Strategies for reflecting on and using assessment results (data) to modify instruction will be explored along with the significance of sociological and psychological results of testing, validity, reliability, bias, scoring, and other assessment-related issues. *This course is only available for Illinois residents. 3 credits.

Coaching for Educators
This course provides both current and aspiring coaches with research-based professional development that builds and expands the coach’s internal capacity to optimize coaching results. Through a combination of collaborative peer work, coaching simulations, professional reading and webinars, the course will investigate the powerful connection between coaching and performance and the impact of coaching on accelerating the effectiveness of the coachee. Participants in this course will develop and practice coaching strategies that when successfully implemented will help build the capacity of the coachee. Participants will learn how to skillfully overcome coaching challenges through the use of active listening techniques, paraphrasing, clarifying questioning, mediational questioning and goal setting. In addition, strategies that support the situational needs of the coachee will be explored including instructional, facilitative and transformational coaching strategies. Participants will also investigate coaching tools that effectively support the coaching process. This course provides an opportunity for the participant to practice coaching conversations, receive coaching feedback, reflect on coaching competencies and develop knowledge and skills of coaching stances through coaching simulations. Graded on a Pass/No Pass basis.

EDUU 9030 Coaching for Educators 1
Coaching for Educators 1 is the first course of the two course coaching program for teachers and education administrators. It builds on the knowledge and skills of experienced school leaders. Participants enrolled in this first course will explore coaching theory, research and methods; practice using coaching methods and processes within the context of their coaching assignment; use goal setting protocols, appropriate coaching instruments and processes of formative and summative assessments designed to support the coachee’s growth in the leadership competencies outlined in the California Professional Standards for Education Leaders (CPSEL). Participants will develop their coaching skills; engage in ongoing professional learning in the CPSEL and current educational trends, research and policy; and receive support for coaching challenges while reflecting on their coaching practice and networking with their coaching peers. 2 credits.

EDUU 9031 Coaching for Educators 2
Coaching for Educators 2 is the second course of the two course coaching program for education administrators and teachers. It builds on the knowledge and skills acquired in Coaching for Educators 1 course. Participants enrolled in this second course will deepen their knowledge of coaching theory, research and methods; apply coaching methods and processes within the context of their coaching assignment; use goal setting protocols, appropriate coaching instruments and processes of formative and summative assessments designed to support the coachee’s growth in the leadership competencies outlined in the California Professional Standards for Education Leaders (CPSEL). Participants enrolled in this second course of the two course coaching program will refine their coaching skills; engage in ongoing professional learning in current educational trends, research and policy; and receive and provide support for coaching challenges while reflecting on their coaching practice and networking with their coaching peers. 2 credits.

California Commission on Teacher Credentialing-approved Induction Programs
The School of Extended Education partners with schools and districts throughout California to provide graduate-level professional development credit for induction work done by beginning teachers or administrators and support providers. Academic credit toward specific Brandman Master’s degree programs (listed below) may be awarded for successful completion of certain induction programs.

Induction Credit toward Master’s Degree
Brandman University has developed a pathway for teachers who successfully complete a CTC-approved BTSA induction, General Education Induction, or the Clear Education Specialist Induction program to receive a block credit grant towards a Master's degree. Up to 12 credits from BTSA or General Education Induction may be applied to the Master of Arts in Education, Teaching and Learning. This program is for educational professionals seeking to become transformational leaders and innovative teachers. Students will learn ground-breaking ideas and put them into practice immediately to transform their classrooms and the educational landscape in California.

Brandman University awards 6 semester credits towards the Advanced Methodology emphasis area for successful completion of an Education Specialist Clear Induction Program. The Education Specialist Clear Induction program must be completed prior to the student being awarded these 6 units, and will be evaluated for credit hour compliance. These 6 units can only be used towards the Advanced Methodology emphasis area.

Professional Development Opportunities: Individual Courses
Independent study options, learning circles, and dozens of other online, blended and on-ground courses provide opportunities to delve into topics spanning all curriculum subject matter areas, educational technology, instructional methods, classroom management, common core, e-co-literacy, organization and more.

• 15 – 45 clock hours/1 – 3 PDUs
Applying Learning Strategies

EDIU 9007 Digging Deeper: Applying Learning Strategies
This practicum course is designed for educators who participate in professional development in a variety of different formats such as seminars, workshops, trainings, online courses, or webinars by helping to prioritize the information presented, determine how to apply the most relevant information to their work, and plan or create a project demonstrating their ability to apply the strategies they discovered. 15 – 45 clock hours/1 – 3 PDUs 1-3 credits.

EDIU 9018 Applying Conference Learning
Educators often participate in professional development in a variety of different formats. You might take an online course, seminar, or webinar. You might attend a conference, workshop or training. Often participants in these types of professional development opportunities are presented with valuable information they hope to apply to their everyday work. This course will help educators to prioritize the information presented, determine how to apply the most relevant information to their work, and plan or create a project demonstrating their ability to apply the strategies they discovered. 1-3 credits.

Army Foundation/Air Force Training and Certificate Program Infant, Toddler/Preschool
This Infant, Toddler/Preschool training program includes thirteen courses aligned with the thirteen Child Development Associate (CDA) competency standards defined by the Council for Professional Recognition in Washington, DC. Supervised work experience accompanies the module requirements.

Academic Credit Opportunity
Successful completion of this certificate program grants three (3) general academic credits.

BUSINESS PROGRAMS

At Brandman University, business programs offered through the School of Extended Education provide solutions for those who want to transition into new career fields, enhance current careers, and expand expertise. Business offerings include professional certification exam prep courses, professional development programs, and custom solutions. Certifications may provide academic credit toward completion of degree programs. We invest in our students by ensuring that programs are conveniently scheduled with the flexibility of either evening or weekend classes or fully online courses. Our large team of instructors is composed of working professionals with subject matter expertise in their fields, bringing real-world experience into the classroom. A sample of available programs is noted below. For more information on courses and programs for Business and Management professionals, see https://www.brandman.edu/extended-education.

• Human Resources (p. 180)
• BUSU 0036 Social Media Recruiting (p. 181)
• Finance and Accounting (p. 181)
• Supply Chain and Logistics (p. 183)
• Six Sigma (p. 183)
• Business Readiness Certificates (p. 184)
• Project Management (p. 184)
• Certificate in Nonprofit Management (p. 185)
• Certificate in Instructional Design (p. 186)

Human Resources

Certification as a Human Resources professional is becoming an integral step to building a successful career. Brandman University recognizes that you have choices when it comes to your certification and offers several courses with curriculum that is aligned with the body of knowledge recognized by the Human Resource Certification Institute (PHR/SPHR) or Society for Human Resource Management (SHRM-CP / SHRM-SCP). The programming noted below can be used for certification exam preparation. These courses are also good overviews for all entry level and more senior staff in human resources who need professional development or certification focused on the topic areas that comprise the focus of their daily work. A certificate of completion is provided following successful completion of each program.

Additional academic credit opportunities are noted below each program and in the table at the front of the School of Extended Education catalog section.

PHR/SPHR Exam Prep

HRCU 0001 PHR SPHR Exam Prep
Prepare for the exam necessary to distinguish yourself in your HR career and join the ranks of 120,000 certified HR professionals. Course assignments detail the tools and skills learners will implement as they apply a Six Sigma approach to process improvement activities, and show practitioners how they can contribute as important members of improvement teams. Throughout the course, learners will be tested on their understanding and comprehension of course topics through challenging exercises, interactive games, and case study assignments. Each module also includes comprehensive quizzes and tests that learners can use to gauge their progress and prepare for each of the two 50-question practice exams at the course end, as well as summaries and study guides that can be used for review. Video segments from subject matter experts also supplement the course material, to provide real-world examples and enhanced understanding of important concepts and best practices. 3.2 credits.

- 32 Clock Hours / 3.2 CEUs
- 32 PDUs*

* Learners who successfully complete the course can earn 32 PDUs/contact hours recognized by the Project Management Institute.
Business Readiness

Business leaders, including hiring managers, across several industries report that a “skills gap” exists between the abilities they look for in prospective new hires and staff seeking promotions and the abilities they want to see in these same individuals. The gap is not in the technical skills needed. It is in the individual’s interpersonal communication skills, project management skills, ability to work in a team environment, and other “soft skills”. In addition, they report that the individual really set up for success is the person with business acumen. Whether you are just entering the workforce and wanting to maximize your ability to continue to move up through your chosen career path, these business acumen/leadership skills certificate programs will help you address the “skills gap”.

BUSU 8003 A Primer in Entrepreneur-Intrapreneur Skills
Entrepreneurial skills drive the development of small business as well as a valued asset within medium and large business settings. Within the latter, entrepreneurship is often referred to as intrapreneurship. Intrapreneurship is defined as entrepreneurial behavior from within a large, established institution. Intrapreneurs are talented individuals valuable for organizations of all sizes because of their ability to maximize existing resources and take risks which increase social and financial return on investment. The goal of this course is to instill a deep understanding of intrapreneurship and entrepreneurship in all participants. The learning modules are designed to reveal and create critical thinking on concepts and ideas valuable for entrepreneurs, institutions and career minded individuals. Focus is on effective and practical tools to advance and execute determination and implementation of innovative programs within small, medium and large organizations. 16 Clock hours 1.6 CEUs Approved for 16 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM. 1.6 credits.

BUSU 8004 Introduction to Business Administration and Models
In order to work effectively and efficiently in today’s cross functional business team environment, all members of the workforce need to understand the goals of business functional areas including sales, marketing, finance, supply chain, etc. This course provides an overview of these business departments and functional areas as well as an understanding of various business models. 8 Clock hours 0.8 CEUs Approved for 8 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM. 0.8 credits.

BUSU 8005 Powerful Presentations
The ability to effectively present information to groups of people is essential. Whether motivating a team, facilitating a department meeting, conducting a training session or delivering a keynote address. This course provides students with specific strategies and techniques regarding preparation, delivery, organization, use of visuals, room set up and more. The course includes time to practice skills learned. 8 Clock hours 0.8 CEUs 0.8 credits.

Project Management

Project Management

CSCU 461 Project Management-Managing Complex Projects
Skills and Leadership Techniques: Covering the fundamentals of project management and beyond, this course reviews the tactical skills that are needed to successfully deliver projects as well as the leadership skills necessary to lead projects to successful conclusions. Students apply project management and leadership principles to real world scenarios. Particular emphasis is made on successfully managing and leading diverse and virtual project teams. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

* 3 academic credits

Managing Real World Projects

BUSU 0026 Managing Real World Projects
This online, self-paced six-module course and simulation presents a stream-lined approach to project management based on the best practices of effective project managers. Cut through the clutter and focus on the key principles of project management in the real world. Complete the course by participating in a robust business simulation providing you with the opportunity to practice the principles taught. Reach out to a subject matter expert available to answer questions, provide guidance, and offer additional content to address individual problem areas. Offering tools and techniques for achieving project success, this course is intended for everyone leading or managing projects of any kind. 20 credits.

* 20 clock hours / 2.0 CEUs
* 20 PDUs*

* PDUs approved by the Project Management Institute are calculated at one contact hour per one PDU.
Learners who successfully complete the course can earn 20 PDUs/contact hours recognized by the Project Management Institute.

Approved for 20 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

Project Management Team Leadership

BUSU 0027 Project Management Team Leadership
The vast majority of project work in today’s organizations is done in a team setting. This online, self-paced course focuses on the roles and responsibilities of the team leader, best practices in working with project stakeholders, and practices to build and maintain a positive team environment through effective communication, conflict resolution and problem solving. Complete the course by participating in a robust business simulation providing you with the opportunity to practice the principles taught. Reach out to a subject matter expert available to answer questions, provide guidance, and offer additional content to address individual problem areas. 28 credits.

* 28 clock hours / 2.8 CEUs
* 28 PDUs*

* PDUs approved by the Project Management Institute are calculated at one contact hour per one PDU.
Learners who successfully complete the course can earn 28 PDUs/contact hours recognized by the Project Management Institute.
Effective Project Management

**BUSU 9023 Effective Project Management**
This workshop is designed to completely cover the fundamentals of managing projects. It introduces participants to more complex topics in project management while it deepens their understanding of planning and controlling processes. Participants discover concepts, tools and ways to manage projects to achieve positive outcomes. They apply these principles and techniques to sample projects and create links to their own projects. 2.4 credits.

- 24 Clock hours
- 24 PDUs*

* PDUs approved by the Project Management Institute are calculated at one contact hour per one PDU.

Learners who successfully complete the course can earn 24 PDUs/contact hours recognized by the Project Management Institute.

Certificates in Nonprofit Management

**ORGU 0002 Certificate in Nonprofit Management**

Each session focuses on best practices in mission-driven organizations, including governance, leadership, & management; strategic planning & evaluation; human resources; financial management; marketing and branding; resource development; advocacy, and technology. 3.6 credits.

- 36 clock hours
- 3.6 CEUs
- This course is only offered on-ground in the San Diego area.

Brandman University has partnered with MindEdge, Inc., to offer a series of web-based courses with topics such as nonprofit budgeting, fundraising, strategic planning, and board development. These self-paced online courses cover topics of importance to managing nonprofit organizations. Each class has a syllabus, readings, graphics, videos, and test to help you master the information in an interactive format. There is an online help feature to help you move through the material.

**BUSU 8016 Certificate in Nonprofit Management**
This online certificate program introduces learners to key current management issues for nonprofit organizations. Fundraising, board and volunteer development, budgeting, reading financial statements, leadership, marketing, and setting strategic direction are all addressed, and video commentary on these crucial topics will give you insight into how nonprofit professionals apply key concepts in their own organizations. 5.5 credits.

- 55 clock hours
- 5.5 CEUs

Approved for 55 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

Students have the option of enrolling in the entire certificate program, BUSU 8016 Certificate in Nonprofit Management, or taking individual courses listed below.

**BUSU 8008 Social Media for Nonprofits**
This course introduces learners to the use of social media in communicating, marketing, public relations, and fundraising for nonprofits. It explores the major social media platforms (Facebook, LinkedIn, Twitter, YouTube, Pinterest) as vehicles for nonprofits to reach their members, volunteers, and donors. 0.5 credits.

- 5 clock hours, per course
- .5 CEUs, per course

Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

**BUSU 8006 Budgeting in a Nonprofit Organization**
This course covers budgets and how they are used in nonprofit organizational settings. You will gain an understanding of the uses and functions of budgets and the relationship between strategic budgeting and tactical budgeting. You will also learn about the organization wide budget and different budget systems. The course will continue on to slightly more advanced budgeting topics such as capital budgets, cash flow budgets, and opportunity budgets. You will also learn how nonprofit organizations are using different budgeting techniques to handle operating challenges. 0.5 credits.

- 5 clock hours, per course
- .5 CEUs, per course

Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

**BUSU 8007 Principles of Marketing for Nonprofit Organizations**
When we think of marketing, we typically think of the activities that a for-profit company engages in. However, marketing is an important function for nonprofit organizations as well. Marketing is the way that nonprofits determine the needs of their clients and their donors. As in the for-profit world, nonprofit marketing includes advertising, promotion, public relations, and customer relationship management. This course examines how nonprofits use marketing to publicize their mission and to gather contributions of time and money. The course also discusses marketing planning in the nonprofit organization. 0.5 credits.

- 5 clock hours, per course
- .5 CEUs, per course

Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

**BUSU 8009 Fundraising for Nonprofit Organizations**
To help finance operating budgets, nonprofits must raise money every year. In addition, special projects and improvements to facilitate may be needed. In these situations, fundraisers will often launch large capital campaigns or apply for foundation grants. 0.5 credits.

- 5 clock hours, per course
- .5 CEUs, per course

Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

**BUSU 8009 Fundraising for Nonprofit Organizations**
Fundraising is one of the central activities of a nonprofit organization. 0.5 credits.

- 5 clock hours, per course
- .5 CEUs, per course

Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.
BUSU 8010 Capital Campaigns
This course covers the key terminology and practices surrounding running a successful capital campaign within a nonprofit organization. You will learn about the phases of conducting a capital campaign: evaluation, feasibility study, organization, solicitation, and post-campaign activities, as well as how to avoid common pitfalls in capital campaigns. Expert video commentary, a case study, and vocabulary game will ensure you have a solid grasp of the content for execution in your nonprofit organization. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8011 Introduction to Grant Writing
Strategic grant writing helps align the identified needs of a nonprofit (and its clients) with funding sources, whether foundations, government agencies, corporations or individuals. This course offers a guide to the basics of grant writing, an increasingly crucial method for raising money to fund projects and programs for nonprofits and other organizations. The course explores the relationship of grant writing to an organization's strategy for fundraising. It also outlines the six stages of grant writing and highlights grant writing best practices. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8012 Leadership Nonprofit Org
This course addresses the key issues surrounding leadership. What is leadership? Why is it important? What does it require to be a leader? How does leadership in a nonprofit environment differ from the private sector? What is visionary leadership? What role should ethics play? This course considers the foundations of leadership and examines how to be a successful and effective leader. The actual work of leadership requires specific qualities and skills. Some of these skills are unique to the nonprofit sector. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8013 Nonprofit Board and Volunteer Development
Volunteers are the lifeblood of most nonprofit organizations. Board members are a special type of volunteer. They help to guide the direction of a nonprofit, to promote the organization in the community, and to ensure that the nonprofit’s mission is fulfilled. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8014 Introduction to Nonprofit Management
This course covers management best practices for leading a nonprofit organization. You will gain an understanding of the nonprofit sector and the issues that leaders face in this exciting and growing field. You will also be exposed to the major areas of responsibility for nonprofit leaders, including strategy, managing employees, fundraising, grant writing, board governance, and marketing and social media. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8015 How to Read a Nonprofit Financial Statement
This course will develop your ability to appropriately interpret the major financial accounting statements that are used by nonprofit organizations. Ideally, you will gain an understanding of the types of financial statements that are used by nonprofit organizations, and how they differ from for-profit financial reporting. Also, you should gain an appreciation of both the power and limitations of accounting information in assessing financial performance and decision-making. You will also learn the uses of financial statement analysis, or ratio analysis for nonprofit organizations. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

BUSU 8017 Strategy for Nonprofit Organizations
We hear a lot about for-profit companies, such as Apple Computer or Wal-Mart, and the successful strategies they have developed. Even though nonprofit organizations are not concerned with profit maximization, they too can benefit from following a strategy. A nonprofit’s strategy constitutes its decisions about what it will do and how it will do it. Managers are critical to successfully implementing strategy since they are responsible for carrying out the actions that will support it. By understanding a nonprofit’s strategy and how it helps the organization fulfill its mission, a manager can do a better job implementing the strategy. 0.5 credits.
• 5 clock hours, per course
• .5 CEUs, per course
Approved for 5 Professional Development Credits towards SHRM-CP and SHRM-SCP recertification through SHRM.

Certificate in Instructional Design

The fully online Certificate in Instructional Design was developed to meet the increasing challenges for training within academic, corporate, non-profit, and healthcare organizations. This certificate program provides participants with the opportunity to design and produce learning activities and interactive multimedia materials, and to make effective use of instructional technology in training and curriculum development. Participants seeking the certificate take a total of four courses, with an optional fifth course. Courses may also be taken individually.

• Certificate 225 clock hours/15 PDUs
XLSU 9023 Introduction to Instructional Design
Prerequisites: Basic computer skills.

This class covers the essence of what it means to be an instructional designer. It describes the nature of the work, the core learning theories behind the work, industry best practices for doing the work, and begins to teach participants how they can become employed as instructional designers. 3 credits.

• 45 clock hours/ 3 PDUs

XLSU 9024 Instructional Design and Corporate Environments
Prerequisites: XLSU 9023 or permission from instructor.

While there are many venues in which instructional design can be practiced, the vast majority of jobs in this field involve working with or for corporate employers. To be successful, it is necessary to understand the culture of the company, identify key project members (e.g. stakeholders and subject matter experts), gain knowledge of the project’s learning and business objectives, assimilate relevant technologies that will be used, and discover the attributes of the people who will receive the instruction. Using case studies, this class walks participants through simulations of all these processes. 3 credits.

• 45 clock hours/3 PDUs

XLSU 9025 Instructional Design & Technology
Prerequisites: XLSU 9023 and XLSU 9024 or permission from instructor.

Instructional design makes heavy use of multiple software technologies for the design, development, and delivery of content. In this class, participants will be introduced a wide range of applications they will likely need to work in this field. Included are sections on programs for storyboarding the learning, creating interactive content, and working with common learning management systems that typically serve as the online interface between participants and the instruction being delivered. 3 credits.

• 45 clock hours/3 PDUs

XLSU 9026 Instructional Design & Technology: Articulate and Adobe Captivate
Prerequisites: XLSU 9023 and XLSU 9024 or permission from instructor.

In this course, users will learn about the two dominate software products used by instructional design professionals and the organizations that employ them – Articulate and Adobe Captivate. Participants will be guided through the process of learning to use each of these applications by reading selected texts, watching online video tutorials, and working with free trial versions of the software that they download and install on their own systems. At the beginning of this class each participant will either select or create a case study that will dictate the nature of the content they produce. 3 credits.

• 45 clock hours/3 PDUs

XLSU 9027 Developing a Corporate Curriculum from End to End
Prerequisites: XLSU 9023, XLSU 9024, & either XLSU 9025 or XLSU 9026, or permission from instructor.

In this class, participants will be given an opportunity to apply all the instructional design knowledge and skills they have acquired to create a complete learning solution from end to end. The class instructor will serve as the project manager and each participant will be responsible for finding his or her own subject matter expert (SME) to work with. The deliverable at the end of this course can either be a portfolio-quality instructional design sample participants can use to secure work in the field or a completed learning project that will be used in a real-world setting. 3 credits.

• 45 clock hours/3 PDUs
PARALEGAL CERTIFICATE

The Department of Labor’s Bureau of Labor Statistics predicts that the need for paralegals and legal assistants is growing faster than average. An individual who wants to market him/herself as a paralegal must meet specific criteria. Successfully completing the Brandman University paralegal certificate meets the California paralegal requirements. This Brandman certificate can also be used toward completion of the Bachelor of Arts of Legal Studies.

The 24 credit undergraduate certificate focuses on attainment of the knowledge, skills, and abilities required of a paralegal. Paralegals are professionals expected to support private law offices, corporate counsel offices, governmental agencies, contract management departments and other types of departments. This certificate prepares the student with a basic understanding of the legal system, and with the ability to research and prepare legal documents, to investigate legal precedent, and to project manage law office activity and case management. Specialized skills may also be included.

This certificate is a unique fully online course of study.

Students seeking a certificate program only are not eligible for financial aid. Courses taken after completion of a degree program in order to complete the certificate are not eligible for financial aid.

Admission Requirements

Admission to the certificate program is granted to individuals who apply and meet the standards for regular undergraduate admission to Brandman University. Coursework requires a minimum 2.0 cumulative GPA, with no course below a “C” or equivalent.

LEADERSHIP PROGRAMS

The School of Extended Education offers a variety of programs and services to develop leaders at every level of the organization. A recent white paper from the Center for Creative Leadership documented the strong link between leadership skills and the bottom line. Organizations that invest in leadership development outperform those that do not make this investment. Developing leaders at all levels:

- Improves bottom line financial performance
- Attracts and retains talent
- Drives a performance culture
- Increases organization agility and resilience

At the individual level, our programs help existing and emerging leaders build skills, realize potential and maximize performance so they can:

- Expand employee engagement
- Improve individual and team effectiveness
- Reduce turnover and maximize retention
- Increase department and division productivity
- Enhance the quality of goods and services
- Boost sales and enlarge market share
- Upgrade customer/client care
- Enrich the organizational culture
- Foster change, growth and advancement

Leadership Development certificate programs, seminars, and workshops provide experiential learning, incorporate current best practices and focus on practical workplace applications that produce immediate results. Some certificate programs carry academic credit and may be applied to Brandman degree programs. Examples of programs available follow. More programming is detailed at https://www.brandman.edu/exed

- OLCU 340 (p. 189)
- Law Enforcement Agency Leadership Certificate Program (p. 189)
- Leadership Development Skills (p. 190)

OLCU 340 - Leadership Development Certificate

This course is designed to develop both strategic and tactical core leadership competencies in high potentials; newly hired or promoted team leads, supervisors and managers; or experienced organization leaders desiring to be more effective in their role. In this 13-week program, participants learn leadership best practices. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

- 3 academic credits

Law Enforcement Agency Leadership Certificate Program

This leadership development program is an integrated three course program specifically designed for sworn and civilian employees working in county, municipal, and state law enforcement organizations. The program develops high performance leaders at all levels who will be able to successfully face current and future challenges, and assist in building dynamic organizations that ethically serve their communities. Each tier of the program consists of a separate 45 hour course, and each subsequent tier builds on the knowledge and skills of the previous course.

Personal Leadership

XLSU 8000 Law Enforcement Agency Leadership: Personal Leadership

This course is designed to provide students a better understanding of the personal traits, skills and strengths associated with successful leadership. With emphasis on the applicability of concepts to a law enforcement work environment, students will develop key leadership competencies that are rooted in the individual and explore their impact on the organization. In this 12-week, 45-hour program, participants learn best practices in personal leadership including how to: • Assess personal preferences and identify strengths • Evaluate and interpret emotional intelligence quotient • Recognize and reduce on-the-job stressors • Build trustful relationships • Turn set-backs into learning opportunities • Create a personal philosophy for ethical leadership • Apply Servant Leadership principles • Set S.M.A.R.T goals • Make strategic decisions 4.5 credits.

- 45 clock hours/4.5 CEUs

Academic Credit Opportunities

This course may be taken for academic credit in the undergraduate Organizational Leadership or Criminal Justice programs as OLCU 320 Selected Topics in Organizational Leadership Selected Topics in Organizational Leadership. Please see the course description under Organizational Leadership for more information.

Group/Team Leadership

XLSU 8002 Law Enforcement Agency Leadership: Group/Team Leadership

This course is designed to provide students a better understanding of the personal traits, skills and strengths associated with successfully leading teams and managing groups. With emphasis on the applicability of concepts to a law enforcement work environment, students will develop key leadership competencies that are rooted in interpersonal communication and group interaction and explore their impact on the organization. 4.5 credits.

- 45 clock hours/4.5 CEUs

Academic Credit Opportunities

This course may be taken for academic credit in the undergraduate Organizational Leadership or Criminal Justice programs as OLCU 320 Selected Topics in Organizational Leadership Selected Topics in Organizational Leadership. Please see the course description under Organizational Leadership for more information.
Organizational Leadership

**XLSU 8003 Law Enforcement Agency Leadership: Organizational Leadership**

This course is designed to provide students a better understanding of the personal traits, skills and strengths associated with effective organizational leadership. With emphasis on the applicability of concepts to a law enforcement work environment, students will develop key competencies that are rooted in strategic leadership, organization savvy, and resource management. In this 45-hour program, participants learn best practices in organizational leadership including how to: • Utilize mission, vision, and values to focus on key priorities • Ensure ethical management and organization social responsibility • Lead strategically and break down department and division silos • Direct major change initiatives • Design and implement an effective leadership succession process • Master positive political skills • Build internal & external alignments, coalitions and networks • Develop a strong working relationship with the boss by successfully “Influencing UP” • Effectively manage resources and identify contribution to the bottom line • Drive innovation via creative, collaborative problem solving. 4.5 credits.

- 45 clock hours/4.5 CEUs

**Academic Credit Opportunities**

This course may be taken for academic credit in the undergraduate Organizational Leadership or Criminal Justice programs as OLCU 320 Selected Topics in Organizational Leadership. Please see the course description under Organizational Leadership for more information.

Leadership Development Skills

**XLSU 8008 Interpersonal Communication**

This course focuses on how to handle disagreements and high-stakes communication in the workplace or in the home. It is based on the premise that when you are stuck in any situation, whether it’s at home or work, there is a crucial conversation keeping you from accomplishing the desired results. If you can learn to speak up in these crucial moments effectively, then you can accomplish the results you are after. People who are considered influential by their peers and managers in their work and relationships, have the ability to deal with crucial conversations. They possess a skill-set that is easy to learn and allows them to face any situation with nearly anybody, no matter power, position, or authority. This course develops those skills. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs

**XLSU 8010 Lean Team Problem Solving**

This course introduces the student to the concept of problem solving in a team environment in order to improve efficiency. Concepts covered include being able to recognize the formal steps of team problem solving, understanding key behaviors and skills of expert problem solvers, being able to appropriately challenge assumptions, being able to create a measurable and unbiased problem statement and recognizing the DMAIC process in solving problems. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs

**XLSU 8011 Team Development**

This interactive course exposes you to successful team development processes that can facilitate the development of a new team or the revitalization of an existing team. Whether your team is an ongoing work group, or a special project based team of limited duration, you will rapidly increase its effectiveness with the use of these teamwork tools and skills. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs

**XLSU 8012 Systems Thinking**

This course will provide participants with a system thinking process that will help facilitate positive change within the organization. The process is ideal for getting results from new initiatives or projects. Participants will apply the system thinking process to their specific initiative or project. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs

**XLSU 8013 Self-Management**

This course is focused on the development of superior systems and principles of self-management to help people become even more effective self-managers of their careers, family, health, personal and professional relationships. This course will help participants to recognize the self-managing strategies behind their best achievements and offers practical methods that will help them use these strategies more consistently. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs

**XLSU 8009 Customer Service**

Customer Service always starts at the top. When leaders approach their employees as customers, the employees will demonstrate the same attitudes and service skills to the end users. This course will give leaders the processes, tools and approaches that will help them create positive workplaces and encourage employee engagement. 0.4 credits.

- 4 Clock hours
- 0.4 CEUs
HEALTH, WELLNESS AND SCIENCE PROGRAMS

Recognizing the need for a well-trained, healthcare-focused workforce, The School of Extended Education provides courses and certificate programs for those currently in health and wellness and other science-focused career paths, those interested in entering these fields, and those simply interested in increasing their own knowledge base. Programming is available for academic credit as well as CEUs for professional development. Much of the programming is also approved for continuing education or recertification credits with Board of Behavioral Sciences, Board of Registered Nurses, and other certifying agencies.

  - XHWU 0025 (p. 191)
  - FSNU 335 (p. 192)
  - SPNU 100 (p. 192)

Efforts to reduce healthcare costs by teaching people about healthy habits and behaviors have created rapid growth and need for health coaches. Health coaching is a collective and highly individualized service that concentrates on enhancing wellness and health. It develops a person’s ability to attain short-term and extended health objectives. This is an emerging field with growing demand. Health coaches work in medical centers, HR departments, insurance companies, and in private practice. These scientifically based courses covers health coaching from expecting mothers to seniors. Participants seeking the certificate must complete all three courses. Courses may also be taken individually. Each course is 15-30 clock hours/1.5-3.0 CEUs. Certificate 60-90 clock hours/6-9 CEUs.

XHWU 8000 L.E.A.N. Start and Essentials - Families
Dr. Sears’ L.E.A.N. Expectations Health Coach Training & Certification course consists of direct instruction (66%) and self-study and/or on-line study (33%) for a total of 15 or 30 hours. Upon completion of this course, participants will be able to effectively equip pregnant and nursing moms for a healthier pregnancy and baby, a smoother delivery and recovery and implement optimal pre/post-natal nutrition practices. Participants will successfully demonstrate how lifestyle, exercise, attitude and nutrition choices can positively or negatively affect women before, during and after pregnancy. 1-2 credits.

- 15-30 clock hours
- 1-2 PDUs

Provider approved by the California Board of Registered Nursing, Provider Number 15531 for 30 contact hours.

XHWU 8001 L.E.A.N. Expectations - Adults and Seniors
Dr. Sears’ LEAN Training & Certification course consists of 20 hours of direct Instruction with 10 hours of self-study and/or on-line study for a total of 30 hours. Upon completion of this course, participants will be able to demonstrate how lifestyle, exercise, attitude, and nutrition choices can positively or negatively affect children’s learning, behavior, attention, attitude and performance both in school and at home. Additionally, participants will demonstrate how choices made by both children and parents play a crucial role in a child’s education experience. 1.2 credits.

- 15-30 clock hours
- 1-2 PDUs

Provider approved by the California Board of Registered Nursing, Provider Number 15531 for 30 contact hours.

XHWU 8002 Prime Time Health - Pregnancy
Dr. Sears’ Prime-Time Health Coach Training & Certification course consists of direct instruction (66%) and self-study and/or on-line study (33%) for a total of 15 or 30 hours. Upon completion of this course, participants will be able to empower adults and seniors to prevent age-related diseases, sharpen thinking, boost energy, and take charge of their health. Topics in this course include basic and extended nutrition, opening our internal pharmacy, making healthy our hobby, moving waste from our waist, and living without pain and inflammation. Additionally, body systems including cardiology, the digestive system, blood sugar and insulin, the brain, inflammation and inflammatory response are included to provide a deeper understanding of these complex body systems. 1.2 credits.

- 15-30 clock hours
- 1-2 PDUs

Provider approved by the California Board of Registered Nursing, Provider Number 15531 for 30 contact hours.

Students can expand their knowledge in this area; see the undergraduate Nutrition and Wellness certificate.

XHWU 0025 Legal Nurse Consultant Training

XHWU 0025 Legal Nurse Consultant Train
According to the Bureau of Labor Statistics, legal nurse consultants are within an occupational field expected to grow by 16% by 2016. The Legal Nurse Consultant program prepares Registered Nurses (RNs) and Physician’s Assistants (PAs) for a career in the legal field as legal nurse consultants. Building on your medical education and clinical experience, this course provides the fundamental skills necessary to advise law firms, health care providers, insurance companies, and governmental agencies regarding medically related issues and to appear in court as expert witnesses. Students learn legal concepts related to the health care industry, as well as the role a legal nurse consultant plays in litigation areas such as medical malpractice, toxic torts, product liability, personal injury, wrongful death, criminal law, and workers’ compensation. Any RN or PA interested in entering the legal field can benefit from the education provided. The course is also open to those interested in the field of forensic testimony and medical-legal issues. 4 credits.

- 40 clock hours/4 CEUs

Provider approved by the California Board of Registered Nursing, Provider Number 15531, for 42 contact clock hours.

This continuing nursing education activity is approved by the Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

For those RNs or PAs who would like to advance their career, the American Association of Legal Nurse Consultants and International & American Association of the Legal Nurse Industry (IAALNI) offer the credential Legal Nurse Consultant Certification.
To be eligible to take the examination, candidates must have the following:

- current licensure as a registered nurse in the United States or its territories, with a full and unrestricted license
- a minimum of five years of experience practicing as a registered nurse
- evidence of 2000 clock hours of legal nurse consulting experience within the past five years

Legal Nurse Consultants who would like to expand their clinical case practice to include forensic analysis should consider Forensic Science Investigation Certificate. If you are interested in specializing in forensics exclusively, these courses provide a solid foundation of forensic education.

**FSNU 335 - Science of Obesity**

**FSNU 335 Science of Obesity**
This course will cover the role of diet and exercise in weight loss and body weight maintenance. Discussion of metabolic and physiological changes occurring during weight gain and loss will be covered. The course will look into the current trends in obesity and the relationship between body weight, obesity and disease risk. Research comparing popular diets used for weight loss and disease treatment will be covered along with recommendations for optimal weight loss and weight maintenance programs. 3 credits.

- 3 academic credits/45 clock hours

Provider approved by the California Board of Registered Nursing, Provider Number 15531, for 45 contact clock hours.

**SPNU 100 - Survival Spanish: Culture and Language for Healthcare Professionals**

**SPNU 100 Survival Spanish: Culture and Language for Healthcare Professionals**
This course is designed to provide basic Spanish communication skills and an understanding of Latino culture for Health Professionals. Students will explore the history and culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking clients in the health care environment about health-related issues. No previous Spanish language experience is required. Online only. 3 credits.

- 3 academic credits/45 clock hours

Provider approved by the California Board of Registered Nursing, Provider Number 15531, for 45 contact clock hours.
TECHNOLOGY

Recognizing that successful information technology employees and entrepreneurs must also have the requisite business process understanding and soft skills in order to effectively work with and within various organizational structures, the School of Extended Education offers programming that business owners and other key business decision makers prescribed as required for specific IT focused career paths. All programming can be taken as certifications or certificates described below. In addition, the individual courses can be taken alone.

- Office & Windows Programming (p. 193)
- Applications (p. 193)
- Tech Training (p. 193)
- Certification Solutions (p. 194)
- Telecommunications (p. 197)

Office & Windows Programming

Each Microsoft Office application gives you powerful tools to express your ideas, solve problems, and connect with people. Microsoft Office has evolved from a suite of personal productivity products to a more comprehensive and integrated system. Courses may be taken individually and various levels of each course for 2013, 2010, 2007, and 2003 versions are available.

CompTIA Certifications
- CSCU 206 CompTIA IT Fundamentals
  Gain an understanding of the core components that make up the information technology (IT) landscape while preparing for the CompTIA IT Fundamentals exam. Certification exam is included in course. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.
- CSCU 208 A+ Certification
  CompTIA’s A+ certification provides demonstration of mastery of the foundational skills needed by today’s computer support technicians and others and is included in the approved list of certifications to meet DoD Directive 8570.1 requirements. The course covers essential principles of installing, building, upgrading, repairing, configuring, troubleshooting, optimizing, and preventative maintenance on desktop and laptop computers. CompTIA A+ exams are included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.
- CSCU 335 Network+
  Learn how to manage, maintain, troubleshoot, install, operate and configure basic network infrastructures. CompTIA Network+ exam is included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.
- CSCU 337 CompTIA Security+
  Learn security threats and controls, network security, operational security, application security and more. The CompTIA Security+ certification meets DoD Directive 8570.1 requirements. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.
- CSCU 207 ITIL Foundation ITIL Training and Certification
  Learn the core disciplines of ITIL best practices including service strategy, service design, service transition, service operation and continual service improvement. This service lifecycle framework enhances alignment to the business while demonstrating business value and ROI, enabling IT to solve specific operational needs. Certification exam included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.
- CSCU 9006 CompTIA A+ Certification: 40-140 clock hours/4.0-14.0 CEUs
- CSCU 9000 CompTIA A+ Comp Approach: 40 clock hours/4.0 CEUs
- NHCU 0051 CompTIA Linux+ Certification: 32 clock hours/3.2 CEUs
- NHCU 0043 CompTIA Cloud Essentials: 21 clock hours/2.1 CEUs
- NHCU 9005 CompTIA Network+ Cert 2009: 40 clock hours/4.0 CEUs
- NHCU 9004 CompTIA Security+: 40 clock hours/4.0 CEUs
- CSCU 9001 CompTIA Sec+ (Exam SY0-401): 40 clock hours/4.0 CEUs
- NHCU 9003 CompTIA Proj+Cert 2009 Object: 40 clock hours/4.0 CEUs
- NHCU 9001 CompTIA Strata Fund- IT Sales: 15 clock hours/1.5 CEUs
- NHCU 9002 CompTia CASP Certification: 40 clock hours/4.0 CEUs
- CSCU 9002 Adv Sec CASP (CompTIACASP): 40 clock hours/4.0 CEUs

ITIL Certifications
- CSCU 207 ITIL Foundation ITIL Training and Certification
  Learn the core disciplines of ITIL best practices including service strategy, service design, service transition, service operation and continual service improvement. This service lifecycle framework enhances alignment to the business while demonstrating business value and ROI, enabling IT to solve specific operational needs. Certification exam included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

ALTERNATIVE PATHWAYS TO 
UNDERGRADUATE ADMISSION

BrandmanTrack-A 12 credit opportunity

BrandmanTrack provides prospective Brandman undergraduate degree seeking students with an opportunity to obtain 12 credits to meet an admission requirement for Brandman or other institutions. In order to be admitted to a degree program, student must meet all applicable degree program admission requirements. This program is provided in multiple modalities in order to provide alignment with the student’s intended degree program choices.

Following is the description and requirements for Brandman’s Traditional Online or Blended Format. Our traditional course-based program is perfect for students who:

- Operate better in an environment where deadlines are given to you and the weekly workload is more predictable
- Prefer to learn in a classroom environment with weekly assignments and set due dates
- Enjoy direct weekly interactions with classmates
- Want the pacing of Brandman defined start and end dates for each 8 week course
- Have an interest in one or more of the traditional online or blended Brandman undergraduate degree program disciplines

Following is the description and requirements for Brandman’s MyPath Competency Based Education Format. Our MyPath format is the right program for students who:

- Are a self motivated learner that wants to dictate your own learning pace
- Have prior work experience that could apply to certain subject matter areas, for example a marketing manager without formal coursework may move through some of the marketing competencies at a faster rate than a student who does not have the same work experience
- Prefer to work in a self-directed environment without set due dates for each assignment and the ability to complete a competency in less than the time it takes to complete a traditional 8 week course
- Have an interest in Brandman’s MyPath Bachelor of Business Administration (BBA) or Bachelor of Science in Information Technology (BSIT)

MGTC 301  Fundamentals of Management

Students in this program are not eligible for financial aid. Registration into the program is granted to individuals who have a high school diploma or equivalent.
CORPORATE TRAINING AND CUSTOM SOLUTIONS

Train your workforce with custom solutions.

For over 50 years, Brandman University has been collaborating with organizations to provide a seamless educational partnership that helps individuals earn degrees, credentials, and advanced skills. We are committed to creating a partnership that will strengthen and empower your workforce. By leveraging the expertise and resources of the entire university, our custom programming can build courses and curriculum that will fit the specific needs of your organization. We also provide business services such as Coaching, Team Development, Executive Retreats, Strategic Planning, Organizational Assessment and Facilitation for our partner organizations.

When you work with Brandman, you become our partner, not just our client.

Benefits of a Partnership with Brandman:

- Collaboration - Brandman is the one institution that can help meet your professional development, career advancement, and training goals. From individualized executive coaching to ongoing professional development for your entire workforce, you can count on us to provide responsive, relevant, and results-oriented solutions to help your organization reach its peak performance.

- Flexibility and Convenience - Online, on campus, or at your location, we collaborate with you to create a fully customized educational program from initial needs assessment to final evaluation.

- Retention - Providing highly relevant professional development is a strong incentive for employees to stay and grow with an organization.

Services:

Corporate Training:

- Targeted skill development to support organizational success
- Alignment with your mission, vision, and strategic objectives
- Program Design and Curriculum Development
- Co-branded course materials and certificates of completion
- CEUs, academic credit or professional development credit

Business Services:

- Coaching
- Team Development and Training
- Executive and Management Retreats
- Strategic Planning
- Individual and Organizational Assessment
- Facilitation

Multiple Delivery Modalities:

- 60 minute “Lunch and Learns”
- 2-3 hour seminars
- Half and full-day workshops
- Certificate Programs
- Webinars (60-90 minute)
- Online (asynchronous or synchronous)
- Blended (combination of online and classroom learning)

State Funding for Businesses

- Employment Training Panel (ETP)
- Incumbent Worker Training

Our Approach to Corporate Training

The School of Extended Education consults and works in close partnership with client organizations so that custom programming is based on the development of specific leadership competencies that supports the organizations is business strategy, align with its goals & objectives, incorporates its best practices and fits its unique culture. A five-step approach is recommended to maximize program impact:

1. Initial Needs Assessment - Client organizations may develop the program around a particular level of leaders (supervisory, management or executive), a functional group (customer service, operations, marketing, etc.) or specific individuals based on other selected criteria. Once the participants have been identified, the next step is to determine learning needs and desired program outcomes. The organization may be able to accomplish this internally by utilizing the results of employee surveys and existing core competencies that are essential to their culture. With additional outside consulting from Brandman, a needs assessment process can include assessment instruments, individual interviews, focus groups and employee surveys. Based on the data from the needs assessment, recommendations are made concerning the individual training modules, business services and overall program structure.

2. Identify The Solution and Goal - Once the employee needs have been identified and desired outcomes determined, specific program modules that compose the training portion of the program are selected. All modules are based on “best practices” and designed to improve employee performance and increase organization effectiveness and productivity. All program modules are delivered by qualified ExEd instructors selected for their subject matter expertise and “real world” experience. All instructors use a strategic, data-driven approach to align learning with the client organization’s unique needs, culture and desired results.

3. Implementation - Programs can include individual development plans or a Team Development Plan to achieve optimal results. At the conclusion of the program, each team or individual presents the recommended solutions. The process begins with the selection of internal executive sponsors that identify current organizational challenges. These executive sponsors create high-level proposals of their organizational challenge and present these challenges at the beginning of the program. Participants are organized into
cross-functional teams and each team selects one organizational challenge to work on throughout the program in partnership with the executive sponsor. Based on our experience, each executive sponsor submitting a proposed organizational challenge needs to remain available for on-going consultation with their sponsored team in order to achieve optimal results.

4. Reinforcement - Research shows that training alone increases productivity on average from 10-22%. Productivity increases to 80-90% with coaching reinforcement. We recommend that participants receive at least one individual half-hour coaching session (via phone) to improve learning retention and reinforce desired program outcomes. Current data validates that coaching has a significant impact on employee retention and engagement, team effectiveness and organizational productivity.

5. Evaluation and Follow Up - We primarily use Kirkpatrick’s Four Levels of Evaluation (Reaction, Learning, Transfer and Results) as the basis for program evaluation. At Level 1/Reaction, mid-point and post-training evaluations are utilized and provided at no additional cost. For Level 2/Learning, pre-training and post-training assessments may be incorporated in the program. Comparison of the results will ascertain how much actual learning has occurred in the program in addition to identifying positive, neutral or negative reactions to the program via level 1 instruments. Various initiatives can be utilized for Level 3/Transfer (determining how much of the learning actually transferred to the day to day work life of the participant) and Level 4/Results (determining bottom line business results that occurred as a consequence of the program) evaluations.

These initiatives may include tracking employee turnover, conducting an employee engagement survey and analyzing the results, conducting focus groups and interviews, and incorporating projects into the certificate program that produce quantifiable business outcomes such as the above referenced Team Development Plan. A significant partnership is required between Brandman and the client organization to evaluate at Level 3 and Level 4 and requires dedicated stakeholders and resources internal to the organization.
COURSE DESCRIPTIONS

A
- Accounting (ACCU) (p. 202)
- Art (ARTU) (p. 204)

B
- Biology (BIOU) (p. 205)
- Business Administration (BUSU) (p. 206)

C
- Chemistry (CHMU) (p. 207)
- Communications (COMU) (p. 208)
- Computer Science (CSCU) (p. 209)
- Counseling & School Psychology (CSPU) (p. 211)
- Criminal Justice (CJCU) (p. 214)
- Curriculum & Instruction (EDCI) (p. 217)

D
- Doctor of Nursing Practice (DNPU) (p. 218)
- Doctorate in Education Organizational Leadership (EDOL) (p. 220)

E
- Early Childhood Education (ECED) (p. 222)
- Economics (ECNU) (p. 225)
- Education (EDUU) (p. 226)
- Educational Administration (EDAU) (p. 235)
- Educational Leadership & Admin (EDAD) (p. 236)
- English (ENGU) (p. 239)
- English Language Learning (EDEU) (p. 241)
- Entrepreneurship (ENTU) (p. 242)
- Environmental Sciences (ESCU) (p. 243)

F
- Finance (FINU) (p. 244)
- Food Science & Nutrition (FSNU) (p. 245)

G

H
- Health Administration (HAUU) (p. 246)
- History (HISU) (p. 247)
- Human Resources (HRCU) (p. 249)
- Humanities (HUMU) (p. 251)

L
- Legal Studies (LEST) (p. 252)
- Liberal Studies (LBSU) (p. 254)

M
- Management (MGTU) (p. 256)
- Marketing (MKTU) (p. 257)
- Mathematics (MATU) (p. 258)
- Multiple Subject (EDMU) (p. 259)

N
- Natural Science (NSCU) (p. 262)
- Nursing (NURU) (p. 263)

O
- Organizational Leadership (OLCU) (p. 269)

P
- Philosophy (PHLU) (p. 272)
- Political Science (POSU) (p. 273)
- Psychology (PSYU) (p. 274)
- Public Administration (PADU) (p. 279)

R
- Religious Studies (RELU) (p. 280)

S
- Single Subject (EDSU) (p. 281)
- Social Science (SSCU) (p. 286)
- Social Work (SOWK) (p. 287)
- Sociology (SOCU) (p. 290)
- Spanish (SPNU) (p. 291)
- Special Education Student Teaching (EDTU) (p. 292)
- Music (MUSU) (p. 261)
ACCOUNTING (ACCU)

ACCU 201 Principles of Accounting I
This course is designed to introduce the student to accounting principles, practices, and techniques. Emphasis is placed on accounting for a sole proprietorship. The accounting cycle, financial statements, control of cash, inventories, plants assets, current liabilities and payroll accounting are covered. 3 credits.

ACCU 202 Principles of Accounting II
Prerequisite: ACCU 201.

This course is a continuation of Principles of Accounting I with an emphasis on corporations, financial analysis and managerial accounting. Content includes corporate organization and operations, earnings per share and dividends, long-term obligations and investments, statement of cash flows, analysis of financial statements, accounting for departments and branches, cost accounting systems, cost-volume-profit analysis; budgeting and standard cost, and decision making. 3 credits.

ACCU 301 Intermediate Accounting I
Prerequisites: ACCU 201 and ACCU 302 and ACCU 360.

A study of GAAP as it applied to current assets, revenue and expense recognition, current and long-term liabilities; and the organization, analysis, and reporting of financial information. Key accounting principles, concepts, and alternative accounting methods will be examined. Ethical impact on the preparation of financial statements will also be explored. Online only. 3 credits.

ACCU 302 Intermediate Accounting II
Prerequisites: ACCU 201, ACCU 202 and ACCU 301.

A study of GAAP as it applied to long-term liabilities and owner’s equity; selected topics including the statement of cash flows and accounting changes; and the organization, analysis, and presentation of financial information. Course includes a comprehensive computerized financial statement project. Online only. 3 credits.

ACCU 325 Cost Analysis and Budgeting
Prerequisites: ACCU 201 and ACCU 202.

This course will examine basic cost accounting and budgeting principles, costing and decision-making models, application of variances analysis for planning and control and activity-based costing. Construction of a basic budget and construction of a model for decision-making will be demonstrated. Online only. 3 credits.

ACCU 360 Financial Statement Analysis
Prerequisites: ACCU 201 and ACCU 202.

Develop basic skills in financial statement analysis and appreciate the factors that influence the outcome of the financial reporting process. The use of computer applications for statement preparations and financial forecasting will be examined, as well as the ethical issues surrounding business reporting and exploitative practices. 3 credits.

ACCU 401 Advanced Accounting
Prerequisites: ACCU 301 and ACCU 302.

A study of the preparation of consolidated financial statements; international accounting; foreign currency translations and transactions; and SEC regulations of financial reporting are examined. Special emphasis is given to identifying the main characteristics of government and nonprofit financial information. Online only. 3 credits.

ACCU 402 Taxation
Prerequisites: ACCU 201, ACCU 202 and ACCU 360.

This course will examine federal income tax consequences of individuals and property transactions. Included is the history and development of the federal income tax system, the tax implications on influencing personal and business behavior, and the dispute resolution process. Online only. 3 credits.

ACCU 460 Auditing
Prerequisites: ACCU 301 or 302, and ACCU 439.

This course will examine general systems theory, evolution of management theory, and internalization of ethical standards. Interpersonal behavior in business organizations will include the influence of motivation, leadership, value attitudes and organizational development as they impact performance. Online only. 3 credits.

ACCU 462 Financial Reporting & Analysis
Prerequisites: ACCU 301 or 302, and ACCU 360.

This course is designed to teach students how to stay current in accounting after graduation. This process is known as applied research. The process of applied research starts with identifying a business problem and searching the accounting literature in order to provide a client or firm with a current, relevant, and accurate solution. This process requires judgment, resourcefulness and critical thinking. Online only. 3 credits.

ACCU 465 International Accounting
Prerequisite: ACCU 402.

Discussion of how basic U.S. accounting rules and financial statement analysis differ from accounting practices in other countries; problems associated with using financial statement analysis for investing decisions; diversity of financial accounting reporting and disclosure practices worldwide; multinational consolidations; foreign currency translation; accounting information systems in the international arena; multinational performance evaluation; transfer pricing; international taxation; and emerging issues in international accounting. Online only. 3 credits.

ACCU 4602 Accounting Information Systems
Prerequisites: ACCU 301 and ACCU 302.

A study of the important roles of accounting information; major components of accounting information systems; internal control; and flowcharting techniques. Discusses the evaluation of internal control and its integration into a computer-based accounting system. Online only. 3 credits.
ACCU 640 Strategic Cost Management

Prerequisite: ACCU 602.

This course emphasizes the integration of cost analysis and strategic analysis. Coverage includes activity based costing, target costing, value chain analysis, performance measurement matrices (e.g. balanced scorecard), strategic positioning, and product life cycle costing and management. 3 credits.
ARTU 261 Renaissance to Modern Art
Surveys the monuments, movements, and artists of Western art from the Renaissance to the 20th century. Introduces the student to the ideas and issues which have characterized much of Western art for the past seven centuries and examines them in relation to the religious, social, political, and intellectual milieu that produced them. References and comparisons with the parallel cultures of Asia, Oceania, Africa, and the ancient Americas will be made whenever appropriate. 3 credits.

ARTU 329 Experimental Topics in Art
An examination of selected topics in art relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

ARTU 363 Modern Art
This course is a survey introducing key aspects of Modern Art in Europe and the United States ca. 1870-1980. It explores the meaning and functions of the visual arts as exemplified in prominent avant-garde styles such as Impressionism, Fauvism, Expressionism, Cubism, Futurism, the School of Paris, Dada and Surrealism along with developments in photography and architecture. Emphasis is placed on the importance of the political and cultural context that affect modern artists and the works they create. Online only. 3 credits.

ARTU 450 Creativity and the Visual Arts
This course examines the visual arts as an essential means of communication and creative expression. Students create art demonstrating the elements and principles of the visual arts using a variety of artistic media. Students experience the process of creative practice: imagination, investigation, construction, and reflection. The focus is on developing artistic literacy and competence in creating, producing, and responding to visual arts. Brain-based learning theories and developmental stages in the cognitive, affective, and psychomotor domains are analyzed and applied to arts education. Students explore visual arts in culture and history, make connections between the visual arts and other academic disciplines, and design engaging art activities for children. 3 credits.

ARTU 464 Women in Art
An exploration of portrayals of women by both female and male artists. The primary focus is women as makers, subjects and muses of painting, sculpture and photography. Online only. 3 credits.

ARTU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.
Directed reading and/or research designed to meet the specific needs of superior upper-division students. 1-3 credits.
**BIOLOGY (BIOU)**

**BIOU 101 Introduction to Biology**
This course introduces the principles and concepts of biology with an emphasis on the impact of the human footprint on our planet. Students will examine basic cell structure and function, metabolism, cell growth, and genetics. Students will also explore concepts of evolution and the interaction between living organisms and their environment. Online Only. 3 credits.

**BIOU 332 Microbiology**
**Prerequisites:** BIOU 101 and CHMU 101.
This course covers basic concepts of microbiology with an emphasis on medically important microorganisms and infectious diseases. Topics include different kinds of cells, microscopy, microbial metabolism and growth, antimicrobial techniques, epidemiology, and immune system responses to pathogens. Students will participate in a lab component which emphasizes aseptic technique, isolation, and culture as well as identification of microorganisms, microscopy, and staining techniques. Online Only. 4 credits.

**BIOU 340 Anatomy and Physiology A**
This course provides students with fundamental knowledge of principles and concepts of human structure and function. The curriculum is guided by an organ system approach to the study of the human body which emphasizes the integumentary, skeletal, muscular, nervous, sensory and endocrine systems. Students will participate in laboratories to develop skills analyzing scientific data and relating biological structures to their respective functions. Online Only. 4 credits.

**BIOU 341 Anatomy and Physiology B**
**Prerequisite:** BIOU 340.
This course provides students with an advanced understanding of anatomy and physiology after completion of BIOU 340. Topics include cardiovascular, lymphatic/immune, respiratory, digestive, excretory, and reproductive systems. An overview of human development and genetics will comprise the final component of this course. Students will participate in laboratory work to deepen their practical knowledge. Online Only. 4 credits.
BUSINESS ADMINISTRATION (BUSU)

BUSU 598 Graduate Experiential Learning
Prerequisite: Dean Approval.

Students engage in a supervised experience with an activity of personal and public concern; the fieldwork component may comprise service-learning, internship, or other types of experiential learning. Students are required to complete the fieldwork component as well as threaded discussions, assigned readings, and written evaluations and reflections of the readings. Also, as a part of the reflection process, students will evaluate and analyze their fieldwork experience. Each learning experience project will require a minimum of 7 hours a week on site in addition to course requirements. May be repeated for a total of 6 credits upon Dean approval. Online only. 3 credits.

BUSU 610 Data Analysis for Decision Making
The application of statistical analysis, hypothesis testing, regression analysis and forecasting in business decision making. By reducing the emphasis on computations, this course integrates Microsoft Excel as a tool for analysis and presents statistical analysis in the context of the functional areas of business. 3 credits.

BUSU 620 Economic Analysis for Managers
Economic theory is used to analyze supply and demand, firm behavior, market structure, competitive behavior, government regulation, and the global and domestic environment facing the firm. Topics include marginal analysis and elasticity, money supply, and international trade. 3 credits.

BUSU 630 Business Process Analysis and Innovation
This course examines the key processes businesses use to purchase, make, and deliver products and services successfully, and how these processes are integrated within a supply chain framework. Topics include Six Sigma methodology, Customer Relationship Management (CRM), and Process Performance Management. 3 credits.

BUSU 640 Business Strategy and Competitive Advantage Capstone
Prerequisite: Successful completion of all MBA Core courses (one MBA core course may be taken concurrently).

This capstone course focuses on the development and implementation of business strategies that enable competitive advantage. A capstone report includes the following for the selected company: (1) mission and objectives; (2) analysis and forecast of social, technological, economic and political forces with attention to global aspects; (3) industry and competitive analysis on a global and domestic basis; and (4) financial and stock analysis; and (5) identification and evaluation of alternative strategies. 3 credits.

BUSU 650 Corporate Responsibility: Ethics and Sustainability
The fundamental purpose of this course is to prepare students for careers in which success requires a worldview that extends beyond the enterprise level in order for managers to create sustainable cultural, social and financial value for the organization and society in a responsible manner. 3 credits.
CHEMISTRY (CHMU)

CHMU 101 Introduction to Chemistry
An introductory chemistry course for non-science majors. Introduces the fundamental concepts of general chemistry (scientific notation, atomic structure, elements and compounds, phases and properties of matter, chemical reactions and equilibrium) as well as standard laboratory procedures. No previous chemistry background required. Online only. 4 credits.
COMMUNICATIONS (COMU)

COMU 101 Public Speaking I
The primary goal of COMU 101 is to provide students with the opportunity to improve their public speaking skills in the areas of preparation and delivery. The method of speaking emphasized is extemporaneous. Though public speaking is the primary focus of the course, other issues of communication, such as written, interpersonal and group, are also discussed. In addition, students will learn to be more critical consumers of communication. 3 credits.

COMU 300 Communications and Media: Challenges and Opportunities
This course serves as the gateway for the communications and media program. Students examine mediated communication and begin to analyze the relationship between culture, media, and technology. They consider the role of storytelling in multimedia and explore a variety of topics affecting and influenced by mass communication and media. This course provides a solid foundation to prepare students to create solutions in media environments upon completion of the communications and media program. Online only. 3 credits.

COMU 301 Advanced Public Speaking
Designed to provide a more in-depth study of classical and contemporary principles of rhetoric and rhetorical criticism, this course provides concentrated work in speech structure, delivery, and criticism. Online Only. 3 credits.

COMU 315 Intercultural Communication
This course explores the similarities and differences in the communication process from the perspectives of a variety of cultures. Special emphasis is given to the historical development of a culture in terms of its particular world view and the reciprocal impact of that world view on intercultural communications in such contemporary contexts as the establishment of global economies, second language education and worldwide media expansion. Students will experience practical application of theory and learn methods and techniques for more effective communication across cultures. 3 credits.

COMU 329 Experimental Topics in Communication
An examination of selected topics in communication relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

COMU 330 History of Communication and Technological Revolutions
Prerequisite: COMU 300.
In this course, students will explain the historical context of communication and technological revolutions. They will explore topics such as technological trends, the foundation of mass media, modes of communication, theoretical context, and perceptions of media and how they have shaped communications. Ultimately, students will be able to draw parallels between past and contemporary communication methods. Online Only. 3 credits.

COMU 360 Methods and Techniques of Persuasion
This course explores the methods, theories, techniques, and concepts of persuasive communication. Students will address scientific, humanistic, and behavioral aspects of persuasion. Content will include interpersonal persuasion, advertising, political campaigning, and use of persuasion techniques in mediated environments. Online only. 3 credits.

COMU 365 Multimedia Journalism
Prerequisite: COMU 300.
In this course, students will apply multimedia techniques to storytelling in the context of journalism. They will analyze diverse audiences and determine how that analysis influences story creation. Additionally, students will select the most appropriate medium for disseminating information. Students will complete a project that requires effective research and journalistic writing. Online only. 3 credits.

COMU 370 Principles of Public Relations
This course provides a thorough examination of the theories, practices, effects, and principles of public relations. Students will explore the roles and responsibilities of public relations, such as media relations, ethical considerations, and dissemination of information via technology and social media. They will engage in storytelling that achieves specific strategies and serves intended audiences. Additionally, they will address the role of public relations in civic, community, governmental and global contexts. 3 credits.

COMU 375 Media Ethics
In this course, students will address ethical issues in the context of media and communication. They will identify the historical foundations of ethics. They will also apply various approaches to case studies and dilemmas that may occur in a media-related environment. Students will consider how to balance the relationship between personal beliefs and professional behavior. Online only. 3 credits.

COMU 410 Organizational Communication
This course is a comprehensive review of effective oral and written communication in organizational and professional settings. This course emphasizes various forms of writing, communication, presentation skills, and how it relates to organizational principles, structure and change. The fully online course includes one or more Virtual Synchronous Meetings on day(s) and time(s) to be determined. 3 credits.

COMU 420 Strategic Social Media
In this course, students will explore how organizations apply social media strategies to achieve their goals. They will seek out and evaluate case studies in social media that include best practices and blunders. Topics include social media content development and platforms as well as managing the rapid growth and change in this medium. Students will create a social media strategy for an organization or product. Online only. 3 credits.

COMU 485 Communications and Media Capstone
Prerequisites: COMU 365, COMU 370, COMU 420, SSCU 380.
As the capstone for the B.A. in Communications and Media, COMU 485 provides students with the opportunity to integrate knowledge and skills gained throughout the program. Students will identify a real world challenge and apply their understanding of culture, media, ethics, and technology as well as their skills in data analytics, presentation, and media creation to propose solutions to this challenge. Online only. 3 credits.

COMU 499 Independent Study
Prerequisite: Instructor’s approval and approval of petition.
Directed reading and/or research designed to meet specific need of superior upper-division students. 1-3 credits.
COMPUTER SCIENCE (CSCU)

CSCU 200 Introduction to Computers and Data Processing
Students gain experience using word processing, electronic spreadsheet and database management software. The use, misuse, and abuse of computers will be discussed with examples from many fields. Different sections of this course may be offered on different hardware platforms, usually IBM-PC compatibles or Macintoshes, but the same concepts will be studied in each section and therefore the course may be taken for credit only once. 3 credits.

CSCU 205 Introduction to Programming for Business Majors
This is an introduction to computer programming for business major. Students will learn the basic concepts of how to give computer instructions by using high level programming languages in Excel, Access and Visual Basic. Visual programming with VB.NET is explored to introduce Object Oriented Programming. The emphasis will be on meeting the needs of a single user’s application of Office Suite and Visual Programming. Online only. 3 credits.

CSCU 206 CompTIA IT Fundamentals
Gain an understanding of the core components that make up the information technology (IT) landscape while preparing for the CompTIA IT Fundamentals exam. Certification exam is included in course. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 207 ITIL Foundation ITIL Training and Certification
Learn the core disciplines of ITIL best practices including service strategy, service design, service transition, service operation and continual service improvement. This service lifecycle framework enhances alignment to the business while demonstrating business value and ROI, enabling IT to solve specific operational needs. Certification exam included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 208 A+ Certification
CompTIA’s A+ certification provides demonstration of mastery of the foundational skills needed by today’s computer support technicians and others and is included in the approved list of certifications to meet DoD Directive 8570.1 requirements. The course covers essential principles of installing, building, upgrading, repairing, configuring, troubleshooting, optimizing, and preventative maintenance on desktop and laptop computers. CompTIA A+ exams are included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 209 MTA Networking Fundamentals
Learn networking concepts required to work in today’s increasingly connected and technology-driven businesses. Learn how communication and information transfers are enabled by networking technologies. Build foundational knowledge in OSI model, IP addressing, Internet Protocols and more. Microsoft Technology Associate (MTA) Exam Networking Fundamentals is included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 220 Object-oriented Programming I
Students are introduced to the concepts of writing instructions (i.e. programming) to the computers in a high-level computer language that utilizes Object-Oriented syntax and constructs such as JAVA or VB.NET. 3 credits.

CSCU 251 Introduction to Computing Systems Organization
Students learn the major components and structure of the hardware and software of both a computer and of a networking system. Students will learn to describe the mechanism of information processing, transfer, and control within a digital computing systems and networks. 3 credits.

CSCU 270 Information System Security
Prerequisite: CSCU 251.
Students learn systematically the concepts, issues, challenges, and technological solutions of computer networks security and develop procedural and technological solutions with hands-on practice. Online only. 3 credits.

CSCU 315 Organizational Information Systems
Students explore the role of information systems in the operation of an organization. This course introduces the use of information technologies for the access and retrieval of information from internal information systems and from systems on the Information Superhighway. 3 credits.

CSCU 335 Network +
Learn how to manage, maintain, troubleshoot, install, operate and configure basic network infrastructures. CompTIA Network+ exam is included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 336 MTA Security Fundamentals
Understand security concepts for today’s business and technology professionals. Learn layered security philosophy, physical security, internet security, and wireless security principles. Microsoft Technology Associate (MTA) Security Fundamentals exam is included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 337 CompTIA Security+
Learn security threats and controls, network security, operational security, application security and more. The CompTIA Security+ certification meets DoD Directive 8570.1 requirements. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 353 Data Communications and Computer Networks
Prerequisite: CSCU 251.
Students explore the principles and techniques of data communications and give special emphasis to networks and distributed systems. The I.S.O. Reference Model for open systems interconnection will be investigated and the function and operation of each protocol layer analyzed. 3 credits.

CSCU 357 Data Encryptions and Information Security
Prerequisite: CSCU 251 and CSCU 270.
Students learn the concepts of data encryption, key of decryption, two-key encryption, and its application in data security; information systems security related issues and solutions are also described and experimented. 3 credits.

CSCU 383 Project Management for Information Systems
Prerequisite: CSCU 200 or equivalent.
Students develop skills in use of project management tools and methods within the context of an information system project. Study topics include the following: the information systems development process, project team organization, work breakdown, project planning, resources estimation, return on investment, risks management, monitoring and controlling, and task scheduling. Online only. 3 credits.
CSCU 385 Project Work Structure and Resources Management
Students analyze the concepts of project scope work structure, units of work, variety of project resources, project cost estimation, dynamic allocations, schedule control, and management. Online only. 3 credits.

CSCU 408 Database Management
Prerequisite: CSCU 220.
Students learn data management concepts and the representation and structure of data in the context of applications and system software. The emphasis is on design of databases and developing applications in a client-server environment using SQL as the query language. Online only. 3 credits.

CSCU 410 Structured Systems Analysis and Design
Prerequisite: CSCU 408.
Overview of the system development life cycle. Advanced study of structured systems development. Emphasis on strategies and techniques of structured analysis and structured design for producing logical methodologies for dealing with complexity in the development of information systems. Online only. 3 credits.

CSCU 415 Systems Quality Assurance and Testing
Prerequisites: CSCU 315 or CSCU 410.
This course provides an overview of the principles of Quality Management, framework of ISO 9000:2008, and methods for Software Testing. Students will produce a Quality Assurance Plan as part of a case study. Online only. 3 credits.

CSCU 453 Network Implementation
Prerequisite: CSCU 353.
Students explore the principles and techniques for implementing TCP/IP based networks using Microsoft Window servers and clients, including the skills to configure, customize, optimize, troubleshoot, and integrate networks. This course assists with preparing students to meet the Microsoft certification requirements. For Computing Technology majors only. Online only. 3 credits.

CSCU 458 Advanced Web Based Database Systems
Prerequisites: CSCU 408 and CSCU 453.
Students explore the principles and techniques for managing the most recent Microsoft's SQL Server Database System and Microsoft's Internet Information Server including the skills to install, configure, customize, optimize, and troubleshoot both the SQL Server and Information Server Systems. This course assists with preparing students to meet the Microsoft Certified Systems Engineer certification requirements. For Computing Technology majors only. Online only 3 credits.

CSCU 460 MTA Windows Server Administration
Build an understanding of fundamental server administration concepts. Learn to install and configure a Windows Server, manage server services and storage, monitor server performance, and set up file and print services. Additional services such as DNS, DHCP, web server, and remote access are covered. Microsoft Technology Associate (MTA) Server Administration Fundamentals certification exam is included. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 461 Project Management-Managing Complex Projects
Skills and Leadership Techniques: Covering the fundamentals of project management and beyond, this course reviews the tactical skills that are needed to successfully deliver projects as well as the leadership skills necessary to lead projects to successful conclusions. Students apply project management and leadership principles to real world scenarios. Particular emphases is make on successfully managing and leading diverse and virtual project teams. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

CSCU 483 Project Risk Management
Students explore the principles and techniques of dealing with uncertainty and risk in real-world project situations, mathematical models of uncertainty, scenarios of disaster, recovery plan, and methods of protecting a firm from disasters. Online only. 3 credits.

CSCU 498 Capstone Project
Prerequisite: Completion of 42 credits in the major.
Students create a complete set of systems analysis, design, and implementation documents for a selected field of emphasis. 3 credits.

CSCU 615 Information Technology Development and Innovation
Students explore the new developments of enterprise-wide application of Information Technologies (IT) in both hardware and software; and evaluate database management Systems (DBMS), Enterprise Inter-networking systems (Intra Net), and Web-based newer enabling systems (Extra Net). Online Only. 3 credits.

CSCU 641 Internet Based Systems Analysis and Development
Prerequisite: CSCU 615.
Students learn the concepts, current theories, and supportive technologies relating to formal project management. In addition, students develop skills to plan, initiate, monitor, communicate, and manage various types of projects in different industries. Online only. 3 credits.

CSCU 653 Project Management for Business Majors
Students learn the concepts, current theories, and supportive technologies relating to formal project management. In addition, students develop skills to plan, initiate, monitor, communicate, and manage various types of projects in different industries. Online only. 3 credits.

CSCU 683 Project Risk Management
Prerequisite: CSCU 683.
Overview a variety of risks in the business world, identify risks in relevant contexts, establish policy and procedures for risk mitigation, and apply technological solutions and perform periodic audits. Online only. 3 credits.
COUNSELING & SCHOOL PSYCHOLOGY (CSPU)

CSPU 500 Introduction to Counseling and Interpersonal Relations: Concepts and Skills
Candidates are introduced to the philosophical, psychological, socio-cultural, legal, and historical foundations of School Counseling/ Psychology. This course provides an introduction and overview of basic counseling and interpersonal relations skills and concepts. While several different theories will be discussed, this course will focus on the development of basic solution-building skills needed by individuals working in a variety of counseling, educational, and professional settings. Simulated experiences will seek to improve students’ understanding of and ability to use these skills in professional settings. Also covered will be professional and ethical issues germane to students in various disciplines. 3 credits.

CSPU 510 Introduction to the Ethical Practice of School Psychology
This is the introductory course to the graduate program in school psychology at Brandman University. It introduces candidates to the various roles of school psychologists have in the public schools, ethical and legal guidelines that shape the profession and emergent practices in assessment, crisis intervention, personal & social counseling, behavior management, consultation, and systems change. 3 credits.

CSPU 511 Introduction to the Ethical Practice of School Counseling
This is the introductory course to the graduate program in school counseling at Brandman University. It introduces candidates to the roles school counselors have in the public schools, the ethical and legal guidelines that shape the profession, and emergent practices in individual and group assessment, academic advisement, career counseling, crisis intervention, personal & social counseling, consultation, and systems change. 3 credits.

CSPU 512 Advanced Counseling and Intervention
Prerequisites: An introductory course in counseling theory or CSPU 500.
This course focuses on a time-limited or brief approach to counseling and intervention with children and adolescents. Major units of study include skills for establishing goals, evaluating progress in counseling, crisis intervention, drug and alcohol problems, and the use of art and play techniques with children. Emphasis is placed on using these skills with children and youth of various age levels and in multicultural settings. 3 credits.

CSPU 513 Group Leadership and Intervention
Prerequisites: An introductory course in counseling theory or CSPU 500.
This course provides the theoretical foundation and strategies in the design and implementation of groups in the school setting at various grade levels that are consistent with national and state models of comprehensive developmental school counseling within a multicultural context. This course is designed to provide candidates with methods, materials, leadership skills, and counseling techniques appropriate for small group work. It is also intended to promote ethical awareness. In addition to the didactic coursework, candidates participate in an experiential group where they will participate as a group leader and a group member. Candidates will be expected to gain sufficient field experience to design, implement, and evaluate a group intervention with children, youth or parents in a school or agency setting. 3 credits.

CSPU 514 Cultural and Community Issues in Counseling and School Psychology
This course focuses upon the unique challenges diversity brings to the provision of counseling and psychological services to children, adolescents, and parents. Candidates will learn the history, culture, and expectations of different ethnic and cultural groups and develop the cross-cultural communication skills necessary to effectively work with families of varying cultural and socio-economic backgrounds. Candidates will also explore how issues such as immigration, poverty, sexism, and racism affect counseling practices and the development of effective interventions. 3 credits.

CSPU 515 Practicum in Counseling and Intervention
This course provides opportunities for school counseling candidates to observe and examine intervention skills under close supervision. Candidates will analyze the knowledge and techniques learned in previous coursework toward real world resolution of individual, group, and systems level problems. Sixty of the required 100 practicum fieldwork hours must be done in a variety of approved public schools under the guidance of credentialed school counselors. 3 credits.

CSPU 516 Children and Youth in Developmental Context
This course examines the processes of individual development in the context of family, school, and culture. Candidates will review major theories of developmental psychology and learn effective assessment and intervention skills for disturbances and disorders of childhood and adolescence. 3 credits.

CSPU 534 Practicum in School Psychology I
This is the first of two practicum courses providing opportunities for school psychology candidates to practice counseling, assessment, and other intervention skills under close supervision. Candidates will apply knowledge and techniques learned in previous coursework to the resolution of individual, group, and systems level problems. A minimum of 100 practicum fieldwork hours must be completed of the 450 practicum hours required in the program. The additional 350 practicum fieldwork hours will be completed in the other CSPU courses. The 450 practicum fieldwork hours must be accomplished prior to beginning the final fieldwork/internship hours in CSPU 622 and CSPU 623. 3 credits.

CSPU 535 Practicum in School Psychology II
Prerequisites: CSPU 534 and CSPU 637.
This course is a continuation of CSPU 534 and will provide opportunities for school psychology candidates to practice counseling, assessment, and other intervention skills under close supervision. A minimum of 100 practicum fieldwork hours is required in this course. All practicum fieldwork hours must be completed prior to beginning the final fieldwork/internship hours in CSPU 622 and CSPU 623. 3 credits.

CSPU 516 Leadership and Systems Change
This course will focus on the designing, implementing, coordinating, and evaluating effective counseling programs. Topics include principles of collaboration and team work; facilitating teams of pupils, teachers, administrators, parents, and community members to meet pupil needs; program development and evaluation; and enhancing organizational climate and staff morale through consultation and in-service education. 3 credits.

CSPU 617 Transition to Work and Career
This course focuses upon the process of career choice, including the skills of decision-making, goal setting, vocational assessment, career information, and career education programs. Candidates will learn school-to-career systems appropriate for all students, including those with disabilities. 3 credits.
CSPU 618 Best Practices in Counseling
Prerequisites: CSPU 515 and students must be enrolled in CSPU 620 or CSPU 621 at the time they take this course.

School counselor candidates will review the knowledge, skills, and standards of the graduate program in counseling in final preparation for their employment as school counselors. Candidates will prepare for the Praxis examination in school counseling, complete their program portfolios, and develop a capstone project as a part of this course. 3 credits.

CSPU 620 Supervision and Mentoring in School Counseling I
Prerequisites: School Counseling (Credential Only): 511, 515, and 617.

Prerequisites: A passing score on the CBEST; CSPU 500, 511, 512, 514, 515, 616, 617 and EDUU 602 including 100 hours of practicum logged. Also required are a valid Negative TB test and a valid and active Certificate of Clearance. The fieldwork courses provide a transitional school counseling experience by engaging the candidate in a practical and realistic work schedule in schools. It is understood that the candidate will achieve a level of competence commensurate with a Master’s level degree. Emphasis is on supervised fieldwork experiences leading to competencies in the following areas: educational assessment, personal and social counseling, academic and career counseling, program development, program coordination, supervision, consultation, and laws and ethics pertinent to the profession of school counseling. In addition to the required field experience, candidates participate in fifteen hours of on-campus group supervision each term. By the completion of CSPU 621, candidates are expected to gain a total of 600 hours of work performed in a K-12 setting at either the elementary, middle, and/or senior high school. At least 200 hours must be performed at each of the two levels selected. Graded on a pass/no pass basis. 3 credits.

CSPU 621 Supervision and Mentoring in School Counseling II
Prerequisites: School Counseling (Credential Only): 511, 515, and 617.

Prerequisites: A passing score on the CBEST; CSPU 500, 511, 512, 514, 515, 616, 617 and EDUU 602 including 100 hours of practicum logged. Also required are a valid Negative TB test and a valid and active Certificate of Clearance. The fieldwork courses provide a transitional school counseling experience by engaging the candidate in a practical and realistic work schedule in schools. It is understood that the candidate will achieve a level of competence commensurate with a Master’s level degree. Emphasis is on supervised fieldwork experiences leading to competencies in the following areas: educational assessment, personal and social counseling, academic and career counseling, program development, program coordination, supervision, consultation, and laws and ethics pertinent to the profession of school counseling. In addition to the required field experience, candidates participate in fifteen hours of on-campus group supervision each term. By the completion of CSPU 621, candidates are expected to gain a total of 600 hours of work performed in a K-12 setting at either the elementary, middle, and/or senior high school. At least 200 hours must be performed at each of the two levels selected. Graded on a pass/no pass basis. 3 credits.

CSPU 622 Supervision and Mentoring in School Psychology I
Prerequisites: A passing score on the CBEST, CSPU 500, 510, 512, 514, 534, 535, 636, 637, 638, 639 and EDUU 602 including 450 hours of practicum logged and approved.

Also required are a valid Negative TB test and a valid Certificate of Clearance. Each course covers one term or 8 weeks (300 hours of fieldwork/internship) for a total of 1,200 hours. This may also be done on a part-time basis over the period of two consecutive academic years with the approval of the full-time faculty. Emphasis is on fieldwork/internship experiences leading to competencies in assessment for intervention, counseling, behavior management, consultation, and systems change. In addition to the required field experience, candidates are expected to participate in 15 lab hours of on-campus group supervision. The site supervision of candidates must be by a qualified state credentialed school psychologist. Graded on a Pass/No Pass basis. 3 credits.

CSPU 623 Supervision and Mentoring in School Psychology II
Prerequisites: A passing score on the CBEST, CSPU 500, 510, 512, 514, 534, 535, 636, 637, 638, 639 and EDUU 602 including 450 hours of practicum logged and approved.

Also required are a valid Negative TB test and a valid Certificate of Clearance. Each course covers one term or 8 weeks (300 hours of fieldwork/internship) for a total of 1,200 hours. This may also be done on a part-time basis over the period of two consecutive academic years with the approval of the full-time faculty. Emphasis is on fieldwork/internship experiences leading to competencies in assessment for intervention, counseling, behavior management, consultation, and systems change. In addition to the required field experience, candidates are expected to participate in 15 lab hours of on-campus group supervision. The site supervision of candidates must be by a qualified state credentialed school psychologist. Graded on a Pass/No Pass basis. 3 credits.

CSPU 624 Supervision and Mentoring in School Psychology III
Prerequisites: A passing score on the CBEST, CSPU 500, 510, 512, 514, 534, 535, 636, 637, 638, 639 and EDUU 602 including 450 hours of practicum logged and approved.

Also required are a valid Negative TB test and a valid Certificate of Clearance. Each course covers one term or 8 weeks (300 hours of fieldwork/internship) for a total of 1,200 hours. This may also be done on a part-time basis over the period of two consecutive academic years with the approval of the full-time faculty. Emphasis is on fieldwork/internship experiences leading to competencies in assessment for intervention, counseling, behavior management, consultation, and systems change. In addition to the required field experience, candidates are expected to participate in 15 lab hours of on-campus group supervision. The site supervision of candidates must be by a qualified state credentialed school psychologist. Graded on a Pass/No Pass basis. 3 credits.
CSPU 625 Supervision and Mentoring in School Psychology IV  
**Prerequisites:** A passing score on the CBEST, CSPU 500, 510, 512, 514, 534, 535, 636, 637, 638, 639 and EDUU 602 including 450 hours of practicum logged and approved.

Also required are a valid Negative TB test and a valid Certificate of Clearance. Each course covers one term or 8 weeks (300 hours of fieldwork/internship) for a total of 1,200 hours. This may also be done on a part-time basis over the period of two consecutive academic years with the approval of the full-time faculty. Emphasis is on fieldwork/internship experiences leading to competencies in assessment for intervention, counseling, behavior management, consultation, and systems change. In addition to the required field experience, candidates are expected to participate in 15 lab hours of on-campus group supervision. The site supervision of candidates must be by a qualified state credentialed school psychologist. Graded on a Pass/No Pass basis. 3 credits.

CSPU 636 Cognitive and Neuropsychological Assessment for Intervention  
**Prerequisites:** Successful completion of CSPU 637.

This course will be taken after the student has successfully completed CSPU 637, Psycho-educational Assessment I. CSPU 636 is a continuation of cognitive assessment from CSPU 637. It will introduce students to the study of cognition from a school neuropsychological perspective. The Cattell-Horn- Carroll model of cognitive abilities and a cross-battery model of assessment will be discussed. Candidates will review psychometric concepts and laws and ethics related to assessment and psycho-educational testing, and practice administering standardized tests and other assessment procedures to volunteers outside of class. Students will also practice presenting assessment results to parents and teachers, and writing assessment reports. Application of these skills in multicultural settings will be accentuated. 3 credits.

CSPU 637 Psychoeducational Assessment for Intervention I  
This course will introduce students to psycho-educational assessment and the laws and ethics related to assessment and psycho-educational testing. The focus of the course is on current best practices in the use of both standardized tests and non-standardized assessment methods such as interview and observation to assess children and youth. Emphasis is placed on using the systematic interpretation of assessment results to develop academic and behavioral interventions. Candidates will practice administering standardized tests, conducting interviews and observations, and presenting assessment results to parents and teachers. Application of these skills in multi-cultural settings will be accentuated. 3 credits.

CSPU 638 Psychoeducational Assessment for Intervention II  
**Prerequisites:** Successful completion of CSPU 637 and CSPU 636.

The focus of this course is gathering comprehensive assessment data and using this data to develop academic and behavioral interventions for children and youth with school-related problems. Application of these skills in multicultural settings will be emphasized. Candidates will practice developing accurate referral questions, combining data from a variety of sources to arrive at fair and accurate conclusions, developing effective intervention strategies, and preparing written reports of assessment findings. 3 credits.

CSPU 639 Advanced Positive Behavioral Supports  
**Prerequisites:** EDUU 602 or its equivalent for all candidates, EDUU 687 or its equivalent is an additional prerequisite for Level 2 Education Specialist candidates.

The purpose of this course is to provide candidates with knowledge and skills to (a) identify and assess problem behavior in school settings, (b) design and implement behavioral interventions, including physiological and pharmacological variables, (c) design and implement comprehensive behavior support plans, (d) monitor and evaluate implementation of behavior support plans, and (e) apply behavioral procedures on a school-wide basis. Candidates will learn to develop both systems level and individual behavioral intervention plans for persons with serious behavioral problems. 3 credits.

CSPU 640 Consultation and Indirect Intervention  
This course introduces candidates to collaborative models of individual and team consultation. The emphasis of this course’s major study units include learning to work with individuals and groups to identify problems, design interventions, and monitor their effectiveness; facilitating collaborative problem-solving teams, and conducting educational programs for parents and school staff. 3 credits.

CSPU 641 Best Practices in School Psychology  
Candidates will view knowledge, skills, and standards of the graduate program in school psychology in final preparation for their employment as school psychologists. Candidates will prepare for the Praxis examination in school psychology, prepare a draft of their program portfolio, and complete the capstone project as part of this course. 3 credits.
CRIMINAL JUSTICE (CJCU)

CJCU 250 Introduction to the Administration of Criminal Justice
This course surveys the structure, organization, and operation of the criminal justice system in the United States. Students will assess the general features of crime and crime typologies, the impact of race, ethnicity, gender, and economic class within the criminal justice system, courts and corrections, and theories of crime causation. Students will also evaluate trends in the administration of criminal justice. 3 credits.

CJCU 320 Selected Topics in Criminal Justice
An examination of selected topics in the area of criminal justice. Courses that examine different topics may be repeated for credit. 3 credits.

CJCU 329 Experimental Topics in Criminal Justice
An examination of selected topics in Criminal Justice relevant to evolving areas in the field. Syllabi must be approved by Dean and announced to the Curriculum and Academic Committee prior to be offered. May be repeated for credit provided that the course content is different. 3 credits.

CJCU 380 Correctional Systems
Criminals and institutional personnel involved in corrections at all levels will be reviewed in depth. History, politics, and contemporary corrections issues such as punishment theories, sentencing alternatives, prison experience and prisoner rights, female and juvenile incarceration problems, overcrowding, and 21st century corrections will be examined. 3 credits.

CJCU 403 Police and Society
This course focuses on law enforcement and its interaction with society. Various perspectives will be explored including police subcultures, use of force and authority, selective enforcement and discretion, community reactions and media relations with police, dissent and conflict management. 3 credits.

CJCU 405 Forensic Studies
This course is designed to introduce students to forensic-science topics. Students will gain an understanding of topics including, but not limited to, crime-scene processing, fingerprints, firearms, and tool marks, questioned documents, serology, fire and explosives, trace evidence, pathology and instrumental analysis. Students will apply what they learn by participating in exercises to practice forensic methods. Students will analyze the connection between forensic evidence and identification of crime suspects. 3 credits.

CJCU 406 Forensic Documentation
This course provides students with practical skills to examine forensic documentation and analyze its authenticity. Study of forensic documentation includes artifacts, such as handwriting, typewriting, photocopies, commercial printing, and computer-generated and digital documents. Students will evaluate the life cycle of forensic documentation from the inception of a legal case to its conclusion. 3 credits.

CJCU 408 Crime Scene Investigation
This course is designed to provide students with an understanding of proper crime scene investigation techniques. Students will analyze basic investigative responsibilities, including preparing cases for court. Additionally, students will explore the historical perspective of criminal investigations. The course provides information about how technological advances support the work of crime scene investigators. 3 credits.

CJCU 411 Gangs and Gang Behavior
The purpose of this course is to sensitize students to the issues surrounding gangs and gang behavior. Students will analyze race, gender, age and demographics of gang make up. The course provides insight into gangs and gang behavior historically and in contemporary times. Students will analyze law enforcement strategies to deter and address gang activity. Additionally, students will evaluate theories of gang behavior. 3 credits.

CJCU 414 Organized Crime
This course examines the structures, organization, typologies and operations common to organized criminals. Students will analyze the effects of intra-ethnic and inter-ethnic rivalries and cooperation between criminal groups and organized criminal enterprises. Finally, students will assess law enforcement efforts at combating organized crime in the United States and abroad. 3 credits.

CJCU 416 Domestic Violence
This course provides an overview of the criminal laws and sanctions specifically applied to domestic violence. Students will address various types of court proceedings including family court, juvenile court, and civil trials. They will also consider incidence, research, and theories of domestic violence and their influence on criminal justice response and intervention. Online only. 3 credits.

CJCU 418 Victim Advocacy
This course provides an overview of the Victim Advocacy system from a criminal justice perspective. Students will address the history of advocacy, specifically substance abuse, homelessness, mental health patients and diseases, physically impaired people, and victims of crime. They will have the opportunity to explore intervention techniques and determine local, state, and federal resources available to practitioners and clients. Online only. 3 credits.

CJCU 426 Crime and Delinquency
This course presents an extensive examination of juvenile delinquency within the context of the criminal justice system. The nature and extent of delinquency will be addressed from social, cultural, and historical perspectives. Students will focus on several causal theories of crime and delinquency and evaluate various environmental factors contributing to the problem. Finally, students will analyze the multitude of responses to juvenile delinquency from rehabilitation through incarceration. Online only. 3 credits.

CJCU 430 Applied Criminology
This course is designed to teach students to apply criminological concepts and theories to contemporary crime issues and debates. Students will study the nature, causes, extent, and control of criminal behavior in both individuals and groups. The course provides students with the opportunity to analyze why some individuals adopt ‘deviant’ lifestyles or make criminal choices. Students will explore the theories, principles, techniques, materials, and methods commonly employed in the discipline of criminology and criminal justice. 3 credits.

CJCU 432 Communication and Conflict Resolution for Criminal Justice
This course surveys the communication process within the context of criminal justice. Students will examine theories of communication as they relate to police external interactions with the public and internal interactions within their organizations. They will compare the effectiveness of verbal and nonverbal communication in police investigations and evaluate communication techniques used for diverse groups in multiple settings. Students will also analyze processes for resolving conflict, de-escalating potentially violent situations, and using effective communication to build effective relationships between the public and criminal justice professionals. 3 credits.
CJCU 434 Diversity, Conflict, and Crime
This course is designed to sensitize students to diversity issues in criminal justice. Students will analyze gender, race/ethnicity, age, sexual orientation, religion, and social class issues as well as theoretical perspectives on diversity and crime. They will also explore the influence of diversity on the relationship between criminal justice professionals and citizens, victims, suspects, and co-workers. 3 credits.

CJCU 436 Community Corrections and Alternative Sentences
This course provides students with an introduction to community corrections and alternative sentences. Topic areas include: sentencing, probation, parole, and intermediate sanctions (intensive supervision, electronic monitoring). The focus is on such issues as punishment vs. control, community justice models, special offender models (drug offenders, sex offenders, mentally ill offenders), and the cost effectiveness of community corrections. The course also includes a critical analysis of evidence-based community correctional supervision, reentry issues and solutions, and assessment and risk prediction. Online only. 3 credits.

CJCU 438 Mental Health Issues in Society
This course presents a comprehensive review of the origins of mental health/illness issues as they relate to the criminal justice system. Key concepts, such as criminalization, deinstitutionalization and crisis response, will be addressed within the context of mental illness. Students will focus on mental health issues from a cultural, social, historical, legal and institutional framework. They will investigate the roles that social class, gender, family, race, culture, and ethnicity play in the development of maladjustment. Access to resources such as mental health services and continuity of care will also be addressed. Online only. 3 credits.

CJCU 440 Drugs and Society
This course examines the treatment of drugs in the United States from both the public policy and criminal justice perspectives. Students will analyze public policy decisions to address drug use and addiction through the criminal justice system rather than through the public health apparatus. Consideration will be given to why certain drugs are banned and why other drugs, though controlled, are not banned. The historical underpinnings of drug prohibition will also be identified. Finally, students will critique the current public debate over the merits of drug legalization versus prohibition. (Not offered in 2017-2018.) 3 credits.

CJCU 450 Homeland Security
This course studies the structure of the newest federal cabinet level agency, the Department of Homeland Security (DHS) in terms of prevention and response capability. It studies the capacity of the agency to respond to terrorist events, natural disasters, man-made emergencies, safety of US transportation systems and protection of US borders. It also explores the relationships, sharing and cooperation of all federal agencies in regard to intelligence gathering capability to support DHS counter-terrorism missions as well as the impact of counter-terrorism has on civil rights. 3 credits.

CJCU 451 Information Security
This course examines a broad range of issues in computer and information security that security management professionals must address as they communicate with information technologists and prepare general information security plans. Computer and computer data protection, intrusion and control are introduced. In addition, ethical, legal and regulatory aspects of information management are discussed in the context of accessing and distributing data in a secured fashion. Computer forensics, vulnerability of networked and Internet-accessible computers, and fraudulent activities using computers are covered. Online Only. 3 credits.

CJCU 452 Principles of Security Management
This course surveys the scope of security management, introducing principles and frameworks for recognizing security issues and solutions. Aspects of protecting people, information and physical assets are examined, including loss prevention. Legal foundations, historical roots, operations and tools of security management are introduced, as is the role of security in contemporary business, government and public settings. Online Only. 3 credits.

CJCU 454 Risk Analysis, Loss Prevention and Emergency Planning
This course examines the nature of security threats as well as analytical approaches to assessing risk of intrusion and loss of assets. Tools such as security surveys and audits will be introduced. Using case studies, coursework addresses planning for emergency interventions, including managing detection, delay and response measures. Online Only. 3 credits.

CJCU 455 Security Administration
This course focuses on daily actions taken to manage individuals and organizations engaged in security, as well as communication and interaction with people and systems being secured. Topics include common administrative procedures and practices such as complying with regulations, following identification and verification protocols, securing information systems, responding to workplace violence, addressing emergency threats and related safety functions, educating clients, and managing staffing and guard operations. Students will apply security and privacy laws and regulations to real life situations. Online Only. 3 credits.

CJCU 460 White Collar Crime
This class examines the underlying theories, changing definitions and diverse nature of white-collar crime. These crimes may include offenses perpetrated by “the rich,” corporations and businesses, and/ or individuals. Topics may include embezzlement, political corruption, employee theft, fraud, “con games,” and emergent areas such as computer crime and environmental crime. 3 credits.

CJCU 465 Management in Criminal Justice Organizations
This course applies management and financial principles to Criminal Justice organizations. Emphasis is placed on budgets, personnel issues, organization and management, as well as discipline procedures and EEO practices. Constitutional requirements, court decisions, and legislation as they impact management in criminal justice organizations are also discussed. 3 credits.

CJCU 470 Public Sector Leadership and Ethics
This course provides a general overview of the philosophical issues and problems faced by those who work in the field of criminal justice. Special emphasis is given to ethical leadership and the tension caused by the special considerations that are inherent in the role of any criminal justice practitioner. Students are provided an opportunity to address real criminal justice issues and problems, and discover ways to resolve them while applying theory to practical situations. Issues examined are particularly relevant to the administration of police, courts, and corrections. Online only. 3 credits.
CJCU 471 Team Leadership in Criminal Justice
The focus of this course is team-based leadership in settings related to the discipline of criminal justice. Students study the four basic components related to group dynamics and teamwork: characteristics of teams, processes of teamwork, issues teams face, and organizational context of teams. They will critique criminal justice organizational hierarchy models as they relate to effective team leadership. Additionally, they will apply conflict resolution, communication, and decision-making strategies to team environments in their fields of study. Online only. 3 credits.

CJCU 472 Criminal Justice Leadership Theory and Practice
This course examines leadership from theoretical and practical perspectives. It compares and contrasts leadership theories, models, and strategies; and explores how leaders can create organizations, systems and structures to achieve organizational goals and engage employees. The application of course concepts to enhance leadership effectiveness is emphasized. Online only. 3 credits.

CJCU 474 Counterterrorism
The study of counterterrorism necessarily entails the study of terrorism itself. Terrorism is about the struggle to gain power. This course presents a look at the historical background of terrorism, modern terrorist tactics, counterterrorism tactics, and the social, economic, and political factors that foster terrorism. Students will examine modern terrorist and counterterrorist tactics. An evaluation and assessment of how best to formulate responses to violent Islamist extremism will be an important focus of the course. Online only. 3 credits.

CJCU 475 Domestic Terrorism
This course focuses on the study of the foundations of domestic terrorism, including an examination of its historical origins. Topics include active domestic groups, organizational structures, networks, modes of operation and philosophies. Students will consider religious, economic, political and social underpinnings of domestic terrorism. Online only. 3 credits.

CJCU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.
Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
CURRICULUM & INSTRUCTION (EDCI)

EDCI 631 Differentiated Instruction in Multicultural and Multi-Ability Classrooms
**Prerequisite:** EDUU 600.

This course is designed to provide candidates with an understanding of differentiated instruction and a strong rationale for its implementation. While teaching methodology will be a focal point of this course, it will be situated within the broader discourse of social and intellectual conditions defining teaching and learning in the new millennium that have advanced the need for differentiated instruction. Candidates will explore the diverse needs of students and determine the best strategies to differentiate by learning style, language proficiency, special needs, cultural influences, gender, physical and psychological development. Practical applications of professional collaboration, classroom management skills, assessment strategies and instructional planning within a differentiated instructional environment will be introduced and practiced. 3 credits.

EDCI 632 Assessing Student Learning
**Prerequisites:** EDUU 600 and EDCI 631.

This course examines various types of assessments. Candidates will explore the purpose of assessment as well as how to use assessment data to guide decision making and improve student performance. Current trends in assessment, including high-stakes testing and accountability, will be explored. Candidates will analyze the advantages and disadvantages of various assessment methods and investigate assessment accommodations for English learners and students with special needs. Methods for grading and sharing the results of student performance will also be addressed. 3 credits.

EDCI 633 Instructional Leadership for Practitioners
**Prerequisites:** EDUU 600, EDCI 631.

This course is an interactive examination of the theoretical and practical aspects of leadership for educational practitioners. Content focuses on a facilitated exploration of the knowledge, skill, and understanding necessary to be an effective practitioner instructional leader. Through examination, investigation and direct application of various theories of leadership correlating to the rights, roles, and responsibilities of educators today, candidates will craft a personal 21st Century Practitioner Instructional Leadership Action Plan. This plan will illuminate how the application of effective instructional leadership can create opportunities for positive, transformational change in their schools, districts, and beyond. 3 credits.

EDCI 634 Issues and Trends in Contemporary Curriculum: Expertise Paper Development
**Prerequisites:** All MAE core courses, EDCI 631 and EDCI 633.

This culminating class focuses on a study of current issues surrounding curriculum, instruction, and assessment. Research across a wide spectrum of opinions and perspectives is examined in order to prepare the learner to develop an area of expertise relating to one particular contemporary issue in education today. 3 credits.
DOCTOR OF NURSING PRACTICE (DNPU)

DNPU 699 Independent Doctorate Special Topic
Prerequisite: Admission to graduate studies.
This course allows students to take an additional independent special doctoral-level topic credit as determined by gap analysis or degree audit. This course is graded on a Pass/No Pass basis. Permission of Program Director or DNP CSP Chair is required. 1 credit.

DNPU 700 Healthcare Policy, Organization and Delivery
This course comprehensively reviews the U.S. healthcare delivery system in the following areas: history, policy, population characteristics, trends in health services access and utilization, structure, financing, organization and delivery of services, civility in healthcare services, advancing medical technology, and the changing policy environment. Students will explore current medical issues such as increased competition, major organizational restructuring and consolidation, a rapidly changing science base, and increased government regulation. 3 credits.

DNPU 701 Biostatistics for Clinical Practice
This course will provide students with the skills to evaluate the statistics reported in research and evidence-based practice that are being used to determine a course of treatment for a select population. Students will examine the principles of statistical inference and their application to the analysis and interpretation of epidemiological, psychosocial, medical, nursing, and other healthcare data. This course requires students to attend a face-to-face Immersion. 3 credits.

DNPU 702 Innovations in Technology and Information Access
This course will examine the principles of effective information and communication systems with a focus on evaluating and using emerging technologies in innovative clinical practice and health care management. The changing role of technology, its use and abuse, and the barriers to implementation will be covered. 3 credits.

DNPU 703 Leading Through Innovation
This advanced leadership course focuses on the theories and practices needed to effectively lead innovative change to transform health care in the context of evidence-based thinking. Students are given the opportunity to develop an innovation philosophy for leading organizations using evidence-based practices now and in the future. Characteristics of the intuitive leader will be discussed. The course emphasizes the role of the DNP in the creation of an organizational context for innovation. Students will explore strategies for diffusion of innovation in complex, adaptive healthcare organizations. 3 credits.

DNPU 704 Evidence-Based Thinking for Scholarship And Practice III
This course will examine qualitative and quantitative methods for creating and using evidence in research, quality improvement, program evaluation, risk management, and clinical practice. Students will develop the idea for the final clinical scholarly project, and review instruments for data collection. This course requires students to attend a face-to-face Immersion and there is an associated nursing fee. 3 credits.

DNPU 705 Health Communication
Students explore the history and development of health communication. The course will review theory and practice, formative research, data collection, and data analysis relating to emerging trends in the field of health communication. The course cuts across multiple levels of communication, different communication channels, and the use of diverse communication media and technologies to address far ranging issues within the field. 3 credits.

DNPU 706 Transforming Health Care Through Outcomes Management
This course focuses on the proactive management of clinical and service outcomes at all organizational levels to provide students with the ability to integrate outcomes into the routine flow of service delivery. Emphasis will be placed on understanding how measurement and data can be used to balance quality services and financial viability. Students will learn a framework that synthesizes theory and practice from the areas of continuous quality improvement, organizational learning and institutional organizing. This framework will focus on the organizational operating environment, to include input, throughput, output, and outcomes. Students’ learning will include building a framework for manipulation and analysis of service, cost, systems and outcome data. The course culminates with the creation of an outcomes measurement and management plan for the problem-focused DNP clinical scholarly project in which students address actual outcomes management problems encountered in the field. 3 credits.

DNPU 707 Clinical Residency I for PM-DNP Clinical Scholarly Project
Prerequisites: DNPU 701, 704 and 706.
This course is a synthesis of all previous didactic courses in the PM-DNP curriculum, and allows application of knowledge in clinical and other professional settings. This is the first of two clinical residency courses in the Post-Masters to DNP program. Students will accumulate 255 clinical hours that may be attained in a variety of settings appropriate to their advanced practice nursing specialty area and clinical scholarly project to demonstrate practice and mastery of the first four (4) AACN (2006) Essentials of Doctoral Education for Advanced Nursing Practice (I-V). This course is graded on a Pass/No Pass Basis. 3 credits.

DNPU 708 Application of DNP Clinical Scholarly Project
Prerequisite: DNPU 700 through 706.
This final course synthesizes the experience of implementing an evidence-based practice investigation, including data analysis, evaluation, and dissemination. Students will complete a comprehensive written report of the DNP clinical scholarly project, as well as deliver a live oral defense presentation to faculty and peers. This course is graded on a Pass/No Pass basis. 3 credits.

DNPU 709 Clinical Residency II for PM-DNP Clinical Scholarly Project
Prerequisites: DNPU 701, 704, 706 and 707.
This course is a synthesis of all previous didactic courses in the PM-DNP curriculum, and allows application of knowledge in clinical and other professional settings. This is the second of two clinical residency courses in the Post-Masters to DNP program. Students will accumulate 255 clinical hours that may be attained in a variety of settings appropriate to their advanced practice nursing specialty area and clinical scholarly project. Students will demonstrate practice and mastery of the last four (4) AACN (2006) Essentials of Doctoral Education for Advanced Nursing Practice (V-VIII). This course is graded on a Pass/No Pass basis. 3 credits.
DNPU 710 Seminar in Evidence-Based Thinking for Scholarship and Practice
Prerequisites: DNPU 701, 704 and 706.

This course will provide students with the opportunity to develop a tailored plan of study relevant to the student’s clinical scholarly project. This course is graded on a Pass/No Pass basis. 3 credits.

DNPU 711 Clinical Residency for BSN-DNP and Post-Masters adding a Specialty Clinical Scholarly Project
Prerequisites: DNPU 701, 704 and 706.

This course is a synthesis of all previous didactic courses in the BSN-DNP curriculum, and allows application of knowledge in clinical and other professional settings. Students will accumulate 255 clinical hours that are attained in a variety of settings appropriate to their advanced practice nursing specialty area and clinical scholarly project to demonstrate practice and mastery of all eight (8) AACN (2006) Essentials of Doctoral Education for Advanced Nursing Practice (I-VIII). This course is graded on a Pass/No Pass Basis. 3 credits.

DNPU 799 Independent Practicum for DNP CSP Completion
Prerequisite: Admission to graduate studies.

This course allows students to complete the required clinical scholarly project (CSP) hours and/or manuscript. Students are expected to maintain communication with their DNP CSP Chair and update them on the progress of the CSP. Permission of the DNP CSP Chair is required and there is a continuing DNP candidacy fee. This course is graded on a Pass/No Pass basis. 0 credits.
DOCTORATE IN EDUCATION ORGANIZATIONAL LEADERSHIP (EDOL)

EDOL 700 Transformational Leadership
In this foundational course, the relationship between personal transformation and organizational transformation will be explored. Students will analyze their emotional intelligence, personal values, beliefs, personality type and leadership style and engage in a 360 degree assessment to identify strengths and growth areas, which will be incorporated into a comprehensive Transformational Leadership Portfolio. The latest leadership theories and best practices will be used in developing a personal leadership philosophy and vision statement. Students will explore potential areas of transformational change and what drives them. 3 credits.

EDOL 705 Organizational Communication and Conflict Management
This course examines the theories, structure, and processes of communication and conflict management found in effective organizations. Students will reflect on their own communication behaviors and learn strategies for engaging others in crucial conversations and coaching conversations as a means to manage conflict and improve relationships, accountability, performance, and morale. A communication audit and plan will be developed based on a selected organization and will be included as part of their Transformational Change Project. 3 credits.

EDOL 706 Team and Group Dynamics
This course explores the characteristics of effective teams, the stages of group development and team processes such as motivation, group cohesion, role assignment, and norms. The importance of the task and relationship continuum and the role of conflict will be examined. Students will apply the principles of group development and team building, and evaluate team effectiveness. 3 credits.

EDOL 707 Organizational Theory and Development
This course examines the body of organizational concepts and theories to build the students’ capacity to discover or invent effective means for creating transformational change. Major Organizational Development (OD) themes such as planned change, consultation, organizational culture, and action research will be explored. During this course, students must complete an application that identifies the organization in which they will be conducting their TCP and have it signed off by the cohort mentor and the organization’s representative. 3 credits.

EDOL 708 Strategic Thinking
Each student works with a selected organization, and the respective leadership team, to develop a strategic implementation plan for their Transformational Change Project. Development of the plan is based on systematic assessment of external and internal environments, future trends, input from stakeholders throughout the organization, development of goals, strategies and implementation plans in a collaborative environment built on trust. Additionally, this course requires the student to examine their strategic thinking skills, to apply strategic leadership principles, and gain insights for improvement. 3 credits.

EDOL 709 Assessment, Evaluation, and Accountability
Students will examine methods to develop, implement, and support a variety of evaluation plans and assessment efforts to determine the degree to which initiatives, programs, strategies, and interventions are implemented effectively and as intended. The influences of culture, political interests, stakeholder needs, organizational resources and ethical considerations will be explored. In addition factors associated with plan implementation and accountability will be addressed. Students will focus on developing a Program Evaluation Plan based on the Transformational Change Project. 3 credits.

EDOL 720 Creativity, Innovation, and Sustainable Change
Theories of innovation and creativity will be explored to initiate new forms of entrepreneurship and intrapreneurship. Case studies and other readings offer an examination of how creativity, insight and innovation work together to create and sustain authentic change. Students will learn strategies to harness the power of meaningful innovation through collaboration, divergent and convergent thinking, planning, and action. 3 credits.

EDOL 721 The Ethics and Politics of Decision Making
This course explores the role of organizational politics, power, values and ethical standards in decision-making. Significant focus is placed on various contemporary theories and practices for effective decision-making. Various models and frameworks for analyzing problems are examined in depth. 3 credits.

EDOL 722 Diversity and Intercultural Aspects of Leadership
The role that leadership plays in addressing issues of diversity and equity in the workplace will be examined in depth. Students will analyze and critique theoretical frameworks for diversity leadership, examine power dynamics and issues of social justice. A personal philosophy of diversity and intercultural aspects of leadership will be designed along with an action plan that leads to transforming an organization into one that is equitable, respectful, and responsive to diversity. 3 credits.

EDOL 723 Innovation in Resource Management
Students will survey innovative strategies in Human Resources (workforce development and training, management, motivation and creativity, assessing performance/compensation, and collective bargaining/labor-management relations) and Financial Resources (budgeting strategies, reallocation of resources to achieve strategic balance, maximizing assets/limiting liabilities). Students will explore develop and present an entrepreneurial plan for expanding resources within their organization. 3 credits.

EDOL 724 The Leader as Change Agent
Prerequisite: Successful completion of EDOL 780.

In this course, students will use their experience with the implementation of their Transformational Change Project (TCP) as the basis for a seminar on transformational change and the role of the leader as a change agent. Change models and organizational development (OD) intervention strategies will be analyzed in the context of the TCP experience to determine best practices. The course will emphasize the importance of individual leadership development and reflection as a tool for continuous improvement. Students will examine their experiences with transformational change. Students will develop findings, conclusions, recommendations for further change efforts related to their TCP and share those in a scholarly manner. A final analytical paper, and creation of a Portfolio documenting the student’s growth, is required for Advancement to Candidacy. 3 credits.
EDOL 750 Writing for Research and Publication I
This course introduces students to the dissertation process early in their program. It will focus on academic writing, APA guidelines, topic selection strategies and advanced research skills necessary for designing and crafting a dissertation. Students will engage in library research and will learn how to critique research. 2 credits.

EDOL 751 Writing for Research and Publication II
Building on the material presented in EDOL 750, students will continue to work on developing their academic writing skills and develop a brief Review of the Literature. Students will also examine multiple routes for developing a dissertation focus and strategies for successful completion. 2 credits.

EDOL 752 Quantitative Research Methods I
The purpose of Quantitative Methods I & II is to develop students into informed users and consumers of scholarly quantitative research and statistics. The focus of these courses is upon the development of an understanding of the elements and structure of quantitative research, the statistical methods and processes that support it, and the development of basic skills necessary to analyze, develop, and complete quantitative research projects. This course will specifically focus on the types of quantitative methodologies, research design, types of data, research question development, population and sample. Critical research evaluation and analysis will also be presented. 2 credits.

EDOL 753 Quantitative Research Methods II
This course builds on the learning from Part I and moves more deeply into descriptive and inferential statistics, understanding and use of tools for statistical tests of difference and correlation. Matching statistical tests to data and research design will also be presented culminating in a quantitative Chapter 3 Methodology Chapter draft. 2 credits.

EDOL 754 Qualitative Research Methods I
This course will provide an introduction to qualitative methods of research. Theoretical foundations for qualitative research will be reviewed such as case study, grounded theory, phenomenology, and ethnography. Methods for qualitative data collection such as interviews, observation, document analysis, and Internet research will be covered. 2 credits.

EDOL 755 Qualitative Research Methods II
This course will provide a continued introduction to qualitative methods of research. Qualitative data analysis procedures such as coding data, generating themes, triangulation of data, and use of technology will be introduced and applied. Reliability, validity, and generalizability of qualitative data will be evaluated. 2 credits.

EDOL 780 Transformational Change Field Experiences
This project presents an opportunity for students to demonstrate mastery of competencies in program-wide learning objectives through field experience. Students implement their Transformational Change Project (TCP) within a specific organization. Students will apply theory learned in all coursework to date in the implementation of their TCP in a real world setting. This clinical practice will be conducted under the supervision of a Cohort Mentor. The TCP is a comprehensive, culminating experience that must be successfully completed in order to Advance to Candidacy. This course is a prerequisite for EDOL 724. Graded on a Pass/No Pass basis. 3 credits.

EDOL 790 Developing the Dissertation Prospectus
This course will guide students in developing a dissertation prospectus. Based on a review of literature, students will develop a proposed Chapter 1 and a tentative plan for methodology of their proposed dissertation. This is a prerequisite for Advancement to Candidacy. Graded on a Pass/No Pass basis. 3 credits.

EDOL 791 Dissertation I
After successfully completing the requirements for Advancement to Candidacy, students are eligible to secure a Dissertation Chair to guide their progress in developing an original research project. Building on the prospectus they produced in an earlier class, students will create a dissertation proposal that includes the purpose and research questions in Chapter I, synthesize a review of the literature in Chapter II, and a proposed plan for the methodology in Chapter III. The student’s Chapters I-III must be approved by Quality Review prior to receiving approval to schedule the Proposal Defense. Students will prepare for the proposal defense, and successfully defend the proposal. Graded on a Pass/No Pass basis. 3 credits.

EDOL 792 Dissertation II
In this course, students will complete and submit BUIRB application and implement the research methodology. They will complete Chapters IV and V of the dissertation through the collection, analysis and interpretation of data, write up their findings, develop conclusions, recommendations for further research and implications for practice based on results of the study. They will defend their dissertation in an oral defense and make all revisions required by their Dissertation Chair in consultation with their committee. Following the oral defense, students will send the dissertation to the Leatherby Library for publication. Graded on a Pass/No Pass Basis. 3 credits.

EDOL 799 Dissertation Extension
This course allows students additional time to complete the dissertation elements beyond EDOL 792. This course is graded with a SP or NP grading option until successful completion of all elements of EDOL 792. Please see Tuition and Fees section of the catalog for the corresponding Ed.D. Continuing Candidacy fee. 0 credits.
EARLY CHILDHOOD EDUCATION (ECED)

ECED 100 Child Growth and Development
This course examines the major physical, psychosocial and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. Eight hours of field experience is required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 110 Child, Family, and Community
An examination of the developing child in a societal context focusing on the interrelationships of family, school and community and emphasizes historical and socio-cultural factors. The processes of socialization and identity development will be highlighted, showing the importance of reciprocal relationships that support and empower families. Five hours of field experience is required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 120 Principles and Practices of Teaching Young Children
Prerequisite: ECED 100.
An examination of the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for children. This course includes a review of the historical roots of early childhood programs and the evolution of professional practices promoting advocacy, ethics and professional identity. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 130 Introduction to Curriculum for Young Children
Prerequisites: ECED 100, ECED 120.
This course presents an overview of knowledge and skills related to providing appropriate curriculum and environments for young children from birth to age six. Students will examine teachers' role in supporting development and fostering the joy of learning for all young children. In addition, observation and assessment strategies and the role of play are highlighted. An overview of content areas will include but not be limited to: language and literacy, social and emotional learning, art and creativity, math and science. Ten hours of field experience are required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 200 Observation and Assessment in Early Childhood Education
Prerequisite: ECED 100.
This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play and learning in order to join with families and professionals in promoting children's success and maintaining quality programs. Recording strategies, rating systems, portfolios and multiple assessment methods are explored. Ten hours of field experience is required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 210 Practicum in Early Childhood Education I
Prerequisites: ECED 100, ECED 110, ECED 120, ECED 130, ECED 200.
Students are also encouraged to have taken ECED 200 and ECED 230. Also required are valid Negative TB test and a valid Certificate of Clearance or Child Development Permit. A demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning and assessment, and knowledge of curriculum content areas will be emphasized as practicum students design, implement and evaluate experiences that promote positive development and learning for all young children. Graded on a Pass/No Pass basis. Sixty hours of field experience is required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 220 Health, Safety, and Nutrition
Introduction to the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health, safety and nutrition. The key components that ensure physical health, mental health and safety for both children and staff will be identified with the importance of collaboration with families and health professionals. Focus on integrating the concepts into everyday planning and program development for all children. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 230 Teaching in a Diverse Society
Prerequisite: ECED 100.
Examination of the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms and teaching. Various classroom strategies will be explored emphasizing culturally and linguistically appropriate anti-bias approaches to support all children in becoming competent members of a diverse society. Course includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media and schooling. Three hours of field experience are required. This course is part of the Curriculum Alignment Project (CAP 8). 3 credits.

ECED 300 The Professional Early Childhood Educator
Prerequisite or Corequisite LBSU 302.
This course provides a broad orientation to the profession of early childhood education, including ethical responsibilities and effective communication. Students will conduct an L-Search in which they explore the following about ethics in early childhood education: their background knowledge, what they want to know, the ways they will seek this knowledge, what they learned and what this experience has taught them. One hour of field experience is required. 3 credits.
ECED 301 Effective Support for Children with Exceptional Needs and Their Families
Prerequisites: LBSU 302, ECED 100, ECED 110, ECED 120, ECED 130, ECED 200, ECED 210, ECED 220, ECED 230, and ECED 300.

This course introduces students to the field of early childhood special education as well as the legal and educational basis for intervention with an emphasis on serving children in their natural environment. Students will examine a variety of disabilities and at-risk conditions. They will explore ways to collaborate with families and other professionals to improve educational outcomes for young children with exceptionalities, disabilities and/or the gifted. Ten hours of field experience is required. 3 credits.

ECED 302 Social and Emotional Competence in Early Childhood Education
Prerequisites: LBSU 302, ECED 100, ECED 110, ECED 120, ECED 130, ECED 200, ECED 210, ECED 220, ECED 230, ECED 300.

This course focuses one understanding and implementing evidence-based practices for promoting children’s social and emotional development and preventing challenging behaviors. Students will examine the critical nature of emotional support and responsive relationships as they relate to promoting the social and emotional competence of young children. 3 credits.

ECED 303 Integrated Learning Standards in Early Childhood Settings: Language & Literacy
Prerequisites: ECED 300, ECED 330.

No Prerequisites are needed if candidates are using this course to obtain an Early Childhood Special Education credential. In this course, students will enhance their understanding of language and literacy development and use this knowledge to develop lessons and activities that promote language and literacy development and skills. They will examine learning foundations or standards, which describe the knowledge and skills that young children can be expected to demonstrate at various age ranges and use these competencies to intentionally plan environments, activities and instruction. Three hours of field experience is required. 3 credits.

ECED 304 Integrating Learning Standards in Early Childhood Settings: Mathematics and Science
Prerequisites: ECED 300, ECED 330.

In this course, students will enhance their understanding of mathematics development and science content in ECE. They will use this knowledge to develop lessons and activities that promote numeracy and math development and skills. Students will examine learning foundations or standards, which describe the knowledge and skills that young children can be expected to demonstrate at various age ranges and use these competencies to intentionally plan environments, activities and instruction. 3 credits.

ECED 326 Infant and Toddler Care and Education
This course applies current theory and research to the care and education of infants and toddlers in group settings. Examines essential policies, principles and practices that lead to quality care and developmentally and culturally appropriate curriculum for children birth to 36 months. Emphasis on establishing and facilitating supportive reciprocal relationships. Eight hours of fieldwork are required. This course aligns with the Curriculum Alignment Project (CAP 8) Expansion. 3 credits.

ECED 330 Dual Language Learners and Their Families
Prerequisites: LBSU 302, ECED 100, ECED 110, ECED 120, ECED 130, ECED 200, ECED 210, ECED 220, ECED 230, ECED 300.

Prerequisites not required for candidates in the Early Childhood Special Education credential program. This course focuses on young children who are learning more than one language. Students will identify the paths to multiligualism, and factors affecting second language acquisition. Based on these understandings, students will implement strategies for fostering and assessing dual language learners’ language, literacy, and learning. 3 credits.

ECED 398 The Intentional, Reflective Teacher
Prerequisites: Curriculum Alignment Project Eight, ECED 300, ECED 301, ECED 302, ECED 330 ECED 303 and ECED 304.

In this course, candidates focus on effective practices in early care and education. Candidates will explore the Classroom Assessment Scoring System (CLASS) and the ways the CLASS domains and dimensions connect with CA Early Childhood Educator Competencies. They apply knowledge from previous coursework and develop skills in planning developmentally appropriate learning experiences, integrated instruction and engaging learning environments. 3 credits.

ECED 399 Integrated Practice-Practicum II
Prerequisite or Corequisite: ECED 398.

Also required are a valid Negative TB test and a valid and active Certificate of Clearance or a Child Development Permit. In this course, students apply knowledge from previous coursework and develop skills in planning and implementing developmentally appropriate learning experiences, integrated instruction and learning environments. Candidates complete 60 hours of fieldwork in an Early Childhood Education setting. Candidates who are employed as ECE teachers may complete the fieldwork in their own classrooms with the support of a Supervising Professional at the site. Candidates who are not employed in an ECE setting will select a practicum site and complete their fieldwork in a Supervising Professional’s classroom. An Early Childhood Education University Supervisor will observe and evaluate candidates regularly. Students will use the CA Early Childhood Educator Competencies and Classroom Assessment Scoring System (CLASS) domains—Emotional Support, Classroom Management and Instructional Support—to plan and reflect upon their practices. Graded on a Pass/No Pass basis. 3 credits.

ECED 401 The Early Childhood Educator as Decision Maker-Capstone
Prerequisite ECED 398 and ECED 399 or ECED 400. During this course, students will integrate understandings of child development, learning theory, assessment and learning foundations to develop and maintain healthy, safe, supportive and challenging learning environments and instruction for young children. Students will analyze research and develop a proposal to address a challenge they have identified within the early childhood setting. 3 credits.
ECED 410 Engaging Interactions and Environments Providing a Solid Foundation for Young Children’s Development
This course is designed to increase participants’ knowledge about the importance of high quality early childhood education and the specific types of environments and interactions that support the development of social-emotional, cognitive, and early academic skills. Students will engage in practice-based coaching experiences that enable them to explore multiple ways to design well-organized, materials-rich environments and to implement warm, responsive, and instructionally supportive interactions with children. Course content is aligned with NAEYC Standards 1, 4 and 7 as well as the following CA Early Childhood Educator Competencies: Child Development and Learning; Relationships, Interactions & Guidance; and Learning Environments & Curriculum. 3 credits.
ECONOMICS (ECNU)

ECNU 201 Principles of Macroeconomics
The study of economics necessitates an understanding of the principles that govern the operation of the economic system. This course focuses attention on the aggregate (macro) relationships and gives attention to the central problems of economic organization, the functioning of the price system, the economic role of government, the determination of national income and a brief glance at economic policy. 3 credits.

ECNU 202 Principles of Microeconomics
This course covers the theory and application of microeconomics. Topics include competition and monopoly, pricing, consumer demand, and producer supply. Labor markets, global economies, and regulations/antitrust policies are described. 3 credits.
EDU 350 Teaching and Learning
This course focuses on theories of learning, motivation, and development as they relate to the design of learning environments and instructional practices. Students will analyze physical, emotional, social, and cognitive factors that affect development and examine individual and group differences in learning. Behavioral, cognitive, social cognitive, and constructivist learning theories will be explored as well as the role that motivation plays in the teaching/learning process. Fieldwork experiences in public schools and other educational settings will provide students with the opportunity to explore key course concepts. A minimum of 10 hours of fieldwork is required for this course. 3 credits.

EDU 500 Selected Topics in Education
Covers special topics related to education. Experimental courses are developed subject to emerging student and/or employer demands. Topics vary. Courses that examine different topics may be repeated for up to nine credits. 3 credits.

EDU 510 Introduction to Teaching
Prerequisites: 2.75 GPA or equivalent. This course is designed for credential candidates and sets the stage for building an understanding of the teaching profession by providing basic background information about the philosophical, psychological, socio-cultural, legal and historical foundations of education in the United States.

Additionally, candidates will be encouraged to examine their assumptions about teaching and learning in light of classical learning theory, language acquisition theory and current theories of brain compatible learning. A major emphasis of the class will be an examination of classroom management theories and techniques, management skills, parent involvement activities and other behaviors that help a teacher to successfully practice in the profession. Candidates will begin their professional teaching portfolio in this course. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDU 511 Collaboration For Inclusive Schooling
This course is designed for teaching credential candidates. The course focuses on collaboration, inclusive schooling, the understanding of disabilities, working with diverse families of students with disabilities, legal aspects of special education, and becoming an effective change agent in the schools. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDU 512 The Art & Craft of Teaching
Prerequisites: EDU 510 (may be taken concurrently).

This course is designed for credential candidates. The art of teaching is to truly know the when, the where, the why and for whom the craft of teaching applies. The course fosters an understanding of learning theory, instructional models, assessment strategies, and pedagogical knowledge that transcends subject matter. At the heart of the art and craft of teaching is the application of concepts, principles and values necessary to create and sustain a just democratic society and apply them to ensure each student has optimum opportunities to learn. Candidates work collaboratively to select and apply appropriate teaching strategies that promote learning for diverse learners. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDU 513 Student Health and Safety
This course provides the content knowledge needed for a thorough understanding of how the promotion of a healthy and safe life-style impacts the developments of students. Teacher candidates study and apply effective instructional methods that encourage a) life-long physical fitness, b) healthy living, and c) behavior that reflects concern for safety factors. 2 credits.

EDU 514 Physical Education for Elementary Teachers
This course covers developmentally appropriate motor skills and physical education activities, knowledge of meaningful rules and strategies for games and sports, and strategies for building self-confidence and self-worth in relationship to physical education and recreation. 1 credit.

EDU 515 Teaching the Adult Learner
This course offers a base upon which the individual will create an understanding of both the art and the science of teaching adult learners by providing basic background information on prominent learning theories and how they relate specifically to adult development and learning. A major emphasis of the class will be an exploration of scholarly works, contemporary theories, assessment and validity issues, appropriate activities, essential tools, and a multitude of resources all focused toward enabling a teacher of adult students to be a successful educational practitioner. 3 credits.

EDU 519 Teaching Students with Mild/Moderate Disabilities
Prerequisites: EDU 510, EDU 511.

Education of children, youth, and young adults with mild/moderate disabilities provides a knowledge base and introduces skills necessary for the teacher in contemporary educational environments to assess, plan for, instruct and evaluate students with mild/moderate disabilities. A minimum of 10 hours of field experience is required for the course. 3 credits.

EDU 526 Theories in Language Structure and Acquisition
Candidates explore current theories of language acquisition, focusing on issues involved in first and second language development and comparative/contrastive linguistics and its influence on second language acquisition. This course provides an overview of state-designated assessment instruments and educational program placement options. Required for CLAD certificate. 3 credits.

EDU 527 English Language and Literacy Development
Prerequisites: Successful completion EDU 570 or EDU 526.

This course engages candidates in integrated and thematic multilingual pedagogy founded upon the need for students to be social and communicative in their learning. It focuses on applying theoretical models to the learning of English. Candidates examine bilingual methodologies, focusing on the practical aspects of teaching, organizing and managing classroom to meet the needs of English language learners. Required course for CLAD certificate. 3 credits.

EDU 528 Content-Based Instruction and Assessment for Linguistic Minority Students: SDAIE
Prerequisites: Successful completion EDU 570 or EDU 526.

Candidates examine current approaches and strategies appropriate for content area instruction through specially-designed instruction delivered in English (sheltered English). Coursework includes learning/teaching processes, social interactions, teacher delivery approaches, and alternative assessment. Candidates are required to develop lessons and lesson presentations. Required course for CLAD certificate. 3 credits.
EDUU 544 Student Teaching Seminar I
Co-requisite: EDMU 582, or EDSU 592, or EDTU 572 or EDTU 573.

This seminar course is taken concurrently with Directed Teaching I and provides student teachers with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. Candidates focus on developing effective classroom management strategies, planning for and implementing differentiated instruction, and assessing student learning. The elements of CalTPA are addressed. The course also provides a forum for discussion and problem solving based on student teaching classroom experiences. 2 credits.

EDUU 545 Student Teaching Seminar II
Prerequisite: EDDU 544.

Co-requisite: EDMU 583, or EDSU 593, or EDTU 592 or EDTU 593.

This seminar course is taken concurrently with Directed Teaching II and provides student teachers with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. Candidates focus on developing effective classroom management strategies, planning for and implementing differentiated instruction, and assessing student learning. The elements of CalTPA are addressed. The course also provides a forum for discussion and problem solving based on student teaching classroom experiences. 2 credits.

EDUU 546 Internship Seminar I
Co-requisite: EDMU 580 A, B, C, or EDSU 590 A, B, C, or EDTU 570 A, B, C or EDTU 571 A, B, C, or EDTU 560 A, B, C.

This seminar course is taken concurrently with Supported Teaching I and provides interns with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. Candidates focus on researching and utilizing effective classroom management, strategies, planning for and implementing differentiated instruction, and assessing student learning. An emphasis is placed on providing safe and engaging learning environments for students. The course also provides a forum for discussion and problem solving based on classroom experiences and contributes to candidates’ preparation to complete the CalTPA Teaching Performance Assessments. 1 credit.

EDUU 547 Internship Seminar II
Co-requisite: EDMU 580 A, B, C, or EDSU 590 A, B, C, or EDTU 570 A, B, C or EDTU 571 A, B, C, or EDTU 560 A, B, C.

This seminar course is taken concurrently with Supported Teaching I and provides interns with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. The course also provides a forum for discussion and problem solving based on classroom experiences and contributes to candidates’ preparation to complete the CalTPA Teaching Performance Assessments. 1 credit.

EDUU 548 Internship Seminar III
Co-requisite: EDMU 580 A, B, C or EDMU 581A, or EDSU 590 A, B, C or EDSU 591A, or EDTU 570 A, B, C or EDTU 590A, or EDTU 571 A, B, C or EDTU 591A, or EDTU 560 A, B, C or EDTU 561A.

This seminar course is taken concurrently with Supported Teaching I and provides interns with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. Candidates focus on developing effective classroom management strategies, planning for and implementing differentiated instruction, and assessing student learning. An emphasis is placed on assessment strategies and assessment adaptations that support student learning. The course also provides a forum for discussion and problem solving based on classroom experiences and contributes to candidates’ preparation to complete the CalTPA Teaching Performance Assessments. 1 credit.

EDUU 549 Internship Seminar IV
Co-requisite: EDMU 581A or EDSU 591A or EDTU 590A or EDTU 591A, or EDTU 561A.

This seminar course is taken concurrently with Supported Teaching II and provides interns with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. Candidates focus on developing effective classroom management strategies, planning for and implementing differentiated instruction, and assessing student learning. An emphasis is placed on professional, legal and ethical issues in education and professional growth. The course also provides a forum for discussion and problem solving based on classroom experiences and contributes to candidates’ preparation to complete the CalTPA Teaching Performance Assessments. 1 credit.

EDUU 551 Educational Applications of Computers Level I
This course provides an overview of current computer-based technologies used in a variety of educational settings within and across all curriculum content areas. Emphasis is on making significant changes in teaching and learning through technology by providing a match between instructional strategies and relevant technologies. Focus is on information and communication technologies as a means of gathering, processing, and communicating information. Critical issues include access, equity, privacy, safety, and ethical situations surrounding technology. Hardware and software applications will be evaluated as effective tools of instruction for a constructivist learning environment. 3 credits.

EDUU 558 Advanced Internship Seminar I
Co-requisite: EDMU 580-D or EDSU 590-D, or EDTU 570 –D or EDTU 571-D or EDTU 560-D.

This seminar course is taken concurrently with Supported Teaching I and provides interns with opportunities to integrate and reflect on knowledge and skills acquired during clinical practice experiences. The course focuses on researching and utilizing effective classroom and teaching practices, designing curriculum, and using assessment data to inform instruction. An emphasis is placed on the candidate’s ability to monitor the improvement of their own performance over time. The course also provides a forum for discussion and problem solving based on classroom experiences. 2 credits.
EDUU 559 Advanced Internship Seminar II
Co-requisite: EDMU 580-F or EDSU 590-F or EDTU 570-F or EDTU 571-F or EDTU 560-F.

This seminar course is taken concurrently with Supported Teaching I and provides interns with opportunities to engage in systematic inquiry into their own practice and conduct research on effective teaching practices that can be applied to the classroom. An emphasis is placed on engaging in professional development opportunities and expanding professional networks. The course also provides a forum for discussion and problem solving based on classroom experiences. 2 credits 2 credits.

EDUU 560 Teaching Students with Moderate/Severe Disabilities
Prerequisites: EDUU 510, and 511.

This course addresses the education of children, youth, and young adults with moderate/severe disabilities providing a knowledge base and introducing the skills necessary for teachers in contemporary educational environments to assess, plan for, instruct and evaluate students with moderate/severe disabilities. A minimum of 10 hours of field experience is required for the course. 3 credits.

EDUU 570 Voice, Diversity, Equity, and Social Justice

Students focus on the disenfranchised of California's schools, including females, certain immigrant as well as native populations, people with disabilities, and people of lower socio-economic means, with particular emphasis on the unique challenges such diversity brings to the classroom. The history, culture, and expectations of these groups are emphasized as they apply to teaching and counseling and the fostering of cross-cultural respect among California's diverse populations. A minimum of 15 hours of field experience is required. Required for CLAD certificate. 3 credits.

EDUU 575 Introduction to Autism Spectrum Disorders: Etiologies and Characteristics

Candidates are introduced to the characteristics of Autism Spectrum Disorders (ASD), and current and reliable research and practice on ASD. Candidates will identify service providers and stakeholders who are involved with individuals with ASD. The impact of ASD on families, and how to collaborate to address those needs are discussed. Candidates will begin to create a website that will act as a resource for families and educators collaborating to meet the academic, behavioral, social, communication, sensory, and transition needs of individuals with Autism. Completion of 5 hours of observation of a child with autism is required. This course may be taken in partial completion of an Autism Certificate, Autism, added Authorization, and/or the Master of Arts in Special Education, emphasis in Autism. 3 credits.

EDUU 599 Independent Study

Supervised independent study or research on a special problem or in a selected area of education. This course may be repeated for credit providing the content is different. 1-3 credits.

EDUU 600 Research and Evaluation Methods

This course examines qualitative, quantitative and mixed method research designs and methodologies. Students will learn to analyze and evaluate educational research and utilize research techniques. Topics include experimental, non experimental and mixed research designs, methods of data collection and analysis, descriptive statistics, and threats to validity. Students learn to utilize APA formatting and examine issues related to plagiarism and academic integrity. 3 credits.

EDUU 602 Positive Behavior Supports
Prerequisites for education students: EDUU 510 and 511. School psychology and school counseling students have no Prerequisites for this course. A study of theories, practices and ethical issues in modifying and remediating behavior with an emphasis on creating positive, productive school climates and implementing effective, positive and respectful applied behavior analysis techniques. A minimum of 10 hours of authentic field experience is required for this course. 3 credits.

EDUU 603 Instructional Supports for Communication, Language and Literacy
Prerequisites: EDUU 510 and 511.

This course involves the study of language-based disabilities and emphasizes the critical importance of general and special educators acquiring an understanding of the implications of serving this population. The course also includes an overview as well as guided-practice in the application of best-practices for assessment and teaching of these students, including those with autism spectrum disorders, speech and language impairments, and reading and written language disabilities. A minimum of 10 hours of authentic field experience is required for this course. 3 credits.

EDUU 605 Democracy, Education and Social Change
Prerequisite: EDUU 600.

Students examine the relationship between democratic theory, educational practice, and social change. Specific attention is paid to theories of democracy, the democratic nature of historical and current reform efforts, the contradictions and dilemmas of schooling, and the ways in which schooling might influence social change. 3 credits.

EDUU 606 Seminar in Learning Theory
Prerequisite: EDUU 600.

This course helps students to develop an understanding of how people process information and learn; studies the history, content and educational applications pertaining to intelligence and thinking dispositions. Students study various learning theories and their implications for instruction. This includes the development of the mind and brain and their role in education. 3 credits.

EDUU 607 Seminar in Comparative Education
Prerequisite: EDUU 600.

An introduction to educational philosophies, methods, patterns of control, financing, organization and relationship with the larger society in selected countries of the world, including the United States. Comparison and a comprehensive social science methodology is emphasized. Students examine historical, political, economic, and social factors. Systems compared are drawn from all regions of the world. 3 credits.

EDUU 608 Seminar in the Social Foundations of Education
Prerequisite: EDUU 600.

A critical study of schooling, society and culture. Students explore the major ideological schools of thought regarding how the interactions between school and society can best be understood. Social science methodologies including quantitative, qualitative, and participation and application of both social science and humanities insights are important components of the course. 3 credits.
EDUU 609 Seminar in Curriculum Studies
Prerequisite: EDUU 600.

Historical, philosophical, and sociopolitical influences on the curriculum of American public schooling are examined. Curriculum design and evaluation strategies will be considered. The role of teachers and educational support staff in curriculum decision-making, and their potential role as leaders of educational change, are included. 3 credits.

EDUU 610 The Teacher As Scholarly Practitioner
Prerequisites: Acceptance in the Master of Arts in Teaching program or the MAE Professional Learning Community emphasis, a cumulative grade point average of 3.0 and EDUU 600.

Candidates in the MAT program must also have completed all credential coursework (with the exception of student teaching). The purpose of this course is to acquaint candidates with the concept of action research and to support them as they develop an action research proposal based on their own educational setting. The course is designed to enable candidates to understand the fundamental principles to a critical analysis of their own pedagogy and the learning outcomes of their students. The course will engage the participants in systematic inquiry into their own practice by helping them to frame appropriate questions, gather and interpret data, examine and analyze that data and attempt to find answers to the questions posed. Master of Arts in Teaching candidates must complete an action research proposal as part of their Demonstration of Mastery for the degree. 3 credits.

EDUU 611 Action Research Development
Prerequisite: EDUU 610.

The purpose of this course is to allow candidates who developed the design for their action research proposal in EDUU 610 to complete their proposal in the form of a written four chapter paper. The action research proposal is the demonstration of mastery for the Master of Arts in Teaching program. 3 credits.

EDUU 612 Domestic Experiential Education
This course prepares students to utilize University and Governmental Agency field stations, or comparable learning sites, through an on-site residential program. Students will be surrounded by the local history, culture, and unique ecosystems of the region. Classroom observations within the local K-12 school system will culminate the experience. 3 credits.

EDUU 613 International Experiential Education
This course prepares students to utilize University and Governmental Agency field stations, or comparable learning sites around the world, through an on-site residential program at a field station. Additionally, it provides students with a limited immersion experience in the host country. Students will be immersed in the culture, language and history of field station's host country. Classroom observations within the K-12 school system of the host country will culminate the experience. This course is designed for K-12 teachers at all grade levels and disciplines, as well as students in the Master of Arts in Education program. EDUU 607 is recommended prior to participation in this course as it provides the student with a foundation of ethnographic and cultural information. Course can be repeated for a maximum of 6 credits as long as the course is taken at different locations. 3-6 credits.

EDUU 614 Creating a Shared Vision in Educational Organizations
This course explores various leadership and organizational change theories with an emphasis on the relationship between theory and practice. Various strategies to bring these theories into practice through leadership will also be discussed. The skills and strategies for leading the creation of a compelling, shared vision and mission in educational organizations based on multiple sources of data will be explored. An emphasis is also placed on leading by example to promote the implementation of the shared vision. 3 credits.

EDUU 615 Engaging Stakeholders in Educational Organizations
In this course, collaboration, communication, and team development structures and theory will be emphasized so candidates can develop the skill set necessary to engage stakeholders in effectively implementing the shared vision and lead transformational change. Specifically, skills and strategies will be explored that candidates can use to nurture trust, build effective teams, engage in collaborative decision-making, facilitate conflict resolution and build capacity among all members of the educational organization. 3 credits.

EDUU 616 Leading Change in Educational Organizations
This course will further explore leadership change theories in order to prepare candidates to facilitate the change process required to continuously improve educational organizations. The complexities of leading transformational change will be explored with an emphasis on overcoming barriers to change. Aligning organizational systems with the mission and vision of the organization will be explored. Lastly, the importance of the leader serving as an agent of change will be emphasized. 3 credits.

EDUU 624 Foundations of 21st Century Teaching
Prerequisite: Active teaching credential or EDUU 510 or EDUU 515, and EDUU 551 or approved equivalent(s).

The purpose of this course is to create a foundational understanding of all that goes into being an effective teacher of online and blended learners. Relevant research into the pedagogy and andragogy of electronically mediated teaching and learning will be explored, examined, and applied to a variety of example situations. This work will empower students to craft a professional body of knowledge and skill necessary for facilitating learning in a 21st century learning environment. 3 credits.

EDUU 625 Design and Assessment of 21st Century Teaching
Prerequisite: EDUU 624.

The purpose of this course is to explore the connections within the design of online and blended instruction and assessments. Students will utilize performance data, legal requirements surrounding the Americans with Disabilities Act (ADA) and understandings of individual learning styles to inform assessment and ongoing instructional decisions. Formal and informal evaluations, along with synchronous and asynchronous methods of delivery, will be used to evaluate student performance to model the variety of methods available to measure achievement in the online and blended learning environment. 3 credits.

EDUU 628 Advanced Design and Assessment of 21st Century Teaching
Prerequisites: EDUU 624 and EDUU 625.

The purpose of this course is to build upon previous understanding of effective online and blended instruction, design, and assessment. Additional relevant research into the pedagogy and andragogy of electronically mediated teaching and learning will be explored, examined, and applied to a variety of example situations. Students will apply their growing knowledge and skill toward expert design and facilitation of learning environments of the 21st century student. 3 credits.
EDUU 629 Teaching the 21st Century Learner Capstone
Prerequisites: EDUU 624, 625, and 628.

This capstone course completes the Teaching the 21st Century Learner series. The purpose of this course is to facilitate the application of knowledge and skills learned from previous courses to design and deliver an exemplary online and blended electronic portfolio. Students will develop a unit of study that models constructivist engagement with content, peers, and the electronically mediated environment. 3 credits.

EDUU 630 Leadership and Policy in Special Education
Prerequisite or Corequisite: EDUU 600.

The purpose of this course is to create a foundational understanding of critical elements for effective leadership in special education. Issues of mentoring, social justice, and advocacy will be introduced and reviewed. Current research on effective leadership in special education will be used to assist in the creation of evidence-based curriculum and policy that addresses the needs of different groups. The foundation of a future action research project will be developed. 3 credits.

EDUU 631 Program Development and Organization in Special Education
Prerequisite or Corequisite: EDUU 600.

This course will prepare students to identify and implement evidence-based practices and interventions for students with a broad range of disabilities, including utilizing assistive technology and Universal Design for Learning, allowing the diverse population of students with disabilities to access and make progress in challenging curriculum and the Common Core State Standards (CCSS). 3 credits.

EDUU 632 Advanced Assessment and Program Evaluation in Special Education
Prerequisite: EDUU 600, EDUU 630 and EDUU 631.

Students will develop an understanding of the theory behind educational assessment and program evaluation. Application of non-biased assessment for pre-referral, screening, placement/eligibility, and progress monitoring for students with disabilities in general education and special education settings will also be a focus. Students will conduct special education program evaluation and assessment evaluation via appropriate research techniques. 3 credits.

EDUU 633 Special Education Capstone
Prerequisites: EDUU 600, 661, 630, 631, 632, emphasis area courses.

The purpose of this course is to conduct an Action Research project as the culminating activity in the Master of Arts in Special Education (MASE) program. Using components developed in previous MASE course work, an Action Research project will be conducted, the data analyzed, and a final report written. Students will discuss various evidence-based practices in special education, how to how to implement those practices with fidelity in the field, how to collect, analyze, and present objective data, and discuss their results in relation to the literature base, and their own professional development as a practitioner and scholar. This course should be taken in the last term of the Master of Arts in Special Education program. 3 credits.

EDUU 636 An Introduction to Applied Behavior Analysis
Prerequisite or Corequisite: EDUU 636.

This course examines the basic principles of behavior. It introduces and explains behavioral concepts such as respondent and operant conditioning; conditioned and unconditioned responses; the dimensions of behavior; foundational knowledge and vocabulary for behavioral analysis; history behavior analysis as a field. Various classroom strategies will be used to help students understand the how the principles of behavior work on human behavior and the interactions between environment and behavior. 3 credits.

EDUU 637 Applied Behavior Analysis: Procedures and Experimental Design
Prerequisite: EDUU 636.

This course examines the basic procedures of applied behavior analysis. Students will learn the procedures for defining, measuring, and assessing behavior through measurement. The course examines the use of experimental research designs and how to use the data to make changes in behavior. Students will learn to evaluate research in Applied Behavior Analysis. Learning activities related to the task list include responses to research journal articles and designing data collection tools. 3 credits.

EDUU 638 Advanced Assessment and Instructional Strategies for Persons with Mild/Moderate Disabilities
Prerequisite: EDUU 687 for those in the level 2 program.

Application of contemporary theories and literature related to assessment and curriculum development and strategies for instruction of individuals with mild/moderate disabilities. Includes increased emphasis on specific areas of learning disabilities, language disorders, developmental disabilities, and attention deficit hyperactivity disorders. Information will be at an advanced level, focusing on collaborative strategies and research validated models of instruction. A minimum of 10 hours of fieldwork are required for this course. 3 credits.

EDUU 639 Pedagogical Leadership in Early Childhood Education
Prerequisite or Corequisite: ECED 330.

During this course candidates will develop an understanding of content knowledge and resources across the academic disciplines in early childhood education. They will become familiar with early learning standards and examine current research in early childhood education curriculum and instruction. Candidates develop the knowledge and skills required to make informed decisions about selecting and implementing meaningful, developmentally appropriate curriculum and assessment. 3 credits.
EDUU 640 Foundations of Leadership in Early Childhood Settings

In this course, candidates will examine leadership from both theoretical and practical perspectives. While learning about leadership theories, candidates will articulate the ways the National Association for the Education of Young Children’s (NAEYC) Advanced Program Standards connect theory and practice. Additionally, candidates will explore current issues and ways to apply the nine Advanced Program Standards (Cultural Competence, Knowledge and Application of Ethical Principles, Communication Skills, Mastery of Relevant Theory and Research, Skills in Identifying and Using Professional Resources, Inquiry Skills and Knowledge of Research Methods, Skills in Collaborating, Teaching and Mentoring, Advocacy Skills and Leadership Skills) as a framework for developing the skills and strategies necessary for becoming effective leaders in early childhood settings. Additionally, leadership candidates will learn how to assure that the philosophical foundations of inclusion are promoted through curricular adaptations, a variety of instructional strategies, and environmental settings that are developmentally appropriate for all children including those with special needs and those who may be gifted and talented. 3 credits.

EDUU 641 Public Policy and Fiscal Planning for Early Childhood Leaders

Candidates will examine the impact of policy, licensing and funding issues in Early Childhood Education settings at the Federal, State, County Office of Education, and School District levels. Settings addressed include, but are not limited to, Head Start, State Preschool and other relevant state or federally funded programs that serve all children including those who have been diagnosed as having disabilities or are considered at-risk for developmental delays. Additionally, this course provides candidates in-depth perspectives on advocacy, locating and securing funding, fiscal planning, marketing plan development and creating/maintaining inclusive environments. Candidates will develop understandings and skills which will assist in real-world forecasting, funding, grant writing, marketing, and budgeting. 3 credits.

EDUU 642 Leadership and Human Resources in Early Childhood Settings

This course examines the roles of early childhood education leaders in human resources development. Candidates will explore recruitment, selection, performance evaluation, and retention. The curriculum will include a broad overview of federal, state and local laws and regulations that affect the management of human resources. Topics covered in the course include employment regulations, creation and maintenance of inclusive settings, anti-discrimination laws, compensation, employee rights, health and safety, FERPA issues, and administrative requirements. Additional components will include staff development, in-service, mentoring and reflective supervision. Candidates will analyze the nature, types and stages of conflict and conflict resolution among teachers, staff, parents and the community, with the goal of creating a peaceful community of learners. 3 credits.

EDUU 643 Early Childhood Program Evaluation: Capstone

Prerequisites: EDUU 640, EDUU 641 and EDUU 642 and candidates must have a bachelor’s degree in Early Childhood Education or Child Development, a California Child Development Associate Teacher Permit (or equivalent), a Child Development Associate Credential, or must take or have taken EDUU 321, 325 and EDUU 465 or must take or have taken ECED 300, 301, 302 and 330.

This capstone course presents an overview of qualitative program evaluation. Candidates will use the knowledge gained throughout their graduate coursework (the MAE core and LECE courses) to examine the effectiveness of a local preschool or infant/toddler program. Evaluation will focus on goals and objectives for creating developmentally appropriate and inclusive learning environments for all children including those who have been diagnosed as having disabilities or are considered at-risk for developmental delays. Candidates will examine a program to evaluate its efficacy in providing an engaging, developmentally appropriate setting for young children, embracing a creative, well-balanced curriculum for the whole child, promoting purposeful learning through play, supporting children and their families, providing a healthy, safe environment for learning, and making strong connections through communication with parents and the community. Candidates will reflect on their personal leadership roles, relationships and successes with motivation and peer collaboration, knowledge and implementation of public policies and professional ethics, and advocacy for equitable educational opportunities for all children. Candidates will demonstrate program mastery through this capstone project. 3 credits.

EDUU 649 Data-Based Decision Making in Special Education

Prerequisites: EDUU 510 and 511.

Students will develop the knowledge and skills necessary to use and communicate assessment results. A variety of individualized assessment and evaluation approaches appropriate for students with mild/moderate/severe disabilities will be addressed. Emphasis will be placed on the skill of making appropriate educational decisions on the basis of a variety of standardized and non-standardized techniques, instruments, and processes that are appropriate to the diverse needs of individual students. Students will learn to identify individual strengths and weaknesses and monitor progress of student achievement. 10 hours of documented observation/participation in a special day class (SDC) or Resource Specialist (RSP) class (other than your own if you are an intern) is required for successful completion of this course, preferably during an IEP and/or SST meeting or during an assessment (with permission). 3 credits.

EDUU 650 Transitions Across the Life Span

Prerequisite: EDUU 687 for level 2 candidates, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

This course focuses on the transition of persons with disabilities from home to school settings and from school to employment and adult life. Specific curriculum and teaching methodologies will be presented. Emphasis will be placed on understanding quality of life outcomes - home and school life, friendships and social networks, self-determination, choice, and family issues. Factors such as job development, adult service agencies related legislation, and assessment will also be covered. 10 hours of fieldwork are required for this course. 3 credits.
EDUU 655 Individualized Education Plan Development and Special Education Law
Prerequisites for education students: EDUU 510 and 511. School psychology and school counseling students have no Prerequisites for this course. The course is designed both for special education teachers and school psychologists. Students will develop the knowledge and skills necessary to communicate assessment results during the pre-referral and IEP process. Emphasis is placed on the development of appropriate educational and IEP decisions on the basis of a variety of standardized and non-standardized assessments and related services that are appropriate to the diverse needs of individual students. Students will learn to make appropriate recommendations both for report writing and for IEP goals and objectives. This course will also examine the history, law, and legal mandates of the IEP process to provide candidates with an understanding of the legal and ethical responsibilities for serving students with disabilities in California. Due process guidelines and procedures will be reviewed, as well as current trends and local policies. Candidates will be expected to observe an IEP meeting. 10 hours of fieldwork are required for this course. 3 credits.

EDUU 656 Applied Behavior Analysis: Basic Technologies of Behavior Change
Prerequisites: EDUU 636 and 637.

This course examines the basic technologies of behavior change in applied behavior analysis. Students will learn and use positive and negative reinforcement, positive and negative punishment, schedules of reinforcement, motivating operations, stimulus control, imitation, shaping and chaining and verbal behavior. Learning activities related to the BACB 4th edition task list will include journal article research, and the development of data-driven behavioral intervention using technologies learned in the course. 3 credits.

EDUU 657 Applied Behavior Analysis: Applications
Prerequisites: EDUU 636, 637, 656.

This course examines systems which apply the basic technologies of behavior change. Topics include communication strategies, verbal behavior, contingency contracts, and other uses of Applied Behavior Analysis. Students will articulate a case study which assimilates research to real-life observations and uses behavioral language to define behavior, environment, and treatment recommendations. 3 credits.

EDUU 658 Applied Behavior Analysis: Advanced Applications
Prerequisites: EDUU 636, 637, 656, 657.

This course examines the use of functional behavioral assessment and its various components. Students in this course will learn to apply the foundational concepts of Applied Behavior Analysis which were presented in the four previous courses. Course activities related to the BACB Task List 4th Edition include evaluating various ABA methodologies for instruction and intervention, the design and implementation of a Functional Behavior Assessment, and analyzing measurement tools for particular behaviors. 3 credits.

EDUU 659 Applied Behavior Analysis: Ethics
Prerequisites: EDUU 636, 637, 656, 657, 658.

Students in this course will learn the ethical considerations which support the practice of a Board Certified Behavior Analyst (BCBA). Learning activities related to the BACB Task List 4th Edition include examining ethical scenarios to determine sound practice; analyzing sound ethical principles for private or institutional practice as a BCBA; and determining client-centered responsibilities for any setting. 3 credits.

EDUU 660 Seminar on Instructional Supports for Persons With Moderate/Severe Disabilities
Prerequisite: EDUU 687 for level 2 candidates, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

Application of contemporary theories and literature related to curriculum development and strategies for instruction of individuals with moderate/severe disabilities. Includes increased emphasis upon specific areas of severe disabilities such as severe/profound mental retardation, multiple disabilities, deaf/blind, physical disabilities, severe emotional disturbance, and autism. 10 hours of fieldwork are required for this course. 3 credits.

EDUU 661 Collaboration in Special Education
Prerequisites: EDUU 600, 630, 631, 632 for those in the Master of Arts in Special Education, and a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

Collaboration is a necessary process which supports meeting the needs of all learners. This course focuses on professional collaboration among those working with individuals with disabilities in home, school, and community settings. Candidates will learn to use a variety of effective collaboration and cooperative teaching techniques, problem solving methods, effective communication and negotiation techniques, to enhance content and learning for individuals with disabilities. Ethical and legal issues, and culturally responsive practices in collaboration are addressed. 3 credits.

EDUU 665 Historical, Phil, and Legal Foundations of Early Intervention/Early Childhood Special Education
Prerequisite or Corequisite EDUU 639.

Prerequisites: a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

This introductory course provides an overview of Early Intervention and Early Childhood Special Education including the theoretical, philosophical, legal and empirical basis for contemporary practice in the field. Candidates will examine the roles, responsibilities of Early Interventionists, Early Childhood Special Educators, Early Childhood Educators and Itinerant service providers as well as professional and ethical standards. The legal requirements of IDEA for Early Intervention and Early Childhood Special Education from initial referral through placement and ultimate transition will be evaluated and compared to recommended and culturally appropriate practices. Candidates will be required to complete ten hours of documented fieldwork during this course. 3 credits.
EDUU 666 Family Guided Practices in Early Intervention and Early Childhood Special Education

Prerequisite or Corequisite: EDUU 665, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

Prerequisites: EDUU 639.

This course emphasizes family systems theory and the impact of sociocultural, ethnic, racial and linguistic factors that shape families’ values and beliefs surrounding child development and access to educational and community based services. Candidates will develop an understanding of the interdisciplinary nature of Early Child Special Education by evaluating the range of services available to families with young children, including those with disabilities, within their community and within the educational system. Emphasis is also placed on strategies to engage families as collaborative partners, to sensitively communicate and elicit family information, to develop respectful and reciprocal relationships, and to provide advocacy skills that assist families with the development and attainment of family goals. Candidates will be required to complete ten hours of documented fieldwork during this course. 3 credits.

EDUU 667 Assessment in Early Intervention and Early Childhood Special Education

Prerequisite or Corequisite: EDUU 666, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

Prerequisite: EDUU 639: This course will focus on a linked system’s approach to Early Intervention and Early Childhood Special Education by emphasizing the interrelationship between assessment, evaluation, IFSP/IEP development, implementation and progress monitoring.

Candidates will gain the knowledge and skills necessary to appropriately assess infants, toddlers, and preschool children with disabilities utilizing formal and informal assessments and observations across developmental domains. Candidates will learn how to collaborate with families and other team members to gather assessment information, translate assessment results into child outcomes and goals, and present information in language appropriate for families. Candidates will be required to complete ten hours of documented fieldwork during this course. 3 credits.

EDUU 668 Curriculum and Intervention in Early Intervention and Early Childhood Special Education

Prerequisites: EDUU 639: Pre-requisite or Co-requisite: EDUU 667, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

This course examines contemporary theories and evidence-based approaches to intervention, instructional supports and curriculum for infants, toddlers, and preschoolers, highlighting naturalistic approaches such as the activity based approach. Emphasis is placed on collaborative teaming with families, caregivers, and professionals to support a young child’s success in natural environments. Students will develop learning and lesson plans to be used in planned, routine and child initiated activities and in home and center based settings. This class also focuses on collaboration and consultation skills necessary for working with families and early childhood educators across settings and in co-teaching situations. 10 hours of documented field experience is a requirement for course participation. 3 credits.

EDUU 669 Consultation and Advanced Strategies in Early Intervention and Early Childhood Special Education

Prerequisites: EDUU 639: Pre-requisite or Co-requisite: EDUU 668, a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

This course focuses on specific methods used across disciplines in Early Intervention and Early Childhood Special Education to meet the developmental and learning needs of children with a variety of special needs. Emphasis is placed on identifying specific developmental and learning characteristics and interventions associated with various severe disabilities, including autism, developmental delay, mental retardation, multiple disabilities, visual impairment, hearing loss, deaf blindness, motor disabilities, and related needs, such as severe behavioral challenges, and the overall impact these have on a family system. Candidates will be required to complete ten hours of documented fieldwork during this course. 3 credits.

EDUU 670 Field Experience in Early Intervention and Early Childhood Special Education

Prerequisites: EDUU 669, and a valid Certificate of Clearance on file with the CTC and a Negative TB Test.

In this course, candidates participate in fieldwork that provides in-depth experiences with infants, toddlers and preschool age children across a variety of settings. Through field experiences candidates demonstrate and develop skills in the areas of assessment, planning and intervention of appropriate methodology and recommended practices with young children to enhance the development of cognitive, social, learning and effective skills in the home, specialized school settings, and inclusive programs. This course is only required for candidates in the ECSE authorization program. 3 credits.

EDUU 675 Assessing Students with Autism Spectrum Disorders

Prerequisite: EDUU 575.

Identification of assessment tools to assess the various needs of students with ASD is the focus of the course. Collaboration with stakeholders to determine areas of need in academic, behavior, sensory, communication and social skills is emphasized. Completion of 5 hours of fieldwork with a child with autism is required. This course may be taken in partial completion of an Autism Certificate, Autism, added Authorization, and/or the Master of Arts in Special Education, emphasis in Autism. 3 credits.

EDUU 676 Autism Spectrum Disorders: Programming and Strategies, I

Prerequisites: EDUU 575 & 675.

The third course in the sequence addresses the design of structured and organized learning environments that support the sensory and learning needs of students with ASD. How to determine, align, and implement behaviorally-based instructional strategies and interventions, including Positive Behavior Supports (PBS) are emphasized. Identification and implementation of programs and strategies that enhance, facilitate, and promote social interactions across a variety of educational settings for students with ASD will be thoroughly addressed. Completion of 5 hours of fieldwork with a child with autism is required. This course may be taken in partial completion of an Autism Certificate, Autism, added Authorization, and/or the Master of Arts in Special Education, emphasis in Autism. 3 credits.
EDUU 677 Autism Spectrum Disorders: Programming and Strategies, II
Prerequisites: EDUU 575, 675 & 676.

The final course in the sequence addresses how to determine, align, and implement instructional strategies and interventions appropriate for the spectrum of the unique academic, cognitive, transition, and communication and language needs of students with ASD. Integrating the input from multidisciplinary teams, including families, to build effective, integrated programs, monitor student progress and determine program adjustment and service recommendations are focused upon. Completion of 5 hours of fieldwork with a child with autism is required. The website that acts as a resource for families and educators collaborating to meet the academic, behavioral, social, communication, sensory, and transition needs of individuals with Autism will be completed in this course. This course may be taken in partial completion of an Autism Certificate, Autism, added Authorization, and/or the Master of Arts in Special Education, emphasis in Autism. 3 credits.

EDUU 687 Professional Induction Planning and Assessment
Prerequisite: Completion of the Preliminary (Level I) Education Specialist Credential in Mild/Moderate or Moderate/Severe and acceptance into the Education Specialist Professional Credential (Level II) program.

This is a required first (3 credits) course for all Education Specialist Professional Credential (Level II) candidates. During EDUU 687, the candidate begins to develop their individualized induction plan (IIP) that includes specific professional development goals and creates the framework for their professional portfolio that will be used to approve their level II credential. Because the IIP must be approved by the candidate's employer, a district support provider, and because the professional portfolio includes artifacts from the candidates professional (work) experience students must be employed in a special education position at least half time prior to beginning the level II program and enrolling in EDUU 687. No other Level II courses may be taken until EDUU 687 (3 credits) is successfully completed. 3 credits.

EDUU 688 Professional Induction Planning and Assessment
Prerequisite: Completion of the Preliminary (Level I) Education Specialist Credential in Mild/Moderate or Moderate/Severe and acceptance into the Education Specialist Professional Credential (Level II) program.

This is a required last (3 credits) course for all Education Specialist Professional Credential (Level II) candidates. EDUU 688 (3 credits) is the final class taken after all other Level 2 coursework has been successfully completed and when the Individualized Induction plan and portfolio is near completion. Candidates will critically assess their knowledge and skills as they relate to their Professional Induction Plan, their Expertise Area, and the Professional Standards as set forth by the State of California. During EDUU 688 (3 credits) candidates will finalize their Professional Portfolio, document expertise and hours in an area of specialization, and reflect on their comprehensive Professional Development Plan. Note that in order to be recommended for the level II credential, candidates must document 2 years full time teaching. 3 credits.
EDUCATIONAL ADMINISTRATION (EDAU)

EDAU 691 Directed Fieldwork in Administrative Services
Prerequisites: Candidates will hold a qualified prerequisite credential (teaching, counseling, librarian) and typically be employed at a public school where they will conduct their work for this class.

Fieldwork requires permission of the site administration. If the candidate is not currently employed in a position requiring a “basic” CTC credential, he/she must submit a letter identifying the school and principal under whom field work assignments will be completed. The supervising principal must hold a clear Professional Administrative Services Credential. Candidates will participate in fieldwork experiences in an administrative or quasi-administrative position for a minimum of 240 clock hours. Of those, 105 hours are completed through Brandman Administrative Services coursework, leaving 135 clock hours of fieldwork to be completed in EDAU 691. Candidates will prepare a Professional Development Plan (PDP) that is based on the California Professional Standards for Educational Leadership and reflects the learning needs of the candidate and the unique characteristics and qualities of their fieldwork placement. The PDP activities will culminate in a reflective activity and portfolio that demonstrates an ethical, working knowledge of duties and problems typically encountered by education administrators. Candidates will observe and apply principles learned in the Administrative Services Credential Program courses. May be repeated for credit. Graded Pass/No Pass. 3 credits.
EDUCATIONAL LEADERSHIP & ADMIN (EDAD)

EDAD 601 Introduction to Vision, Leadership, and Change
Co-requisite: EDAD 695 Educational Leadership Seminar I.

This course will explore the major theories in educational leadership and change and the relationships between theory and practice in the context of contemporary educational issues in California. Skills and strategies for facilitating the collaborative development of a shared, student-centered vision, aligned with the district’s goals will be emphasized. Public school governance in California, including the structure and organization of public schooling and the roles and responsibilities of various individuals and system components will be introduced. The relationships between federal, state, and local educational policies and practices that ensure equitable, democratic public education for all students within various contexts (political, social, economic, and cultural) will also be studied. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 602 Applied Educational Research and Data Analysis
Prerequisites: EDAD 601 and EDAD 695.

Candidates will analyze multiple measures of student and school data to determine the effectiveness of current improvement strategies and collaboratively develop a School Growth Plan based on the data, with staff and other stakeholders, consistent with the school’s vision. Strategies for engaging constituents in the assessment of programs and instructional strengths and needs will be emphasized and practiced. The importance of data based decision making and ongoing plan monitoring, with an emphasis on continuous improvement practices to improve teaching and learning, will be explored. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 604 Community Perspective, Collaboration and School Culture
Prerequisite: EDAD 602.

In this course, collaboration, communication, and team development structures and theory will be emphasized so candidates can develop the skill set necessary to carry out effective vision development and lead transformational change. Specifically, skills and strategies will be explored that candidates can use to nurture trust, build effective teams, engage in collaborative decision-making, facilitate conflict resolution and build capacity among all members of the educational community. Students will learn to address the diverse expectations, needs, aspirations, and goals of family and community groups to promote a community commitment and collective sense of responsibility for enacting the school’s vision and School Growth Plan. Lastly, candidates will learn a range of communication approaches including the use of various media and technology to manage information, enhance collaboration, and effectively facilitate communication with staff and stakeholders. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 606 Change and Continuous Improvement
Prerequisite: EDAD 604.

This course will further explore change theories in order to prepare candidates to facilitate the change process required to continuously improve teaching and learning. Candidates will collaboratively engage with stakeholders in a force field analysis to identify driving and restraining forces from the macro and micro-organizational levels (e.g., system-wide and individual) to change as part of continuous progress monitoring of the School Growth Plan. After identifying driving and restraining forces are identified, candidates will apply the skills of reasoned and objective inquiry to analyze complex problems and propose effective so and their implications. Finally, candidates will identify opportunities, resources, and short-term wins that can further support continuous improvement. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 608 School Law, School wide Discipline and Safety
Prerequisite: EDAD 606.

Co-requisite: EDAD 696 Educational Leadership Seminar II.

This course will explore federal, state, and local laws, regulations and guidelines relating to public schools and the educational process. Constitutional and related legal rights and protections for students and staff and the administrator’s role in monitoring and ensuring compliance with these rights and protections are also covered. The importance of ensuring that school practices and procedures meet legal maintenance, health and safety requirements, including ensuring student and staff safety, building security, crisis planning, emergency management are all included in this course. An emphasis is placed on research-based, student centered classroom management and positive behavior interventions and supports (PBIS), conflict-resolution and restorative justice. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 610 Innovations in Instructional Leadership
Prerequisites: EDAD 606 and EDAD 696.

This course will have candidates explore and analyze observation and evaluation systems grounded in the California Standards for the Teaching Profession (CSTP) and conduct a thorough review of a district’s Collective Bargaining Agreement and teacher observation/evaluation forms. Candidates will learn how to use TK-12 student academic content standards and appropriate instructional practices to observe classroom planning and provide feedback on the effectiveness of classroom instruction. Candidates will also be required to develop specific suggestions for teacher professional growth based on classroom observations and student achievement data. Mentoring, coaching, and professional development to support individual teachers and school improvement goals will be emphasized. Lastly, the principles and procedures for evaluating the effective use of technology to support 21st century competencies in the learning environment will also be explored. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.
EDAD 612 Working with Diverse Populations
Prerequisite: EDAD 610.

This course will prepare candidates to identify and access resources for specific historically underserved populations and advocate, nurture, and sustain a positive culture to ensure educational equity and access. Specifically, candidates will learn how to integrate Multi-tiered System of Supports (MTSS) and structures into instruction to systematically address barriers to access to support the learning of all students. Further, candidates will explore the effect of appropriate educational placements, classroom structures, school and class scheduling, grouping practices and educational settings on student learning. An additional emphasis of this course is communication and collaboration with multiple constituents to improve student learning opportunities and outcomes for all students, including English learners and students with special needs. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 614 Aligning Resources and Systems for School Improvement
Prerequisite: EDAD 612.

In this course, school finance in California, including relevant laws and regulations are covered to prepare candidates to work collaboratively with others in the school community to develop, implement, monitor and report the school's budget in a transparent manner. Candidates will assess and analyze student and site needs as a base to support financial decision-making and prioritize expenditures aligned with the School Growth Plan. Candidates will also learn to align, effectively manage, and integrate all the organizational systems, structures, and policies of a school system that impact the school's ability to implement the school growth plan and achieve its vision and goals. These skills include an understanding of the regulatory and legal contexts involved with the management of human, fiscal and material resources. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 616 Professional Growth and Learning
Prerequisite: EDAD 614.

Co-requisite: EDAD 697 Educational Leadership Seminar III.

This course will cover adult learning principles and their use in designing, facilitating, and implementing effective, motivating, and data-driven professional growth activities focused on improving student learning outcomes. Candidates will develop a comprehensive professional development plan based on these principles for faculty, staff, parents, and other members of the school community. Induction programs and support systems for beginning teachers, and individualized teacher support processes such as mentoring and coaching will be explored. Lastly, how to support, motivate, and provide recognition to staff will also be discussed. A minimum of 25 hours of embedded clinical practice is required for this course. 3 credits.

EDAD 620 Educational Leadership & Administration Capstone
Prerequisites: EDAD 616 and EDAD 697.

This capstone course completes the requirements for the MA in Educational Leadership and Administration and serves as the degree program’s demonstration of mastery. Candidates must successfully complete a Demonstration of Mastery Project that includes documented evidence they have obtained satisfactory knowledge and understanding of the Program Learning Outcomes and California Administrator Content Expectations, and satisfactory performance on the full range of California Administrator Performance Expectations. The candidate will formally present the DOM Project to a panel who will evaluate candidate competence and performance. 3 credits.

EDAD 695 Educational Leadership Seminar I
Co-requisite: EDAD 601.

This seminar course is taken concurrently with EDAD 601 and provides candidates opportunities to integrate and reflect on the content knowledge, performance expectations and skills acquired during clinical practice experiences. Candidates will participate in a leadership assessment in each of the core areas. The major duties and responsibilities authorized by the administrative services credential will be explored. Discussions will focus on the day-to-day functions of administrators, long-term policy design and implementation. An emphasis is placed on leading by example to promote the implementation of a shared vision. This will include using multiple sources of data to develop their own job-related professional growth plan based on strengths and weaknesses. The importance of exhibiting personal and professional ethics, integrity, justice, and fairness will also be emphasized. The course also provides a forum for each candidate to interact with a Leadership Coach that will guide and coach candidates on their performance using a formative assessment process. A minimum of 10 hours of School Leadership Shadowing is required. Graded on a Pass/No Pass basis. 1 credit.

EDAD 696 Educational Leadership Seminar II
Co-requisite: EDAD 608.

This seminar course is taken concurrently with EDAD 608 and provides candidates opportunities to integrate and reflect on the content knowledge, performance expectations and skills acquired during clinical practice experiences. The major duties and responsibilities authorized by the administrative services credential will be explored. Discussions will focus on the day-to-day functions of administrators, long-term policy design and implementation. An emphasis is placed on California school laws, guidelines, and other relevant federal, state, and local requirements and regulations impact schools and the responsibilities of a school administrator in implementing them. The course also provides a forum for each candidate to interact with a Leadership Coach that will guide and coach candidates on their performance using a formative assessment process. A minimum of 10 hours of School Leadership Shadowing is required. Graded on a Pass/No Pass basis. 1 credit.

EDAD 697 Educational Leadership Seminar III
Co-requisite: EDAD 616.

This seminar course is taken concurrently with EDAD 616 and provides candidates opportunities to integrate and reflect on the content knowledge, performance expectations and skills acquired during clinical practice experiences. The major duties and responsibilities authorized by the administrative services credential will be explored. Discussions will focus on the day-to-day functions of administrators, long-term policy design and implementation. An emphasis is placed on the candidate’s ability to monitor the improvement of their own performance over time. Candidates will participate in a final 360 degree leadership assessment and assess their growth in each of the core areas. Candidates will revise their Leadership Growth Plan based on the results and identify areas for ongoing professional growth and self-improvement including monitoring of improvement and performance over time. This course will include the formal presentation of their Leadership Portfolio and a summative evaluation of their leadership growth and skills will be conducted by their Leadership Coach. A minimum of 10 hours of School Leadership Shadowing is required. Graded on a Pass/No Pass basis. 1 credit.
EDAD 698 Professional Learning and Induction Coaching I
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of leading by example to promote the implementation of a shared vision. This will include using multiple sources of data to develop their own job-related professional growth plan, the IIP, based on strengths and areas of needed growth. The importance of engaging stakeholders in developing, monitoring and revising plans or programs to ensure the vision is realized will also be emphasized. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.

EDAD 760 Professional Learning and Induction Coaching II
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of creating a trusting and respectful school climate. This will include facilitating and supporting the diversity within teams in the school setting. In addition, building collaborative and shared leadership to build a professional learning culture will also be emphasized. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.

EDAD 762 Professional Learning and Induction Coaching III
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of decision-making processes. This will include identifying needs within the organization and creating action steps to address the need. The importance of understanding how to identify and mitigate any negative or unintentional consequences of the leader's actions will also be emphasized. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.

EDAD 764 Professional Learning and Induction Coaching IV
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of creating a culture of trust and mutual respect so that staff, parents, and families feel supported in sharing diverse thinking, ideas and problems. This will include identifying and implementing strategies that will ensure that all stakeholder voices are heard. The importance of reflecting on the leader's leadership practices and dispositions will also be emphasized. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.

EDAD 766 Professional Learning and Induction Coaching V
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of decision making processes that model ethics, equity and integrity. This will also include exploring the leader's role as change agent in leading and facilitating improvement efforts at the school. The importance of using reflective practice to examine the leader's personal code of ethics will also be emphasized. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.

EDAD 768 Professional Learning and Induction Coaching VI
This course provides an opportunity for the candidate to receive one-on-one coaching to support the candidate's knowledge and skills of promoting collaborative inquiry and problem solving with stakeholder groups will be emphasized. This will include developing and implementing strategies that support greater public understanding of the education policies and practices. An emphasis is placed on the candidate's ability to monitor the improvement of their own performance over time. Candidates will identify areas for ongoing professional growth and self-improvement including monitoring of improvement and performance over time. The induction coach will focus on the candidate's situational and leadership development needs as they work to apply what they are learning to their work setting and analyze their performances based on the California Professional Standards for Education Leaders (CPSELs). Graded on a Pass/No Pass basis. 1 credit.
ENGLISH (ENGU)

ENGU 103 Writing and Rhetoric
The course provides instruction that focuses on the writing process, evaluating and explaining ideas, critical reading, conducting library and Internet research, developing a research paper, and documenting research. Students will learn that reading is a complex process. Students are required to complete a minimum of 10,000 graded words in essays that include a researched essay. All work shall be submitted as a part of a final writing portfolio. 3 credits.

ENGU 104 Writing About Literature
Prerequisite: ENGU 103.
English 104 develops a student’s critical thinking, reading, and writing skills as they apply to the analysis of fiction, poetry, drama, and creative non-fiction. The readings for the course reflect the diversity of writers and perspectives. Through a variety of essays, students will demonstrate their understanding of a variety of literary devices and their ability to write persuasively about literature. Not only will students improve their ability to analyze and write about literature, but they will also increase their understanding of the world and its people. Students will complete five essays totaling at least 8,000 words. 3 credits.

ENGU 306 Creative Writing
This introductory course in creative writing focuses on the study of poetry, fiction and nonfiction. Students analyze technique in the works of published writers and in their own original works. After submitting writing, students participate in informal discussion of their work, which includes helpful criticism from the class and the instructor. Increased writing skills help students prepare for careers in communication, education, writing, advertising, selling, journalism, law, business, and government. 3 credits.

ENGU 329 Experimental Topics in English
Prerequisite: ENGU 104.
An examination of selected topics in English relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

ENGU 348 Writing and Producing for New Media in the 21st Century
In this course, students will explore the wide range of creative writing that addresses the convergence of and differences between traditional (print) with new (electronic) media. Students will participate in a number of hands-on experiences with creating, shaping and adapting stories for various media. The course emphasizes electronic publishing opportunities and the treasure trove of new media resources. 3 credits.

ENGU 350 Ethical Leadership through Literature
Prerequisite: ENGU 103 and 104 or their equivalent.
What do Lucy Prebble, William Shakespeare, and Kazuo Ishiguro have in common? Besides being writers, each wrote imaginatively about leadership and leaders, particularly about leaders confronted with moral and ethical dilemmas. The course will examine the behavior of people in leadership roles through the imaginative lens. The course draws students into a deeper and more personal understanding of leadership through critical reviews and the discovery of literature. Literature presents us with the actions and results of action, and through the characters’ stories, we learn about the dangers and rewards of our own actions. Through class discussions of readings and case studies, students will consider and articulate their own moral positions and examine their judgments of characters and their actions. The literary readings of the class will cover several centuries, countries, and cultures, and all will challenge students to expand their understanding of the world and their place in it as leaders, whether on the battlefield, home, community, or athletic field. Online only. 3 credits.

ENGU 380 Professional Writing
This course serves as an introduction to the primary genres and rhetorical strategies of professional writing. Students will learn write clear, grammatical, well-structured professional communications. Assignments will require creating both internal and external documents for a variety of audiences. 3 credits.

ENGU 410 Major Authors in Modern and Contemporary Literature
In this course, students will explore seminal works of modern and contemporary literature by eminent British and American authors. The course focuses on some of the most innovative and influential authors of our times: James Joyce, Virginia Woolf, Ernest Hemingway, William Faulkner, Salman Rushdie, Kazuo Ishiguro, Toni Morrison, and Philip Roth. Students will engage with inventive styles such as stream of consciousness and magical realism, and consider themes that center on questions of identity and history, gender and race, community and alienation, and psychology and spirituality. Through study of the individual texts, students will appraise the concerns and transformations within the modern and contemporary periods, as well as between the two. 3 credits.

ENGU 420 Language Development and Acquisition
Prerequisite: ENGU 104.
This course introduces students to the fundamental components of language. An emphasis is placed on major theories of language development and language acquisition as well as the processes involved in learning language. Students will examine the interaction between primary language and second language acquisition and strategies that support language development. The course also addresses the implications that language development and language differences have on the processes of learning to read and reading to learn. 3 credits.

ENGU 450 Literature of Children and Young Adults
Prerequisite: ENGU 104.
This course will introduce the genres, history, themes, uses, and trends of children’s literature and its role in a child’s cultural socialization. Students will study children’s literature from diverse cultures and classic works through exploration of illustrations, traditional literature, modern and animal fantasy, bibliotherapy, fiction and non-fiction works, poetry, informational text, and literary merit. Those who interact with and write children’s literature will benefit from this study of style, technique, and methods for introducing the young to the pleasures of literature and elements of literary quality. 3 credits.
ENGU 499 Independent Study

Prerequisites: Instructor's approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
ENGLISH LANGUAGE LEARNING (EDEU)

EDEU 500 Theory/Foundations of ESL Programs
Explore how historical, political, sociocultural, and educational events, policies, laws, and issues drive and affect education of linguistically and culturally diverse students in ESL programs in schools. Become familiar with services and programs to be provided to ELL students in ESL programs based on local, state, and federal policies and laws. Explore program delivery models and various theories of Second Language Acquisition (SLA), bilingualism, and sociocultural variables. *This course is only available for Illinois residents. 3 credits.

EDEU 501 Methods of Teaching ESL in Bilingual Programs
Learn about best practices and resources for teaching English Language Learners within bilingual programs including print materials, games, multimedia materials, online resources, and effective short and long term lesson planning. *This course is only available for Illinois residents. 3 credits.

EDEU 502 Cross Cultural Issues for Teaching ESL
Gain deeper awareness of how one’s personal attitudes, values, and beliefs about language, patriotism, culture, teaching, learning, power, privilege, and other cultural norms, values, and mores impact teaching and learning. Participants will relate these concepts to cross-cultural interactions in educational settings and explore implications about how these impact interactions with students and their families, instructional decisions, and perceptions about student performance, teaching, and learning within your professional practice. *This course is only available for Illinois residents. 3 credits.

EDEU 503 Methods and Materials for Teaching ESL
Learn about best practices and resources for teaching English Language Learners including print materials, games, multimedia materials, online resources, and effective short and long term lesson planning. *This course is only available for Illinois residents. 3 credits.

EDEU 504 Linguistics for ESL Teachers
Analyze the role language plays in society. Deepen your awareness about sounds, words, sentence structure, oral and written communication, key aspects of nonverbal communication, the history of the English language, and the evolution of language. Explore elements of linguistics relevant to second language learning and teaching English Language Learners. Similarities and difference between the structures of English and other languages with emphasis on (but not limited to) languages found in the classrooms, schools, and communities of the participants as well as those of major groups in the US will be explored. *This course is only available for Illinois residents. 3 credits.

EDEU 505 Assessment of Bilingual Students
Acquire understanding of strategies and instruments for diagnosing and evaluating learning and instruction in English and the student’s home language. Focus will be on the purposes, characteristics, strengths, and limitations of teacher-made and commercial assessments used to assess acquisition of content, language and social skills in students for whom English is a new language. Strategies for reflecting on and using assessment results (data) to modify instruction will be explored along with the significance of sociological and psychological results of testing, validity, reliability, bias, scoring, and other assessment-related issues. *This course is only available for Illinois residents. 3 credits.
ENTREPRENEURSHIP (ENTU)

ENTU 401 Introduction to Entrepreneurship
This course focuses primarily on the business plan and the start-up of a business. Topics include mission, vision, recognition of opportunities, business plan development, entry and operating strategies, obtaining financing, legal implications and the transition from starting a business to running one. 3 credits.

ENTU 410 Financing the Small Business
This course addresses issues related to financing small business enterprises and entrepreneurial ventures. Various sources of financing are examined: commercial banks, venture capital, angels, and government financing. In addition, collateralizing the firm’s assets for financing, such as inventory and receivables financing, equipment financing, and real estate financing, is discussed. The Initial Public Offer (IPO) process is examined as a means for emerging enterprises to access public capital markets. 3 credits.

ENTU 420 Entrepreneurship Action Learning Project
Prerequisite: Dean approval.
Through the action learning project students will experience "entrepreneurship in action," allowing them to bridge theory and practice. During this course each student will work one-on-one with a successful entrepreneur on a substantial project of strategic importance to the business. 3 credits.

ENTU 610 Entrepreneurship
This course studies the entrepreneurial process. Topics include idea generation and assessment, writing the business plan, financing, gathering needed resources, firm startup and exit strategies. 3 credits.

ENTU 620 Entrepreneurial Finance
Prerequisite: ENTU 610.
This course is designed to provide our graduate students with the unique perspectives and analytical tools required for effective financial decision making in an entrepreneurial environment. Evaluating Venture Opportunities (also known in the venture capital industry as Due Diligence), Valuing Businesses, Structuring Deals, and Raising Risk Capital are among the major topics covered in this course. Other important topics to be covered in the class include Financing growth and Expansion, Minimizing Failure Risk, and Exit Strategies (also known as splitting equity and compensation). 3 credits.
ENVIRONMENTAL SCIENCES
(ESCU)

ESCU 101 Introduction to Environmental Science
An introduction to the causes of environmental problems as well as strategies for potential solutions from both a natural science and a social science perspective. Scientific understanding of the environment is emphasized. The course gives an overview of major environmental problems and scientific principles, with a focus on managing environmental problems and important natural resources. Online only. 3 credits.

ESCU 329 Experimental Topics in the Physical Sciences
An examination of selected topics in the physical sciences relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

ESCU 401 Environmental Science, Policy, and Management
This course examines environmental science principles and policies that impact society and the management of the surrounding physical environment. Students will apply environmental and scientific literacy to the analysis of real-world problems. Specific topics include ecology, water resources, energy, pollution, biodiversity, food, and access to resources. 3 credits.
FINANCE (FINU)

FINU 305 Business Finance
Prerequisites: ACCU 201, ACCU 202, and MATU 203.

The central focus of this course is on the role of financial management in maximizing the value of the company. The course begins with a discussion of basic concepts and tools, including accounting statements, interest rates, taxes, risk analysis, time value of money, and the basics of security valuation. Thereafter, we will learn how a manager can help maximize his/her firms’ value by improving decisions in such areas as working capital management, capital budgeting, and choice of capital structure. 3 credits.

FINU 410 International Finance
Prerequisite: FINU 305.

This course examines investment and financing instruments, markets, and tactics of international finance. Topics include international monetary systems and organizations, foreign exchange rate determination and exposure management decisions, international transaction and translation management, foreign direct investment, international financial markets, institutions and banking. Online only. 3 credits.

FINU 417 Intermediate Financial Management
Prerequisite: FINU 305.

This course will examine the applications of financial theories and concepts including capital structure, capital budgeting, forecasting, working capital management, and lease/buy decisions. Analysis of firms will utilize the cash flow model, as well as exploring whether the company should undertake a capital budgeting project. 3 credits.

FINU 421 Investments
Prerequisite: FINU 305.

Students explore the simultaneous management of multiple securities, using statistical and other mathematical tools. Topics covered include: risk and return, allocation of risky assets, setting portfolio objectives and strategy, portfolio optimization, risk crafting, and portfolio performance evaluation. Through investment tools, projects, and readings, students will explore investment and portfolio theory and practice. 3 credits.

FINU 430 Financial Institutions
Prerequisite: FINU 305.

This is a basic finance course discussing various aspects of the U.S financial system, including consideration of monetary standards, the organization and functioning of both depository institutions and the Federal Reserve System. Issues related to the money supply, interest rates, and asset prices are emphasized. Recent banking conditions and trends in financial institutions are also emphasized. 3 credits.

FINU 615 International Finance
Prerequisite: FINU 607.

Discussion of international monetary system; balance of payments concept; institutional and structure arrangements within the foreign exchange market; basic foreign exchange market products; importance of parity condition; exchange rate determination; Eurocurrency and Eurobond market; international equity market; foreign currency options and futures; hedging foreign exchanges exposure; international capital budgeting and working capital management; and cost of capital and capital structure in multinationals. 3 credits.

FINU 620 Investments
Prerequisite: FINU 607.

The course objective is to achieve an understanding of the various types of investments and their relative merits; security prices and yields; investment objectives, principles and standards for selection of specific investments; introduction to portfolio management. 3 credits.

FINU 630 Capital Markets
Prerequisite: FINU 607.

Study of the financial markets, instruments and the role of banks and other financial institutions in the economy. This course introduces tools to analyze the risks faced by investors and savers interacting with financial institutions and strategies to control and better manage these risks. 3 credits.
FOOD SCIENCE & NUTRITION (FSNU)

FSNU 200 Human Nutrition
A study of food intake and utilization, nutrient sources, metabolism, and interactions. Human nutritional requirements and their relationship to various diseases are examined, as are facts and fiction about diets, “health foods,” etc. Students learn about nutrition, the elements of a balanced diet, and modern food technology. 3 credits.

FSNU 201 International Nutrition: The World Food Crisis
Students review contemporary nutritional issues affecting the world. Social, cultural, political, economic, and scientific aspects of the world food problems are examined. Nutritional deficiencies affecting various regions of the world and the role of international agencies are covered. Students learn about food production and food supplementation programs, and examine possible solutions and the future. Online only. 3 credits.

FSNU 315 Nutritional Basis of Disease
This course is designed to provide students with a general introduction to the complexities of the human body as it is related to nutrition and the disease process. Particular emphasis will be on disease acquired through lifestyle and infection. The student will learn how the body works and how disease occurs and may be overcome. Additionally, social and ethical issues in the concept of health will be addressed. For example: will the removal of sweets from school vending machines really make a difference in child obesity rates? An in-depth look at cardiovascular disease, diabetes, cancer, aging, and HIV/AIDS will be explored. The course will conclude with an examination of the concept of social justice-what wealthy nations do or do not owe the rest of the world to promote global health. Online only. 3 credits.

FSNU 329 Experimental Topics in Food Science and Nutrition
An examination of selected topics in food science and nutrition relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

FSNU 335 Science of Obesity
This course will cover the role of diet and exercise in weight loss and body weight maintenance. Discussion of metabolic and physiological changes occurring during weight gain and loss will be covered. The course will look into the current trends in obesity and the relationship between body weight, obesity and disease risk. Research comparing popular diets used for weight loss and disease treatment will be covered along with recommendations for optimal weight loss and weight maintenance programs. 3 credits.

FSNU 338 Nutrition and Human Performance
Prerequisite: FSNU 200.

Designed to provide a more in-depth view of nutrition, metabolism, and human performance. Ergogenic aids, blood doping, nutritional needs of the athlete are emphasized. The methodologies and current topics related to nutrition and human performance are evaluated. Mechanisms of nutrition are presented to better understand the cause-and-effect relationships of human nutrition. Online only. 3 credits.
HEALTH ADMINISTRATION
(HAUU)

HAUU 640 Foundations of Healthcare Administration
This course reviews the healthcare system in the United States from a healthcare administration and management perspective. Healthcare organization, delivery of services, government regulation and policy are covered in depth. Students will explore medical issues related to current healthcare administration best practices. Online only. 3 credits.

HAUU 641 Law, Ethics and Health Services
This course provides an in-depth study of the philosophy and application of legal and ethical aspects of healthcare administration and delivery with a focus on compliance, handling abuse cases and other current legal/ethical issues in healthcare. Online only. 3 credits.

HAUU 642 Healthcare Information and Communication Systems
This course will examine the principles of effective information and communication systems in the healthcare industry. A primary focus is placed on the evaluation and application of emerging technologies in healthcare management. Online only. 3 credits.

HAUU 645 Healthcare Economics
This course introduces the principles of economics as applied to the U.S. healthcare sector to support decisions about the organization and distribution of healthcare services. Economic concepts (supply and demand, cost, scarce resources, utility, and others) will be applied to healthcare. The economic behaviors of consumers and suppliers will be examined as they affect allocation of health resources. Special attention is placed on health insurance, regulation, government financing, economic incentives and health reform. Online only. 3 credits.

HAUU 651 Quality Management in Healthcare
This course provides students with an understanding of the concepts of healthcare quality efforts, including measurement, process improvement and the application of information technology to optimize reimbursement and to support best practices. The primary focus is on the practical application of systems change techniques to improve patient safety and outcomes. Online only. 3 credits.
HISTORY (HISU)

HISU 101 United States History Survey I
This course traces the economic, social, political, and cultural development of the United States from the Age of Discovery through the end of the Civil War. Students will address colonization, British colonial policies, natural law, revolution, Republicanism, democracy, slavery, sectionalism, Manifest Destiny, and states’ rights versus federal law. Students will have the opportunity to both explore historical events and analyze their influence over time. 3 credits.

HISU 103 United States History Survey II
This course highlights basic issues of American life, culture, society, and economics from the roots of Reconstruction to 9/11, while considering the following questions: Who is an American? How have we evolved as a nation? How has that definition changed over time? And how do we balance the fundamental diversity that is quintessentially American with the need for a common core of beliefs and institutions? Online only. 3 credits.

HISU 105 The Rise of World Civilizations I
The course covers world pre-history through the Middle Ages, emphasizing significant discoveries in paleontology, paleoanthropology, and archaeology, the earliest centers of civilization, the beginnings of civic culture in Asia and the Mediterranean world, the origins and impact of the great world religions, and the intellectual and artistic achievements of medieval India, China, and Japan, Europe, and pre-Columbian America. World physical and historical geography forms a major component of this course. 3 credits.

HISU 316 Modern Far Eastern History
In this course students will study the history of the countries of East Asia, specifically China, Japan and Korea, from the 16th Century to present. Students will gain an understanding of the region's cultures and value systems while examining the connections among them as well as the unique evolution of each society. Students will analyze the history and relationship between the West and the different countries in this region, especially the relationship between industrial development within each country and corresponding regional and global political developments. 3 credits.

HISU 317 Modern Middle Eastern History
This course surveys the history of the Modern Middle East. Students will explore the rise and fall of the Ottoman Empire, the age of European colonialism, modernity and the rise of nationalism. The course will focus on U.S. and European influence in the region, oil, religious movements, the Israeli-Palestinian conflict, and the 2011 Arab Spring. 3 credits.

HISU 319 Modern European History
This course surveys the history of Modern Europe from the Age of Enlightenment to date. Students will explore a number of major events, including the French, Industrial and Russian Revolutions, the birth of capitalism and other ideologies, The Age of Imperialism, the World Wars, Decolonization, the Cold War, the end of Communism and the European Union. This course will focus the lives of people during eras of transition while examining demographic change, political and economic revolution and interrelationships of different nations within Europe. 3 credits.

HISU 323 The Western Legal Tradition
Law is a product of history, and an understanding of the law cannot be complete without an examination of its historical roots. This course surveys the history of Western law and legal institutions from the Code of Hammurabi to the American Revolution. Special attention will be focused on the rise and evolution of English common law. Online only. 3 credits.

HISU 329 Experimental Topics in History
An examination of selected topics in History relevant to evolving areas in the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

HISU 330 America and Its Revolution: The Bonfires of Change
Students examine one of the most tumultuous times in American history and analyze and interpret the events that form the foundation, not only of our system of democracy, but much of our identity as Americans. Online only. 3 credits.

HISU 337 World War II
This course examines the significant diplomatic, political, social, cultural, and military events of WWII from a global perspective. Students analyze fascism, capitalism, communism, colonialism, and the principal figures who advocated them. 3 credits.

HISU 340 American Diplomatic History and Foreign Policy
(Same as POSU 321) Students focus on the origin and development of United States foreign policy. Important areas of study include the role of ideology in foreign policy, economics and foreign affairs, isolationism, American dominance of the Western hemisphere, and the consequences of increasing international interdependence. Also considered are the influences of public opinion, the media, corporations, the Congress, the bureaucracy, and the presidency in shaping American policy. Online only. 3 credits.

HISU 355 History of the Vietnam Conflict
Plato wrote: "Only the dead have seen the end of war." This course is created to provide a well told story about the causes, main events and the impact of the Vietnam Conflict. Students will trace the events, decisions and results of America's involvement in Southeast Asia. Military, social, economic and political historical analysis of the era will be a key element in the research and assignments the students will produce. 3 credits.

HISU 358 United States History and Democracy
This course provides an overview of United States history from pre-colonization until the Industrial Revolution. It focuses on the importance of democracy and the Constitution as they relate to events and trends in our nation's history. An emphasis is placed on the provisions of the U.S. Constitution and the democratic principles that serve as the foundation of our political system. Students will examine these principles and how they are applied in social, legal and political contexts. 3 credits.

HISU 360 World History and Geography
This course is an overview of world history from antiquity to the early modern era. Students will examine ancient, medieval and early modern civilizations, the factors that influenced the development of these civilizations and the ways in which they have contributed to the development of our modern global world. Geography, as it relates to human settlement, migration, and cultural diaspora, is also explored. 3 credits.

HISU 372 California History
In this in-depth study of California from its discovery in 1542 to the present, students attempt to answer the question: How has the Golden State changed? The roles of mining, Indians, agriculture, high technology, Japanese/American relations, and the missions system are considered. 3 credits.
**HISU 380 The American West: Miners, Cowhands, Homesteaders, and Gunslingers**
This course presents the Westward Expansion of the United States beginning with 17th Century Colonial America up to the early 20th century. Topics to be covered will include the Trans-Mississippi Movement, cultural conflicts, myths and realities, religious factors, gender roles, economic development, technological advances, and political opportunities. Online only. 3 credits.

**HISU 390 Modern Latin American History**
This course surveys the history of Latin America from 1820 and examines the roots of social, economic, and political change in the region. Students will discuss the contradictions of liberalism, the widening gap between elite and indigenous populations, the attempt to compete globally, and the numerous military dictatorships of the modern era. 3 credits.

**HISU 397 Social Movements in the Sixties**
Through film, literature, and oral history, we will take a fresh look at this controversial time in American history. Beyond protests, civil rights, Vietnam, sex, drugs, and rock'n'roll, there is the sociological question of how and when social movements arise, and how individuals within them rise to leadership roles. Social movements are a response to economic and demographic changes and they, in turn, make societal and cultural changes (or perhaps solidify them). Many of the characteristics of modern society that we take for granted -- for example, voting rights for women or organized labor -- have their origins in the struggles of organized social movements. Sociological theory and methods such as oral history provide a means to examine these issues. 3 credits.

**HISU 499 Independent Study**
**Prerequisites:** Instructor’s approval and approval of petition.

Directed readings and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
HUMAN RESOURCES (HRCU)

HRCU 350 Compensation and Benefits
This course is designed to provide an understanding of compensation and employee benefit programs and practices and how and why employers provide benefits as they do. Employee benefits are a significant component of total compensation and offers employers added flexibility in compensation design. Topics include indirect and direct compensation, legally required employee benefits and voluntary programs, governmental regulations, and external social factors affecting compensation. Online only. 3 credits.

HRCU 351 Workforce Planning and Employment
This course examines staffing, training, and organizational development techniques organizations use to build group and individual skills while tying anticipated results to improvement in organizational effectiveness. The course also focuses on policies and procedures for both short and long range human resources planning for a competent workforce, job analysis, legal compliance, recruitment and selection, employee separations’ and retention, training and career management. Online only. 3 credits.

HRCU 352 Labor Relations
This course will generate an understanding of and appreciation for core elements of union-management relationships. A thorough review of a model for the labor relations process will focus on real-world situations and concerns. Online only. 3 credits.

HRCU 353 Performance Improvement
This course introduces performance improvement concepts and provides practice in the selection and development of strategies designed to maximize organizational performance. Online only. 3 credits.

HRCU 406 Legal Issues in Human Resources
Students study legal issues associated with the administration of human resources in public and private sector organizations. The course focuses on human resource matters such as affirmative action, grievance handling, hiring and firing, labor relations, and health and safety. Online only. 3 credits.

HRCU 415 Becoming an HR Strategist
This course focuses on developing the strategic capability of the HR professional. The course builds on 4 areas of HR strategy: 1) Pre-strategy blueprint, 2) Strategic HR Communications, 3) Integrating HR into the organization’s vision and mission via the development of the HR vision and mission statement, and 4) the HR Scorecard. The course adds a component regarding HR leadership to assist the HR professional to acquire organizational leaders’ acceptance of the HR strategies and bring added-value to their HR position. Online only. 3 credits.

HRCU 416 Human Resource Studies
Students are introduced to the study of human resources in organizations. Topics include workforce planning, job analysis, recruitment, selection, staffing, performance evaluation, training, and compensation. Online only. 3 credits.

HRCU 430 Conflict Resolution
Students analyze the nature, types and stages of conflict and conflict resolution. Focus is on conflict within and between persons, organizations, communities, and societies, with emphasis upon resolution techniques. Online only. 3 credits.

HRCU 445 Human Resource Studies
Students are introduced to the study of human resources in organizations. Topics include recruitment and selection, diversity, employment law, training and development, performance management, and reward systems. The Professional in Human Resources (PHR) certification may be used as a substitute for either HRCU 445 of HRCU 600. The SHRM Senior Certified Professional (SHRM-SCP) certification may be a substitute for this course. 3 credits.

HRCU 600 Human Resource Foundations
( Equivalent to HRCU 645, which is no longer offered.) This course provides a systems approach to managing human resources in organizations. Topics include recruitment and selection, diversity, employment law, training and development, performance management, and reward systems. The Professional in Human Resources (PHR) certification may be used as a substitute for either HRCU 445 of HRCU 600. The SHRM Senior Certified Professional (SHRM-SCP) certification may be a substitute for this course. 3 credits.

HRCU 602 Strategic Business Concepts and Human Resources
This course examines the strategic relationship between effective human resource management and core business functions through the application, analysis, best practices and evaluation of business and Human Resources partnerships. 3 credits.

HRCU 603 Globalization and Diversity
( Equivalent to HRCU 670, which is no longer offered.) In this course students will analyze and evaluate the impact of globalization and multiculturalism on organizational policies and practices within organizations. Topics include best practices to manage multicultural locations, understanding global cultures, managing a multi-generational workforce, and developing cultural intelligence. 3 credits.

HRCU 604 Workforce Planning
( Equivalent to HRCU 644, which is no longer offered.) In this course students will examine the role and responsibilities of human resource professionals in workforce planning strategies that align workforce capabilities with current and future organizational needs. Topics include workforce planning and design, employee recruitment, staffing, onboarding, and exit management. 3 credits.

HRCU 605 Talent Management
( Equivalent to HRCU 646.) In this course students will examine the roles and responsibilities of human resource professionals in creating and implementing strategic approaches to managing employee performance as a means of maximizing productivity and retention. Topics include performance assessment, talent development, succession planning, and change management. 3 credits.

HRCU 606 Strategic and Legal Leadership
( Equivalent to HRCU 648, which is no longer offered.) This course focuses on building strategic leadership skills needed to align business needs with ethical and legal best practices in managing human resources. Concentration is placed on understanding the complexity of ethical decision making, and ensuring legal requirements are met in organizational policies and practices. 3 credits.

HRCU 607 Total Rewards
This course focuses on the importance and value of total rewards programs that align with the organization’s vision, mission and strategy. The design and implementation of total reward systems including competitive pay, benefit, recognition and work-life balance programs that attract, motivate and retain talent; are examined; contemporary trends and issues is emphasized. 3 credits.

HRCU 608 Career Management
Students learn how to design, implement, and sustain effective career development plans from the perspective of both the individual and the organization. Topics include creating and implementing a career development plan, linking career development with other systems within the human resources field, and the appropriate use of career assessment instruments as part of the self-assessment process. Online only. 3 credits.
HRCU 622 Labor Relations and Collective Bargaining
Students analyze the nature of industrial society and its changing dimensions as in the post-industrial era. Union organizing, collective bargaining and contract administration are emphasized. Problems related to technology, automation, environmental work/safety requirements, labor-management conflict, and affirmative action are discussed. Online only. 3 credits.

HRCU 630 Conflict and Negotiation
Students analyze the nature, types and stages of conflict and conflict resolution, focusing on conflict within and between persons, groups, organizations and societies. Negotiation and resolution techniques are examined and applied. 3 credits.

HRCU 650 Strategic Management of Human Resources
Prerequisites: Satisfactory completion of HRCU 600 and twelve (12) credits of additional core courses.

The capstone course provides students with the opportunity to apply and integrate previous learning by the completion and presentation of an integrative paper, which will demonstrate the students’ learning as well as their abilities to integrate and apply human resources concepts and strategies learned to a complex business issue. 3 credits.

HRCU 652 Human Resources Information Systems
Students learn how to assess, design and implement human resources information systems (HRIS). The course covers issues central to HRIS effectiveness in organizations of all sizes and in a range of technical environments. Students are presented with a theoretical framework to understand systems design issues, analyze needs, choose software and install an HRIS. Online only. 3 credits.

HRCU 699 Independent Research
Prerequisite: Dean approval.

Supervised independent study or research on a special issue or program development affecting human resources management. 3 credits.
HUMANITIES (HUMU)

HUMU 200 Women's Realities
This course serves as an introduction to women’s studies as an academic discipline and a critical analysis of the traditional views of women as individuals, members of families, and societies. The perspective is historical as well as cross-cultural. 3 credits.

HUMU 250 Humanities in the Digital Culture
This course provides an introduction to the evolving field of digital humanities. It examines the cultural and social impact of digital technologies from the perspective of the humanities. Students will analyze the ways in which digital technologies transform our experience of time, space, privacy, and social engagement. 3 credits.

HUMU 320 Roll Over Beethoven: A Survey of Rock and Roll
A survey of the many musical styles and cultural movements collectively called “rock’n’ roll” that have developed since the mid-1950s. The course will examine the artistry of rock music, as well as its historical contexts and social implications. Online only. 3 credits.

HUMU 329 Experimental Topics in the Humanities
An examination of selected topics in the humanities relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

HUMU 345 Art, Media Technology, and Culture
The goal of this course is to explore the particular ways that art transforms culture. Technologies, from ancient oral narratives through medieval cathedrals, geographical explorations, public theatres and the printing press to the nearly ubiquitous open access of current electronic media, will be studied as essential to both the creation of the works themselves as well as to their transmittal over space, time and peoples. The course historically contextualizes a number of critically important artistic units of cultural information [epiphanies or memes] in order to demonstrate the process of cultural evolution. The course also highlights the primacy of the imagination and the intertwining roles of creator/artist/adapter, medium chosen and publisher/producer/promoter. Online only. 3 credits.

HUMU 347 Society, Culture, and Literature
In this course, students will examine popular literature and culture as a way of critically analyzing society. They will analyze the interrelationship between literature, culture and society, as it has existed in America since post-WWII. Students will read popular genres such as post-modern literature, African American literature, Irish American literature, emergent ethnic literature, and gay/lesbian literature among other genres. Students will interpret the literature and analyze the role of culture and society on literature and vice versa. Online only. 3 credits.

HUMU 449 Multicultural Perspectives: A Passage to India
Students will examine culture, identity, and ethnic diversity. Students study the value systems which underlie customs, traditions, folklore, history, geography, art, and literature using the exemplar of the Indian sub-continent. The goal of the course is to increase awareness and respect for similarities and differences among global and domestic cultures and subcultures. Online only. 3 credits.

HUMU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
LEST 300 Foundations of Law
This course provides an introduction to the United States legal system, the different courts and their roles, and major areas of law such as contracts, torts, and criminal law. Students will develop an understanding of common legal terminology and begin to explore current legal issues. 3 credits.

LEST 303 Legal Research and Writing
This course provides an introduction to the fundamentals of legal research and writing, including the ethical implications involved in performing legal research and writing. Students will analyze the role that clear communication plays in the legal environment. Additionally, students will explore the various databases legal professionals utilize. Online Only. 3 credits.

LEST 304 Constitutional Governance
This course focuses on the roles of the state government, the different branches of the Federal government, and the balance of power among them. Students will examine individual Constitutional rights such as free speech, freedom of religion, and search and seizure. They will then compare and contrast select individual rights on a global scale. Students will also explore the role of the U.S. Supreme Court in interpreting the Constitution, in regard to governmental powers and individual rights. 3 credits.

LEST 306 Business Organizations
This course focuses on the legal rights and responsibilities of business organizations in the United States. Students explore the most prevalent types of business organizations and the differences between them. Students also consider the major differences between public and privately held corporations and between limited and general partnerships. Additionally, students analyze the legal context of businesses activities and the distinction between principles of agency and fiduciary relationships. 3 credits.

LEST 320 Torts
From accidents to intentional assaults, when people sue one another, it is commonly within the realm of tort law. This course focuses on the tort system in the United States. Students will explore the most common types of torts, including negligence, strict liability, and intentional torts. Students will also consider the legal requirements and potential defenses for each tort. Online Only. 3 credits.

LEST 322 Contracts
This course addresses general principles of contract law including formation, breach, defenses, and remedies. Students will examine principles of contract review and drafting with special attention given to issues that commonly lead to litigation. Additionally, students will explore the Uniform Commercial Code and its effect on contract rights. Online Only. 3 credits.

LEST 324 Interviewing, Negotiation and Alternative Dispute Resolution
This course examines the art and science of interviewing and negotiation with additional emphasis on alternative conflict resolution. Through the use of case studies and associated readings, students will explore the basic models of communication through interviewing, bargaining and alternative dispute resolution. Online Only. 3 credits.

LEST 325 Business Ethics
Business ethics addresses the moral principles that should govern a business's interactions with its stakeholders. This course explores the ethical implications of various business decisions and strategies. Students will analyze case studies and current events to understand the role of ethics in corporate decision-making. Online Only. 3 credits.

LEST 402 Litigation and Trial Advocacy
This course will provide a complete overview of a civil trial from the filing of a complaint through the appeals process. Students will explore, in depth, each of the trial stages. Topics include initiating and defending lawsuits, gathering information from clients and from the opposing sides, trial preparation, and post-trial procedures. Students will analyze legal situations and develop their own trial strategies. Online Only. 3 credits.

LEST 410 Employment Law
This course examines common legal issues that can arise in an employment setting. It explores sources of employment law and regulation, including the Civil Rights Act, the Americans with Disabilities Act, and the Occupational Safety and Health Administration. It discusses common legal pitfalls such as discrimination in the workplace and wrongful termination. Finally, it leaves students with a better understanding of how to best protect the legal interests of both employers and employees on the job. 3 credits.

LEST 412 Intellectual Property
Prerequisite: LEST 300.
This course explores how the law assigns ownership interests to persons or entities in their artistic, academic, technological, or other creations. This course surveys the major categories of intellectual property to include copyright, trademark, and patent. Attention will also be given to the concepts of reverse engineering and independent discovery. Students will examine the history of intellectual property as well as the underlying public policy decisions, statutes, and court cases that form the basis of intellectual property law. 3 credits.

LEST 414 Transactional Law
This course provides an in-depth examination of the legal side of business transactions. Students explore the sales of goods and services and consider such issues as warranties, contracts, and payments. Legal topics such as consumer protection, product liability, and the Uniform Commercial Code are discussed. Emerging legal considerations in e-commerce are also considered. 3 credits.

LEST 416 Contemporary Legal Issues
Prerequisite: LEST 300.
This course surveys a variety of timely legal issues that have significant legal, social, ethical, and political impact on the lives of everyday citizens. Students will examine the role of the courts in addressing unfolding social, cultural and political issues. In addition, students will confront and assess significant systemic issues facing the legal system. Online Only. 3 credits.

LEST 418 Electronic Discovery and Legal Technology
This course will survey issues surrounding electronic discovery, including electronic discovery rules and case management systems in both civil and criminal litigation. Students will also assess confidentiality and ethical issues arising in the context of data management and other software-based technologies. Finally, students will analyze the use of technology and telecommunications in the courtroom. Online Only. 3 credits.

LEST 420 Law Practice Management
This course provides the skill set needed to be a successful paralegal in a law office setting. Students will gain an understanding of business processes in a law office, including file management, legal fees, timekeeping, and client funds. Students will also focus on soft skills such as client relations, professionalism, and communication skills. Online Only. 3 credits.
LEST 462 Ethics in a Legal Environment
This course provides an overview of the codes of ethics and ethical obligations encountered in a legal environment. Students will examine the model codes for attorneys and legal assistants. Students will also evaluate different ethical dilemmas, including the unauthorized practice of law, conflicts of interest, and breaches of confidentiality. Online Only. 3 credits.

LEST 495 Legal Studies Capstone
Prerequisites: LEST 300, LEST 302, LEST 402.

As the capstone for the B.A. in Legal Studies, this course brings together student learning from all prior courses. Students will consider legal issues from a broad interdisciplinary perspective. They will be expected to set forth a method of systematically analyzing an unsettled legal issue and to ultimately construct a legally sustainable argument for the issue’s resolution. Online Only. 3 credits.

LEST 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
LIBERAL STUDIES (LBSU)

LBSU 100 Student Success Strategies
Students will explore and practice strategies designed to improve their success throughout their college experience. Topics include specific study skills, such as note-taking, critical thinking and test-taking. Students will also address goal setting, stress reduction and time management, to help them balance work and home life. Additionally, students will evaluate how their own learning styles guide their approaches to education, and they will formulate a personal strategy for success. 3 credits.

LBSU 105 Academic Foundations
This course introduces students to core intellectual concepts in a liberal arts education. The course focuses on a critical reading and interpretation of resources from a broad range of disciplines, including literature, history, philosophy, and social sciences. Students will be encouraged to develop an ability and desire to question, examine, and discover connections between course topics, their own lives, and the broader community. 3 credits.

LBSU 250 Education and Society in the 21st Century
Prerequisite: ENU 103.
In this course students will consider the sociological origins, purposes and consequences of American education from multiple perspectives. A primary goal of this introductory course is to help students identify and debate educational issues that impact public policy and an individual's range of learning options in the 21st Century. 3 credits.

LBSU 302 Information Fluency and Academic Integrity
Prerequisite or Corequisite: ENU 104.
This course is designed to provide students with lifelong research and information literacy skills. Students will gain working knowledge of library resources as well as those within their profession. Coursework is designed to engage students as active researchers honing their ability to evaluate, analyze, organize, synthesize, and ethically use information. Emphasis will be placed on utilizing digital tools to locate information and present findings in a virtual environment. (Must be taken within first two sessions after matriculation if ENU 103 and ENU 104 are satisfied, or within the first two sessions after those requirements are completed.) 3 credits.

LBSU 304 Liberal Arts Core Foundations
Prerequisite or Corequisite: ENU 104.
LBSU 304 is the foundational course for students' experiences at Brandman University. The course is designed to support students to achieve success in upper division courses and realize their academic goals. Students will explore and analyze the multiple perspectives in liberal arts and higher education. Through personal reflection, students will apply their understanding of a liberal arts education to their own career goals and lives. (Must be taken within first two sessions after matriculation if ENU 103 and ENU 104 are satisfied, or within the first two sessions after those requirements are completed.) 3 credits.

LBSU 306 Transition to Applied Studies
This is the gateway course for the Applied Studies program. It examines the relationship between occupational and academic competencies and values. Assignments will focus on applying theoretical knowledge in practical ways. Online Only. 3 credits.

LBSU 308 Experimental Topics in Liberal Studies
Prerequisites: Approval of academic advisor and experiential learning coordinator.

LBSU 310 Music, Movement and Drama: The Human Expression
Prerequisite: ENU 104.
This course examines the connected relationships of movement, music and drama and their importance as a reflection of world culture and social expression. Students will learn to recognize, appreciate, and build upon music theory, acting principles and dance foundations as they apply to educational settings. 3 credits.

LBSU 329 Experimental Topics in Liberal Studies
Prerequisite: ENU 104.
An examination of selected topics in the liberal arts relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

LBSU 403 Liberal Studies Multiple Subjects Capstone
Prerequisites: Senior Status and all Education Foundations and Subject Matter courses in the BA Liberal Studies Program.

LBSU 487 Applied Studies Capstone
Prerequisites: ENU 380 and LBSU 306.
This course provides students with the opportunity to reflect upon their experiences in the applied studies degree program and analyze the relationship between course content, experiences and future goals. They will demonstrate mastery of integrated learning by connecting experiences inside and outside the formal classroom. Online only. 3 credits.

LBSU 492 Experiential Learning
Prerequisites: Approval of academic advisor and experiential learning coordinator.
University contracts must be signed by sponsor and student and submitted to the experiential learning coordinator two weeks prior to the beginning of the session in which the student wishes to enroll. Students engage in a supervised experience with an activity of personal and public concern that is both individually life-enriching and socially beneficial to the community. The fieldwork component may comprise service-learning, internship, or other types of experiential learning. Students are required to complete the fieldwork component as well as threaded discussions, assigned readings, and written evaluations and reflections of the readings and field experience. May be repeated for a total of 6 credits with approval of Internship Coordinator, as long as the experiential learning component is substantially different. Online only. 3 credits.
LBSU 499 Independent Study
Prerequisite: Instructor’s approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
MANAGEMENT (MGTU)

MGTU 240 Selected Topics in Management
Prerequisite: Dean approval.
This course covers special topics related to management and/or business studies. This course may be repeated for up to 9 credits provided the course topics are different. 3 credits.

MGTU 301 Principles of Management
This course examines the general systems theory; evolution of management theory; and interpersonal behavior in business organizations. Specific topics include motivation, leadership, value attitudes and organizational development. 3 credits.

MGTU 302 Principles of Retail Management
Principles of Retail Management: Demonstrate an understanding of the retail management principles, including retail operations and merchandising. 3 credits.

MGTU 310 Legal Environment of Business
The course describes the interaction between politics, society, government and the law (public/private and federal/state). This course also examines how corporate policy and business decisions are influenced by such institutions, within the scope of their social and ethical responsibilities. 3 credits.

MGTU 315 Operations Management
Prerequisite: MATU 203.
Operations management focuses on the systematic planning, design, and operation of all processes required for the production of goods and the delivery of services. Thus, operations management spans almost all the real value-added activities of an organization including product and process design, customer order management, production, and service delivery. 3 credits.

MGTU 320 Strategies Across the Supply Chain
Strategic management of supply chains is presented in this course with emphasis on the topics of supply chain capabilities, risk management, CSR principles, collaborative innovation, strategic sourcing, logistics strategy, and value network management. The concept of responsive or efficient supply chain design is developed, to prepare students for management challenges in a wide range of industries. 3 credits.

MGTU 321 Project Management and Supply Chain Leadership
Design of supply chain processes is presented in this course with emphasis on cross functional project management, management of supply chain processes, procurement management, logistics system design, risk management, performance management, analysis and improvement. Definitions and metrics are developed for success in driving continuous improvement in supply chain systems. 3 credits.

MGTU 340 Selected Topics in Management
Prerequisite: Dean approval.
This course covers special topics related to management and/or business studies. This course may be repeated for up to 9 credits provided the course topics are different. 3 credits.

MGTU 400 Global Environment of Business
Prerequisite: ECNU 201.
(Formerly BUSU 410) Introduces the unique but fundamental aspects of the global economy, including the economic and political aspects of international trade and investment, the global monetary system, and emphasizes the study of cultural traditions other than one’s own. Import-export, trade and foreign direct investments, and business strategies are explored. 3 credits.

MGTU 410 Strategic Management
Prerequisite: All core courses in the BBA major must be completed, one course may be taken concurrently.
Formulation and implementation of strategies for both single-business and diversified firms operating in domestic or international contexts. Topics include the analysis of the remote, industry, and operating environments, the analysis of the internal firm resources, competencies and competitive advantages and weakness, the issues of outsourcing, mergers, acquisitions and joint ventures, and the integration of functional and behavioral knowledge in the formulation and implementation of firm strategies and tactics. 3 credits.
MARKETING (MKTU)

MKTU 301 Principles of Marketing
Marketing orientation and concepts applied to marketing strategies and planning, pricing, product development and management, promotion and channels of distribution. Emphasis is on ethics in marketing practice and on global marketing. 3 credits.

MKTU 310 Marketing Research
Prerequisites: MKTU 301 and MATU 203.
This course examines the methods of collecting and interpreting marketing information and specific application to problems in marketing. Design and implementation of a marketing research plan, and its role in decision making are emphasized. 3 credits.

MKTU 320 Consumer Behavior
This course explores behavioral factors (such as perception, cognition, attitude, reference group and decision theories) affecting consumer decisions concerning purchase of products and services. In particular, emphasis is placed on the analysis of buyer behavior and marketing strategy development. 3 credits.

MKTU 410 International Marketing
The course encompasses the study of the economic, social, cultural, legal, political, and regulatory environment required for developing a global marketing strategy and plan. Evaluative criteria and data analysis will be utilized in entering international markets. 3 credits.

MKTU 420 Marketing Strategy
This course will develop the student’s ability to think strategically about marketing problems and potential solutions. To achieve this goal, the course focuses on the marketing process as the basic framework for integrating and coordinating marketing decisions. Specifically, you will develop skills in establishing and evaluating marketing opportunities, and developing marketing strategies, and programs so that you will be better prepared to tackle the marketing problems you will encounter in your profession. As part of the course requirements, you will conduct environmental, competitive, and customer analyses to develop marketing strategies and programs. 3 credits.

MKTU 430 New Product Development
This course introduces and applies an integrated view of the process of designing, developing and launching new products. Aligning business strategy with product design, linking product development and product launch strategies, and competitive placement of new products are explored. 3 credits.

MKTU 440 Advertising and Promotional Strategy
This course provides students an opportunity to understand advertising and other promotional strategies. Integration of market research and analysis, social/ethical/economic impact, and international and local brand strategies are discussed. 3 credits.

MKTU 605 Marketing Management
This course introduces marketing strategy, providing students with an overview of the role of marketing within specific companies and society. The course will provide students with the fundamental, conceptual and analytical tools essential for a comprehensive understanding of marketing. 3 credits.

MKTU 624 Seminar in Marketing Research
Prerequisite: MKTU 605.
Research issues, methods and applications in marketing are examined. Other issues explored are the scope of market research, buyer and industrial applications, research methodologies including research design, data collection and analysis, report writing and presentation. 3 credits.

MKTU 630 Seminar in New Product Development
Prerequisite: MKTU 605.
New products and services are critical to successful growth and increased profits in many industries. If the product provides customers with highly valued benefits, that product will be profitable. Identifying customer perceived needs, and developing them into product concepts helps to build and manage products and brands. Competitive and segment analysis, idea generation and product launch are topics covered in this course. 3 credits.

MKTU 635 Seminar in Advertising and Promotion
Prerequisite: MKTU 605.
This course provides an introduction to current processes and practices of advertising and promotion. The course focuses on the role of advertising and promotion in the marketing mix and the critical role advertising plays in marketing success. 3 credits.

MKTU 640 Seminar in International Marketing
Prerequisite: MKTU 605.
Students will be introduced to global marketing environment concepts and theories that are required in order to analyze the global market and to develop global marketing strategies. The impact of such global influences as ethics, sociology, and culture will be evaluated as they pertain to international marketing activities. 3 credits.
MATHEMATICS (MATU)

MATU 099 Intermediate Algebra
Prerequisite: successful completion of basic algebra or equivalent.

This course focuses on topics such as linear, quadratic, exponential, and logarithmic functions and equations; rational expressions and equations, solving systems of equations in two to three unknowns, matrices and determinants, and conic sections. 3 credits.

MATU 103 Applied Mathematics
This course presents contemporary and historical topics in mathematics from problem solving, humanities, and business. Students will explore mathematical concepts by applying quantitative problem solving methods to sets, cryptanalysis, number systems, geometry, art, probability, statistics, voting methods, fair division, economics, and finance topics in a real-world context. 3 credits.

MATU 115 Calculus I
Prerequisites: Pre-calculus or the equivalent.

This Calculus I course is designed for science and math majors, premed students, and MBA students and covers the following topic areas: limits, continuity, derivatives from definition, derivatives from graphs, rules of differentiation, Mean Value Theorem, applications of differentiation, basic differential equations, optimization, L'Hopital's Rule, curve sketching, Riemann integration, both parts of the Fundamental Theorem of Calculus and basic applications of integration. Online only. 4 credits.

MATU 203 Introduction to Statistics
Prerequisite: MATU 099 or higher.

Not recommended for the student who has taken a statistics course in another department or for mathematics majors. Students study probability, analysis of data, parametric and non-parametric statistics, with examples from the social sciences and the natural sciences. 3 credits.

MATU 206 Mathematics for Elementary School Teachers I
This course is the first in a two-part mathematics sequence for prospective elementary school teachers. Addressing Common Core and National Council of Teachers of Mathematics Standards, instruction will include problem solving, pattern recognition, critical reasoning, estimation, logic, number theory, properties of sets, operations on real numbers, divisibility, proportions, and percents. 3 credits.

MATU 207 Mathematics for Elementary School Teachers II
Prerequisites: MATU 206.

This course is the second in a two-part mathematics sequence for prospective elementary school teachers. Addressing the Common Core and National Council of Teachers of Mathematics Standards, instruction will include algebraic thinking, use of variables, graphing algebraic equations, geometry, measurement, data analysis, statistics, and probability. 3 credits.

MATU 329 Experimental Topics in Mathematics
An examination of selected topics in Mathematics relevant to evolving areas in the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

MATU 499 Independent Study
Prerequisites: Instructor's approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
MULITPLE SUBJECT (EDMU)

EDMU 520 Literacy and Language in K-8 Classrooms I
Prerequisites: EDUU 510 and 512.

Literacy and Language I focuses on first and second language acquisition, English language development, early literacy, emerging literacy, beginning reading, and beginning writing. Major study units also include the reading writing connection, the use of technology and media in literacy instruction, children’s literature and informational text. Aligned with the Common Core Standards in English Language Arts and Literacy and English Language Development standards this course prepares candidates to provide literacy instruction to a wide range of students including students with varied reading levels, students with special needs, English learners, speakers of non-standard English and advanced learners. An emphasis is placed on classroom management and the collaboration with specialists, paraprofessionals, and parent/caregivers. Candidates will design and conduct a tutoring project that reflects their initial proficiency in reading diagnosis, implementation of theory-based strategies and interventions that provide effective instruction for a struggling reader in a primary grade level. A minimum of 10 hours of fieldwork is required for this course. 3 credits.

EDMU 521 Literacy and Language in K-8 Classrooms II
Prerequisites: EDUU 510, 512 and EDMU 520.

No prerequisites are required if candidates are using this course to obtain a Multiple Subject Authorization to be added to a Single Subject credential. Literacy and Language II focuses on second language acquisition, English language development, reading comprehension and fluency as well as writing fluency. Major study units also include the reading writing connection, the use of multimedia tools in literacy instruction, content area literacy, children’s literature and informational text. Aligned with the Common Core Standards in English Language Arts and Literacy and the English Language Development standards this course prepares candidates to provide literacy instruction to a wide range of students including students with varied reading levels, students with special needs, English learners, speakers of non-standard English and advanced learners. An emphasis is placed on developing an understanding of home and community literacy practices, including historical and cultural traditions, and collaborating with families to support literacy. Candidates will design and conduct a tutoring project that reflects their proficiency in reading diagnosis, implementation of theory-based strategies and interventions that provide effective instruction for an English learner in an intermediate grade level. A minimum of 10 hours of fieldwork is required for this course. 3 credits.

EDMU 523 History, Social Science and Visual/Performing Arts in K-8 Classrooms
Prerequisites: EDUU 510, and 512.

No prerequisites are needed if candidates are using this course to obtain a Multiple Subject Authorization to be added to a Single Subject credential. This course provides candidates an opportunity to study current best practices in teaching and learning mathematics. An emphasis is placed on teaching strategies and assessment techniques that build student understanding of math concepts and develop problem solving skills. Classroom management techniques, interactive curriculum materials, and technology integration are also explored. Candidates will use the knowledge gained to design and present lessons that promote academic discourse and are aligned with the Common Core State Standards in Mathematics. An integral component of the course is a tutorial experience in an elementary school classroom in which candidates apply strategies studied in the course. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDMU 524 Teaching and Learning Mathematics in K-8 Classrooms
Prerequisites: EDUU 510 and 512.

No prerequisites are needed if candidates are using this course to obtain a Multiple Subject Authorization to be added to a Single Subject credential. This course provides candidates with an opportunity to study current best practices in teaching and learning mathematics. An emphasis is placed on teaching strategies and assessment techniques that build student understanding of science concepts and promote inquiry. Classroom management techniques, interactive curriculum materials, and technology integration are also explored. Candidates will use the knowledge gained to design an inquiry based unit and present lessons that are aligned with content standards in science. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDMU 525 Teaching and Learning Science in K-8 Classrooms
Prerequisites: EDUU 510 and 512.

No prerequisites are needed if candidates are using this course to obtain a Multiple Subject Authorization to be added to a Single Subject credential. This course provides candidates an opportunity to study current best practices in teaching and learning science. An emphasis is placed on teaching strategies and assessment techniques that build student understanding of science concepts and promote inquiry. Classroom management techniques, interactive curriculum materials, and technology integration are also explored. Candidates will use the knowledge gained to design an inquiry based unit and present lessons that are aligned with content standards in science. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDMU 580 Supported Teaching I: Elementary School
Prerequisite: Candidates must be in the appropriate multiple subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 546 or 547, and/or EDUU 548, or EDUU 558 or EDUU 559.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDMU 580-A Supported Teaching I: Elementary School
Prerequisite: Candidates must be in the appropriate multiple subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 546 and/or EDUU 547.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.
EDMU 580-B Supported Teaching I: Elementary School
Prerequisite: Candidates must be in the appropriate multiple subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 547 and/or EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 580-C Supported Teaching I: Elementary School
Prerequisite: Candidates must be in the appropriate multiple subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 580-D Supported Teaching I: Elementary School
Co-requisite: EDUU 558.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 580-E Supported Teaching I: Elementary School
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 580-F Supported Teaching I: Elementary School
Co-requisite: EDUU 559.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 581 Supported Teaching II: Elementary Education
Prerequisites: EDMU 580 A, B, C; Co-requisite: EDUU 548 and/or EDMU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDMU 581-A Supported Teaching II: Elementary Education
Prerequisite: EDMU 580-A, EDMU 580-B, and/or EDMU 580-C.

Co-requisite: EDUU 548 and/or EDMU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 581-B Supported Teaching II: Elementary Education
Prerequisite: EDMU 580-D, EDMU-580-E, and EDMU 580-F.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their elementary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDMU 582 Directed Teaching I: Elementary School
Prerequisites: Candidates must meet advancement requirements as stated in the catalog (see Student Teaching section) including enrollment in the appropriate multiple subject credential or MAT program.

Co-requisite: EDUU 544.

In Directed Teaching I, candidates are placed with a master teacher for one full term (full school days) in an elementary classroom. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.

EDMU 583 Directed Teaching II: Elementary School
Prerequisites: EDMU 582, EDUU 544.

Co-requisite: EDUU 545.

In Directed Teaching II, candidates are placed with a master teacher for one full term (full school days) in a different elementary classroom and grade level than in the first Directed Teaching experience. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.
MUSIC (MUSU)

MUSU 101 Introduction to Music
A course designed to give the student a grasp of the major styles and trends of Western music, from Gregorian chant to the present. 3 credits.

MUSU 222 Musical Cultures of the World
A survey of nonwestern musical traditions with focus on Africa, Asia and Latin America. 3 credits.

MUSU 329 Experimental Topics in Music
An examination of selected topics in music relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.
NATURAL SCIENCE (NSCU)

NSCU 302 Life Science
This course examines the fundamental concepts of life science and its applications. Topics include the structure and functionality of the structures found in plants and animals, the relationships between living and nonliving components within the environment, example life cycle and reproductive patterns, evidence that supports the theory of evolution, and how to plan and conduct appropriate scientific investigations. An emphasis is placed on applying science concepts to current events in science and society. 3 credits.

NSCU 304 Earth and Physical Science
This course examines the fundamental concepts of Earth and physical science and their applications. Topics include the structure and composition of the Earth, Earth’s atmosphere and Earth’s bodies of water, the solar system and the universe, the structure and properties of matter, the principles of motion and energy and how to plan and conduct appropriate scientific investigations. An emphasis is placed on applying science concepts to current events in science and society. 3 credits.
NURSING (NURU)

NURU 400 Transitions to Inquiry Based Practice: Baccalaureate Generalist Nursing Practice
This course is the foundation course for students moving to the role of the baccalaureate generalist nurse. Students coming with a variety of nursing experiences will come together to examine advocacy, empowerment, life-long learning and self-renewal in an evolving nursing career. This course requires students to attend face-to-face immersion and there is an associated nursing fee. 3 credits.

NURU 401 Nursing’s Public Image and Professional Issues
This course examines historical and current individual and societal perceptions of nurses and nursing, including how media has contributed to these perceptions. How these perceptions have effect and continue to effect healthcare, and the professional values fundamental to the practice of nursing today and in the future will be explored. The role of organized labor and other current professional issues will be analyzed. 3 credits.

NURU 403 Managing Health Care Reform
This course will focus on the changing landscape, process, and issues facing healthcare reform in the United States. The context, role and impact of healthcare policy, finance, and regulation in shaping the nature, quality and safety of the practice environment will be examined. The associated responsibilities of the professional nurse to advocate for patients, families, communities, the nursing profession, and changes in the healthcare system will be explored. Emphasis will be placed on the role of the professional nurse as a manager of care who balances human, fiscal, and material resources to contribute to evidence-based quality care. 3 credits.

NURU 404 Healthcare Communication and Collaboration
This course explores the history and development of issues in healthcare communication. The course will examine current and future interprofessional, patient and personal communication using current and emerging technologies. The course cuts across multiple levels of communication, different communication channels, and the use of diverse communication media and technologies to address far ranging issues within the field. Students will be able to develop case studies relating to their areas of interest within the field. 3 credits.

NURU 405 Evidence-Based Thinking for Scholarship and Practice
This course explores nursing inquiry and professional scholarship. This course will focus on providing the student with foundational knowledge regarding critical appraisal and research utilization for its relevance and applicability to selected health care strategies and conditions. The course will examine the basic elements of the research process and models for applying evidence to clinical practice to patient-centered care. This course prepares students to synthesize a body of evidence, to collaborate with others in developing EBP projects, and to evaluate the application of evidence for practice. The course will explore the role of inquiry and innovation in improving critical thinking in practice, individual patient outcomes, population health, health care policy and educational practice. 3 credits.

NURU 406 Improving Patient Health Care Outcomes: Quality Care & Patient Safety
This course will address patient safety and healthcare quality improvement concepts, principles, and practices. Emphasis will be placed on recognizing safety and quality concerns and applying evidence-based knowledge to nursing practice to optimize patient healthcare outcomes. The professional nurse role in recognizing, interrupting, evaluating, and correcting healthcare errors will be explored. 3 credits.

NURU 407 Cultural and Spiritual Diversity in Health and Nursing
This course focuses on understanding different cultures and how they affect the provision of culturally competent, patient centered care. Students will have the opportunity to explore health beliefs and values in their own culture as well as the culture of others. Emphasis will be placed on understanding how the professional nurse can assess and plan care according to the cultural and spiritual needs of individual patients. 3 credits.

NURU 408 Information, Patient Care, and Decision-Support System Technology
Students in this course will explore the recent changes in healthcare technology, specifically electronic medical records, patient care, decision support, radio-frequency identification (RFID) systems, work flow, robotics, and evaluate these technologies in terms of nursing practice and patient outcomes. Barriers and incentives to implementation will be examined. Emphasis will be placed on learning how to stay current in the area and use of the integration of electronic information and related healthcare technologies to improve the design, delivery, and evaluation of evidence-based, quality care. 3 credits.

NURU 409 Understanding Health Issues and Health Delivery in the Community Setting
Prerequisite: NURU 400.
Co-requisite for full-time students: NURU 410. This course will review the concepts, theories and evidence-based thinking in community/public health nursing in relation to population-based healthcare and its delivery in diverse healthcare settings for patients across the lifespan. Students will develop a knowledge-base and mastery of interventions aimed at health promotion and disease prevention that shape a community’s health status. 3 credits.

NURU 410 Practicum in the Community Setting
Prerequisites: NURU 400 and NURU 409 for part-time students.
Co-requisite: NURU 409 for full-time students.
Students in this course will apply evidence-based thinking and nursing practice in selected community-based healthcare sites with emphasis on health risk assessment, disease prevention, and health promotion for improved health outcomes. Students will complete 96 practicum hours. 3 credits.

NURU 411 Transformational Leadership and Management in Nursing
Prerequisites: NURU 400.
Co-requisite: NURU 412 for full-time students.
This course provides the basis for understanding leadership and management principles as they relate to the delivery of healthcare. Emphasis is placed on understanding how the use of leadership and management theories can create a positive difference in the quality of nursing practice. Students will have the opportunity to explore many issues and practices employed in the leadership and management of organizations and individual units. 3 credits.
NURU 412 Practicum in Transformational Leadership and Management in Nursing
Prerequisites: NURU 400 and NURU 411 for part-time students.
Co-requisite: NURU 411 for full-time students.
This leadership internship gives students the opportunity to explore management in an area of clinical interest at a higher level than they are now functioning. Students will work with a mentor and observe and participate in aspects of managerial functions. Emphasis will be given to the various roles managers play on specific units or organizations. Students will complete 80 practicum hours. 3 credits.

NURU 413 Advanced Pathophysiology for the Oncology Nurse
Prerequisite: COH RN or consent of instructor.
Co-requisite: NURU 414.
This course focuses on understanding the pathophysiology of cancer across the lifespan including the most common cancers for each age group. This course stresses critical thinking and decision-making in the clinical setting based on these concepts. 3 credits.

NURU 414 Assessment and Management of the Oncology Patient across the Lifespan
Prerequisite: COH RN or consent of instructor.
Co-requisite: NURU 413.
This course focuses on understanding the assessment and management of the cancer patient across the lifespan including the most common cancers for each age group. Emphasis will be on culturally appropriate care across the lifespan. 3 credits.

NURU 600 Theoretical Foundations of Evidence-based and Advanced Practice Nursing
This course will analyze the major nursing theories and theories from other disciplines to explore how they apply to advanced practice registered nursing. Students in this course will develop a personal theoretical framework for their own clinical practice and for use in their final scholarship project. Tools used to conduct research that might be appropriate for data collection in the final project will be reviewed. 3 credits.

NURU 601 Transitions in Practice: The Advanced Practice Nurse as DNP
This course will explore the evolution of doctoral education in nursing. Current issues regarding the DNP role, including titling, role transition, education, certification, and public understanding of the role will be discussed. The role of the DNP graduate as a leader, collaborator, and expert clinician will be analyzed. Students will discuss the future of advanced practice nursing and the role that the nurse practitioners will play in healthcare reform. This course requires students to attend a face-to-face Immersion and there is an associated nursing fee. 3 credits.

NURU 602 Developmental, Cultural and Spiritual Care Across the Lifespan
This course focuses on understanding different cultures, religions, and alternative healthcare practices and how they affect the provision of patient centered care. Variations of family structure and patient support will be explored. Normal development of individuals across the lifespan will be reviewed. Emphasis will be placed on the needs of patients and their support system across the lifespan during well office visits or follow-up care for maintenance of optimal health even if the patient has a chronic disease. 3 credits.

NURU 603 Advanced Health Assessment Across the Lifespan and Cultures
Co-requisite: NURU 604 for student enrolled in the BSN-DNP program.
This course is designed to expand upon basic health assessment skills and includes strategies for history taking and for physical, functional, developmental, and psychosocial assessment that recognizes and includes normal individual, cultural, and developmental variations and pathophysiological changes across the lifespan. Comprehensive and focused data collection, verbal case presentation, documentation, and physical examination strategies culminating in a differential diagnosis will be addressed. This course provides the foundation for critical thinking, diagnostic reasoning, and the development of clinical decision making skills necessary for the advanced practice nursing role across the lifespan for an evidence-based perspective. This course is taken concurrently with a track-specific health assessment laboratory/practicum course. This course requires students to attend a face-to-face Immersion. 3 credits.

NURU 604 Clinical Practicum: Advanced Health Assessment Across the Lifespan and Cultures
Co-requisite: NURU 603 for students enrolled in the BSN-DNP program.
This course will provide students with the opportunity to develop and refine comprehensive health assessment skills necessary for advanced health assessment across the lifespan. Students will be expected to demonstrate and document, both in a laboratory and clinical setting, their ability to perform a comprehensive and organized history and physical examination that considers cultural and socioeconomic background, developmental variations, and pathophysiological changes. This course requires students to attend a face-to-face Immersion, 255 clinical hours and is graded on a Pass/No Pass basis. 4 credits.

NURU 605 Advanced Pathophysiology across the Lifespan
This graduate course is designed to prepare advanced practice nurses to apply concepts of pathophysiology from the cellular level to disease process for assessment of patients with a variety of conditions across clinical settings. The concepts and principles of normal physiology, pathophysiology, and genetics are emphasized. Current research is used to explore disruptions in normal physiological functioning. The impact of positive health behaviors on pathophysiology is addressed. A systems approach and psychophysiological interrelationships are used to analyze the disease processes and their causative factors. The course stresses critical thinking and decision-making in clinical settings based on these concepts. 3 credits.

NURU 606 Advanced Pharmacotherapeutics Across the Lifespan
The focus of this course for advanced practice nurses is to expand theoretical and evidence-based knowledge and promote synthesis of pharmacotherapeutic concepts and principles across the lifespan. The application of knowledge of pharmacological principles to prevent and/or treat specific conditions will be emphasized, iatrogenic problems caused by the pharmacologic agents will be explored. Drug classifications, cost-effective drug therapy, management and monitoring of therapy including over the counter and herbal preparations and educating/counseling strategies will be included. Ethical, legal, cultural considerations and safety standards of pharmacotherapeutics will be discussed in relationship to the advanced practice nursing role. 3 credits.
NURU 609 Genetics Across the Lifespan
Prerequisite: NURU 600, NURU 601 and/or equivalent with permission of instructor.

This course provides the student with knowledge of the principles of human genetics as they apply to the healthcare professional. Specific topics pertinent to genetics in maternal-child health and the use of genetics and genomics in diseases across the lifespan will be analyzed. Questions regarding genetics and ethics in healthcare in a time of advancing technology in gene mapping, genetic testing and gene therapy will be explored. Students are given the opportunity to develop techniques to build knowledge for evaluation of a genetic disorder using evidence-based practices. The course emphasizes the role of the advanced practice nurse in the creation of an evaluation process and treatment plan for clients with genetic disorders presenting across the lifespan. 3 credits.

NURU 610 Synthesis of Advanced Practice Management, Role and EBP
This course will cover scope of practice, state and federal regulation(s), legal issues, negligence, malpractice, hospital privileges, risk management, and reimbursement for services. Professional conduct, measurements of performance, quality assurance and peer review will be analyzed. Students will explore legal issues using case studies, and strategies for providing the best patient outcomes using clinical evidence. Students will also integrate reflective habits in assembling a career trajectory to outline personal and professional projected outcomes, leading to sustained and continued growth, education, career satisfaction/longevity, health and well-being of the APRN-DNP graduate over time. 3 credits.

NURU 622 Advanced Practice Nursing In Pediatric Acute Care
Prerequisite: Admission to the program or permission of the Program Director.

Co-requisite: NURU 623.

This course is designed to provide students with the knowledge necessary for the management of common problems in acutely ill children and adolescents. Course content builds upon information in previous courses related to the principles of assessment and development issues in children and adolescents. A portion of the course includes information necessary for the care and management of pediatric and adolescent clients with special needs and their families. Using a family centered and developmental perspective, related pathophysiology, research, psychosocial factors, and ethical considerations are explored as they apply to practice. This course requires students to attend the face to face immersion. 3 credits.

NURU 623 Practicum in Pediatric Acute Care
Co-requisite: NURU 622.

This course is a preceptor clinical practicum focusing on the management of common and acute problems of children and adolescents. Learners will participate in a variety of acute pediatric settings where students will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in the PICU, Emergency Department, one of the services i.e., cardiac, infectious disease, surgery, and hematology-oncology. Working as a member of a team a student may participate in palliative care, wound care, hospice, and conscious sedation. Students will apply the latest evidence to practice. This course requires students to attend the face to face immersion. This course is graded on a Pass/No Pass basis. 3 credits.

NURU 624 Complex and Chronic Problems in Pediatric Acute Care
Co-requisite: NURU 625.

This course is second part of the acute care content designed to provide students with the knowledge necessary for the management of the chronically and critically ill child. Course content builds upon information in previous courses related to the principles of assessment and development issues and common and acute problems in children and adolescents. A portion of the course includes information necessary for the care and management of pediatric and adolescent clients with special needs and their families. Using a family centered and developmental perspective, related pathophysiology, research, psychological factors, and ethical considerations are explored as they apply to practice. This course requires students to attend the face to face immersion. 3 credits.

NURU 625 Practicum for Complex and Chronic Problems in Pediatric Acute Care
Co-requisite: NURU 624.

This course is the second preceptor clinical practicum focusing on the management of chronic and critically ill children. Learners will participate in a variety of acute pediatric settings where students will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in the PICU, Emergency Department, one of the services i.e., cardiac, infectious disease, surgery, and hematology-oncology. Working as a member of a team a student may participate in palliative care, wound care, hospice, and conscious sedation. Students will apply the latest evidence to practice. This course requires students to attend the face to face immersion. Students need to complete 255 clinical hours. This course is graded on a Pass/No Pass basis. 3 credits.

NURU 631 Palliative Care and Pain Management
This course will explore appropriate pharmacologic and non-pharmacologic modalities for managing acute and chronic pain. Students will explore the evidence related to the use of alternative therapies such as massage, acupuncture, and Tai chi in the relief of chronic pain. The role of cultural, spiritual, and traditional approaches to the end of life care will be analyzed. The nurse practitioner is examined as the coordinator of end of life care for the support of the patient and family. How to develop and maintain an optimum quality of life and a planned end of life experience will be discussed. 3 credits.

NURU 632 Management in Adult-Gerontology Acute Care
Co-requisite: NURU 633.

This course is designed to provide students with the knowledge necessary for the management of common problems in acutely ill adults. Course content builds upon information in previous courses related to the principles of assessment and development issues in adults. A portion of the course includes information necessary for the care and management of adults with special needs and their families. Using a family centered and developmental perspective, related pathophysiology, research, psychosocial factors, and ethical considerations are explored as they apply to practice. This course requires a face-to-face Immersion. 3 credits.
NURU 633 Practicum in Adult-Gerontology Acute Care  
**Co-requisite:** NURU 632.

Pre-requisite: NURU 604. This course is a precepted clinical practicum focusing on the management of common and acute problems of adults. Learners will participate in a variety of acute care settings where students will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in the trauma ICU, cardiac ICU, Emergency Department, one of the services; i.e. cardiac, infectious disease, surgery, and hematology- oncology. Working as a member of a team a student may give palliative care, wound care, hospice, and conscious sedation. Students will apply the latest evidence to practice. This course requires students to attend a face-to-face Immersion, 255 clinical hours and there is an associated clinical course fee. This course is graded on a Pass/No Pass basis. 3 credits.

NURU 634 Complex and Chronic Problems in Adult-Gerontology Acute Care  
**Co-requisite:** NURU 635.

This course is the second part of the acute care content designed to provide students with the knowledge necessary for the management of the chronically and critically ill adult. Course content builds upon information in previous courses related to the principles of assessment and development issues and complex, critical and chronic problems in adults. A portion of the course includes information necessary for the care and management of adult clients with special needs and their families. Using a family centered and developmental perspective, related pathophysiology, research, psychological factors, and ethical considerations are explored as they apply to practice. This course requires students attend face-to-face Immersion. 3 credits.

NURU 635 Practicum for Complex and Chronic Problems in Adult-Gerontology Acute Care  
**Co-requisite:** NURU 634.

Pre-requisites: NURU 604 and NURU 633. This course is the second precepted clinical practicum focusing on the management of complex, critically and chronically ill adults. Learners will participate in a variety of acute care settings where students will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in the trauma ICU, cardiac ICU, Emergency Department, one of the services; i.e. cardiac, infectious disease, surgery, and hematology- oncology. Working as a member of a team a student may participate in palliative care, wound care, hospice, and conscious sedation. Students will apply the latest evidence to practice. This course requires students to attend a face-to-face Immersion, 255 clinical hours and there is an associated clinical course fee. This course is graded on a Pass/No Pass basis. 3 credits.

NURU 641 Psychopharmacology Across the Lifespan  
**Co-requisite:** NURU 643.

This course provides the didactic background to prepare the Psychiatric Mental Health Nurse Practitioner for the complex role of prescribing psychotrophic medications. Students will apply evidence-based knowledge of psychopharmacological principals to treat specific psychiatric and neurologic conditions and explore management of iatrogenic problems caused by psychopharmacologic agents. Students will examine concepts of neuropsychiatric development, brain function, neuroanatomy, and neurophysiology with relation to psychopharmacotherapeutic agents. Students will learn how to prescribe, manage, and monitor psychopharmacotherapeutics including complementary and alternative agents. Course content will address therapeutic challenges such as medication adherence, outcomes, patient preference, family dynamics, ethical responsibilities, advocacy, recovery, legalities, financial realities, cultural diversity, and practical considerations. This course requires students to attend a face-to-face Immersion. 3 credits.

NURU 642 Management in Lifespan Psychiatric and Mental Health Care  
This course is designed to facilitate in preparing the Psychiatric Mental Health Nurse Practitioner for the complex role of providing mental health care for children, adolescents, adults and families. Emphasis on psychiatric assessment, psychiatric diagnosis, differential diagnosis and co-morbidities will be incorporated throughout the course. Treatment and management of mental health disorders using a variety of modalities and interventions will be explored. Synthesis of evidence based management in concert with the socio-cultural, environmental, economic, spiritual and physical needs of the patient and family will be emphasized. Mental illness stigma awareness and reduction techniques will be utilized to promote empathic understanding and improved outcomes. 3 credits.

NURU 643 Practicum in Psychotherapeutic Treatment Modalities  
**Co-requisite:** NURU 641.

Pre-requisite: NURU 604. This course is a precepted clinical practicum designed to facilitate in preparing the Psychiatric Mental Health Nurse Practitioner for the complex role of providing mental health for children, adolescents, adults and families. Learners will participate in a variety of clinical settings where they will learn to conduct at least three different treatment modalities. Emphasis on psychiatric assessment, psychiatric diagnosis, differential diagnosis and co-morbidities will be incorporated throughout this clinical experience. Synthesis of evidence based management in concert with the socio-cultural, environmental, economic, spiritual and physical needs of the patient and family will be emphasized. Mental illness stigma awareness and reduction techniques will be utilized to promote empathic understanding and improved outcomes. This course requires students to attend a face-to-face Immersion, 255 clinical hours and there is an associated clinical course fee. This course is graded on a Pass/No Pass basis. 3 credits.
NURU 644 Complex and Chronic Problems in Psychiatric and Mental Health Care  
Co-requisite: NURU 645.

This course is designed to facilitate the Psychiatric Mental Health Nurse Practitioner’s role as primary mental health care provider for patients, families and groups with chronic, complex psychiatric illness and substance use problems including those with Severe Mental Illness (SMI). Emphasis will be on integrating evidence-based approaches, and therapeutic management across the lifespan. This course builds on the fundamental knowledge and concepts obtained in NURU 642 with focus upon complexity and its management. Examination of the social, physical, economic, familial, spiritual and societal impacts of SMI will incorporate local and worldviews as well as advocacy opportunities for the Psychiatric Mental Health Nurse Practitioner. This course requires students to attend a face-to-face Immersion and is graded on a Pass/No Pass basis. 3 credits.

NURU 645 Practicum for Complex and Chronic Problems in Psychiatric and Mental Health Care  
Co-requisite: NURU 644.

Pre-requisites: NURU 604 and NURU 643. This course is the second precepted clinical practicum designed to facilitate in preparing the Psychiatric Mental Health Nurse Practitioner for the complex role for providing mental health care for children, adolescents, adults and families with chronic and complex psychiatric illness. Learners will participate in a variety of clinical settings where emphasis will be placed on medication and therapeutic management while integrating evidence-based approaches to different therapeutic modalities of care. Emphasis on psychiatric assessment, psychiatric diagnosis, differential diagnosis and co-morbidities will be incorporated throughout this clinical experience. Synthesis of evidence-based management in concert with the socio-cultural, environmental, economic, spiritual and physical needs of the patient and family will be emphasized. Examination of the social, physical, economic, familial, spiritual and societal impacts of severe mental illness will incorporate local and world views as well as advocacy opportunities for the Psychiatric Mental Health Nurse Practitioner. This course requires students to attend a face-to-face Immersion, 255 clinical hours and there is an associated clinical course fee. This course is graded on a Pass/No Pass basis. 3 credits.

NURU 651 Embryology
This course is designed to prepare advanced practice nurses to apply concepts of embryology, malformations, and physiology when assessing infants and children in various acute and primary care environments and with a variety of health conditions. This course stresses critical thinking and decision-making in clinical settings based on these concepts. 3 credits.

NURU 671 Foundations of Interprofessional Collaborative Practice
This course explores the scope of practice of other healthcare professions to create a climate of mutual respect, shared values and knowledge resulting in collaborative practice with the common goal of delivering the safest, highest quality of patient-centered care. Course work, including case studies with standardized patients, will focus on integrating the knowledge of one’s own role and that of other professions to appropriately assess and improve the healthcare needs of patients and populations served. Four nationally recognized competency domains will be addressed: Values/Ethics for Interprofessional Practice, Roles and Responsibilities, Interprofessional Communication and Teams and Teamwork and provide the basis for the CLOs. 3 credits.

NURU 672 Management of Common and Acute Problems in Family/Across the Lifespan Care  
Co-requisite: 673.

This course is designed to provide students with the knowledge necessary for the management of common and acute health problems in family/across the lifespan patients. Course content builds upon information in previous courses related to the principles of assessment and development issues in family/across the lifespan patients. A portion of the course includes information necessary for the care and management of patients of all ages with special needs and their Family. Using a family centered and developmental perspective, related pathophysiology, research, psychosocial factors, and ethical considerations are explored as they apply to practice. This course requires students to attend face-to-face Immersion. 3 credits.

NURU 673 Practicum in Common and Acute Problems in Family/Across the Lifespan Care  
Co-requisite: 672.

Pre-requisite: NURU 604. This is a precepted clinical practicum (255 clinical hours) focusing on the management of common and acute health problems in family/across the lifespan patients. Students will participate in a variety of settings where they will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in primary care practices, outpatient clinics and/or urgent cares or long-term care facilities. Working as a member of a team, students will apply the latest evidence to practice. This course requires students to attend face-to-face Immersion, 255 clinical hours and is graded on a Pass/No Pass basis. 3 credits.

NURU 674 Management of Complex and Chronic Problems in Family/Across the Lifespan Care  
Co-requisite: NURU 675.

This course extends student knowledge regarding the management of family/across the lifespan patients. Students explore the principles of assessment and ethical issues related to complex, critical, and chronic problems in family/across the lifespan patients. This course content builds upon information in previous courses related to the principles of assessment and ethical issues related to complex, critical and chronic problems in family/across the lifespan patients. Using a patient centered perspective, related pathophysiology, research, psychosocial factors, and ethical considerations are explored as they apply to practice. This course requires students to attend face-to-face Immersion. 3 credits.

NURU 675 Practicum in Complex and Chronic Problems in Family/Across the Lifespan Care  
Co-requisite: NURU 674.

Pre-requisites: NURU 604 and NURU 673. This course is the second precepted clinical practicum focusing on the management of complex, critically and chronically ill family/across the lifespan patients. Students will participate in a variety of settings where they will have the opportunity for health assessment and formulation of a comprehensive plan of care. Experiences may include rotations in primary care practices, outpatient clinics and/or urgent cares or long-term care facilities. Working as a member of a team, students will apply the latest evidence to practice. This course requires students to attend face-to-face Immersion, 255 clinical hours and there is an associated clinical course fee. This course is graded on a Pass/No Pass basis. 3 credits.
NURU 690 Independent Synthesis of APRN Management, Role and EBP
This course allows students to take an additional APRN Management, Role and EBP credit, as determined by gap analysis. Permission of the Program Director required. Variable: 1-2 credits.

NURU 693 Independent Advanced Health Assessment across the Lifespan and Cultures
This course allows students who are required to take an additional advanced health assessment across the lifespan and culture credit/s, as determined through gap analysis. Permission of Program Director required. Variable: 1-2 credits.

NURU 695 Independent Advanced Pathophysiology across the Lifespan
This course allows students who are required to take an additional advanced pathophysiology across the lifespan credit, as determined through gap analysis. Permission of Program Director required. 1 credit.

NURU 696 Independent Advanced Pharmacotherapeutics across the Lifespan
This course allows students to take an additional advanced pharmacotherapeutic across the lifespan credit, as determined by gap analysis. Permission of Program Director required. 1 credit.

NURU 698 Independent Special Topic
This course allows students to take an additional independent special topic credit, as determined by gap analysis or degree audit. Permission of the Program Director required. This course is graded on a Pass/No Pass basis. 1 credit.

NURU 699 Independent Practicum for Clinical Hours completion
Prerequisite: Admission to graduate studies.

This course allows students to complete the required NURU 604 Advanced Health Assessment across the Lifespan and Cultures or specialty clinical practicum hours not completed within the initial 8-week session/s. Permission of the Program Director is required and there is an associated continuing clinical hours fee. This course is graded on a Pass/No Pass basis. 0 credits.
ORGANIZATIONAL LEADERSHIP (OLCU)

OLCU 206 Business Skills for the Entrepreneur/Intrapreneur
To most effectively navigate today's business environment, it is critical for business leaders to understand the dynamics of cross-functional teams. Likewise, it is important to foster a creative work environment that supports both entrepreneurship and intrapreneurship. The goal of this course is to learn how to maximize existing resources by capitalizing on innovation and synergy between diverse business units. This course is focused on developing effective and practical tools that will further critical thinking about business administration and instill an entrepreneurial spirit. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

OLCU 220 Selected Topics in Organizational Leadership
Prerequisite: Dean approval.
This course covers special topics related to leadership and/or organizational studies. This course may be repeated for up to 9 credits provided the course topics are different. 3 credits.

OLCU 300 Organizational Behavior
Organizational Behavior studies individual and group behavior in organizational settings and examines organizational forces that impact behavior and performance. Topics include motivation, team effectiveness, organizational culture, ethics, diversity, leadership, communication and change. The application of course concepts to current workplace issues is emphasized. 3 credits.

OLCU 303 Organizational Development and Change
A review and analysis of organization development and change. Students will develop an understanding and use of organizational development and change theory from the perspective of systems theory and its constructs. Introduces organization change concepts, principles, values, theories and models. 3 credits.

OLCU 320 Selected Topics in Organizational Leadership
Prerequisite Dean Approval. Covers special topics related to leadership and/or organization studies. Experimental courses are developed subject to emerging student and/or employer demands. Topics vary. Courses that examine different topics may be repeated for up to nine credits. 3 credits.

OLCU 325 Leadership Skills Development Lab
Through the use of experiential activities, self-assessments, student facilitations, and presentations, this course aims to improve and enhance key leadership competencies in order to prepare students to succeed in leadership positions, and to help them learn to develop leadership in others. Specific topics may include: developing personal influence, collaboration and group dynamics; communication; followership; conflict management; and images of leadership in popular culture (e.g., in film, music, or literature). 3 credits.

OLCU 340 Leadership Development Certificate
This course is designed to develop both strategic and tactical core leadership competencies in high potentials; newly hired or promoted team leads, supervisors and managers; or experienced organization leaders desiring to be more effective in their role. In this 13-week program, participants learn leadership best practices. Designed for transfer of credit to support designated undergraduate IT certificates only. 3 credits.

OLCU 350 Leadership and Professional Ethics
Examines frameworks for ethical judgment as well as contemporary dilemmas and moral issues in organizations, with a special focus on the role of professional ethics and the responsibilities inherent in the commitment to serve others. Topics include servant leadership, responsibilities of professionals, the obligations of corporations concerning the environment product safety, the rights of employees, honesty in advertising. 3 credits.

OLCU 355 Servant Leadership
In all types of organizations (profit, non-profit, private and public), a significant shift in the way in which we approach work and the philosophy with which we lead is underway. These organizations and the people in them are experiencing a paradigm shift which embraces the understanding that the organization’s work must be integrated with the personal and spiritual growth of all of the organization’s members. The new paradigm recognizes that effective leadership begins with service to others. The great leader is seen as a servant first and true leadership is bestowed on those who are by nature a servant. OLCU 355 is a course in the study, application, and practice of Servant Leadership. 3 credits.

OLCU 380 Research and Analytical Thinking
(Replaces OLCU 486, which is no longer offered) This course provides students with knowledge and skills in research and analytical inquiry. Students are introduced to the principles and procedures involved in conducting research, interpreting and analyzing scholarly writing, and employing research to solve organizational problems and improve organizational performance. Academic writing skills including APA formatting are emphasized. BAOL students should take this course early in their degree program. 3 credits.

OLCU 400 Theory and Practice of Leadership
This course examines leadership from theoretical and practical perspectives. It compares and contrasts leadership theories, models, and strategies; and explores how leaders can create organizations, systems and structures to achieve organizational goals and engage employees. The application of course concepts to enhance leadership effectiveness is emphasized. 3 credits.

OLCU 414 Team Building
Team-based organizations have been created to supplement the traditional, often rigid hierarchical structure within organizations to enhance leader effectiveness. Teams offer a more cooperative, collective philosophy. They outperform individuals; create more diverse, stimulating challenges; boost morale; and yield new skills for employees. This class will help students learn how to develop and participate in teams. Topics may include team development, conflict resolution, communication, decision-making, and reward systems. 3 credits.

OLCU 425 Leadership in Diverse and Multicultural Organizations
Understanding and valuing cultural differences assumes greater significance as our world becomes increasingly interdependent. This course explores multicultural issues in organizations highlighting how misunderstandings arise and how they can be rectified or prevented. It focuses on diversity issues (gender, race, and class) in domestic and international contexts, particularly as they apply to leadership, communication, teamwork, decision-making, and problem-solving. Reading, writing, research, and discussion are supplemented with experiential exercises and role-plays. 3 credits.
OLCU 487 Senior Research Project  
**Prerequisites:** Senior Status and OLCU 380 or OLCU 486.

Students will select a research topic on a leadership issue and conduct a thorough review of the literature. Students will draw conclusions and make recommendations on their research topic. 3 credits.

OLCU 499 Independent Study in Organizational Leadership  
**Prerequisites:** Dean approval, junior or senior level, minimum 3.0 GPA, and approval of instructor.

Supervised independent study or research on a special problem or topic related to leadership and organization studies resulting in a major paper. 1-3 credits.

OLCU 501 Organizational Research  
Equivalent to OLCU 680, which is no longer offered. Introduction to graduate research and writing. This course provides students with an overview of the critical role of research and evaluation in identifying and solving management problems and in improving organizational performance. The course examines the fundamental principles of research and scholarly writing. The primary focus is on the practical application of research methods to improve organizational programs, policies, and performance. Taking this course early in the MAOL and MSHR core programs of study is recommended. This is an excellent elective for Business, Public Administration and Health Administration students, since it allows them to research specific content areas within their areas of interest. 3 credits.

OLCU 600 Foundations of Organizational Leadership  
Review of contemporary issues and perspectives on organizational leadership including multi-disciplinary perspectives and classic theory (trait, behavioral, and contingency models). Topics include servant leadership, ethics, diversity, followership, the distinction between leadership and management, vision, leadership practice and strategies. Emphasis on application of theoretical concepts to actual and diverse organizational situations, culminating in the articulation of a personal philosophy of leadership. Taking this foundation course early in the MAOL degree program of study is recommended. 3 credits.

OLCU 601 Democracy, Ethics and Leadership  
Exploration of how democratic values shape the concept and practice of leadership and policy-making in organizations, including the role of values in ethical decision-making and determining the moral obligations of leaders and followers. Examines the concepts of power and influence, including their uses and abuses. Emphasis on critical analysis and application of ethical principles to contemporary leadership dilemmas in organizations. 3 credits.

OLCU 602 Self, Systems, and Leadership  
Examines individuals and organizations as learning systems. Emphasizes structural influences on individual leadership and deep understanding of self as core resource for learning and leadership development. Focuses on role of systems thinking, mental models, shared vision, team learning, and personal mastery, stressing awareness of social and political tensions as a catalyst for individual and organizational learning and change. 3 credits.

OLCU 603 Servant Leadership: Theory and Practice  
This course will provide students with a thorough exploration of the principles of Servant-Leadership as a leadership philosophy and way of being as a leader. It will allow students to become familiar with the writings of Robert Greenleaf, as well as those who have been influenced by Greenleaf, many of whom are leading thinkers in the field of organizational leadership. Particular attention is paid to application within a variety of organizational settings. 3 credits.

OLCU 603 Seminar in Organizational Dynamics  
Students use theories of individual, group and organizational behavior to analyze organizational problems and improve organizational performance. Students gain experience applying theories and factors that influence behavior to organizational situations using a step by step decision making process. 3 credits.

OLCU 614 Leadership & Team Development  
This course focuses on leadership skills needed to develop and promote effective teamwork. Teams can be complex and challenging to lead, and change processes difficult to implement. Topics include assessing and improving team performance; managing the internal dynamics of teams (team decision making, diversity, conflict, and creativity); and leading the team within the larger organization. 3 credits.

OLCU 615 Leading Organizational Change  
This course examines the nature and complexities of organizational change focusing on strategies to successfully plan and lead change initiatives that enhance organizational effectiveness with new processes, products, or systems. Students explore the human side of change, including “resistance” to change; and study organizational concepts, principles, theories and models. The application of theoretical concepts to actual organizational situations is emphasized. 3 credits.

OLCU 618 Cultural Dimensions of Global Leadership  
This course is an examination of contemporary issues and recent theoretical and practical advances related to the cross-cultural aspects of organizational leadership. The course is designed to enable the student to become a global leader who can function in multicultural settings, both in the United States and abroad. The need for this is driven by many factors, including the rapid growth of foreign economies and the availability of technological and financial resources. An emphasis is placed on U.S. American organizations that contain a multicultural workforce and multinational organizations. Online only. 3 credits.

OLCU 621 Frontiers of Public and Nonprofit Leadership  
This course provides exposure to contemporary issues and dilemmas in leadership as applied to nonprofit, voluntary, and non-governmental organizations (NGOs). Topics include civil society and professional ethics, collaboration, entrepreneurship, philanthropy, and technology and information. Online only. 3 credits.

OLCU 625 Selected Topics in Leadership  
**Prerequisite:** Dean approval.

This course examines contemporary issues and recent theoretical and practical advances related to organizational leadership. The course offers opportunity to explore and develop competencies essential to organizational leadership. Topics vary. Courses that examine different topics may be repeated for up to six credits. Not all selected topics may be offered at all sites or in all sessions. 3 credits.

OLCU 626 Dynamics of Public and Nonprofit Leadership  
This course exposes students to the fundamentals of leadership necessary for exceptional performance in nonprofit, voluntary, and non-governmental organizations (NGOs). Communications skills are developed in assessing constituency needs, interfacing with governmental and private organizations and other nonprofits, and negotiating the varying aims of stakeholders. Principled strategies for mobilizing volunteers are addressed. Online only. 3 credits.
OLCU 630 Leadership Lives in Film
This course provides a framework for students to observe examples of leadership in classic and contemporary films that are based upon true stories as the medium for an in-depth exploration of leadership. By comparing students’ observations of leadership concepts in the films to the leadership literature, as well as to real world experiences, the course builds upon the basic concepts of leadership to investigate more complex and theoretical aspects of contemporary leadership theory. Examples of leadership will be analyzed to create an awareness of how leadership impacts goal behaviors and productivity. Online only. 3 credits.

OLCU 632 Leadership and Innovation
This course will explore and review the phenomena of creativity and innovation in effective leadership from the individual, organization, and societal perspective relating each level to leadership and enhanced leadership effectiveness. Students will come to understand the value of innovation in organization as well as society and will learn the factors that contribute to a more creative self, organization, and society. 3 credits.

OLCU 641 Leadership in Military Communication
Prerequisite: Dean approval.
This course of study focuses on foundation and application principles of various forms of communication necessary for military leaders in field and garrison environments. Writing, listening and speaking, to include presentation skills, are the communication cornerstones in this course. (Not offered in 2016-17. Designed for transfer of military coursework in the MAOL degree only.) 3 credits.

OLCU 643 Military Operations Leadership
Prerequisite: Dean approval.
Students study and apply military operations principles and theory. Primary emphasis is placed on standard operational procedures for planning, conduct and evaluation of military operations in a variety of military scenarios. (Not offered in 2016-17. Designed for transfer of military coursework in the MAOL degree only.) 3 credits.

OLCU 681 Leadership Capstone Seminar
Prerequisites: Completion of the following core classes is required, OLCU 501, 600, 601, 602, 613 and 614.
This course provides the student with an opportunity to apply and integrate previous learning by the completion and presentation of a major, integrative paper, which will reflect an assessment of student’s learning as well as their ability to integrate and apply leadership concepts and theories learned in the MAOL program. Graded on a Pass/No Pass basis 3 credits.

OLCU 699 Independent Research in Organizational Leadership
Prerequisite: Approval of instructor and Dean.
Supervised independent study or research on a special topic related to organizational leadership. 3 credits.
PHILOSOPHY (PHLU)

PHLU 104 Introduction to Ethics
This course surveys questions and issues that arise in the field of ethics, along with the moral theories that address them. Students will reflect upon consequential, duty-based, virtue-based, and care-based theories of morality. They will evaluate the strengths and weaknesses of these theories independently and as they apply to contemporary moral problems, such as abortion, torture, the death penalty, euthanasia, sexual morality, drug policy, and animal rights. Students will not only become familiar with the field of ethics, but they will also sharpen their abilities to think critically about complex moral issues, while forming responses and critiquing ethical positions from their own perspectives. 3 credits.

PHLU 301 History of Political Philosophy I
(Same as POSU 301) An introduction to the early political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from Plato to the Enlightenment. It places special emphasis on examining and understanding the growing debate of separation of church and state and the rising voice of individual, social and civil liberties through this period. Online only. 3 credits.

PHLU 302 History of Political Philosophy II
(Same as POSU 302) An introduction to the later political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from the Enlightenment until today. This course places special emphasis on examining and understanding Fascism, Communism, Democracy, Anarchism, and the rising voices of previously under-represented populations. Online only. 3 credits.

PHLU 304 Multicultural Ethics
An inquiry into the promises and perils of a multicultural society. Main topics include ethical theory from international perspectives, the nature of prejudice, and the culture wars. Online only. 3 credits.

PHLU 329 Experimental Topics in Philosophy
An examination of selected topics in philosophy relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

PHLU 499 Independent Study
Prerequisites: Instructor's approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
POLITICAL SCIENCE (POSU)

POSU 110 Introduction to American Politics
Students master the basic concepts and analytical methods used by political scientists in their attempts to address these questions: What are the fundamental components of the national government of the United States? How do they transform citizen opinion, interest group pressures, and economic imperatives into social policy? This course satisfies the State of California Credential requirement in American History and Government. 3 credits.

POSU 301 History of Political Philosophy I
(Same as PHLU 301) An introduction to the early political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from Plato to the Enlightenment. It places special emphasis on examining and understanding the growing debate of separation of church and state and the rising voice of individual, social and civil liberties through this period. Online only. 3 credits.

POSU 302 History of Political Philosophy II
(Same as PHLU 302) An introduction to the later political thoughts that shaped and dominated Western European development. This course traces the concepts of power, social order and proper governance from the Enlightenment until today. This course places special emphasis on examining and understanding Fascism, Communism, Democracy, Anarchism and the rising voices of previously under-represented populations. Online only. 3 credits.

POSU 321 American Diplomatic History and Foreign Policy
(Same as HISU 340) Students focus on the origin and development of United States foreign policy. Important areas of study include the role of ideology in foreign policy, economics and foreign affairs, isolationism, American dominance of the Western hemisphere, and the consequences of increasing international interdependence. Also considered are the influences of public opinion, the media, corporations, the Congress, the bureaucracy, and the presidency in shaping American policy. Online only. 3 credits.

POSU 324 Central Asian Political History
This course surveys the political and cultural history of Central Asia comprising the modern countries of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. Students will examine the historical influences, cultures, economies, social and political organizations of this vast region that shaped Central Asia from nomadic tribes to modern independent nations. Students will also analyze foreign policy centering on the Central Asian region as well as political and social policy by Central Asian leaders. 3 credits.

POSU 325 South Asian Political History
This course surveys the political and cultural history of South Asia comprising the modern countries of India, Pakistan, Afghanistan and the region of Kashmir. Students will examine the historical, cultural, economic and foreign influences that have shaped India and Pakistan into nuclear powers and thrust Afghanistan on to center stage in the American War on Terror. Students will also analyze foreign policy with focus on British imperialism, the rise of independent nations, the current tensions surrounding the region of Kashmir, and United States foreign policy towards Afghanistan and Pakistan. 3 credits.

POSU 329 Experimental Topics in Political Science
An examination of selected topics in Political Science relevant to evolving areas in the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

POSU 344 Constitutional Rights
This course provides an overview of our Constitutional rights. This includes the role of the Supreme Court in interpreting the Constitution and specific freedoms guaranteed in the Bill of Rights. Students will explore such relevant topics as the 4th Amendment and national security, whether free speech is an absolute right, the state of the death penalty, constraints on police interrogations, the ability to legislate gun control, and constitutional issues facing society today. 3 credits.

POSU 499 Independent Study
Prerequisites: Instructor's approval and approval of petition.
Directed reading and/or research designed to meet specific needs of superior upper-division students. 1-3 credits.
PSYCHOLOGY (PSYU)

PSYU 101 Introduction to Psychology
Introduction to the processes, principles, and problems and applications of psychology. Topics include the brain and nervous system, sensation and perception, consciousness, learning and memory, personality, social psychology, and psychopathology. 3 credits.

PSYU 301 Scientific Writing in Behavioral Social Sciences
This course introduces students to effective writing skills in the field of social and behavioral sciences. Emphasis will be placed on scholarly scientific writing, American Psychological Association (APA) format, summarizing current research findings in written form, and critical analysis of research. 3 credits.

PSYU 304 Research Methods for the Behavioral Sciences
Prerequisites: PSYU 101, MATU 203, PSYU 301 (or equivalent).
May be taken concurrently with MATU 203. An introduction to the principles and procedures involved in behavioral sciences research. The scientific method and its application to psychological inquiry are emphasized. A student successfully completing this course will possess: (1) a broad understanding of the process and outcomes of psychology; (2) an appreciation of the strengths and limitations of psychological science; (3) an understanding of the ethical considerations inherent in psychological science; and (4) the ability to consume and communicate the process and outcomes of psychological science using the publication format of the American Psychological Association. 3 credits.

PSYU 306 Critical Thinking
This course focuses on the development of critical thinking skills as a habit of mind characterized by evaluating issues from multiple perspectives before reaching a conclusion. Students will examine critical thinking as a psychological process and analyze assumptions and evidence within the context of diverse situations. They will formulate evidence-based inquiry and construct arguments with logical conclusions. Their practice in critical thinking will culminate in a plan to explore and analyze a complex problem. 3 credits.

PSYU 310 Psychology of Learning
This course provides a survey of major perspectives and theories of human learning and their importance historically as well as in current practice. Students will explore and evaluate learning paradigms and research methods and apply them to real world situations, such as child rearing, education, and psychotherapy. 3 credits.

PSYU 317 Cognitive Psychology
A survey of the discipline of cognitive psychology, the study of mental processes and their underlying biology. Students examine attentional processing, encoding, memory, mental imagery and decision-making processes. Other topics addressed include consciousness, creativity, and methods for measuring information processing. 3 credits.

PSYU 320 Human Development across the Lifespan
This course covers physical, cognitive and psychosocial development from conception through old age. Death and dying are also addressed. Research and theories related to the entire life span are reviewed. 3 credits.

PSYU 322 Theories of Personality
This course provides an evaluative review of the major theories of personality, emphasizing the structure, dynamics, behavior and development of the normal and abnormal personality. Theories include Freudian, neo-Freudian, cognitive, somatic, social learning, and humanistic explanations for individual differences. 3 credits.

PSYU 323 Child Development
This course covers physical, cognitive and psychosocial development from conception to adolescence. Both theoretical and applied aspects of development, parenting and teaching children are emphasized. 3 credits.

PSYU 324 Adolescence
This course presents the major theoretical models of adolescent development and biological maturation, while addressing the issues of identity, peers, family, school, sexuality, morality, substance abuse and psychological problems. The historical nature of adolescent experience is contrasted with the experience of today’s teenager. 3 credits.

PSYU 328 Abnormal Psychology
A systematic study of emotional disturbance and the major classifications of mental illness from the perspective of symptoms/behaviors, etiology, diagnosis and treatment. 3 credits.

PSYU 333 Physiological Psychology
Prerequisite: PSYU 101.
An investigation of the relationship between brain and behavior. Students will study the structure and function of the nervous system, including the biological bases of psychopathology and normal function. 3 credits.

PSYU 336 Social Psychology
Discussion and analysis of the relationship between culture, group life, social structure, and human behavior; emphasis upon the dialogue between the individual and the social collective. Topics include group behavior, attitudes, stereotypes, nonverbal communication, health psychology, aggression, social perceptions, relationships and helping behavior. 3 credits.

PSYU 351 History and Systems of Psychology
Discussion and evaluation of psychology’s historical roots and the influences and the people that have contributed to its present form. 3 credits.

PSYU 355 Media Psychology
In this course, students will consider the interrelationship between media and psychology. They will examine the effects of various forms of media (such as social media, television, and music) on human behavior and cognition. They will also consider how human thought and behavior affect individual and group use and consumption of media. Students will have an opportunity to apply media psychology theories, concepts, and methods to real world situations. 3 credits.

PSYU 398 Pediatric Neuropsychology
An introduction and overview of pediatric neuropsychology emphasizing brain-behavior relationships in children. Biological, environmental, psychological, and developmental variables that affect neurobehavioral outcomes will be addressed. The following childhood disorders will be covered: Hydrocephalus, epilepsy, Tourette’s syndrome, brain tumors, closed-head injury, meningitis, diabetes, leukemia, sickle cell disease, autism, and human immunodeficiency. 3 credits.

PSYU 418 Community Mental Health
Community mental health agencies play an essential role in providing mental health services to the un-served and underserved populations. This course provides an overview of emerging issues in mental health counseling, environmental challenges, and current approaches to comprehensive treatment and support services. Students will examine the foundations of community mental health counseling, the people served, and the history and current state of public and private systems of care. Students will also apply theories to community mental health and the Recovery Oriented Care model. Online Only. 3 credits.
PSYU 421 Cross-Cultural Psychology
In our world today, we have more than 6 billion people and many of our psychological constructs are primarily developed in the western region of our world. This course is designed to examine individual psychological functioning across and within various cultures beyond the western scope. Students will examine the impact of culture on human behavior and review such topics as the cultural impact on gender, health, emotions, language, and personality, enculturation, the developmental processes of culture, cultural influence on abnormal psychology, and the development of the self. The intent is for students to gain a wider appreciation of culture and begin to identify how culture is a part of our everyday experience. 3 credits.

PSYU 428 Introduction to Clinical Psychology
Overview of the profession and practice of clinical psychology. The course will survey the field's history, clinical training, assessment procedures, therapeutic interventions, research approaches, ethical and legal issues, areas of specialization (i.e. forensic, behavioral medicine and child), and current issues and trends. Online only. 3 credits.

PSYU 432 Introduction to Psychological Measurement
Prerequisite: MATU 203.
This course serves as an introduction to the principles and procedures involved in psychological measurement. Emphasis will be on concepts of test construction, standardization, validity, and reliability as applied to a wide range of psychological instruments of intelligence, interests, values, and personality. In addition to discussion of theoretical concepts, students will learn about the history of psychological testing and how theories, principles and concepts are both used in psychometric assessment and applied in educational, clinical and employment settings. Online only. 3 credits.

PSYU 437 Spirituality and Mental Health
A systematic study of the participation of religion and spiritual practices in the cultural construction of mental health, illness, diagnosis, and treatment. The course will present various models of consciousness and examine the reductionist, humanistic, dualistic, and monistic paradigms for mental health. Psychosomatic effects of spiritual systems and practices such as Shignon, Buddhism, Taoism, Vedanta, Yoga, Zen etc., will be analyzed in the context of the emerging reform in counseling and community mental health. Online only. 3 credits.

PSYU 450 Introduction to Counseling
An introduction and overview of professional counseling. Selected theories will be evaluated briefly and methods of their application to specialties such as group, family, marriage, child chemical dependence and crisis intervention will be emphasized. Attention will be given to specific communicative skills in counseling, to ethical and legal issues and to strategies for counselor self-care. 3 credits.

PSYU 455 Family Systems and Dynamics
An exploration of a variety of theoretical orientations in the study of family systems. The theoretical foundations of such approaches to family counseling as structural, strategic, transgenerational, experiential and behavioral are studied. 3 credits.

PSYU 460 Introduction to Career Development
This course provides a comprehensive overview of career counseling theories and techniques and addresses diverse client populations who benefit from career counseling services. Topics include career decision making, ethical issues in career counseling, researching career opportunities, employability skills, and counseling strategies in various settings. Students will develop the ability to assess interest, values and skills for their own career development and for client needs. Online only. 3 credits.

PSYU 462 Personnel Psychology
In this course, students will study the application of psychological theory, research, and practice to personnel selection decisions, performance management, and employee training. Students will consider the influence of environmental, organizational, legal, ethical and individual factors on workplace and employee effectiveness. Online Only. 3 credits.

PSYU 464 Applied Behavioral Analysis
Prerequisite: PSYU 310.
This course focuses on applied behavioral analysis, which is based on the belief that human behavior, no matter how questionable, can be explained. Students will learn about behavioral principles and their application to a wide range of societal situations. They will explore how behavior is developed and how to identify, evaluate, and measure behavioral transformation. Students will also learn how the use of reinforcement and punishment influence an individual's motivation to alter an identified behavior and examine the ethical practices imbedded in the application of behavioral analysis. Online only. 3 credits.

PSYU 466 Preferred Behavior Enhancement
Prerequisite: PSYU 310.
The purpose of this course is to learn how to evaluate behavioral patterns and apply standardized strategies to help shape, change, or eliminate undesired identified behaviors. Students will consider the history of behavior modification and explore principles that govern the act of modifying behavior. Topics include practical methodologies, such as observation and record keeping, which assist in identification of changeable behavior and development of a modification plan. Online only. 3 credits.

PSYU 468 Case Management
In this course, students will explore case management skills in the field of human services, with an emphasis in psychology. Essential topics include ethics and professional responsibilities, standards of best practice, communication, cultural values, and conflict clarification. Additionally, students will study assessment, treatment planning, documentation, and supervision and consultation, among other important topics. Online Only. 3 credits.

PSYU 470 Psychology of Aging
This course will explore mental health issues as they relate to the geriatric population. Topics may include but are not limited to: Common psychological disorders of aging, substance abuse in the elderly, suicide risk, sexual issues, psychological issues related to end of life, effects of elder abuse, and ageism and stigma. 3 credits.

PSYU 471 Issues in Aging
This course examines interaction of physical, psychological, emotional, socio-economic, and environmental factors affecting older adults. Gerontological issues related to mental health of the elderly will be examined. Topics include ageism, quality of life, health and wellness, retirement planning, community support programs, end of life issues, and predictors of successful aging. 3 credits.
PSYU 472 Health Care and Aging
This course will provide an overview of physical and psychological changes in the aging process during and after middle age. The course will focus on personal strategies and social support programs to promote successful aging, as well as programs that are in place for support when health, psychological, and social problems occur. Governmental public health policies and their impact on diverse populations will be addressed. 3 credits.

PSYU 473 Social Aspects of Aging
This course will explore social aspects and constructs that affect, and are affected by, the experience of aging. Topics may include but are not limited to: Dimensions of aging, aging research, social constructions of aging, aging and family/romantic relationships, work and retirement, social/political policies related to aging, and gender differences related to aging. Students will explore societal myths about aging and the elderly. 3 credits.

PSYU 480 Psychology Capstone
Prerequisites: PSYU 101, MATU 203, PSYU 301, PSYU 304 and Senior standing in psychology major or approval of the instructor.

This course is designed to provide a capstone experience for the undergraduate psychology degree. Students will create a final assessment portfolio which will include artifacts documenting academic/ professional growth and personal reflections. Students will explore current issues in the field and integrate psychology theory and research. The class will include eight hours of fieldwork or focused interviews with current professionals and agencies in the field with respect to their research issues and career goals. 3 credits.

PSYU 481 Organizational Psychology
The application of psychological methods and techniques to understand, evaluate, and maximize human behavior in industrial and other organizations. Online only. 3 credits.

PSYU 492 Intern Program: Fieldwork Practicum in Psychology
Prerequisites: Approval of academic advisor and internship supervisor, and University contract must be signed prior to enrollment in internship.

Supervised experience in an approved setting where psychological services are provided. Additional meetings, assigned readings and written evaluations of related readings and the field experience are required. Graded pass/no pass. A student may take a maximum of six credits. Blended only. 1-3 credits.

PSYU 496 Survey of Forensic Psychology
This course introduces the student to the complex field of forensic psychology. The course focuses upon how the law has affected the practice of psychology, psychological research on legal issues and processes, and the functioning of psychology in a legal environment. The student will learn fundamental distinctions between psychology and law in areas such as epistemology, behavioral causation, methodology, criteria, principles, and expert approach to data. Numerous landmark cases will be reviewed that demonstrate the psychologist’s role as expert witness, consultant, and amicus curiae. Special sections will focus upon the law in mental health practice as well as assessment of simulation and deception. 3 credits.

PSYU 499 Independent Study
Prerequisites: Approval of instructor, academic advisor, and Dean.

Supervised independent study or research on a special problem or in a selected area of psychology. Open to junior and senior psychology majors who have a 3.0 GPA. A student may take a maximum of six credits. 1-3 credits.

PSYU 501 The Counseling Process
A professionally supervised experience in counseling and related activities. Experience also includes correlated reading, workshops, lecture, and group activities. Blended only. 3 credits.

PSYU 508 Life Span Development/Aging and Long Term Care
Theories related to the entire life span from conception through childhood, adolescence, young adulthood, middle age, and late adulthood are reviewed. Students focus on issues of healthy development at different ages in domains such as play, school, relationships, parenting, work and retirement. Students also focus on issues that are salient to the aging population, including long-term care. In depth interviewing of one developmental stage is required. Meets legal requirements for Aging and Long Term Care (10 hours). 3 credits.

PSYU 511 Psychological Assessment
This course provides a study of the theory and practice of psychological assessment. Students will be introduced to several instruments used to assess intelligence, achievement, aptitude, personality and relationship satisfaction. Basic test construction, interviewing techniques and testing procedures will be addressed as well as report writing and interpretation guidelines. Experiential opportunities will allow students an opportunity to see how various instruments are used to assist in diagnostic assessment. Blended only. 3 credits.

PSYU 532 Research and Bibliographic Methods
Students learn and practice the appropriate scientific methods of research leading to a bibliographic research in individual counseling and marriage and family therapy, culminating in a formal research proposal. 3 credits.

PSYU 533 Psychopharmacology
An in-depth examination of the behavioral and central nervous system effects of pharmacologic substance use and abuse and the application of such substances to the prevention and treatment of psychopharmacological and psychopathological dysfunction. 3 credits.

PSYU 541 Family Therapy Theories and Techniques: A Modern Emphasis
This advanced graduate marriage and family therapy course is designed to study the major systemic theoretical approaches linked to marriage and family therapy. A major focus on cybernetics family systems theory and therapy will be emphasized. In addition, students will study therapy from Structural, Strategic, and Experiential approaches, with a focus toward integration of these approaches in the conduct of therapy as a marriage and family therapist. 3 credits.

PSYU 556 Family Systems Theories and Techniques: A Postmodern Emphasis
This advanced graduate marriage and family studies course provides fundamental introduction to the study of marriage and family systems theory. Theories and techniques of family therapy from a postmodern perspective will be reviewed and practical applications discussed. Major postmodern family therapy models such as Collaborative Language System, Narrative therapy, and Solution Focused therapy will be studied in depth. 3 credits.
PSYU 561 Marital Systems and Studies and Domestic Violence
This advanced marital systems and studies course is designed to focus upon the systems approach to marriage therapy. Major marriage therapy theories will be studied and discussed. The structure of the marital therapy process, the role of the therapist, and techniques of marital therapy will be studied. The relation between marital dysfunction and other forms of psychopathology will be studied with particular emphasis placed on the unique assessment strategies necessary for conjoint evaluation and treatment. Clinical strategies, assessment, and intervention techniques for working with domestic violence will be studied. Students will master systems theory, assessment and treatment of marital dysfunction, diagnostic and treatment planning techniques. Meets legal requirements for Domestic Violence Training (15 hours). Blended Only. 3 credits.

PSYU 565 Child/Adolescent Psychopathology and Child Abuse Reporting
This course examines psychopathology in childhood and adolescence, focusing mainly on assessment and diagnosis. An overview of different therapeutic techniques that can be used with children and adolescents will be provided. This course provides more than 7 hours of training in Child Abuse Assessment and Reporting. 3 credits.

PSYU 570 Advanced Psychopathology and Diagnosis
Students take an empirical approach to the etiology and diagnosis of psychopathological disorders. Blended only. 3 credits.

PSYU 575 Advanced Individual Counseling I
Prerequisite: PSYU 570 or instructor’s approval.
A comprehensive overview of assessment strategies, counseling techniques, and behavioral strategies typically used in the individual counseling setting. Lecture topics include intake evaluations, treatment plan, proficient listening and counseling skills and effective behavioral and cognitive interventions. Video demonstrations will also be presented to enhance student understanding of applications and relevance to the counseling process. Blended Only. 3 credits.

PSYU 576 Advanced Individual Counseling II
Prerequisite: PSYU 575 or instructor’s approval.
This course is a continuation of Advanced Individual Counseling I. In this course students will continue to hone skills in individual counseling and will learn techniques from evidence-based/empirically supported individual therapies. Covered therapies may include but are not limited to Acceptance and Commitment Therapy, Interpersonal Therapy, and Dialectical Behavior Therapy. Other therapies may also be covered at the instructor’s discretion. Students will also learn to determine which techniques/therapies to employ based on clinical judgment and client characteristics and problems/diagnoses. Blended only. 3 credits.

PSYU 578 Ethical and Professional Issues
This course examines ethical, legal and professional issues relevant to the practice of marriage and family therapy, professional clinical counseling, and counseling psychology. Depending on the student’s state of residence, ethical responsibilities, legal responsibilities and liabilities are discussed within the context of California or Washington state law and regulations. Professional ethical codes and the importance of interdisciplinary cooperation will also be discussed. Ethical decision-making, commitment to the profession, and other socialization issues are emphasized. 3 credits.

PSYU 581 Assessment and Treatment of Sexual Disorders
Students examine normal sexual functioning and common types of sexual dysfunction and deviation which would be disclosed within a psychotherapy framework. Students learn counseling techniques effective in the development of satisfactory sexual functioning within a committed relationship. The criteria for appropriate choice of technique and appropriate professional consultations are particularly emphasized. 3 credits.

PSYU 582 Community and Environmental Mental Health
Community and environmental mental health are essential parts of today’s mental health landscape, which make certain the provision of mental health services to the un-served and underserved populations of our cities, counties, state, and nation. These services include but are not limited to psychiatric care, case management services, individual and family therapy, group services, rehabilitation service, therapeutic behavioral services, and day treatment services. In this course you will be exposed to the general framework of community mental health agencies. You will learn about the clients/consumers and their challenges with mental health disorders. In addition, you will be introduced to environmental effects on mental health. These environmental challenges may come in many forms, including but not limited to poverty, socioeconomic status, living in low income housing, living in drug and gang communities, and natural disasters. You will examine the recovery paradigm of treatment that is sweeping the field of community mental health and you will be introduced to best practice approaches while working in this domain. 3 credits.

PSYU 585 Assessment and Treatment of Substance Abuse
An overview of current theoretical and clinical approaches to the etiology, diagnosis and treatment of alcoholism and other chemical dependencies. Students review current research and program design from a clinical perspective with the goal of increasing professional awareness and skills in treating the chemically dependent individual and/or family. Blended only. 3 credits.

PSYU 595 Crisis and Trauma Counseling
This course will address various issues related to crisis and trauma counseling. The effect of trauma on individuals will be analyzed. Crisis theory and responses to crises, emergencies, and disasters will also be discussed. Students will learn assessment and intervention strategies, and multidisciplinary approaches to assisting clients, including those with pre-existing or co-occurring psychological disorders, during times of crisis, emergency, or disaster. Blended only. 3 credits.

PSYU 613 Clinical Issues in Human Diversity
An advanced marriage and family therapy course with study of multicultural counseling emphasizing understanding and respect for the diversity of human beings, particularly with regard to matters of race, ethnicity, gender, socioeconomic status, and sexual orientation. The course will analyze the cultural context of family, behavior, psychopathology, cultural strengths, assessment and psychotherapy. Utilization of mental health services by culture-specific groups will be addressed. Critical analysis will be given to ethnocentrism, racism, sexism, and heterosexism in society, psychology and traditional culture-bound assessment and psychotherapy approaches. The course features knowledge, skills and experiential components. 3 credits.

PSYU 617 Transition to Work and Career
This course focuses upon the process of career choice, mid-life career changes, employment projections and the problems unique to the underemployed. Links will be made to “marginalized workers” and employees with mental health problems. 3 credits.
PSYU 652 Theory and Practice of Group Counseling
Individually supervised master’s thesis research students study the theory and procedures used in group therapy. Several major contemporary models will be examined, and both heterogeneous and homogenous therapy groups will be addressed. Both experiential and didactic methods will be used as instructional procedures. Blended only. 3 credits.

PSYU 688 Practicum I
Prerequisites: Candidacy standing in the MA Psychology degree program, full time faculty/practicum instructor approval, and permission of associate dean/designee.

This course will provide a clinical and experiential learning opportunity for students. At a student’s identified clinical site, they will be required to use multiple learned theoretical modalities to help clients move from a place of challenge to a place of functionality while under close clinical supervision. Students are also required to share their learned and observed experiences in a growth fostered environment (practicum class) guided by faculty on a biweekly occurrence while working to complete the clinical hours required by the student’s emphasis. In addition, the practicum course is graded on a pass/no pass basis, and practicum courses are to be taken consecutively. Blended only. 3 credits.

PSYU 689 Practicum II
Prerequisites: Completion of Practicum I (PSYU 688).

This course will provide a clinical and experiential learning opportunity for students. At a student’s identified clinical site, they will be required to use multiple learned theoretical modalities to help clients move from a place of challenge to a place of functionality while under close clinical supervision. Students are also required to share their learned and observed experiences in a growth fostered environment (practicum class) guided by faculty on a biweekly occurrence while working to complete the clinical hours required by the student’s emphasis. In addition, the practicum course is graded on a pass/no pass basis, and practicum courses are to be taken consecutively. Blended only. 3 credits.

PSYU 690 Practicum III
Prerequisites: Completion of Practicum II (PSYU 689).

This course will provide a clinical and experiential learning opportunity for students. At a student’s identified clinical site, they will be required to use multiple learned theoretical modalities to help clients move from a place of challenge to a place of functionality while under close clinical supervision. Students are also required to share their learned and observed experiences in a growth fostered environment (practicum class) guided by faculty on a biweekly occurrence while working to complete the clinical hours required by the student’s emphasis. In addition, the practicum course is graded on a pass/no pass basis, and practicum courses are to be taken consecutively. Blended only. 3 credits.

PSYU 695 Psychology Practicum Continuation
Prerequisites: Enrollment in PSYU 688, PSYU 689, and PSYU 690.

This course allows students to complete the required practicum hours and/or the Capstone Case Study, when either or both have not been completed by the end of the session in which a student is enrolled in the final three-credit course of their practicum course series. Please see Tuition and Fees section of the catalog for the corresponding Psychology Practicum Continuation fee. This course is graded on a pass/no-pass basis. This course may be repeated. Online Only. 0 credits.

PSYU 699 Independent Study
Advanced supervised independent study or research on a special problem or in a selected area. 1-3 credits.
PUBLIC ADMINISTRATION (PADU)

PADU 600 Introduction to Public Administration
Historical development of public administration as a field, with a focus on operations and function of administration. Political interactions, management theory, planning, allocation of resources, and decision-making are explored. 3 credits.

PADU 605 Public Finance
This course examines the various ways in which public services are financed, objects of public expenditures, and the problems of fiscal administration. Emphasis will focus on fundamental accounting and budgeting concepts as they relate to the basic financial statements of government. (Not offered in 2017-18.) 3 credits.

PADU 607 Public Policy Analysis
Public policy analysis requires a sophisticated understanding of a variety of types of data. Empirical arguments and counterarguments play a central role in policy debates. This course will introduce students to strategies of data collection and principles for critically evaluating data collected by others. Topics include measurement reliability and validity, questionnaire design, sampling, qualitative research methods, and the politics of data in public policy. 3 credits.

PADU 615 Professional Development Seminar
Prerequisite: Dean approval.
Students will participate in a faculty approved experience in a local or state government agency. The student will meet on a regular basis with a faculty member to compare, interpret, and scrutinize theory and practice. In addition, public administrators will assist and advise fellows in their transition from academic life into professional political careers. Portfolio development is designed to direct the learning of students in this professional development experience, as well as in defining and guiding their career aspirations. Courses that cover different internship experiences may be repeated up to six credits. This course is graded on a Pass/No Pass basis. 3 credits.

PADU 620 Contemporary Issues in Public Administration
Prerequisite: Dean approval.
These “Special Topics” courses allow the MPA program to offer specialized courses or courses covering emerging fields of study. In these courses, examination of contemporary issues and recent theoretical and practical advances related to public administration will be explored. Topics vary. Courses that examine different themes may be repeated up to six credits. 3 credits.

PADU 688 Action Learning Project
Prerequisites: Successful completion of all MPA Core courses (one MPA core course may be taken concurrently).
This capstone course requires students to identify and research an issue facing public administrators, communities and/or the non-profit sector; analyze the impact of social, technological, economic and political forces; research alternatives recommending one or more resolution strategies; and discuss tradeoffs and ethical considerations. 3 credits.

PADU 630 Local Government
This course focuses on local government and politics in the U.S. Students will be introduced to the basics of local politics, including the structure and organization of local government, intergovernmental relations, and nongovernmental elements (voters, interest groups, media, private power holders, race, and class. To the extent maximum possible, this will be done using the surrounding area as a learning laboratory. 3 credits.
RELIGIOUS STUDIES (RELU)

RELU 110 Religion and Values
This course is a thematic study of religious values as they come to expression within the Abrahamic traditions (Judaism, Christianity, and Islam). Students explore the basic beliefs and practices of these religions with a view to understanding how each tradition approaches key contemporary ethical issues: the ecological crisis, economic justice, war, capital punishment, abortion, euthanasia, gender, and sexual orientation. 3 credits.

RELU 301 Introduction to the New Testament: Gospels and Acts
This course is an introduction to the history, beliefs, and ethics of the Christian Scriptures (the New Testament) and to the methods and principles that have been developed for their interpretation. This course will focus on the four canonical Gospels and the Acts of the Apostles. 3 credits.

RELU 302 Introduction to the Old Testament: Torah and Deutoronomistic History
This course is an introduction to the Hebrew Scriptures (referred to by Christians as the Old Testament), focusing on the Torah and Deutoronomistic History. Students will learn to interpret the Hebrew Scriptures as historical documents by studying the cultural milieu in which they were produced, as scripture in the ongoing life of the Jewish synagogue and Christian church, and as literature that has profoundly influenced Western history, philosophy, law, ethics, and the arts. Throughout the course, students will be introduced to various critical methodologies that have been developed for the academic study of these influential writings. 3 credits.

RELU 329 Experimental Topics in Religious Studies
An examination of selected topics in religious studies relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

RELU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
SINGLE SUBJECT (EDSU)

EDSU 530 Theories, Methods, and Materials for Teaching English Learners
Prerequisites: EDUU 510 and 512.

This course focuses on theories, issues, and practices involved in first and second language acquisition and maintenance, including psychological, socio-cultural, pedagogical, legal, and political factors. It provides an overview of state-designated assessment instruments and policies to identify and place English learners, and the spectrum of school-based educational structures that address these students’ academic needs in California, as guided by the state’s Standards for English Language Development. Comparative/contrastive linguistics as well as English language and concept development strategies in content area instruction are addressed. During field experiences, candidates use effective methods for fostering academic excellence in English learners. Special attention is devoted to the interconnection between classroom organization and curricular planning, and the collaboration with specialists, paraprofessionals and parents/caregivers to support classrooms with diverse levels of English language proficiency. A minimum of 10 hours of fieldwork is required for this course. 3 credits.

EDSU 531 Secondary Instructional Strategies for Language/Culturally Diverse Classrooms
Prerequisites: EDUU 510 and 512.

This secondary strategies course builds upon the best practices and principles introduced throughout the Single Subject 2042 Credential program and focuses on 1) the fundamental challenges and responsibilities of designing, organizing, and implementing effective strategies to maximize instructional time for all students in the 12-18 age group, including English learners and those with special needs; and 2) the implications for the creation of a positive, safe, caring classroom environment. Emphasis is placed on long-session instructional planning that differentiates using Specially Designed Academic Instruction in English, aligned with CA state frameworks and content standards and the Common Core State Standards. The development of multiple assessment measures supports all learners, including English learners, in reaching language and core curriculum benchmarks. Ongoing professional development of teacher candidates will promote collaboration among peers, with specialists, paraprofessionals, parents/caregivers, and with other community organizations. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 532 Effective Literacy Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and 512.

This course provides substantive, research-based content literacy instruction that effectively prepares each candidate for a Single Subject Teaching Credential to provide instruction in content-based reading and writing skills to a full range of students, including students with varied reading levels, students with special needs, English learners and speakers of non-standard English, as well as advanced learner. As candidates study issues of literacy, they examine the questions: What is literacy? What are multiple forms of literacy? What effects do multimedia, digital tools and popular culture have on the literacy we use every day, the academic literacy we teach in our classrooms, and the literacies we need in order to function as 21st Century citizens? Grounded in developing 21st Century skills and achieving Common Core Standards, this course addresses the integration of literacy skills (reading, writing, listening and speaking) in content area disciplines, development of comprehension and vocabulary skills, the uses of fiction and informational texts across the curriculum, writing as a process in each discipline and strategic research and study skills for middle school and high school students. Candidates will design and present lesson plans that demonstrate their competencies in teaching content area literacy and applications of multimedia tools and resources in content area literacy instruction. The culminating learning experience is a tutorial project, in which candidates, utilizing strategies studied in the course, provide supplementary instruction to a middle school or high school student in content area literacy. A minimum of 10 hours of fieldwork is required for this course. 3 credits.

EDSU 533 Content Specific Strategies for Single Subjects (Series)
Prerequisite: EDUU 510 and EDUU 512.

Please Note: This course is for California Credential candidates only and does not guarantee that it would meet other state licensure requirements for preparation or competency in a specific subject. 3 credits.
EDSU 533-A Effective English/Language Arts Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in English/Language Arts. As candidates examine and explore teaching English/Language Arts, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the Common Core State Standards for English Language Arts, Literacy in History/Social Studies, Science and Technical Subjects and which connect reading, writing and oral language processes in an integrated fashion. Candidates will have multiple opportunities to learn and practice ways to differentiate instruction based on the needs and strengths of the range of learners in the classroom, including English learners, struggling readers and writers, advanced learners, ones who use non-standard English and students with special needs. Additionally, these lessons will reflect mastery of English/Language Arts content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted English/Language Arts standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-B Effective Instruction in Languages Other Than English for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning languages other than English. Candidates will focus on best practices to apply in the multilingual, multi-ethnic, multicultural secondary classroom, which includes English learners and students with special needs. They will design and present selected lessons that are aligned with the California World Language Content Standards and reflect mastery of specific content area pedagogy. Protocols for using multiple measures for assessing student progress and to inform instruction will be presented. Online professional journals and organization information will be critiqued and utilized. Further, each candidate will maintain a dialectical journal or learning log. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-C Effective Mathematics Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in mathematics. As candidates examine and explore teaching mathematics, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the Common Core State Standards in Mathematics. Additionally, these lessons will reflect mastery of mathematics content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted mathematics standards. Protocols for using these assessments to inform instruction will be presented. Strategies for communicating this assessment information to caregivers in order to improve student performance will also be studied. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-D Effective History/Social Science Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in History/Social Science. As candidates examine and explore teaching this content area, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will also explore the history and demographics of California and their influence on the education of California’s diverse society. Candidates will design and present selected lessons that are aligned with the California History/Social Science Content Standards and Framework and the Common Core State Standards for English Language Arts, Literacy in History/Social Studies, Science and Technical Subjects. Additionally, these lessons will reflect mastery of appropriate content pedagogy. Also, candidates will learn about the use of multiple measures to assess student progress toward reaching state-adopted standards. Protocols for using these assessments to inform instruction will be presented. Strategies for communicating this assessment information to caregivers in order to improve student performance will also be studied. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. A minimum of 5 hours of fieldwork is required for this course. 3 credits.
EDSU 533-E Effective Health Science and Physical Education Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in Health Science and Physical Education. As candidates examine and explore teaching Health Science and Physical Education, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Health Science/Physical Education Content Standards and Frameworks. Additionally, these lessons will reflect mastery of either or both content pedagogies. Also, candidates will learn about the use of multiple measures to assess student progress toward reaching state-adopted standards for Health Science / Physical Education. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-F Effective Science Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in science (biology, chemistry, geo-science and physics). As candidates examine and explore teaching science, they will focus on methods to apply their learning in the multilingual, multicultural, diverse, secondary classroom. They will design and present selected lessons that are aligned with the California Science Content Standards and Frameworks and the Common Core State Standards for English Language Arts, Literacy in History/Social Studies, Science and Technical Subjects. Additionally, these lessons will reflect mastery of science content pedagogy. Also, candidates will learn about the use of multiple measures to assess student progress toward reaching state-adopted science standards. Protocols for using assessment information to inform instruction will be utilized. Strategies for communicating this assessment information to caregivers in order to improve student performance will be addressed. Online professional journals and organization information will be critiqued and utilized. Further, a dialectical journal or learning log will be maintained by each candidate. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-G Effective Career Technical Education Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in the career technical education subjects: agriculture, business, home economics, and industrial and technology education. As students examine and explore teaching career technical education, they will focus on methods to apply their learning in the multilingual, multicultural, diverse secondary classroom. They will design and present selected lessons that are aligned with the California Career Technical Education Content Standards and Framework and the Common Core State Standards for English Language Arts, Literacy in History/Social Studies, Science and Technical Subjects. Additionally, these lessons will reflect mastery of career technical content pedagogy. Also, students will learn about the use of multiple measures to assess student progress toward reaching state-adopted career technical education standards. Protocols for using these assessments to inform instruction will be presented. Strategies for communicating this assessment information to caregivers in order to improve student performance will also be studied. Online professional journals and organization information will be critiqued and utilized. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 533-H Effective Music and Visual Arts Instruction for Single Subject Candidates
Prerequisites: EDUU 510 and EDUU 512.

No prerequisites are needed if candidates are using this course to obtain a Single Subject Authorization to be added to a Multiple Subject credential. This course provides candidates an opportunity to study teaching and learning in the music and the visual arts content areas. Candidates will focus on best practice in the multilingual, multi-ethnic, multicultural secondary visual and performing arts classroom. They will design selected lessons that are aligned with the California K-12 Visual and Performing Arts Standards and Framework and reflect mastery of music and visual arts pedagogy. Candidates will examine strategies for differentiating instruction based on the needs and strengths of the range of learners in the classroom, including English learners and students with special needs or instructional challenges. Students will create multiple measures of assessment appropriate for music and visual arts to evaluate student progress toward reaching state-adopted standards. Online professional journals, organizations, and peer-reviewed research on visual and performing arts education will be critiqued and utilized. A minimum of 5 hours of fieldwork is required for this course. 3 credits.
EDSU 534 Preparing 21st Century Learners: A Collaborative and Integrated Approach  
Prerequisites: EDUU 510 and 512.

This course focuses on innovative practices in secondary schools that enhance student engagement and promote the application of learning to real world contexts. Brain-based teaching practices appropriate for adolescent learners are examined. Candidates explore 21st Century Skills, compare them to the Common Core State Standards, and develop strategies for incorporating these skills into instruction. Blended and online pedagogical methods are investigated and applied to teaching and assessment of student learning. In addition, various approaches to structuring secondary schools that prepare students for college and careers are explored. As part of the course, candidates collaborate with their peers to design and present a project-based unit of study that integrates multiple content areas and is connected to a career-based theme. A minimum of 5 hours of fieldwork is required for this course. 3 credits.

EDSU 590 Supported Teaching: Secondary School  
Prerequisite: Candidates must be in the appropriate single subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 546 or 547 and/or EDUU 548, or EDUU 558 or EDUU 559.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-A Supported Teaching I: Secondary School  
Prerequisite: Candidates must be in the appropriate single subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 546 and/or EDUU 547.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-B Supported Teaching I: Secondary School  
Prerequisite: Candidates must be in the appropriate single subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 547 and/or EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-C Supported Teaching I: Secondary School  
Prerequisite: Candidates must be in the appropriate single subject credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-D Supported Teaching II: Secondary School  
Co-requisite: EDUU 558.

This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-E Supported Teaching II: Secondary School  
Co-requisite: EDUU 559.

This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 590-F Supported Teaching II: Secondary School  
Co-requisite: EDUU 559.

This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDSU 591 Supported Teaching II: Secondary School  
Prerequisite: EDSU 590 A, B, C: Co-requisite: EDUU 548 and/or EDUU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDSU 591-A Supported Teaching II: Secondary School  
Prerequisite: EDSU 590-A, EDSU-590-B, and/or EDSU 590-C.

Co-requisite: EDUU 548 and/or EDUU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.
**EDSU 591-B Supported Teaching II: Secondary School**

**Prerequisite:** EDSU 590-D, EDSU-590-E, and/or EDSU 590-F.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their secondary classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

**EDSU 592 Directed Teaching I: Secondary School**

**Prerequisites:** Candidates must be in the appropriate single subject credential or MAT program and meet advancement requirements as stated in the catalog (see Student Teaching section).

**Co-requisite:** EDUU 544.

In Directed Teaching I, candidates are placed with a master teacher for one full term (full school days) in a secondary classroom. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.

**EDSU 593 Directed Teaching II: Secondary School**

**Prerequisites:** EDSU 592, EDUU 544.

**Co-requisite:** EDUU 545.

In Directed Teaching II candidates are placed with a master teacher for one full term (full school days) in a different grade level than in the first Directed Teaching experience. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.
SOCIAL SCIENCE (SSCU)

SSCU 300 Integrated Social Sciences Introduction: Policy and Action
As the foundational course for the Integrated Social Sciences major, SSCU 300 introduces students to a variety of concepts including transliteracy, the ability to communicate in a variety of cultural and professional settings. Students will learn the value of interdisciplinary approaches, importance of transliteracy including data literacy, spatial literacy, environmental literacy, technological literacy, and cultural literacy. Also, students will study the overarching connection between research, solid data analysis and policy creation. Online only. 3 credits.

SSCU 303 Social Scientific Perspectives on Media and Culture
This course presents a social scientific view of communications, culture and media. Students will explore how people access, consume, and actively use media based upon their culture and society. They will also examine how trends in media impact sociocultural communications and the resulting societal effects, such as social change. Online only. 3 credits.

SSCU 317 Quantitative Methods and Social Statistics
This course provides students with an introduction to quantitative research methods and statistics in applied Social Science research settings. Students will design a survey, collect primary and secondary data, and interpret and evaluate quantitative and spatial data using critical thinking. Students will then apply the use of data and statistics for real-world decision-making and policy. 3 credits.

SSCU 329 Experimental Topics in Social Science
An examination of selected topics in Social Science relevant to evolving areas in the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided that the course content is different each time. 3 credits.

SSCU 380 Data Analytics
In this course, students will examine and analyze a variety of data that runs the gamut from online purchases to the amount of time spent engaging in social media to favorite flavors of chocolate in different cultures. They will focus on the power, interpretation, and influence of data. Topics include privacy concerns, access to data, regulation, data mining, and the relationship between data, technology, and society. Students will complete a project in which they communicate the meaning of data effectively. 3 credits.

SSCU 383 Social Science Communications: Reporting and Writing
This course addresses how to write, report, and communicate across various social science careers using transliteracy approaches for policy creation and communication. Transliteracy is the ability to understand and communicate across all communications platforms such as reading, writing, mass media, speech, and social media. Students will learn how to communicate professionally across cultures, in both oral and written format, using qualitative, quantitative, and geospatial references. Students will demonstrate effective organizational policy and writing skills across a variety of social science fields. 3 credits.

SSCU 477 Geospatial Approaches to Society
This course focuses on how to think about the role of space and place for understanding society and the surrounding environment. Specifically, using multiple research methods, students will conceptualize and employ geospatial technology to analyze societal and environmental issues and provide creative solutions. 3 credits.

SSCU 494 Social Science Capstone
Prerequisites: SSCU 301 and senior standing.
This three-credit course provides an opportunity for students to demonstrate that they have achieved the goals for learning for their respective major degree programs. Students reflect upon and apply the skills and knowledge from their previous coursework, and learn new research and writing skills. The course culminates in a formal research proposal on which students work incrementally throughout the term, with the choice of topic and research method made in conjunction with the instructor. 3 credits.

SSCU 499 Independent Study
Prerequisites: Instructor’s approval and approval of petition.
Directed reading and/or research designed to meet specific needs of superior upper division students. 3 credits.
SOCIAL WORK (SOWK)

SOWK 300 Social Work Foundations
This course introduces perspective social work students to basic foundational concepts and methods of the social work profession. Students will examine the historical foundations and current context of social work. The course will analyze the different factors and perspectives such as social justice, poverty and populations that are at risk. Areas of professional social work services will be evaluated such as family and children’s services, mental health, health care, aging and the criminal justice system. Future social work challenges and trends will be assessed. 3 credits.

SOWK 302 Interview and Assessment Skills in Social Work
Prerequisite or Corequisite SOWK 300.
This course introduces students to basic interview and assessment skills utilized in social work. Students will practice interpersonal communication skills, assessment strategies, and explore the dynamics of the helping relationship. Students will examine social and cultural influences, theories, and diversity issues related to the interview and assessment process. Students will evaluate communication and assessment skills used in the interview and assessment process. 3 credits.

SOWK 303 Diversity and Justice in a Global Society
Prerequisite or Corequisite SOWK 300.
This course will focus on diverse populations in American society and on an international level. We will examine ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice. 3 credits.

SOWK 304 Social Welfare
Prerequisite or Corequisite SOWK 300.
This course examines social welfare issues from an historical perspective. Students are introduced to the origins of the welfare state, the development of the social welfare system, and the evolution of the social work profession. Social welfare issues, such as poverty, discrimination, employment, and criminal justice, are explored in terms of their social, ideological, political, and economic context. Particular emphasis is given to oppressed and vulnerable populations and the role of social workers as advocates in addressing social welfare issues. 3 credits.

SOWK 306 Human Behavior and the Social Environment I: Infancy, Childhood, and Adolescence
Prerequisite or Corequisite SOWK 300.
This course is the first of a two-course sequence on the interaction of human behavior and the social environment across the lifespan. Students will examine interdisciplinary theories of human behavior and evaluate the “goodness-of-fit” between individuals and their environment during early life stages. The role of social workers as advocates for infants, children, and adolescents will also be explored. 3 credits.

SOWK 307 Human Behavior and the Social Environment II: Adulthood & Aging
Prerequisite or Corequisite SOWK 300.
Prerequisite: SOWK 306.
This course is the second of a two-course sequence on the interaction of human behavior and the social environment across the lifespan. Students will examine interdisciplinary theories of human behavior and evaluate the “goodness-of-fit” between individuals and their environment during later life stages. The role of social workers as advocates for adults and the elderly will also be explored. 3 credits.

SOWK 309 Introduction to Social Work Research
This course introduces students to basic research concepts and methods with particular emphasis on the application of research to social work issues. Students examine the process of conducting research and compare different research methodologies to understand social work issues. Social work values and ethics are explored as they apply to conducting research. Diversity and unique populations are considered in the decision of research topics, subjects, and methodologies. Research studies and findings are evaluated as they apply to practice situations. The issue of research-informed practice and practice-informed research is explored. 3 credits.

SOWK 391 Youth At Risk
This course will introduce students to various models, theories, and intervention of children and adolescents considered "at-risk". Topics covered include, but may not be limited to the following: a) socio-cultural factors in defining and influencing behavior; b) psychological models both biological and ecological that interact to shape behavior; c) types of at-risk categories including school dropouts, substance use and addiction, teenage pregnancy, antisocial behavior, delinquency, gangs, school shooters, and youth suicide; and d) specific types of clinical abnormal behavior including anxiety, mood, and impulse control disorders; e) theoretical and practical considerations related to community and school interventions. 3 credits.

SOWK 393 Child Abuse
An introduction to and overview of the phenomena of child abuse as it relates to the helping professional. This class will examine the definition and cause of child abuse from sociological, cultural, and psychological perspectives. The legal and child welfare systems will be studied in addition to treatment and prevention aspects of the child abuse issue. 3 credits.

SOWK 405 Military Social Work
The purpose of this course is to understand the military culture within which military families function, the stressors such as deployment that they navigate, and the diversity of military family structures and how a range of diversity filters can impact the military family and military culture. The different military contexts (i.e., active duty, guard/reserve, veteran) are explored. Ethical issues for working in this environment are considered. Theory-based and research-informed strategies to intervene with military families are reviewed. Military family policies are examined and critiqued. Family life cycle interactions with the military demands are discussed. Students completing this course will have a more in-depth understanding of and ability to work with the military and the military families that are a vital part of society. Online only. 3 credits.
SOWK 408 International Social Work
This course introduces the major concepts, theories, and issues of international social work practice. The history, values, ethics, and practice of social work are discussed in a global context that examines the role of the social work profession on an international level. Students will explore issues of human rights, sustainability, community building, and development as they apply a social work perspective to international social work issues at the individual, group, and societal level while considering the role of social workers as advocates in a global society. Online only. 3 credits.

SOWK 418 Social Policy
Prerequisite: SOWK 304.
This course examines the nature and impact of social welfare policies and the role of social workers in influencing social policy. Students will analyze the developmental stages of social policy: from identifying need to implementation, and consider the social, political, and economic context of policy development. The role of ideology in social policy and the impact of policies on individuals, groups, and society will be addressed, with particular attention given to oppressed and vulnerable populations. Students will analyze social policies in the areas of homelessness, poverty, mental health, discrimination, and others. 3 credits.

SOWK 421 Social Work Practice: Individuals and Families
Prerequisite: SOWK 302.
This course introduces students to a conceptual framework and a core set of interpersonal helping skills for generalist practice with individuals, families, groups, and communities. This course focuses on the common knowledge, values, and skills which underlie social work practice with diverse client systems in diverse practice settings and community contexts. 3 credits.

SOWK 422 Social Work Practice: Groups
Prerequisite: SOWK 302.
This course complements the knowledge, values, and skill base found in Social Work Practice: Individual & Families. It is focused on micro assessment and intervention skills, as well as covering the steps of the problem solving process in working with groups. The class focuses on the dynamics of task and process groups. Students learn how to apply a systematic approach to the development, implementation, termination, and evaluation of groups. 3 credits.

SOWK 423 Social Work Practice: Organizations and Communities
Prerequisite: SOWK 302.
This course presents the basics of professional generalist social work practice as it has developed in response to the needs of multiple member systems and communities. Included are methods of practice used to mobilize people to collective action to solve their own problems, form ongoing organizations that enhance their power to meet their own needs, and develop resources where none exist. Emphasis is on work with diverse human populations and the importance of evaluation in practice. The systems perspective is used as an integrating theme throughout. 3 credits.

SOWK 445 Drug and Alcohol Treatment in Social Work
This course introduces the major theories, issues, and treatment approaches related to drug and alcohol abuse. Students examine perspectives on the causes, effects, context, and unique treatment needs of different populations. An historical and multicultural perspective is introduced to examine the origins and social context of substance use and abuse. The role of social work and social workers in addressing drug and alcohol issues is explored as well as societal attitudes and policy approaches to this issue. A social work perspective is applied to understanding and responding to the issues of drug and alcohol use, abuse, and consequences for individuals, families, and societies. Online only. 3 credits.

SOWK 482 Social Work with Older Adults
This course introduces students to age-specific issues involved in assessing and providing services to older adults in social work. Students review physical, psycho-social, and cultural characteristics of aging men and women. They also evaluate assessment and service-delivery strategies and models designed for diverse client populations. Students will study aging from a person-in-environment approach that examines the characteristics of aging as well as attitudes towards aging, societal responses to meeting the needs of older adults, and the role of social workers as advocates for older adults. 3 credits.

SOWK 493 Social Work Practicum Seminar I
Prerequisite: Successful completion of any nine courses (core requirements and/or electives) in the BA in Social Work major, including SOWK 300, 302, 303, 304, 306, 307, and 421; completion of readiness review with the Social Work Field Director, and permission of Field Director.
Students may take SOWK 493 only during the following sessions: Fall-I, Fall-II, Summer-I, Summer-II. This is a required course in the BA in Social Work program and serves as a capstone experience in the program. The course comprises a university-based seminar component and an agency-based field component, which complement each other. Students must participate in a seminar course to be in field practicum. The field practicum and the integrating seminar enable students to integrate knowledge acquired across the social work curriculum with practice in an agency. Through analysis in the seminar of their experiences in the field, students' understanding of previously learned material is deepened and further knowledge acquired. Required readings provide additional content on specific practice topics addressed in the seminar. Practicum courses are to be taken consecutively. Graded pass/no-pass. 3 credits.

SOWK 494 Social Work Practicum Seminar II
Prerequisite: Successful completion of any nine courses (core requirements and/or electives) in the BA in Social Work major, including SOWK 300, 302, 303, 304, 306, 307, and 421; successful completion of SOWK 493.
This is a required course in the BA in Social Work program and serves as a capstone experience in the program. The course comprises a university-based seminar component and an agency-based field component, which complement each other. Students must participate in a seminar course to be in field practicum. The field practicum and the integrating seminar enable students to integrate knowledge acquired across the social work curriculum with practice in an agency. Through analysis in the seminar of their experiences in the field, students' understanding of previously learned material is deepened and further knowledge acquired. Required readings provide additional content on specific practice topics addressed in the seminar. Practicum courses are to be taken consecutively. Graded pass/no-pass. 3 credits.
SOWK 495 Social Work Practicum Seminar III  
**Prerequisite:** Successful completion of any nine courses (core requirements and/or electives) in the BA in Social Work major, including SOWK 300, 302, 303, 304, 306, 307, and 421; successful completion of SOWK 494.

This is a required course in the BA in Social Work program, and serves as a capstone experience in the program. The course comprises a university-based seminar component and an agency-based field component, which complement each other. Students must participate in a seminar course to be in field practicum. The field practicum and the integrating seminar enable students to integrate knowledge acquired across the social work curriculum with practice in an agency. Through analysis in the seminar of their experiences in the field, students' understanding of previously learned material is deepened and further knowledge acquired. Required readings provide additional content on specific practice topics addressed in the seminar. Practicum courses are to be taken consecutively. Graded pass/no-pass. 3 credits.

SOWK 497 Social Work Undergraduate Practicum Continuation  
**Prerequisites:** Enrollment in SOWK 493, SOWK 494, and SOWK 495.

This course allows students to complete the required 400 practicum hours, when the hours have not been completed by the end of the session in which a student is enrolled in SOWK 495. Please see Tuition and Fees section of the catalog for the corresponding Social Work Undergraduate Practicum Continuation fee. This course is graded on a pass/no-pass basis. This course may be repeated. 0 credits.

SOWK 499 Independent Study  
**Prerequisites:** Instructor’s approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper division students. 1-3 credits.
SOCIOLOGY (SOCU)

SOCU 101 Introduction to Sociology
Students examine the basic concepts, principles, and findings of sociology: addressing the nature of human social relations from simple, face-to-face relationships, through formal organizations, to whole societies. Students also analyze how social patterns are created, how they become organized and established, and how they change. 3 credits.

SOCU 301 Social Research Design
Learn how sociologists carry out investigations of social life. Students will learn how to design and conduct surveys, experiments, and do participant observation. Equal attention will be given to the needs of students as consumers of social research, trying to make sense out of daily reports on sociological findings in newspapers, television, and magazines. 3 credits.

SOCU 329 Experimental Topics in Sociology
An examination of selected topics in sociology relevant to evolving areas of importance to the field. Syllabi must be approved by the Dean and announced to the Curriculum and Academic Committee prior to being offered. May be repeated for credit provided the course content is different. 3 credits.

SOCU 350 Human Diversity
This course examines the significance of race, class, gender, and sexuality in personal identity formation as well as in the formation of U.S. social institutions, systems, and structures. Students will consider how race, class, gender, and sexuality intersect in their own lives and which social institutions can best address the systems and structures of inequality they and others have encountered as a result. Students will also discuss the role of social institutions in social change. 3 credits.

SOCU 399 Sociology of the Family
This course engages a critical, in-depth analysis of the ways in which families are seen by society and the ways in which they see themselves. Topics to be covered include family politics, division of labor, child care, economics, health, leisure, and the politics of the family. 3 credits.

SOCU 401 Sociology of Social Conflict, Analysis, and Resolution
Social conflict is evident in the news each day. For many of us it is a part of our personal experiences and daily lives. This course focuses on the analysis of conflict from an interdisciplinary perspective. What is conflict? How do we develop and change our identities, attitudes, emotions, and behavior regarding conflict? How do these processes vary across social groups? To answer these questions, this class will present a variety of ways that third parties and organizations intervene in an attempt to de-escalate conflict. Theories of conflict, methods of conflict management, and an examination of case studies and historical interventions will provide the student with tools for analysis of conflicts in his or her personal life and on the international front. Through simulations, role-playing and skills-training, each student will experience the basic concepts, principles, and methods of conflict resolution. Towards the end of this upper division course, the student should be able to map out and analyze conflict situations, using theoretical concepts and frameworks. 3 credits.

SOCU 415 Sociology of Organizations and Institutions
How and why are organizations created? What are their purposes? How does the need for organizational survival come to supersede whatever human purposes lay at its origins? Course will look at organizations through numerous metaphors: as machines, as organisms, as antipoetic systems, etc. 3 credits.

SOCU 416 Sociology of Health Care
This course presents health care as a dynamic social and political institution. Students will learn to analyze the U.S. health care system from a sociological perspective, recognizing the hierarchies and power differences involved in all aspects of the system. These aspects include: societal definitions of health, illness, and health care; the settings in which Americans receive health care, and how they compare to health-care settings in other nations; the various technologies used to provide health care; the ethics of health care; and health care providers themselves. 3 credits.

SOCU 420 Sociology of Deviant Behavior
This course examines why societies label behavior deviant and explores the distinction between behaviors considered "socially unacceptable" and those considered "criminal." Theories of deviance, as well as the amount, distribution and patterns of deviance are considered. Discussions may also include political influence, social change, and selected types of deviant activity. 3 credits.

SOCU 436 Globalization and Social Change
This course presents the history and meaning of globalization for various social institutions: the economy, politics, media, religion, and social justice. Students will pay special attention to social and political inequalities and change. The course also addresses the impact of globalization on local, everyday events as well as the impact of local institutions on global events. Students will hypothesize future trends in globalization and also propose solutions to social problems resulting from those trends. 3 credits.

SOCU 448 Social Inequality/Stratification
Inequality among members of the American and international community. Theoretical emphasis on class, racial/ethnic, occupational, age, and sexual inequality. Students examine the social/structural bases of inequality and theories to explain the creation of systems and ideologies of subordination. 3 credits.

SOCU 484 Social Theory
How is society possible? How does society change? How are social, political, and economic power distributed? This course addresses these questions through the critical study of theories written by classical and contemporary social theorists, including Karl Marx, Emile Durkheim, and Max Weber, as well as more recent structural-functionalist theorists, post-structural theorists, black theorists, feminist theorists and intersectional feminist theorists. Students will apply social theories to current events and practical workplace issues. 3 credits.

SOCU 499 Independent Study
Prerequisites: Instructor's approval and approval of petition.

Directed reading and/or research designed to meet specific needs of superior upper-division students. 1-3 credits.
SPANISH (SPNU)

SPNU 100 Survival Spanish: Culture and Language for Healthcare Professionals
This course is designed to provide basic Spanish communication skills and an understanding of Latino culture for Health Professionals. Students will explore the history and culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking clients in the health care environment about health-related issues. No previous Spanish language experience is required. Online only. 3 credits.

SPNU 101 Elementary Spanish I
Students develop basic communicative competence in the four skills of listening, speaking, reading, and writing needed in social situations. Appreciation of the uniqueness of Hispanic and Latino culture. (Not offered in 2017-2018) 3 credits.

SPNU 120 Spanish for Educators
This course is designed to provide early childhood educators with basic knowledge about the Latino culture, Spanish vocabulary and phrases necessary to communicate with parents and students on a very basic level. Students will explore the culture of the monolingual Latino population. They will also learn and practice necessary language skills to communicate with Spanish speaking students and parents. No previous Spanish language experience is required. 3 credits.
SPECIAL EDUCATION STUDENT TEACHING (EDTU)

EDTU 560 Supported Teaching I: Early Childhood Special Education
Prerequisite: Candidates must be in the appropriate early childhood special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 546 or 547, and/or EDUU 548, or EDUU 558 or EDUU 559.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-A Supported Teaching I: Early Childhood Special Education
Prerequisite: Candidates must be in the appropriate early childhood special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 546 and/or EDUU 547.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-B Supported Teaching I: Early Childhood Special Education
Prerequisite: Candidates must be in the appropriate early childhood special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 547 and/or EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-C Supported Teaching I: Early Childhood Special Education
Prerequisite: Candidates must be in the appropriate early childhood special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-D Supported Teaching I: Early Childhood Special Education
Co-requisite: EDUU 558.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-E Supported Teaching I: Early Childhood Special Education
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 560-F Supported Teaching I: Early Childhood Special Education
Co-requisite: EDUU 559.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 561 Supported Teaching II: Early Childhood Special Education
Prerequisite: EDTU 560 A, B, C, D, E, F.
Co-requisite: EDUU 548 and/or EDUU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.
EDTU 561-A Supported Teaching II: Early Childhood Special Education
Prerequisite: EDTU 560-A, EDTU-560-B, and/or EDTU 590-C.
Co-requisite: EDUU 546 and/or EDUU 547.
This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 561-B Supported Teaching II: Early Childhood Special Education
Prerequisite: EDTU 560-D, EDTU-560-E, and/or EDTU 590-E.
This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their early childhood special education settings with infants and toddlers or preschool age children as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-A Support Teaching I: Mild/Moderate
Prerequisite: Candidates must be in the appropriate mild/moderate special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 546 and/or EDUU 547.
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-B Support Teaching I: Mild/Moderate
Prerequisite: Candidates must be in the appropriate mild/moderate special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 547 and/or EDUU 548.
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-C Support Teaching I: Mild/Moderate
Prerequisite: Candidates must be in the appropriate mild/moderate special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 548.
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-D Support Teaching I: Mild/Moderate
Co-requisite: EDUU 558.
This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-E Support Teaching I: Mild/Moderate
This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 570-F Support Teaching I: Mild/Moderate
Co-requisite: EDUU 559.
This course provides opportunities for interns to apply advanced knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 571-A Supported Teaching I: Moderate/Severe
Prerequisite: Candidates must be in the appropriate moderate/severe special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).
Co-requisite: EDUU 546 and/or EDUU 547.
This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.
EDTU 571-B Supported Teaching I: Moderate/Severe
Prerequisite: Candidates must be in the appropriate moderate/severe special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDUU 547 and/or EDTU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 571-C Supported Teaching I: Moderate/Severe
Prerequisite: Candidates must be in the appropriate moderate/severe special education credential or MAT program and meet internship admission requirements as stated in the catalog (see Internship Credential Programs section).

Co-requisite: EDU 548.

This course provides opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 571-D Supported Teaching I: Moderate/Severe
Co-requisite: EDUU 558.

This course provides advanced opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 571-E Supported Teaching I: Moderate/Severe
This course provides advanced opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 571-F Supported Teaching I: Moderate/Severe
Co-requisite: EDUU 559.

This course provides advanced opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 572 Directed Teaching I: Mild/Moderate
Prerequisites: Candidates must be in the appropriate mild/moderate special education credential or MAT program and meet advancement requirements as stated in the catalog (see Student Teaching section).

Co-requisite: EDUU 544.

In Directed Teaching I candidates are placed with a master teacher in a mild/moderate classroom setting for one full term (full school days). Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectations (TPEs). Graded on a Pass/No Pass basis. 3 credits.

EDTU 573 Directed Teaching I: Moderate/Severe
Prerequisite: Candidates must be in the appropriate moderate/severe special education credential or MAT program and meet advancement requirements as stated in the catalog (see Student Teaching section).

Co-requisite: EDUU 544.

In Directed Teaching I candidates are placed with a master teacher in a moderate/severe classroom setting for one full term (full school days). Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectations (TPEs). Graded on a Pass/No Pass basis. 3 credits.

EDTU 590 Supported Teaching II: Special Education, Mild/Moderate
Prerequisite: EDTU 570 A, B, C, D, E, F.

Co-requisite: EDUU 548 and/or EDUU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDTU 590-A Supported Teaching II, Mild Moderate
Prerequisite: EDTU 570-A, EDTU-570-B, and/or EDTU 570-C.

Co-requisite: EDUU 548 and/or EDUU 549.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDTU 590-B Supported Teaching II, Mild Moderate
Co-requisite: EDUU 558.

This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their mild/moderate classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.
EDTU 591 Supported Teaching II: Moderate/Severe
Prerequisite: EDTU 571 A, B, C, D, E, F.
Co-requisite: EDUU 548 and/or EDUU 549.
This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Course may be repeated for credit. Graded on a Pass/No Pass basis. 2 credits.

EDTU 591-A Supported Teaching II, Moderate/Severe
Prerequisite: EDTU 571-A, EDTU-571-B, and/or EDTU 571-C.
Co-requisite: EDUU 548 and/or EDUU 549.
This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 591-B Supported Teaching II, Moderate/Severe
This course provides additional opportunities for interns to apply knowledge and skills acquired during coursework to their moderate/severe classrooms as teachers of record and continue to analyze their performance based on the Teaching Performance Expectations (TPEs). Candidates are supported by a district mentor teacher and university supervisor. Graded on a Pass/No Pass basis. 2 credits.

EDTU 592 Directed Teaching II: Mild/Moderate
Prerequisites: EDTU 572, EDUU 544.
Co-requisite: EDUU 545.
In Directed Teaching II candidates are placed with a master teacher for one full term (full school days) in a different mild/moderate classroom setting than in the first Directed Teaching experience. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3-6 credits.

EDTU 593 Directed Teaching II: Moderate/Severe
Prerequisites: EDTU 573, EDUU 544.
Co-requisite: EDUU 545.
In Directed Teaching II candidates are placed with a master teacher for one full term (full school days) in a different moderate/severe classroom setting than in the first Directed Teaching experience. Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3-6 credits.

EDTU 594 Directed Teaching; Early Childhood Special Education (Infants and Toddlers)
Prerequisites: Candidates must be in the appropriate early childhood special education credential or MAT program and meet advancement requirements as stated in the catalog (see Student Teaching section).
Co-requisite: EDUU 544.
In Directed Teaching I candidates are placed with a master teacher or service provider in an early childhood special education setting with infants and toddlers identified with special needs for one full term (full school days). Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.

EDTU 595 Directed Teaching: Early Childhood Special Education (Preschool)
Prerequisite: Candidates must be in the appropriate early childhood special education credential or MAT program and meet advancement requirements as stated in the catalog (see Student Teaching section).
Co-requisite: EDUU 545.
In Directed Teaching I candidates are placed with a master teacher or service provider in an early childhood special education setting with preschool children identified with special needs for one full term (full school days). Candidates are regularly observed and evaluated by a university supervisor and must successfully demonstrate competency in each of the Teaching Performance Expectation (TPEs). Graded on a Pass/No Pass basis. 3 credits.
STATE AUTHORIZATION

The United States Department of Education requires that institutions comply with various authorization requirements in each state in which distance education instruction is delivered to its residents. In addition, and pursuant to 34 CFR 668.43(b), institutions must provide current and prospective students with contact information for filing complaints with the appropriate state agency in their home state. Some states also require Brandman University to include specific language in the catalog and/or website.

To satisfy these requirements, contact and other information for each state’s Higher Education Department (or equivalent) are listed below by state. Regarding complaints, we encourage all students to review and utilize our University Complaint Policy which can be found in the General Information section.

Further, Brandman University regularly monitors developments in each state’s laws and works with Higher Education authorities to maintain compliance. However, due to the complex and ever changing landscape of State Authorization, our approach and status in each state is subject to change. We will continue to monitor changes in each state’s laws and our out-of-state activities. If authorization becomes necessary, we will take the appropriate next steps.

If you have concerns or questions about State Authorization, distance education requirements, or the availability of certain programs in your state, please contact the office of the Director of State Authorization and Legal Affairs.

Brandman University is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes Brandman University to offer specific degree programs. The Council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430 or by email at degreeauthorization@wsac.wa.gov
